Graduate School of Education
Program: Special Education
Spring II Semester, 2010

Course title: EDSE 628, Elementary Reading/Curriculum Strategies for Students with Disabilities Accessing the General Curriculum, Section 649
Credit Hours: 3
Meetings: Wednesdays, 4:15-8:45 PM, March 10, 2010 – May 12, 2010
Location: Independent Hill School, Prince William County

Instructor: Sharon N. E. Ray, Ph.D.
Office: Kellar Annex 2, Rm. 110 (located off-campus at 4400 University Dr.)
Office Hours: By appointment or after class
Phone: (703) 993-5247
Email: sray4@gmu.edu ***Best Contact Method!***

Course Description

Course Description from University Catalog:
This course applies research on teacher effectiveness, teacher accountability, instructional approaches, and advances in technology at the elementary level for individuals with mild disabilities. Course content includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies, and social skills; cognitive strategies in self-regulation, study skills, attention, memory, and motivation; and peer-mediated instruction including cooperative learning and peer tutoring. Prerequisites: Ideally, students in this course have had 501 and 540.

Student Outcomes
Upon completion of this course, students will be able to:

• describe elementary level intervention research and the associated issues in intervention research as applied to individuals with mild disabilities;
• describe and implement elementary level research-based curriculum and strategies for teaching reading, language arts, math, science, social studies, and social skills for individuals with mild disabilities;
• describe and implement elementary level research-based cognitive strategies in self-regulation and metacognition, study skills, attention, memory, and motivation for individuals with mild disabilities;
• describe and implement elementary level research-based strategies for peer mediation, including peer tutoring and cooperative learning, for individuals with mild disabilities;
• develop and implement strategies in curriculum and strategies to correspond with the Virginia Standards of Learning.
Professional Standards:

**Relationship of Courses to Program Goals and Professional Organizations**

This course is part of the George Mason University, Graduate School of Education, Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Emotional Disturbance and Learning Disabilities, and Mental Retardation. This program complies with the standards for teacher licensure established by the Council for Exceptional Children, the major special education professional organization. As such, the learning objectives for this course cover many of the competencies for elementary curriculum and strategies for teaching individuals with emotional disturbances, learning disabilities, and mild mental retardation.

The CEC Standards are listed on the following web site:
[http://www.cec.sped.org/ps/perf_based_stds/common_core_4-21-01.html](http://www.cec.sped.org/ps/perf_based_stds/common_core_4-21-01.html)

CEC standards that will be addressed in this class include the following:

**Standard 4 - Instructional Strategies**

**Skills:**
- Use strategies to facilitate integration into various settings.
- Teach individuals to use self-assessment, problem solving, and other cognitive strategies to meet their needs.
- Select, adapt, and use instructional strategies and materials according to characteristics of the individual with exceptional learning needs.
- Use strategies to facilitate maintenance and generalization of skills across learning environments.
- Use procedures to increase the individual’s self-awareness, self-management, self-control, self-reliance, and self-esteem.
- Use strategies that promote successful transitions for individuals with exceptional learning needs.

**Standard 5 - Learning Environments and Social Interactions**

**Knowledge:** (selected competencies)
- Demands of learning environments.
- Basic classroom management theories and strategies for individuals with exceptional learning needs.
- Effective management of teaching and learning.
- Teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.
- Social skills needed for educational and other environments.

**Skills:**
- Create a safe, equitable, positive, and supportive learning environment in which diversities are valued.
- Identify realistic expectations for personal and social behavior in various
settings.

- Identify supports needed for integration into various program placements.
- Design learning environments that encourage active participation in individual and group activities.

Standard 7 - Instructional Planning
Knowledge:
- Theories and research that form the basis of curriculum development and instructional practice.
- Scope and sequences of general and special curricula.
- National, state or provincial, and local curricula standards.

Nature of Course Delivery
Learning activities include the following:
1. Class lecture, discussion, and participation.
2. Videotapes and other relevant media presentations.
3. Study and independent library research.
4. Applications with relevant hardware and software.
5. Application activities, including in-class evaluation of intervention research and materials.
6. Class presentations.
7. Written activities using the American Psychological Association (APA) format.

College of Education and Human Development Statement of Expectations
The Graduate School of Education (GSE) expects that all students abide by the following:

- Students are expected to exhibit professional behavior and dispositions. See http://gse.gmu.edu/ for a listing of these dispositions.

- Students must follow the guidelines of the University Honor Code. See http://www.gmu.edu/catalog/apolicies/#TOC_H12 for the full honor code. Be especially observant of proper documentation of source material in order to avoid plagiarism. See http://mason.gmu.edu/%7Emontecin/plagiarism.htm for guidelines.

- Students must agree to abide by the university policy for Responsible Use of Computing. See http://mail.gmu.edu and click on Responsible Use of Computing at the bottom of the screen.

- Students with disabilities who seek accommodations in a course must be registered with the GMU Office of Disability Services (OSD) and inform the
instructor, in writing, at the beginning of the semester. See www.gmu.edu/student/drc or call 703-993-2474 to access the OSD.

✓ Students are expected to attend all classes, arrive on time, and stay for the duration of the class time. In the unlikely event that you are absent from class, it is your responsibility to make arrangements to obtain notes, handouts, and lecture details from another student. **Two or more unexcused absences will result in no credit for this course.**

✓ We will use person first language in our class discussions and written assignments (and ideally in your professional practice). Please refer to “Guidelines for Non-Handicapping Language in APA Journals” http://www.apastyle.org/disabilities.html

Additional Listing of Resources and Expectations:

**George Mason University Email:** https://mserver3.gmu.edu/
From this link, follow the directions for activating an email account. Every student is required to establish a GMU email account. Course email correspondence and other important university emails will be sent to GMU email accounts.

**George Mason Patriot Web:** https://patriotweb.gmu.edu/
A self-service website for students, faculty, and staff of George Mason University. There is a wealth of useful links, information, and online forms on this website including program of studies details, application for graduation, request for transfer of credit, and internship application.

**TaskStream Submission**
*Note: Every student registered for any EDSE course as of the Fall 2007 semester is required to submit signature assignments to TaskStream (regardless of whether a course is an elective, a one time course or part of an undergraduate minor). TaskStream information is available at http://qse.gmu.edu/programs/sped/. The signature assignment for this course (the Strategy Application Written Assignment) must be submitted to TaskStream (https://www.taskstream.com) at the end of this course. **Failure to submit the assignment to TaskStream will result in reporting the course grade as Incomplete (IN). Unless this grade is changed, upon completion of the required submission, the IN will convert to an F nine weeks into the following semester.***

**APA Formatting Guidelines:** http://www.psychwww.com/resource/apacrib.htm
This website is offered as a companion to the APA style manual. It should not be considered a substitute for directly consulting the APA manual, 6th edition for standard procedures of applying APA style. Additional APA style help URLs are available on the GSE library URL.
George Mason University Honor Code:
http://www.gmu.edu/facstaff/handbook/aD.html
This URL defines student and faculty conduct to promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community. The honor code deals specifically with cheating and attempted cheating, plagiarism, lying and stealing.

Academic Integrity: Students in this course are expected to exhibit academic integrity at all times. It is essential that all students submit their own work, especially with the technical information and skills taught within this course. To that end, plagiarism is a violation of academic integrity, as well as the ideas and principles of this class. Plagiarism is the intentional or unintentional use of others’ ideas, words, data, figures, pictures, sequence of ideas, or arrangement of materials without clearly acknowledging the source (based on the Mason Honor Code online at: http://mason.gmu.edu/~montecin/plagiarism.htm). The instructor reserves the right to submit your work to turnitin.com, a plagiarism detection service, for an integrity assessment as needed. Students who commit plagiarism of any form (eg. whether it be copying test answers, using someone else’s exact words in a written assignment, etc.) will be given an “F” as their course grade and the matter will be reported to the Dean of the Education School and the GMU Honor Council.

Advising contact information: Please make sure that you are being advised on a regular basis as to your status and progress through your program. You may wish to contact Jancy Templeton, GMU Special Education Advisor, at jtemple1@gmu.edu or 703-993-2474. Please be prepared with your G number when you contact her.

This course will incorporate the evidence-based practices (EBPs) relevant to learning strategies, constructing effective lessons, and designing instructional procedures. These EBPs are indicated with an asterisk (*) in this syllabus. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.
Texts and Readings:

Required Texts

Online Reading
Throughout the semester, we will be using several websites to support and enhance the information we are gaining from the course text. It is a good idea to save these sites as “Favorites” for your use in this class, as well as professional reference. The sites we will use are:

http://www.pen.k12.va.us/VDOE/Superintendent/Sols/home.shtml Virginia SOL website

http://www.teachingld.org/ld_resources/alerts/default.htm#social Discusses Social Skills Instruction

http://reading.uoregon.edu/big_ideas/index.php “Five Big Areas of Reading”

http://www.teachingld.org/ld_resources/alerts/default.htm#mnemonic Discusses Mnemonic Instruction

Peer-Reviewed Journal Readings:
You will be accessing peer-reviewed journal articles as part of the Strategy Application Written Assignment. These articles will vary depending on individual student interests and assignment ideas.

Required Access to Course Blackboard Site

The George Mason Blackboard system will be used as an integral part of this course. It is important to access Blackboard several times a week between class sessions to check posted updates and messages. Additionally, class handouts will be posted on Blackboard for upcoming classes. The first night of class all handouts will be provided. After the first night, all handouts will be posted by Monday evening before Wednesday’s class. Students are responsible for downloading these handouts or printing hard copies for use in class from the second class onwards. You can access Bb at http://courses.gmu.edu .
**Starting March 17th, be sure to come to class prepared with the week’s electronic copies of materials or hard copies (whichever works best for you)!**

It is recommended that students retain copies of all course products to document their progress through the GSE ED/LD program. Products from this class can become part of your individual professional portfolio used in your portfolio classes that documents your satisfactory progress through the GSE program and the CEC performance based standards.

- The use of electronic devices that produce sound or otherwise interfere with the learning of others (i.e., cell phones, pagers, etc.) is prohibited during class. Please turn these devices off or to vibrate before the start of class.
- Computers may be used to take notes during class, but they may not be used for internet exploration or other non-class activities during class time.

Assessment of Course Requirements:

Requirements of this course include readings from your textbook, professional journal articles, and websites, and activities, which include in-class individual and group work, as well as independent assignments outside of class. The goal of all work for this course is to increase your knowledge and skills about working with students with mild disabilities in the academic curriculum.

The signature assignment for this course is the Strategy Application Written assignment that will assist you in learning more about research-based instructional practices for working with students with mild disabilities, including academic, self-regulatory, and motivation strategies. Students are expected to complete all forms of class assessment and final grading will be based on the cumulative points that students earn based on their performance on all course assessments. Student performance on assignments is expected to be both timely and of high quality.

Online submission of student work is required. All written assignments should be submitted through the Blackboard Digital Assignments tab. Assignments should not be submitted by email unless there is an emergency technical issue with Blackboard. Each assignment should be submitted by the start of class on the due date (4:15 PM). Assignments that are not in the DROPBOX at the
appropriate time are late. Late assignments will be accepted with a point deduction in a few cases. All course assignments should be completed with graduate level use of content, grammar, spelling, and written expression clarity. If writing is an area of difficulty, you will need to visit the GMU Writing Center to work on these skills (http://writingcenter.gmu.edu).

Assignments submitted through the Dropbox should be labeled with filenames that correspond to: <your first initial your last name abbreviated form of the assignment’s name>. I will return graded assignments to you via the course Blackboard email. It is suggested that you download and save all returned assignments, as well as corresponding evaluations and comments. Below is example labeling for submission of all written assignments:

- SRayLrnVis – Learning Visual
- SRayUnPlan – Unit Plan
- SRayLessDemo – Lesson Plan Demonstration
- SRayStratAppWrit – Strategy Application Written Assignment
- SRayStratAppPres – Strategy Application Presentation

<table>

</tbody>
</table>

*Course signature assignment.

Course evaluation and final grades will be calculated based on the below percentages calculated from each individual student’s point score out of the possible 100 point total. Late assignments will be accepted in the following manner for a few selected assignments (Strategy Application Written Assignment & Unit Plan):

- 5% point deduction – up to 1 week late
- 10% point deduction – 1-2 weeks late
- 25% point deduction – 2 weeks until the last class meeting

*No late assignments will be accepted for the Learning Visual, Strategy Application Presentation, or Lesson Plan Demonstration.
Grading Scale:
A     =  95-100%
A-    =  90-94%
B+    =  87-89%
B     =  80-86%
C+    =  77-79%
C     =  70-76%
F     =  69% and below

Course Assignment Details:

Attendance and Participation - Weekly (1 point per class for a total of 8 points)
Class attendance and participation are an important part of this class because of the specific and in depth information learned through the course. Attendance points are earned for each class to emphasize the importance of engaging in the learning activities and educational environment of the course. Students are expected to arrive on time, participate in all class discussions and activities, and stay until the end of class. Attendance will be maintained through the artifacts students produce during class through group and individual work. For full attendance credit during each class, students must not only attend the full class session, but actively participate, work cooperatively, and turn in high quality class products. If you are unable to make any class sessions during the semester, please contact the instructor by phone or e-mail before the class session where you will be absent. In the rare event of an emergency or severe sickness, each student is given 1 “grace” absence without a point penalty, as long as the instructor is notified before the class session. In this case, it is still the student’s responsibility to make arrangements to obtain notes, handouts, and lecture details from another student. Attendance points missed for more than one absence or any absence without instructor contact before class cannot be made up! Two or more unexcused absences will result in no credit for this course.

Learning Visual/VAKT Tool – March 24th or April 7th (12 points)
Learning visuals and VAKT tools are essential in helping students with disabilities better access and understand curriculum points. Using a VAKT tool, semantic feature analysis, concept map, diagram, graphic or semantic organizer, visual representation, visual-spatial display, or other learning visual select a particular grade level and a corresponding Science or Social Studies SOL that relates to learning concepts and vocabulary.

With the learning visual example, identify and write out the SOL to which it relates (e.g., Science: Living Systems 5.5, The student will investigate and understand that organisms are made of cells and have distinguishing characteristics. Key concept: vertebrates and invertebrates). Be sure to give the visual a title/name. You will be asked to give a short 5 minute explanation of
the essential aspects of your visual/tool, a demonstration of how your learning visual is applied with the specific science or social studies content selected, and a brief discussion of the specific learning needs targeted through the visual/tool’s usage. As part of your presentation, make sure you bring a hard copy handout explaining the essential aspects of development and implementation of your visual for everyone in the class. This handout is what should be turned in to the instructor via the digital dropbox before the start of the class the day of the visual/tool demonstrations.

**RUBRIC for Learning Visual/VAKT Tool**

Effective visual aspects of tool illustrated (2 points)  
0 0.5 1 1.5 2  
Clearly supports the concepts/vocabulary of science/social studies content (2 points)  
0 0.5 1 1.5 2  
Class Handout (neatness, completed sample of visual/tool) (2 points)  
0 0.5 1 1.5 2  
Presentation (explanation, demonstration, discussion) (2 points)  
0 0.5 1 1.5 2  
Preparation Evident (materials, explanation) (2 points)  
0 0.5 1 1.5 2  
Creativity/Originality (2 points)  
0 0.5 1 1.5 2

**Unit Plan – April 14th (25 points)**

With a partner prepare a unit plan, which includes a series of 5 sequential lessons. You will use the Active Teaching Model discussed in class to structure each lesson. The unit plan should address specific well-defined skills from Virginia’s SOLs (Grades 1-5) [http://www.doe.virginia.gov/go/Sols/home.shtml](http://www.doe.virginia.gov/go/Sols/home.shtml) in either English or mathematics.

The unit plan should be well-planned and include:

- A **unit overview** including the Content area, Grade level, SOL(s), **Measurable** Unit objectives, and reference to the lesson in which each is introduced.
- 5 lesson plans structured according to the Active Teaching Model
- Samples of at least one activity (worksheet, graphic organizer, etc.) for each lesson that show what has been adapted for a student with special needs (so include the worksheet that most students will do, along with the adapted one that only some students will do). The adaptation(s) must be listed and a rationale included. Tell briefly, what did you adapt/change and why? Have a student in mind and note the difficulty addressed.
- Evidence of at least one instructional strategy geared to assist a student to access, organize and/or recall the content material in each lesson. The strategy must be highlighted or noted in the plan and a sample of the
content integrated into the strategy must be present, e.g. a first letter mnemonic devised to teach the steps in long division)

- Each day’s lesson must have some form of assessment. Assessments may be informal (teacher observation) or formal. However, 2 formal sample assessments for the unit are required. One should be a pre-test or mid-unit check, and the other an end of unit assessment. One may be a traditional test like those provided by publishers, (with some adaptations noted) or a project (include a rubric). You may be creative, but make sure you address your objectives.

- If you use commercially available lessons, parts of lessons, or assessments, YOU MUST CITE THE SOURCE!!!! If using “off the shelf” lessons, I would suggest making sure you make adaptations to best meet the needs of this project.

- Identify and show evidence of the use of technology. This may be something you use to instruct, or software you used to construct student worksheets, templates or assessments. It also includes websites used as sources for information, or instructional materials.

- Include a reference section for your unit.

---

**RUBRIC for Unit Plan Assignment**

Exemplary unit (23.5-25 points): Unit includes all components outlined in the syllabus evidencing a clear understanding of the Active Teaching Model; an appropriate and specific match between measurable objectives selected and unit content covered; logical and creative connections between the lessons included in the unit; descriptive integration of learning strategies within the unit’s application, comprehensive usage of appropriate assessment materials, and innovative technology employment. Good writing style, free of mechanical or stylistic errors, and appropriate use of APA format is also evident.

Adequate unit (22.5-23.5 points): Good overall unit, lacking in one or two of the criteria. Minor deficiencies in the application of the Active Teaching Model evident, or minor writing style errors present.

Marginal unit (21.5-22.5): Overall, acceptable but with one or more significant problems. Contains some creative and logical lesson planning ideas, but may have substantial problems with appropriate usage of the Active Teaching Model, strategies, or assessment.

Inadequate unit (1-21.5): Unit with substantial problems in important areas such as application of the Active Teaching Model, measurable objectives, strategies, or assessment.

Unacceptable/no unit: (0 points): Unit not relevant to the assignment or no unit turned in at all. Does not target appropriate learning objectives.
Lesson Plan Demonstration – *April 14 or April 28*th (20 points)

With the lesson plan demonstration, each unit plan group will select one of their unit plan lessons to teach for the class. This demonstration should include all lesson plan sections, learning strategies, and materials that would be used in the lesson. Since there were will be multiple groups presenting, each group is asked to present their lesson in a “mini” form of approximately 15 minutes, where the lesson is taught but lengthier elements are abbreviated for the purposes of the demonstration.

**RUBRIC for Lesson Plan Demonstration**

| Exemplary demonstration: (5 point range): | Keeps within the time limits; demonstrates knowledge of the Active Teaching Model and understanding of the measurable objectives to the audience; reflects poise, clarity, knowledge and enthusiasm; effective use of prepared materials; keeps the audience engaged |
| Adequate demonstration: (4 point range): | Good overall demonstration, but may be lacking in one or two of the criteria specified in an exemplary response. May seem a little less prepared or somewhat unclear in understanding the Active Teaching Model. |
| Marginal demonstration: (3 point range): | Demonstration includes required elements, but evidences a limited understanding of the Active Teaching Model or measurable objectives. Style, handouts, or visual may be less than adequate. |
| Inadequate demonstration: (1-2 point range): | Weak overall demonstration that reflects very little knowledge of the Active Teaching Model and/or learning objectives. Appears poorly prepared or has not followed directions. Materials and activities are lacking. |
| Unacceptable: (0 points): | No demonstration or completely unsatisfactory demonstration with no relevance to assignment. |

Strategy Application Written Assignment – *May 12*th (45 points) *Required Signature Assignment*

The strategy application written assignment is a multi-part project. Student performance on this project will be greatly enhanced by carefully reading and following the detailed directions below.

**Select an intervention research article from a professional journal** (e.g. *Learning Disabilities Research and Practice, Behavioral Disorders, Education and Treatment of Mental Retardation,* and *Developmental Disabilities*) and have it approved on *Wednesday, March 17*th. The focus of the article must include support for an elementary level research-based strategy for teaching reading, language arts, math, science, social studies, and social skills for
individuals with mild disabilities; or the focus must be on cognitive strategies in self-regulation and metacognition, study skills, attention, memory, or motivation for individuals with mild disabilities. If you have any difficulties, see the instructor for guidance in selecting an article. The important part is that your research article must be approved prior to beginning your assignment. You may want to email the instructor with the complete article citation and a brief description before class on the 17th.

Read the article thoroughly. As you read the article, think about the following: Try to describe carefully the intervention(s) that was implemented in the study. There may be several interventions being compared within a single study, so be sure to try to describe the differences among the instructional conditions. Try to describe the results of the study. Which instructional condition worked best? Also, try to remember the types of students that participated in the study. For example, were the participant's elementary aged students with emotional disturbances (ED), with learning disabilities (LD), with physical disabilities (PD), or with autism?

Implement this intervention in your own class or that of another teacher and describe the results. You will have approximately 6 weeks to complete this whole project, so make sure your intervention takes no more than 4 weeks to implement. Your paper should describe what was done in your classroom. Describe the participants (DO NOT use any student names, however, provide a brief description of the class, school, and students), method (including materials and procedures), and results (e.g., results of pre-post testing and student opinion survey). You need not replicate exactly the conditions of the article, but you may include similar or modified materials from the article in order to implement the project.

The actual written paper should be about 8-10 pages in length, not including any appendices.

Type the paper using the following format:

1. **Cite** the article. For the citation of the article use APA format. This web site is an APA reference (5 points)
   http://linguistics.byu.edu/faculty/henrichsenl/apa/apa01.html
   (Using your APA manual is also highly recommended.)

   **EXAMPLE CITATION:**

2. Provide a **WRITTEN SUMMARY** of the research article. Do not simply copy the abstract, but attempt to rewrite in your own words what was
undertaken in the study. Below is a very brief sample – your summary will probably be one to two pages double-spaced. (10 points)

**EXAMPLE WRITTEN SUMMARY:**
Malone and Mastropieri (1992) compared the effects of three reading comprehension strategies on the performance of 45 middle school students with learning disabilities. The three reading comprehension strategies were: (a) a summarization strategy, (b) a summarization strategy plus self-monitoring, and (c) traditional instructional procedures. All students were pre and posttested on the types of strategies that they typically use for reading comprehension, and questioned about the strategies they were using during the second day of training. All students were also posttested using reading materials similar to those used during training, which were narrative passages, and on social studies passages, or expository prose passages. Results indicated that students who were trained to use the summarization strategies outperformed students who used the traditional instructional procedures on all measures. In addition, students who were trained in the self-monitoring plus summarization strategy outperformed those students in the summarization alone strategy on the transfer measure that used social studies passages.

3. The **Intervention/Strategy** should be described first in detail here with any and all **MATERIALS** described!! Then...lead into a detailed description of the **PROCEDURES/METHODS** that occurred during YOUR application of the strategy. Please make note as to how you amend the procedures/materials/ or other from the article you selected. For example, perhaps there were multiple components of the original intervention/strategy, but you modified a component or selected only a few steps of the strategy. (10 points)

**EXAMPLE PROCEDURES/METHODS:**

---

All Conditions
All conditions received two days of training and one day of testing and all students were seen individually for instruction.

Summarization Condition
Students in this condition were taught to ask themselves two questions after reading text: (1) Who or what is this paragraph about? and (2) What is happening to them? Students were also taught that a summary sentence "tells what the whole passage is about in a few words" (p.273). Students were taught to use their answers from the two questions to write their summary sentences on blank lines that had been inserted in between paragraphs. Instruction and practice was provided using this procedure for two days.

Summarization Plus Self-Monitoring Condition
Students in this condition were taught the exact same strategy as those in the
summarization condition, but also taught to use a self-monitoring strategy as well. After students were taught the summarization strategy on day one, they were taught to use a self-monitoring card to help them to remember to implement the steps of the summarization strategy. For example, students were taught to place a check mark on a card that listed each strategy step as each step was completed. The card contained the questions:

"Who or what is the passage about?"

"What is happening to them?"

Students were required to check-off steps on the monitoring cards as they completed steps. Day two students received review on the procedures from day one and continued to practice using the strategies.

Traditional Instruction Condition
Students in this condition previewed stories and practiced vocabulary words identified by the publisher. Then they read the passages and answered questions about the passages throughout the two-day training sessions.

Note: this section will vary according to the design used in your particular study. Contact the instructor if you have any questions concerning how to adapt this format to the design employed in your study.

4. Describe all of the RESULTS and provide a discussion of your findings. The first few sentences can provide summary accounts of your findings. You should present your findings in comparison to the results found in the original article. Your results can be qualitative (written descriptions) and/or quantitative (numerical measurements). Choose how you describe results based on how the results are described in the original article. In terms of quantitative results, students are only expected to collect raw numbers, calculate percentages, and complete other simple mathematical calculations for comparison purposes with the original article. Complex statistical calculations are not expected. (10 points)

EXAMPLE: …the addition of a self-monitoring sheet for increasing attention appeared to dramatically improve the attention and academic performance of my students with MR and LD during math, but not during reading. I measured rate of attention by…..I measured academic performance with a pre-post test.….

5. Then, EVALUATE and provide some insights as to why you might have obtained the findings. Describe how you could adapt the strategies to go up and/or down in grade/age and ability levels. For example, if the study was implemented with students with LD from an elementary level, could you adapt the strategy for students with ED and still maintain the
effectiveness? How could you adapt the strategies to accommodate students from various cultural and linguistic backgrounds? Describe whether or not you like this strategy personally and provide a rationale for your professional opinion. Use your judgment based upon class discussions, readings, and experiences. (10 points)

</thead>
<tbody>
<tr>
<td><strong>Exemplary paper (42.5-45 points):</strong> Appropriate research article, appropriate topic, identifies focus of the research study, strategies, and findings. Describes how the strategy was implemented in your own or colleague’s classroom (participants, setting, materials, procedures, and results); interventions are clearly described and thoroughly understood; appropriate discussion of findings, and discussion of implications of this intervention for students and how this intervention may be used for future students. Paper is reflective and demonstrates a thorough understanding of the research supported intervention strategy. Good writing style, free of mechanical or stylistic errors, appropriate use of APA format.</td>
</tr>
<tr>
<td><strong>Adequate paper (40.5-42.5 points):</strong> Good overall paper, lacking in one or two of the criteria. Not entirely reflective or thoughtful, or minor writing style errors may be present.</td>
</tr>
<tr>
<td><strong>Marginal paper (39-40.5):</strong> Overall, acceptable but with one or more significant problems. Contains some useful information, but may have substantial problems with evaluation, writing style.</td>
</tr>
<tr>
<td><strong>Inadequate paper (1-39):</strong> Paper with substantial problems in important areas such as writing, description of interventions, overall thoughtfulness.</td>
</tr>
<tr>
<td><strong>Unacceptable/no paper: (0 points):</strong> Paper not relevant to the assignment or no paper turned in at all. May describe an article of no value or relevance, or that was not approved for this assignment.</td>
</tr>
</tbody>
</table>
Strategy Application Presentation – May 5th or May 12th (5 points)
1. Be prepared to present a 5-minute oral summary of your Strategy Application Written Paper. Presentation elements should incorporate all major parts of your Strategy Application Written Paper.
2. Prepare a 5-7 slide Powerpoint for your presentation – please provide a digital copy for the instructor in the Blackboard digital dropbox prior to the start of class on the due date.
3. Prepare materials to use in your presentation.

<table>
<thead>
<tr>
<th>RUBRIC for Strategy Application Presentation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exemplary presentation: (5 point range): Keeps within the time limits; demonstrates knowledge of research topic and is able to effectively convey information to audience; reflects poise, clarity, knowledge and enthusiasm; effective use of prepared materials; keeps the audience engaged</td>
</tr>
</tbody>
</table>

Adequate presentation: (4 point range): Good overall presentation, but may be lacking in one or two of the criteria specified in exemplary response. May seem a little less prepared or somewhat unclear in understanding of topic.

Marginal presentation (3 point range): Presentation provides relevant information, but demonstrates a limited understanding of topic or project. Style or visuals may be less than adequate.

Inadequate presentation (1-2 point range): Weak overall presentation that reflects very little knowledge of topic or project. Appears poorly prepared or has not followed directions. Visual aids are lacking.

Unacceptable: (0 points): No presentation or completely unsatisfactory presentation with no preparation evident.
