

**George Mason University**  
**College of Education and Human Development**  
**Instructional Design and Technology (IDT)**

EDIT 590 DL1 – Educational Research in Technology  
3 Credits, Spring 2018  
Online Course

**Faculty**

Name: Dr. Ryan Rucker  
Office Hours: By Appointment  
Office Location: Thomson Hall, L040  
Cell Phone: 803-730-6714 (please no text/calls after 9 pm EST)  
Email Address: rucker2@gmu.edu (I will respond to all emails within 48 hours)

**Prerequisites/Corequisites**

None

**University Catalog Course Description**

Focuses on developing skills, insights, and understanding basics to performing research with emphasis on interpretation, application, critique, and use of findings in educational settings. Students develop expertise in action research methodology, design, and implementation.

**Course Overview**

This course introduces fundamental concepts and practices in educational research in technology. Specific applications of educational research methods to problems in instructional design, instructional and/or assistive technologies will be covered. Readings, discussions, and project assignments systematically follow the research design process to ultimately produce a research proposal as well as develop skills to evaluate educational research articles will be explored.

**Course Delivery Method**

This course will be delivered online using the asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on Monday, January 15, 2018.

**Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.**

### *Technical Requirements*

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Adobe Connect web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
  - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
  - Windows Media Player:  
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
  - Apple Quick Time Player: [www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

### *Expectations*

- Course Week:  
Because asynchronous courses do not have a “fixed” meeting day, our week will **start** on Sunday, and **finish** on Saturday.
  - Dr. Rucker will produce some short lectures that will need to be reviewed weekly. In addition, **3** synchronous class sessions will be offered (see course schedule for meeting days/times) via Adobe Connect. The intent of these sessions is for students to receive any assistance or resolve any course-related issues. Attendance to these sessions are highly encouraged and attendance will be recorded.
- Log-in Frequency:  
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be 3 times per week.
- Participation:  
Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:  
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

- Technical Issues:  
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. **Late work will not be accepted based on individual technical issues.**
- Workload:  
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:  
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:  
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations:  
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

### **Learner Outcomes or Objectives**

- Identify various methods of research suitable for different purposes in the field of instructional design and technology
- Compare/contrast quantitative, qualitative, and mixed methods research approaches
- Discuss basic theories and methods of action research in the field of instructional design and technology
- Describe the most common tools for research data analyses in the field of instructional design and technology
- List the most common components or sections of a research study required for publication
- Analyze and critique a published research study in the field of instructional design and technology
- Design a small research study incorporating the most common components or sections required for publication

### **Professional Standards (2012 International Board of Standards for Training, Performance and Instruction ([IBSTPI](#)):**

Upon completion of this course, students will have met the following professional standards:

1. Professional Foundations

1. Communicate effectively in visual, oral, and written form
2. Apply research and theory to the discipline of instructional design
4. Apply data collection and analysis skills in instructional design projects
5. Identify and respond to ethical, legal, and political implications of design in the workplace

## Required Texts

Creswell, J. (2017). *Research design: Qualitative, Quantitative, and Mixed Methods Approaches* (5<sup>th</sup> ed.). Thousand Oaks, CA: SAGE Publications.

Publication Manual of the American Psychological Association, Sixth Edition

## Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor.

- **Assignments**

1) FlipGrid Introduction (4% of final grade)

To help introduce yourself to fellow classmates and Dr. Rucker, you will have to record a brief introduction using Flipgrid during the first week of the course. Detailed instructions on using Flipgrid will be provided to you during the first week on Blackboard.

This assignment should be submitted via the discussion board on Blackboard.

2) Self-Check Quizzes (10% of final grade)

To ensure that all students are reading the required chapters, a weekly assessment will be given. These assessments will consist of 10 questions (multiple choice and true/false questions).

These assessments should be posted and submitted via Blackboard.

3) Research Proposal (45% of final grade)

Throughout the semester you will develop a “mini” research proposal (15-20 pages). I will provide more details about this product as we move through the semester, but basically, I will be asking you to draft the proposal in pieces as we move through the subject matter of the class. Near the end of the semester you will have a complete draft, which you will submit for peer review by other members of the class (and me). Based on your peer review and my comments on pieces or the complete draft, you will have the opportunity to revise and ultimately submit the proposal for grading. I expect the proposal to have the following sections:

- a. A statement of the problem to be addressed via the proposal, including an introduction relating your reason for undertaking the research (significance) and

leading to a statement of research question(s), problem, or issue, which is guiding the research. Typically, 1-4 paragraphs in-length.

- b. An abbreviated review of theory and research related to the problem (your literature review)—I will ask for a minimum of four articles, though you are welcome to include more to suit your own purposes. Typically, 9-15 paragraphs in-length.
- c. Methodological details—including a description of the data collection approach, desired participants, approach to recruitment of participants, drafts of data collection instruments (e.g. questionnaire, interview or observation guide), your approach to managing the data that you collect, etc.—the who, what, where, why, and how of your research. Typically, 5-15 paragraphs in-length.
- d. A tentative analysis plan—what you plan to do with the data to make sense of it, and
- e. List of references—items referred to in the proposal.

The Research Proposal assignment is a performance-based assessment, the grading for which is located at the end of this syllabus. This assignment must be uploaded to Blackboard under the ASSESSMENTS link.

#### 4) Articles Selection & Critique (20% of final grade)

To complete the research proposal, you will need to conduct a short literature review. In order to conduct any literature review, various articles (e.g., journal articles) must be located. For this assignment, you will need to locate 4 to 8 articles that you plan on using in the literature review. Once you locate these articles, cite these articles in proper APA, and submit the citations in a Microsoft Word document.

Using one of the articles identified in the assignment, you will perform a no less than 2-page but no more than 3-page double-spaced article critique. Dr. Rucker will provide more details on what questions to answer in your critique throughout the semester.

This assignment should be submitted on Blackboard (under Week #11's folder).

#### 5) Research Blogs (21% of final grade /3% per blog)

For some of the weeks in the course, we will discuss elements related to your research proposal (e.g., selecting the research method). During these weeks, you will need to draft a copy of that section that you will place within the research proposal. Remember, this is an early draft of that section—a work in progress—not your final version. In addition to posting your draft, students are expected to comment/provide feedback to at least 3 classmates. Note: 2 points are given for posting your draft and 1 point for commenting.

Each blog entry and comments to peers will be submitted via the Blackboard blogging tool.

- **Grading**

*Grading Scale:*

A+	97-100 points
A	94-96 points
A-	92-93 points
B+	90-92 points
B	85-89 points
B-	80-84 points
C	70-79 points
F	0-69 points

**\*\*Note: A+ are given to those students who exceed (go over and beyond) the assignment requirements. \*\***

*Late Work Policy*

I will accept assignments up to **one** week late, except for the Research Proposal, for a 20% deduction off of the final grade. The Research Proposal cannot be submitted late—do not ask for an extension. All due dates for each assignment are provided to you in the schedule within this course syllabus. Please bookmark these dates on your personal calendar

**Professional Dispositions**

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/polices-procedures/undergraduate#profdisp>

**Class Schedule**

<b>Week #</b>	<b>Learning Module</b>	<b>Textbook Readings Weekly Activities</b>	<b>Due Dates *Saturday by 11:59 pm EST</b>
1 (January 22-27)	Welcome	<ul style="list-style-type: none"> <li>• Buy required textbook</li> <li>• Review syllabus/schedule</li> </ul> Virtual Class #1: Monday, January 22 (7:30 pm-8:30 pm)	FlipGrid Introduction
2 (January 28-February 3)	What is Research & Introduction to Research Methods	<ul style="list-style-type: none"> <li>• Read Chapter 1 (The Selection of a Research Approach)</li> </ul>	Research Blog #1 (Select a topic & theoretical

		<ul style="list-style-type: none"> <li>• Read Chapter 3 (The Use of Theory)</li> <li>• Select research topic</li> <li>• Identify theoretical framework</li> </ul>	<p>framework)</p> <p>Quiz #1 (Chapters 1 &amp; 3)</p>
3 (February 4-10)	Statements of the Problem	<ul style="list-style-type: none"> <li>• Read Chapter 6 (The Purpose Statement)</li> <li>• Write problem statement</li> </ul>	<p>Research Blog #2 (Problem Statement)</p> <p>Quiz #2 (Chapter 6)</p>
4 (February 11-17)	Research Questions & Purpose Statement	<ul style="list-style-type: none"> <li>• Read Chapter 7 (Research Questions and Hypotheses)</li> <li>• Write your purpose statement</li> <li>• Write 2-4 research questions for your study</li> </ul>	<p>Research Blog #3 (Purpose Statement and Research Questions)</p> <p>Quiz #3 (Chapter 7)</p>
5 (February 18-24)	Quantitative Research	<ul style="list-style-type: none"> <li>• Read Chapter 8 (Quantitative Methods)</li> </ul>	Quiz #4 (Chapter 8)
6 (February 25-March 3)	Qualitative Research	<ul style="list-style-type: none"> <li>• Read Chapter 9 (Qualitative Methods)</li> </ul>	Quiz #5 (Chapter 9)
7 (March 4-10)	Mixed Methods & Selecting Method	<ul style="list-style-type: none"> <li>• Read Chapter 10 (Mixed Methods Procedures)</li> <li>• Select the method to be used for study</li> </ul> <p>Virtual Class #2: Monday, March 5 (7:30 pm-8:30 pm)</p>	<p>Research Blog #4 (Research Method)</p> <p>Quiz #6 (Chapter 10)</p>
8 (March 11-17)	Spring Break—Enjoy some time off!		
9 (March 18-24)	Instrument/Data Collection	<ul style="list-style-type: none"> <li>• Draft an instrument used for data collection</li> </ul>	Research Blog #5 (Instrument Selection)
10 (March 25-31)	Literature Reviews & Locating Articles	<ul style="list-style-type: none"> <li>• Read Chapter 2 (Review of Literature)</li> <li>• Locate articles for literature review</li> </ul>	Quiz #7 (Chapter 2)
11 (April 1-7)	Article Critique	<ul style="list-style-type: none"> <li>• Critique an article</li> </ul> <p>Virtual Class #3: Monday, April 2 (7:30</p>	Articles Selection & Critique

		pm-8:30 pm)	
12 (April 8-14)	Writing Literature Review	<ul style="list-style-type: none"> <li>Draft a literature review</li> </ul>	Research Blog #6 (Literature Review Draft)
13 (April 15-21)	Work on Draft	<ul style="list-style-type: none"> <li>Work on the draft of your proposal</li> </ul>	
14 (April 22-28)	Submit Draft & Provide Feedback	<ul style="list-style-type: none"> <li>Submit draft of your proposal to blog</li> <li>Provide feedback to at least 3 classmates.</li> </ul>	Research Blog #7 (Proposal Draft)
15 (April 29-May 5)	Revise Feedback	<ul style="list-style-type: none"> <li>Review feedback</li> </ul>	
16 (May 6-9)	Submit Research Proposal	<ul style="list-style-type: none"> <li><b>Research Proposal due by Wednesday, May 19 at 11:59 pm ET</b></li> </ul>	Research Proposal

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

### Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

### GMU Policies and Resources for Students

#### *Policies*

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/> ).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).

- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

### *Campus Resources*

- Support for submission of assignments to Tk20 should be directed to [tk20help@gmu.edu](mailto:tk20help@gmu.edu) or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

**For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/> .**

Assessment Rubric

Research Proposal Grading Rubric

<b>IBSTPI Competency</b>	<b>Criteria</b>	<b>Does Not Meet Standards</b>	<b>Meets Standards</b>	<b>Exceeds Standards</b>
<b>Professional Foundations: 1: Communicate effectively in written &amp; oral form</b>	<b>Introduction</b>	Poorly formulated/no introduction; no evidence specific to the topic  Point values: 0-1	Fairly well formulated introduction supported by weak sources of evidence specific to the topic  Point values: 2-3	Well formulated introduction supported by strong sources of evidence specific to the topic  Point values: 4-5
<b>Professional Foundations: 2: Apply current research and theory to the discipline of instructional design</b>	<b>Research topic/problem</b>	Poorly posed/missing problem statement; no evidence to support the problem  Point values: 0-1	Fairly well posed statement of the problem but evidence to support the problem is weak  Point values: 2-3	Very clearly posed statement of the problem supported by strong evidence  Point values: 4-5
<b>Professional Foundations: 2: Apply current research and theory to the discipline of instructional design</b>	<b>Purpose of the study</b>	Purpose of the study is poorly stated/missing or does not connect with the introduction and/or problem statement  Point values: 0-1	Fairly well stated purpose that connects to the introduction and the problem statement  Point values: 2-3	Very clearly stated purpose that connects well to the introduction and the problem statement  Point values: 4-5
<b>Professional Foundations: 5: Identify ethical, legal &amp; political implications of design in the workplace</b>	<b>Literature review</b>	Superficial review of the literature that does not analyze the findings to identify study limitations justifying the proposed study; fewer than four empirical research study references included	Thorough review of the literature that summarizes the findings but does not use study limitations to justify the proposed study; four or fewer empirical research study references included	Thorough review of the literature that analyzes previous studies and findings whose limitations justify the proposed study; a minimum of four (4) empirical research study references included  Point values: 7-10

		Point values: 0-3	Point values: 4-6	
<b>Professional Foundations: 4: Apply data collection &amp; analysis skills to instructional design projects</b>	<b>Research questions/hypotheses</b>	Poorly stated/missing research questions/hypotheses; no basis in research problem or study purpose  Point values: 0-1	Fairly well stated research questions/hypotheses based somewhat on research problem and study purpose  Point values: 2-3	Well stated research questions/hypotheses based on research problem and study purpose  Point values: 4-5
<b>Professional Foundations: 4: Apply data collection &amp; analysis skills to instructional design projects</b>	<b>Methodology</b>	Superficial/missing description of methodology elements; methodology is not appropriate to research questions/hypotheses  Point values: 0-1	Detailed description of two to three methodology elements; methodology is appropriate to research questions/hypotheses  Point values: 2-3	Detailed description of all four methodology elements - research design, participants/respondents, data collection and analysis methods; methodology is appropriate to research questions/hypotheses  Point values: 4-5
<b>Professional Foundations: 1: Communicate effectively in written &amp; oral form</b>	<b>Language</b>	Rules of English grammar, usage, spelling and punctuation are not followed; multiple language errors throughout the proposal  Point values: 0-1	Rules of English grammar, usage, spelling and punctuation are generally followed throughout the proposal; one or two minor language errors  Point values: 2-3	Rules of English grammar, usage, spelling and punctuation are followed consistently throughout the proposal; no language errors  Point values: 4-5
<b>Professional Foundations: 1: Communicate effectively in written &amp; oral form</b>	<b>APA style</b>	Does not adhere to APA 6 <sup>th</sup> edition style in the proposal  Point values: 0-1	Generally, adheres to APA 6 <sup>th</sup> edition style throughout the proposal  Point values: 2-3	Consistently adheres to APA 6 <sup>th</sup> edition style throughout the proposal  Point values: 4-5
