

The **Division of Learning Technologies** of the **College of Education and Human Development** at George Mason University promotes innovative academic programs and research-based practices related to the design, development, and integration of learning technologies in schools, community, corporate, government, and higher education settings. The mission of the division is to leverage the use of technology to create engaging, optimal, and inclusive learning opportunities and instructional experiences by 1) providing students and professionals with an education that is grounded in theoretical models balanced with real-life applications and project-based experiences, 2) promoting strategic, innovative, and creative thinking using design research methods and practices, and 3) building and fostering partnerships aimed at advancing the field of learning technologies through R&D initiatives.

The **Division of Learning Technologies** supports two academic programs, Instructional Design and Technology (IDT) and Learning Technologies in Schools (LTS), and a PhD Specialization in Learning Technologies Design Research (LTDR). Each academic program has its own degree options which include master's degree concentrations and graduate certificates. The division also hosts the Center for Digital Media Innovation and Diversity (CDMID), the Innovations in e-Learning Symposium (IEL), and several other partnerships and initiatives. The division serves students, schools, and learning organizations in the private and public sector and has 7 full time faculty, 7 affiliate faculty, and several part time faculty. Faculty teach a variety of courses face-to-face, blended, and online, and conduct innovative research.

**Division Director *Nada Dabbagh***

**Academic Programs Coordinator & Professor-in-Charge**

- Instructional Design and Technology Master's Degree (IDT): ***Shahron Williams van Rooij***
- E-Learning Graduate Certificate (CERG – ELRN): ***Shahron Williams van Rooij***
- Designing Digital Learning in Schools (DDLS) Master's Degree and Graduate Certificates: ***Priscilla Norton***
- Blended and Online Learning in Schools (BOLS) Master's Degree and Graduate Certificate: ***Jered Borup***
- Learning Technologies Design Research (LTDR) PhD Specialization: ***Priscilla Norton***

**Center Director**

Center for Digital Media Innovation and Diversity: ***Kevin Clark***
