DESCRIPTION OF COURSE REQUIREMENTS AND ASSIGNMENTS

Students should submit all assignments electronically before class.

A. Case Study

Case studies allow for an opportunity to practice decision making as well as applying knowledge to real world situations. In groups, students will be asked to study a case and present it to the class. In your presentation, please provide the class with an overview of the case assigned and answer the following questions:

- What decisions need to be made?
- What are the decision maker's objectives?
- What are the key issues at stake? What must be resolved?
- What would I do? Why?

Groups should submit their presentation to the instructor at the beginning of class.

Each student is expected to turn in an individual one page paper describing their experience working in the group and outlining any challenges faced and how the group overcame those challenges.

C. Leadership Project

Work with GMU campus office or a program with the Fairfax County Department of Neighborhood and Community Services to assist in leading and evaluating a program or event. A list of GMU offices and recreational centers will be provided as a resource for the assignment. Each student must serve 10 hours to include researching, planning, leading, and evaluating the program or event. Community service hours will be verified by the office where the service was provided. Your volunteer supervisor at the site must verify your leadership, evaluation and the number of hours completed by sending an email to mnakhla2@gmu.edu stating the type of service performed and the number of hours served. You must record your experience in a leadership report. The paper should be 3 pages, typed, double-spaced, using a Times New Roman 12 font. The paper should include the following:

- Name and location of the program or event
- Description of the program or event you lead
- Target audience of the program or event
- Your evaluation of the program or event (include what was successful and your suggestions for improvement)

In addition to the report, student must create a 4 - 5 question evaluation for the program or activity. In your evaluation, you must ask at least 3 questions collecting quantitative data and 1 question collecting qualitative data. Evaluations must be completed by program participants; data collected from survey will be used for the Evaluation Project.

D. Evaluation Project

Based on the evaluations collected from your Leadership Project, students are asked to analyze and tabulate data from surveys. Students will provide totals, averages and analyze non numerical data. Students will use tables for quantitative analysis. In a separate document, students will provide written recommendations based on their analysis of survey responses.

E. Class Participation and quizzes

You are expected to come to each class well prepared and ready to contribute to the topic of the day! All reading should be completed by the start of class on the day for which an assignment is due. Class participation constitutes 15 points of your final grade. Text readings, guest speakers throughout the semester, and in-class assignments will serve as the basis for class discussion and participation. Your responses, comments, and general contributions will be the primary criteria for evaluation, but attentiveness in class will also be taken into consideration. Instructor reserves the right to administer pop quizzes during the semester.

F. Exams

Midterm exam: 25 points

Final exam: 25 points
