COURSE REQUIREMENTS and PERFORMANCE-BASED ASSESSMENT

A. Requirements

1. Attendance at each class: Students should notify the professor at the beginning of the semester if there will be an unavoidable absence during the semester. More than one (1) ‘unexcused’ absence will affect class grade. Students are expected to be on time unless prior arrangements are made with the professor.

2. Class Participation: Students are expected to actively participate in class discussions and activities.

3. Readings: Students are expected to read the assigned readings for each class period and be prepared to discuss what was read.

4. Papers and reports should be typed using APA (5th ed.) style.

B. Performance-Based Assessments
1. Assignment 1: Group presentations on a human growth and development theory. Assignments will be made in class. (10%)

2. Assignment 2: (Observation of Children) Observe a group of children between the ages of 5 years and 10 years (all approximately the same age). Students should observe behaviors of children and make notes of what is observed. The observation should be in a setting where children interact naturally (e.g. classroom, playground, lunchroom, group activity, etc) and should be at least 30 minutes in duration. Students will prepare a paper (4-6 pages) in which they will reflect on and analyze what is observed using one of the developmental theories that is covered in this course. Students should secure permission from the supervising official (e.g. school principal, teacher, etc) before doing the observation. Observation in a public area such as a mall will not require permission. **Due March 3**

3. Assignment 3: (Adolescent Interview) Students will interview an adolescent (age 13 – 18). Permission should secured from the child’s parent (if the child is under 18) prior to the interview. Guidelines for the interview will be discussed in class. Prepare a 4-6 page paper reflecting on the interview using one of the developmental theories covered in the course. The interviewee’s name should be kept confidential. **Due March 24**

4. Assignment 4: (Peer Interview) Students will interview a person who is approximately the same age and who is from a culture different from his or her own. Guidelines for the interview will be discussed in class. Students will then prepare a 4-6 page report in which the interview will be reflected upon and analyzed utilizing a developmental theory or theories covered in the course. The interviewee’s name should be kept confidential. **Due March 24**

5. Assignment 5: (Movie Analysis) Students will view a movie (select from list provided) which involves a person or family from a different culture than the student’s (try to select a move that you haven’t previously seen or view the movie again for this project). Students will then prepare a paper 6-8 pages) reflecting on and analyzing the person’s or family’s experience and development in contrast to and comparison with the student’s own experience and development. Students should be prepared to share their observations during class in an informal manner. **Due April 7**

6. Assignment 6: (Research Paper) Students will prepare a research paper in which a topic of relevance to human growth and development will be chosen and then researched using peer refereed journals. The student will turn in an **abstract on March 31** in which the topic will be introduced for approval by the professor. The student should pay special attention to how issues of culture come to play in the issue under investigation. Magazine or newspaper articles may only be referenced in the introductory section of the paper and no more than one internet
reference should be used. Students should utilize at least eight (8) peer refereed journal articles that have been written with the last 10 years. The paper should be no more than 10 pages (APA Style) not including title and reference page. (30%)
Due April 28th
