Course Outline and Requirements

A. Course Description
Provides advanced study of foreign/second language pedagogy and current practices to give pre- and in-service teachers the tools needed to facilitate contextualized and content-based language learning. These tools include standards-based teaching, learning, and assessment; current topics in today’s schools; addressing the needs of diverse learners; integration of technology for enhanced language teaching and learning; and textbook analysis and evaluation. Blending theoretical knowledge and practical application in an interactive format, this course provides advanced study that incorporates field experience, self-monitoring, and critical reflection to assist the course participants in integrating and implementing content into their own teaching in order to improve instruction and consider its impact on language learners.

B. Course Learning Outcomes
As a result of this course, students will be able to:
1. Demonstrate proficiently in the target language the use of the 3 communicative modes in the teaching setting to facilitate instruction that is aligned with Standards (ACTFL NCATE Standards 1a, 4a, 4b)
2. Present required sections of the Foreign Language Professional Development
Portfolio which includes identified program performance-based projects and critical reflections (ACTFL NCATE Standard 6a)

3. Engage critically in the analysis of field-experience while examining student development and learner differences (ACTFL NCATE Standards 3a, 3b)

4. Plan and implement content-based or thematic standards-based classroom instruction that a) focuses on language learning, b) addresses the needs of diverse learners, and/or integrates technology, and c) and includes a critical reflection of the lesson’s impact on student learning (ACTFL NCATE Standards 2c, 3b, 4a, 4b, 4c, 5b, 5c)

5. Critically evaluate and analyze foreign language textbooks, relating them to Standards and culture (ACTFL NCATE Standards 4a, 6a)

6. Articulate his/her philosophy of education for world language teaching and learning that includes a plan for ongoing professional development (ACTFL NCATE Standards 6a, 6b)

C. Textbooks and Resources

Required Texts

Recommended
CD Rom: 50 Years of Northeast Conference Report – Dr. Haley will provide.

5. National Capital Language Resource Center (NCLRC) nclrc@nicom.com
6. Fairfax County Public Schools (Foreign Languages) http://www.fcps.12us/DIS/OHSICS/forlang

D. Course Delivery

Highly interactive by design, EDCI 684 is predicated upon expanding the practitioner’s professional development through reflective practice, professional development portfolio creation, learning by doing and speaking in the target language, and discovery learning. Course delivery is accomplished in a combination of ways in order to meet the needs of all learners and learning styles through a variety of in-class, on-line, cooperative, and individualized instructional strategies. Instruction includes:
• **Presentations** (i.e., student and professor demonstrations and *lectureettes* assisted by Power Point and other visuals);
• **Discussions** (i.e., active involvement of students in learning by asking questions that provoke critical thinking and verbal interaction);
• **Cooperative and Collaborative learning** (i.e., small group guided learning interactions emphasizing learning from and with others);
• **Student presentations**;
• **Videos and other audio-based learning resources**;
• **School site-based work with language learners**;

EDCI 684 employs a dialogic approach to learning, thus requiring the active participation of *all* students during each class meeting. Because the course is structured around discussion, hands-on learning activities, teaching modules, and cooperative learning, it is *critical* that students be on time and attend all classes, actively participate in class, keep up with the readings, and engage in active learning at all levels. Students should be prepared to discuss the content readings in class and/or on the class Blackboard site in relation to teaching culturally and linguistically diverse foreign language students in grades K-12.

Assessment is based on performance-based projects, and an individual’s target language specialization area is taken into consideration for all submissions. Individualized options will be taken into consideration for some components of the mid term and final projects, if required. Students are encouraged to select a project that has particular relevance to their own respective teaching circumstance (current or future) and language of instruction. Evaluation rubrics accompany assignments to guide student learning.

**E. College of Education and Human Development Statement of Expectations**

**George Mason University Statement of Professional Behavior and Dispositions, Honor Code, and Policy on Disabilities:** The Graduate School of Education (GSE) in the College of Education and Human Development expects that all students abide by the following:

Students are expected to exhibit professional behavior and dispositions. Please see [http://gse.gmu.edu/facultystaffres/profdisp.htm](http://gse.gmu.edu/facultystaffres/profdisp.htm) for a listing of these dispositions. Students must follow the guidelines of the University Honor Code. Please see [http://www.gmu.edu/catalog/apolicies/#TOC_H12](http://www.gmu.edu/catalog/apolicies/#TOC_H12) for the full honor code. Students must agree to abide by the university policy for Responsible Use of Computing. Go to [http://mail.gmu.edu](http://mail.gmu.edu) and click on Responsible Use of Computing at the bottom of the screen. Students with disabilities who seek accommodations in a course must be registered with the GMU Disability Resource Center (DRC) and inform the instructor, in writing, at the beginning of the semester. Please see [www.gmu.edu/student/drc](http://www.gmu.edu/student/drc) or call 703-993-2474 to access the DRC.
F. Relationship to Program Goals and Professional Organizations

The EDCI 684 relationship to the GMU CEHD Core Values: EDCI 684 reflects and embraces the mission and core beliefs of the College of Education and Human Development at George Mason University: Collaboration, Research-based practice, Ethical leadership, Social Justice, and Innovation. Through my commitment to prepare teachers who are knowledgeable, ethical professionals who know and can teach their content, work effectively with diverse learners, understand and implement research-based practice, and collaborate with colleagues, this course activates and embraces these Core Values of the CEHD.

The EDCI 684 also follows the guidelines and recommendations made by the following Professional Organizations:

- The American Council on the Teaching of Foreign Languages (ACTFL)
- The National Association for Bilingual Education (NABE)
- The National Association for Multicultural Education (NAME)
- Interstate New Teacher Assessment and Support Consortium (INTASC)
- National Board for Professional Teaching Standards (NBPTS)
- National Council for Accreditation of Teacher Education (NCATE)

ACTFL, NABE, and NAME, are among the largest professional organizations that specialize in research on working with culturally and linguistically diverse populations and foreign/second language learning and acquisition. They embrace and celebrate cultural and ethnic diversity as a national strength that enriches society and rejects the view that diversity threatens the fabric of society. ACTFL has the more specialized mission of developing the expertise of their members and other educators involved in teaching world languages. This mission encourages the fostering of an effective learning environment, accomplishing the goal of effective communication in diverse settings, and respecting an individual's rights and needs.

G. Academic Standards

The following standards aim to provide consistency in teacher education programs across the United States in terms of what foreign/world language teachers need to know and be able to do— that is, the knowledge, skills, and dispositions that are essential for the effective teaching of culturally and linguistically diverse students.

The EDCI 684 relationship to National and State Standards include:

- The ACTFL Standards for Pre-K-12 Students
- The ACTFL NCATE Standards for Teacher Education
- Interstate New Teacher Assessment and Support Consortium (INTASC) Standards
- National Board for Professional Teaching Standards (NBPTS)
- Virginia Standards of Learning (SOLs)

Licensure courses are aligned specifically with the national standards of the American Council on the Teaching of Foreign Languages (ACTFL). This course also follows the INTASC guidelines (Interstate New Teacher Assessment and Support
Consortium) that identify those principles that should be present for new teachers in all teaching environments, regardless of the subject or grade level.

The ACTFL NCATE Standards for the Preparation of K-12 Foreign Language Teachers articulate what foreign language teachers need to know and be able to do in order to be successful teachers of foreign languages. They were approved in 2002. We also align with the Interstate New Teacher Assessment and Support Consortium (INTASC) Standards for licensure candidates, as well as the Propositions of the National Board for Professional Teaching Standards (NBPTS) for practicing teachers.

These three sets of national professional standards serve as a framework for systematic teacher preparation and professional development programs in our program. Evidence of the degree to which the standards have been met is compiled in a program participant's Professional Development Portfolio (refer to the program’s PDP Guidelines) throughout the licensure component of the program and presented to faculty at the conclusion of the licensure internship. Information about these standards may be found at: http://www.actfl.org

INTASC Standards for World Languages

Standard 1: Language teachers are proficient in the language they teach. They understand language as a system, how students learn a language, and how language and culture are linked. They are knowledgeable about the cultures of the people who speak the language. Using this knowledge, they create learning experiences that help students develop language proficiency and build cultural understanding.

Standard 2: Language teachers understand how students learn and develop and can relate this to their development of language proficiency and cultural understanding. They provide learning experiences that are appropriate to and support learners’ development.

Standard 3: Language teachers understand how learners differ in their knowledge, experiences, abilities, needs, and approaches to language learning, and create instructional opportunities and environments that are appropriate for the learner and that reflect learner diversity.

Standard 4: Language teachers understand and use a variety of instructional strategies to help learners develop language proficiency, build cultural understanding, and foster critical thinking skills.

Standard 5: Language teachers create an interactive, engaging, and supportive learning environment that encourages student self-motivation and promotes their language learning and cultural understanding.

Standard 6: Language teachers use effective verbal and non-verbal communication, and multimedia resources, to foster language development and cultural understanding.

Standard 7: Language teachers plan instruction based on their knowledge of the target language and cultures, learners, standards-based curriculum, and the learning context.

Standard 8: Language teachers understand and use a variety of assessment strategies to monitor student learning, to inform language and culture instruction, and to report student progress.

Standard 9: Language teachers are reflective practitioners who continually evaluate the effects of their choices and actions on others and who actively seek out opportunities to grow professionally.

Standard 10: Language teachers foster relationships with school colleagues, families, and agencies in the larger community to support students’ learning and well-being.
EDCI 684–001 course requirements will be met as follows:

<table>
<thead>
<tr>
<th>Project</th>
<th>Goal</th>
<th>Percent age of Grade</th>
<th>Due Date</th>
</tr>
</thead>
</table>
| **In-class and On-line Participation, group work, and Readings** | Students are expected to actively participate in every class session, both in class and by electronic posting (when assigned), by critically analyzing, asking questions, or making observations about the readings, thereby indicating they have thoroughly prepared for the class. Students are expected to attend all classes, arriving on time, and must inform instructor of the need for an absence from class.  

*ACTFL NCATE Standards: 3a, 4a, 6a* | 20% | **Each class meeting during the semester** |
| **Teaching Simulations With Reflection**   | Candidates will teach a mini lesson to colleagues in the 684 class clearly aligned with the Standards and designed to promote active student learning. It will use the lesson plan template provided as an overall planning tool, and may serve as a dry run of, and/or be a component of, the impact project’s (see below) lesson.  

*ACTFL NCATE Standards: 3a, 3b, & 4a, 4b, 4c* | 15% | **Throughout the semester, as signed up** |
| **Mid-Term Project**                      | **Philosophy:** Based on personal beliefs and professional knowledge about SLA theory and research, language learning, and learners, candidates write a Philosophy of Education statement, or update the one written previously in EDCI 516, that includes knowledge gained from coursework and learning experiences. To be included in the professional section of your Portfolio, this statement should encompass your beliefs about the role of culture in FL, instructional practices, and your plan for ongoing professional development.  

*Portfolio:** Set up of full Professional Development Portfolio (Electronic Format) with all sections clearly marked and Table of Contents created. Completion of a minimum of two full Sections (with reflections), and all program related performance-based evidences for remaining sections inserted, as available. This document is preferred in electronic format, but may be considered in hard copy under certain circumstances with instructor permission.  

*ACTFL NCATE Standards 6a, 6b* | 30% | **Phil. St’ment**  
March 17 & Final Portfolio

### Impact on Student Learning Assessment Project

*(Theory, Research, Professional Collaboration & Practice)*

| The EDCI 684 designated Performance-Based Assessment |
|----------------------------------------------------|--------------------------------------------------|
| Engage in and understand the impact of teaching on student learning in an authentic learning setting |
| **Pre-service teachers**: Spend some time observing your mentor teacher to understand the context. Then, working with the mentor teacher, teach (or co-teach) a mini-lesson to the class or a group of students that includes a pre- and post-activity assessment; write a full description of the learning activity/lesson, the pre- & post-activity assessment, and a reflection on the impact of your instruction on student learning & how the assessment will inform upcoming lessons. |
| **Option for In-service teachers**: in your own classroom, you may conduct the above project, or design a lesson and video-tape yourself teaching it; write a description of the learning activity/lesson, (your pre- & post-activity assessments), and a reflection about the impact of instruction on student learning, what you learned from the video about teaching and learning with your students. Analyze student–teacher interactions. |

*ACTFL NCATE Standards 3a, 3b, 4a, 4b, 4c, 5a, 5b, 5c*

GUIDELINES FOR TEACHING SIMULATIONS
15 Points

Task: Each pre- and in-service teacher will do an in-class 15-minute (maximum) teaching simulation. The simulation is to be done in the target language and will align with the Standards and provide evidence of the student’s understanding of teaching in the WL setting. You should prepare a brief handout that summarizes lesson chosen. There will be a follow-up discussion during which the class will provide written and oral feedback. Creativity, visuals, and teacher-made materials are strongly encouraged.

NOTE: If desired, you may work in 2 person teams, and this simulation may connect to the teacher’s field-based teaching project, thus providing a “dry run” or practice teaching prior to presentation to students in the K-12 setting.

ACTFL/NCATE Standards 1a, 1b, 2c, 3a, 3b, 4a, 4b, 4c, 6b

1. Prepare a lesson plan (to be distributed in class) using the template provided. This will be provided by your professor. A Critical Reflection on the lesson is to be completed after your teaching simulation and submitted to Professor Fox the following week, incorporating the feedback from your colleagues from class.

2. You may work individually, or in language-specific pairs, for your teaching demonstration. You have 15 minutes. Please plan your time carefully. The majority of your time should be spent teaching. You may take 2-3 minutes to provide background information about the theme and the class will take 5 minutes at the end of your demonstration to give you feedback and ask questions.

3. The demonstration/handout may include:
   • Background information about the theme
   • The type of class your particular demonstration is intended for, e.g., level of proficiency, grade level, type of class, etc.
   • Skills you are teaching and basic objectives of the lesson
   • Special teacher-made materials; props and realia are strongly encouraged
   • Possible follow-up activities to the lesson you have presented
   • How you might conduct assessment of the lesson you have presented, if appropriate
   • Others you can think of....

4. BE CREATIVE!

5. Try to spend less time talking about your lesson, and more time teaching. You may decide to introduce your lesson by discussing the theme first or you may wish to immerse us in the experience and explain after the demonstration.

6. We will be your students. You may assign us whatever roles and ages you wish.

7. Prepare a handout for the class AND your lesson plan for the instructor. It can be short. It might be a summary of some points you have made or it might be sharing something from the lesson you have developed that class members might like to use in their own teaching.
**EVALUATION** of your teaching demonstration will be based upon the following criteria:

- Language Proficiency
- Quality of overall lesson plan
- Simulation conducted in the target language
- Effective Use of Time
- Flexibility & Creativity
- Handout

**EDCI 684 – TEACHING SIMULATION**  
Advanced Methods of Teaching Foreign Languages in PK-12 Schools

4 = Outstanding, Exceeds Expectations  
3 = Meets Standards, Very Good  
2 = Approaches Standards, but some elements may be missing  
1 = Poor Preparation or many requirements were not covered

What worked well?

What didn’t work well?

What will you do differently as a result of this plan?

How might this lesson be improved?

One important thing I learned was:

How did I use my pre and post teaching assessment data to inform my understanding of what the students learned? How will I use the assessment information to inform future instruction?

For the next class:

For longer reaching goals:

Created by: Dr. Marjorie Hall Haley - 2001 - George Mason University
Updates and assessment components by Dr. Rebecca Fox, Spring 2008 – GMU
Revised by: Melissa S. Ferro – Summer 2008 – GMU
Objective: The purpose of the Impact on Student Learning Assessment Project is to provide teacher candidates the opportunity to work with and learn from a mentor teacher in the P-12 setting (field experience). During EDCI 684, Advanced Methods of Teaching Foreign Languages, candidates will work with a mentor teacher to teach a mini lesson and consider the effects of teaching on P-12 student learning. This hands-on learning module enables them to bring theory to practice through pre-and post-teaching assessments and to reflect fully on the effects of the learning outcomes.

Instructions to Candidates
As an experiential learning field based project, and as the ACTFL NCATE Assessment #5, the Impact on Student Learning Assessment Project seeks to demonstrate a candidate’s effects on P-12 student learning. Candidates will plan and carry out a teaching task from which performance data can be generated for the purposes of determining the degree to which there is improvement in student learning. They will reflect on the lesson taught and discuss its impact on the students and their own learning.

According to NCATE Guidelines, the four elements that should be included in this assessment are that the candidate:
1. Undertakes a diagnosis (a pre-test) on P-12 student learning in some area he or she will teach;
2. Plans an appropriate sequence of instruction to advance P-12 student learning, and teaches in ways that engage P-12 students who bring differing background knowledge and learning needs;
3. Conducts some concluding assessment (or post-test); documents the student learning that occurred, or did not, and
4. Reflects on changes in teaching that might have improved the results.

The work sample that you prepare for this assessment will provide evidence of your teaching and impact on student learning through 1) planning instruction; 2) using best practices that provide opportunities for pupil success; 3) using assessment to inform practice and the continuous development of students; and 4) evaluating the effects of your actions and reflecting on how you can adapt instruction based upon assessment and reflection. Placement will be made for you with a mentor teacher, or you may make your own arrangements.
Required Components for the Performance Assessment

A. Title Page
   Title of Lesson Taught
   Your Name ________________________________________
   Date _____________________________________________
   School Site ________________________________________
   Grade/Level and Subject _____________________________

B. Description of the Learning Environment
   1. Describe the school and school district briefly (you might consult the
      school web site for this information), including demographic information
      available (gender, cultural, ethnic make-up, etc.)
   2. Describe the classroom setting, the students in your lesson, developmental
      characteristics (social, physical, intellectual that you have observed), their
      language learning background and any other information about the class
      you deem important.
      Please use pseudonyms for both school and students/teachers to ensure
      confidentiality of all parties.

C. Planning for Instruction
   1. Write a plan for the lesson you will teach/co-teach. Follow the lesson plan
      or guidelines from the template provided.
   2. Include an explanation of the critical thinking skills to be addressed.
   3. Include the assessment instrument(s) you use, with rubrics.
   4. Indicate provisions made for various learning styles and any special needs.
   5. Describe the adaptations to instruction and assessment for diverse learners.

In your pre-teaching phase, think about the project areas and the classroom context as
you observe your mentor teacher to prepare for this activity:
   1. What instructional approaches work well for this age group?
   2. In terms of classroom management, what strategies are most effective for your
      students?
   3. What are some effective methods/strategies/assessments for working with
      students from many different countries?
   4. What are the areas of weakness or difficulty for students at your grade level and
      what do you do to overcome these difficulties?
   5. In what ways does your mentor assess student progress?
   6. How would you describe her teaching style, and how might your planned mini-
      lesson work with the style?

D. Implementing Instruction and Assessment of Student Learning
1. Conduct a “pre-test” activity or survey to discover what pupils already know at the outset. Compile your data/results.
2. Teach the lesson to the class, or to a group of students.
3. Use a “post teaching evaluation” or instrument to discover what the students know at the conclusion of the lesson. Describe any modifications you used for special needs learners.
4. Collect the evaluation results. Compile the data/results.
5. Compare the results of the post-test to the results of the pre-test and describe the differences. (See E. below.)
6. Note: In your final submission, please include a copy of the assignment you have created (with your mentor teacher), any rubric(s) used to assess student performance, and an analysis of the data you have gathered.

**E. Reflection on Teaching Effectiveness and Plans for Revision of Instruction**

This is a key component of this project. Reflect on the effectiveness of your instruction and plan for modifications of future instruction to better meet pupils’ needs. Please include the following:

1. Identify what was successful and less successful about the assessments you used, and give plausible reasons for their success or lack thereof. Think: What steps might you take to remediate students who did not perform at high levels? How might this inform your practice in the future?
2. Discuss your most significant learning insight(s) from teaching/co-teaching this lesson.
3. Reflect on your training thus far and identify what professional knowledge, skills, or dispositions would improve your performance in the future. **Discuss your strengths and your needs as a teacher and set some specific goals for change.**

This experiential learning module provides you the opportunity to connect **theory to practice** and reflect on your impact on student learning as you continue to grow and develop. As you think and write about school-based experiences, refer to the course content, readings, and discussions. Synthesize this information and apply it to the class content as well as your future (or current status) as an FL teacher.

Special Note: Please remember, you are a guest in these schools and classrooms. Appropriate attire and conduct are mandatory. Professional courtesy is always essential. If you must cancel a scheduled visit, please call right away to let the teacher know. Our school-based colleagues have willingly agreed to make themselves available to you, and I do ask you to please be helpful and lend assistance where possible.
Optional for In-Service Teachers not seeking initial licensure

Guidelines for Videotaping in the Classroom

IN-SERVICE TEACHERS ONLY not seeking initial licensure

The purpose of the videotape is to provide as authentic and complete a view of your teaching as possible. A videotape is an indication of how you interact with students, the climate you create in the classroom, the ways in which you engage students in learning. A picture is “worth a thousand words” in conveying to others how you practice your profession, the decisions you make, and your relationships with students.

It is normal to find the initial experience with a video camera uncomfortable. We do not see ourselves quite the way others see us, and the difference can be surprising. It takes some getting used to, and practice is the only remedy. The same can be said of students; only multiple opportunities with a video camera will enable students to behave naturally in its presence. Therefore, it is highly advisable to practice with a video camera. Place the camera and tripod where the camera will receive a good picture of the entire classroom. Tape several lessons and watch them alone. You will become accustomed to how you look and sound and you will begin to notice what the students are doing and how their learning could be improved.

Practical matters

Permission. You will need a parental permission slip for each student who might appear on your tape. You may ask your school for such a form or use the one provided. If possible, you should secure a blanket permission slip from the parents or legal guardians of all your students to cover taping as needed. Explain to the parents or legal guardians that you are using the tapes for discussions with other teachers about the best ways to teach and that the students will never be identified by their full names in the tape. Try and help them understand that the videotape is not about the student, but is intended for professional discussion. If, for some reason, a student’s parents refuse to grant permission, you will have to take care that he or she is seated out of the camera’s range.

Equipment. Use the best videotaping equipment available when making your videotape. This also includes your choice of videotape. Previously used tapes from home may be worn or may contain other material and will not provide the best quality for you. Make sure that the equipment has a sensitive microphone so that all voices are easily discernible.

Your videotape should include examples of multiple methodologies

Videotape Analysis: You might include some/all of the following areas in your analysis

1. What connections with prior experience were visible in the video?
2. What kinds of activities did you use to help students discover and explore connections to other academic disciplines and to their own lives?
3. What were any unexpected changes that you had to make to your planned instruction during this lesson? What prompted the change(s)?
4. What instructional challenge(s) are presented for achieving your goals for this lesson?
5. How did you provide appropriate feedback to these students throughout the sequence of instruction?
6. What is the extent of classroom involvement (e.g., are the same students doing all the talking?)
7. Are the students engaged in the lesson? How can you tell? What do students’ facial expressions and body language tell you about your instruction?
8. What kinds of questions do you ask? Can all questions be answered with a single word? How long do you wait for responses? Do you ask students to explain and/or defend a particular answer? Do you ask students to compare or evaluate alternative interpretations or strategies?
9. Were there any opportunities for students to ask questions? How would you categorize the students’ questions (e.g., did they indicate confusion and a need for clarification or understanding and extension)?
10. What roles (e.g., expert, facilitator, co-learner) did you play in the videotape? Was each role appropriate for the situation?
11. What kinds of tasks did you ask students to do? Did you capitalize on their previous knowledge and experiences?
12. What instructional opportunities did you take advantage of? Why?
13. What evidence did you see of the students taking intellectual risks? Does the class look safe as an environment for getting something wrong? Do students talk to each other as well as to you?
14. Were the learning goals for the lesson achieved? Did you adjust the lesson so your goals could be achieved by every student? What are the evidences for your answers, both in the videotape and from other sources?
15. Explain how your design and execution of this lesson affected the achievement of your instructional goals. (Your response might include – but is not limited to – such things are the anticipation and handling of student misconceptions, the unexpected questions from students, the unanticipated opportunity for learning that you captured, or your planned strategy and its outcomes in the lesson.)

Reflection on the Videotape: Answer the following questions
1. What in the instructional sequence worked well in advancing student learning? If anything did not work as well as you expected, how would you change it? Cite specific evidence from the videotape.
2. What would you do differently, if you were given the opportunity to teach this particular lesson again with these students, and why?
3. How does this segment reflect a classroom climate that supports language learning?

Videotape: Your videotape must
1. Have voices that are audible
2. Be no longer than 20 minutes.
3. Be either digital or standard VHS format

Sample RELEASE FORM

College of Education and Human Development of the Graduate School of Education
George Mason University
Spring 2010

Permission to Use Student Materials and Image in Videotape of Teaching Practice

As a student in the Graduate School of Education at George Mason University I am requesting permission to use student materials and image in a videotape that will be used for my professional development and discussion about the best ways to teach foreign/second languages. Students will never be identified by their names in the tape. This videotape is not about the students, but is intended for professional development purposes only.
