COURSE DESCRIPTION Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others.

COURSE OBJECTIVES
At the completion of this course students should be able to:

1. Identify and articulate the artistic genres/methods influencing perceptions of and attitudes towards nature;
2. Identify and articulate the philosophical, historical, and cultural context within which perceptions of and attitudes towards nature have evolved;
3. Describe how various subgroups of individuals have interacted with nature throughout history;
4. Articulate the various perspectives individuals have expressed toward the natural environment;
5. Verbally and visually illustrate their personal views of the natural environment; and
6. Discuss key events contributing to current views of the natural environment.

Further, upon completion of this course, students will meet the following professional accreditation standards:

- National Recreation and Park Association Council on Accreditation standards met:
  7B.03 Understanding the principles and practices of stewardship and use of natural resources and the ability to interpret them to the general public, particularly as related to the public's role in stewardship
  9B.01 Understanding of the history and development of natural resources recreation policies and their implications for recreation resources management

COURSE OVERVIEW
Since your contributions are such an important part of this course, we’ll all be expected to actively participate in class discussions, complete in-class exercises, and fulfill all assignments on time. Assignments will be due at 9:00 a.m. on the specified date due. Assignments received AFTER 9:00 a.m. will be considered late and receive a 20% deduction in points per 24 hour period. If you have an extreme emergency there may be some exceptions; however, you’ll need to discuss these issues with me prior to the due date to be considered for exception. I also recommend you make back-up copies of your assignments since computers have been known to crash at the most inopportune moments.

Because we are engaging in an online course, communication is a critical component; therefore, I ask that you check http://courses.gmu.edu regularly for course communications.

ACADEMIC INTEGRITY
GMU is an Honor Code university; please see the University Catalog for a full description of the code and the honor committee process. The principle of academic integrity is taken very seriously and violations are treated gravely. What does academic integrity mean in this course? Essentially this: when you are responsible for a task, you will perform that task. When you rely on someone else’s work in an aspect of the performance of that task, you will give full credit in the proper, accepted form. Another aspect of academic integrity is the free play of ideas. Vigorous discussion and debate are encouraged in this course, with the firm expectation that all aspects of the class will be conducted with civility and respect.
for differing ideas, perspectives, and traditions. When in doubt (of any kind) please ask for guidance and clarification.

> “Reading about nature is fine, but if a person walks in the woods and listens carefully, he can learn more than what is in books…” George Washington Carver

> “Nature has no mercy at all. Nature says, 'I'm going to snow. If you have on a bikini and no snowshoes, that's tough. I am going to snow anyway.'” Maya Angelou

> “We need wilderness whether or not we ever set foot in it. We need a refuge even though we may never need to go there. We need the possibility of escape as surely as we need hope.” Edward Abbey
