Course Description
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

Course Objectives
This course stresses the interconnectedness, difference and diversity that are central to understanding and operating in a global society. At the completion of this course students should be able to:

1. Discuss the impact of tourism on the global economy and other peripheral areas (e.g. developing nations).
2. Analyze significant global tourism issues and demonstrate an awareness of how these issues are perceived and dealt with in different cultural and historical traditions.
3. Describe the ways in which tourism contributes to appreciation of cultural heritage and the international foundations of American society.
4. Discuss the social impacts of global tourism, including acculturation, religious tolerance, and political awareness.
5. Discuss the role of international tourism in promoting world peace.
6. Design an international travel itinerary that would allow a tourist to learn about another country.
7. Visit other countries with an improved sense of host/guest relations and with greater appreciation for the opportunities to expand learning about the world cultures.
Course Overview
The course looks at global tourism from different aspects: that of the tourist, that of the tourism service providers, that of the government agencies that promote and regulate it, that of groups that promote tourism, that of researchers and observers, and that of others. Student presentations are meant to augment the formal presentations. Classes, reading assignments and student presentations, and often guest speakers, emphasize the different aspects of global tourism. As the course progresses students should be able to integrate these topics and see how the field of global tourism is broad and complex.

Required Readings
Refer to Reading List to determine which articles to read and WEB sites to visit for specific classes.

Evaluation
This course will be graded on a point system, with a total of 100 possible points.

**The General Education Mission**

The mission of George Mason University's General Education Program is to educate, liberate, and broaden the mind, and to instill lifelong love of learning. In conjunction with each student’s major program of study and other electives, minors, or certificates, this program seeks to produce graduates with intellectual vision, creative abilities, and moral sensibility, as well as the skills to assure a well-rounded and useable education.

**Global Understanding Goal**

Courses examine some of the principal global issues and concerns that shape our world today. After completing a course from this category, students will be able to identify the causes and consequences of change in significant global issues. While some courses may deal with a specific global problem, institution, or issue, others may focus on a specific area or region outside the contemporary Western world by incorporating specific comparisons of several cultures. All courses in this category help students develop an understanding of global issues as well as an awareness of how these issues are perceived and dealt with in different cultural and historical traditions and, where relevant, by different formal and informal institutions throughout the world. These courses stress the interconnectedness, difference, and diversity that are central to understanding and operating in a global society.

A general education course in Global Understanding should addresses these learning outcomes - Upon completing the course, students will be able to:

1. Develop understanding of global patterns and processes and their interaction with society
2. Demonstrate understanding of the interconnectedness, difference, and diversity of a global society
3. Identify, evaluate and properly cite resources appropriate to the field, such as audio/visual/online/print materials, or artifacts
4. Apply awareness of global issues to a consideration of individual or collective responsibilities within a global society
5. Devise analytical, practical, or creative responses to global problems or issues

Armchair Travel Journal

This is an INDIVIDUAL project.

1. Become aware of CURRENT EVENTS about International Tourism and Travel.

   Keep your eyes and ears open to what global tourism issues, and which locations, are making it into the current media. Where do you see concepts and issues from this course discussed in the media? Look:
   - In newspapers including the Travel sections,
   - In magazines,
   - On the Internet, and
   - On television news programs.

   What are the current issues?
   - Where is everyone going – or not going?
   - What about the economic downturn?
   - Why are some places popular – or unpopular?

2. Identify SIX (6) ARTICLES about international tourism issues, exposés, or programs related to the various Course Topics (see 1 – 9 on page 4). Be sure that each media selection relates to a different Course Topic.

3. Write a REPORT consisting of six - two (2) paragraph synopses about each article. The REPORT should be limited to two pages typewritten, in 12 point type, using Times New Roman font, with one (1) inch margins.

   It is very important that you cite all sources. If you use things from a WEB site, or from anywhere else, be sure to cite and reference it.

Your Report is due Oct 6.
This Week in the World Presentation

This is a combination GROUP AND INDIVIDUAL project.

The coordination for the PRESENTATION, and the PRESENTATION itself, will be a group project. The work you do for the PRESENTATION, and the REPORT you prepare and submit, will be an individual project.

1. Sign-up to make a multi-person This Week in the World group for a Course Topic and PRESENTATION date.

2. Plan your strategy
   1) Immediately meet with your This Week in the World group.
   2) Select a group coordinator.
   3) Assign the work.
   4) Schedule a ‘pre-presentation’ meeting for at least one week before your PRESENTATION date.

   Make sure there are no duplications for the articles the group intends to discuss with the class. Assure that all articles relate to the course topic for that week, and Plan-out how your discussion will be organized.

3. On your discussion date, make your PRESENTATION to the class. Suggestions:
   • Prepare PowerPoint slides which highlight the articles, exposés, and programs.
   • Lead a class discussion about the connection between your articles, exposés, and programs and the COURSE TOPIC.
   • Ask questions, encourage debate.
   • Play a game.
   • Be creative, make it fun!

All members of your team must participate in preparation and PRESENTATION.

At the end of your discussion each member of your group must pass in a one page REPORT articulating how the media selection you presented relates to or illustrates the COURSE TOPIC for the day.

At the end of this REPORT (on the back side) indicate the grade you would give yourself and the other members of your group.

The COURSE TOPIC you have selected is _______________________________________

Your PRESENTATION is scheduled, and its REPORT is due: ____________________________

I will e-mail you the names and contact information, and the presentation dates, before the Sep 8 class.
