PREREQUISITES: PRLS 460 and 90 credits, graduate status, or permission of instructor.

COURSE DESCRIPTION: Selected legal issues involving conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions.

COURSE OBJECTIVES: At the completion of the course, students should be able to:

1. Define the role of the courts in balancing conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources.

2. Analyze the relevance and significance of specific facts in a particular case involving the acquisition, management and preservation of natural resources, specifically public park and recreation resources.

3. Identify the issues/questions of natural resources law to be resolved by the court in a particular case involving the acquisition, management and preservation of natural resources, specifically public park and recreation resources.

4. Identify the relevant sources and rules of law applied by courts to resolve issues of natural resources law involving the acquisition, management and preservation of natural resources, specifically public park and recreation resources.

5. Describe the legal analysis and methodology applied by courts to resolve issues of natural resources law, including the role of cases, regulations, legislative materials, and other relevant law related information used by courts to resolve natural resources law issues.

Further, upon completion of this course, students will meet the following professional accreditation standards:

Council on Accreditation of Parks, Recreation, and Tourism Related Professions standards met

9A.01 Understanding of and ability to apply organizational and political techniques to foster meaningful and principled relationships with boards, commissioners, staff; governmental, non-profit and private organizations; and the public to enhance leisure service opportunities.

9A.03 Understanding of the use of the law in management of leisure services, including land management, personnel, human rights, financing, and risk management.

9B.02 Understanding of the process of natural resources recreation policy development and its implications for recreation resources management.

9B.05 Understanding of the body of law governing natural resources recreation management and its applications in natural resource settings.
Understanding of the use of the law in management of leisure services, including risk management, land management, human rights, financing, and personnel.

REQUIRED READINGS & CLASS ITEMS:

The "textbook" in this course is a compilation of case reports and related articles which I have written, in particular my monthly "NRPA Law Review" column in *Parks & Recreation* magazine (the official publication of the National Recreation and Park Association). These case reports and related articles will be available for reading, downloading and printing on the PRLS 501 site of my GMU homepage at the following address: http://classweb.gmu.edu/jkozlows/501.htm

ACADEMIC INTEGRITY: I take the GMU Honor Code very seriously. Allowing students to take PRLS 501 exams off campus on a more flexible schedule is a privilege which PRLS 460 students have traditionally appreciated and have conducted themselves responsibly, but it may be subject to abuse. I expect every PRLS 501 student to know and adhere to their personal duties and responsibilities under the GMU Honor Code.

Individual exam questions on each exam are randomly selected by Blackboard from question sets in the PRLS 501 question database. As a result, while testing a student's understanding of a similar principle in each question, no two exams are identical. Moreover, Blackboard provides extensive data on each exam to determine any irregularities on individual exams and identify patterns which may indicate collusion among students on PRLS 501 exams.

I am, therefore, able to examine each exam and/or exam question to determine whether there are irregularities that warrant further investigation pursuant to the Honor Code. Moreover, any irregularities could artificially inflate and skew the scores on individual exams and questions which might produce an adverse effect on the course curve to the detriment of individual students and the class as a whole.

Accordingly, you are reminded that the Honor Code is in effect for all exams in PRLS 501 on Blackboard. Further, to clarify and reiterate, no collaboration or group participation whatsoever is permissible during PRLS 501 examinations.

All PRLS 501 exams are open book, but you are limited to primary course materials and video lectures posted to the PRLS 501 course webpage, as well as your own notes prepared prior to the exam. The use of any other study aids, memoranda, books, data, or other information during PRLS 501 exam is prohibited.

Further, you are not to discuss the exam with any other student during or after the time which the exam is accessible. Providing or reproducing any information to another student about any questions on a PRLS 460 exam would constitute cheating within the context of the Honor Code, i.e., unauthorized use of study aids, memoranda, books, data, or other information. Such unauthorized information may provides individual students with an unfair advantage over other students in preparing for exams. Moreover, prior to each exam, practice questions taken from the PRLS 501 exam question database are made available to the entire class on Blackboard, providing an equal opportunity to prepare for the type and format of questions for each exam.

Responsibility of the Students

Students are responsible for understanding this PRLS 501 policy with regard to the Honor Code. Students are also responsible for understanding the provisions of the Honor Code. Students should also request an explanation of any part of the policy they do not understand.

All students have a duty to report to a suspected violation of the Honor Code to the course instructor.
GMU Honor System and Code
http://www.gmu.edu/catalog/9798/honorcod.html
Cheating encompasses the following:

The willful giving or receiving of an unauthorized, unfair, dishonest, or unscrupulous advantage in academic work over other students.

The above may be accomplished by any means whatsoever, including but not limited to the following: fraud; duress; deception; theft; trick; talking; signs; gestures; copying from another student; and the unauthorized use of study aids, memoranda, books, data, or other information.

Attempted cheating.

George Mason University shares in the tradition of an honor system that has existed in Virginia since 1842. The Honor Code is an integral part of university life. On the application for admission, students sign a statement agreeing to conform to and uphold the Honor Code. Therefore, students are responsible for understanding the provisions of the code. In the spirit of the code, a student's word is a declaration of good faith acceptable as truth in all academic matters. Therefore, attempted cheating, plagiarism, lying, and stealing of academic work and related materials constitute Honor Code violations. To maintain an academic community according to these standards, students and faculty must report all alleged violations of the Honor Code to the Honor Committee. Any student who has knowledge of, but does not report, an Honor Code violation may be accused of lying under the Honor Code.

COURSE OVERVIEW:

Through the case study method, this course examines the role of the courts and federal and state law in addressing a variety of issues involving the acquisition, management and preservation of natural resources, specifically public park and recreation resources. Natural resource law will be defined by the administrative and environmental review process used by citizens and interest groups to challenge governmental actions. Further, the course will examine the mission and authority of individual federal resource agencies within the context of specific environmental and resource conservation laws. In particular, this course will examine a number of natural resources legal issues involving recreation resources on federal lands.

EVALUATION: 3 EXAMS on Blackboard (open book, weighted equally, each exam worth 33.3%)

Grading Scale

Final grades are based on the percentage of points earned out of the total number of points available on all four exams as follows:

Range  out of 150 possible pts on 3 exams

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>

**ASSIGNMENTS:** Students are expected to read and study the required readings for each unit as well as view the televideo lecture which accompanies each unit. [CLICK Webstream PRLS 460 Video Lectures (on demand) GMU-TV website](http://universitypolicy.gmu.edu/1301gen.html).

In addition, to prepare for each exam, students are encouraged to access and complete the practice questions provided on Blackboard.

- Students must adhere to the guidelines of the George Mason University Honor Code [See http://academicintegrity.gmu.edu/honorcode/].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].
- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/1301gen.html].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.
- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].
- For additional information on the College of Education and Human Development, School of Recreation, Health, and Tourism, please visit our website [See http://rht.gmu.edu].
COURSE SCHEDULE:

Unit One:

National Environmental Policy Act (NEPA) and Section 4(f)
(Webstream Lectures 1A & 1B for Spring 2010)

Video Lecture Notes pdf files: NEPA notes  Audubon v. Dailey  Boomer Lake  Sec. 4F Amendment  4F Regs.

Required Reading:
Clean Water Act Permit Ignored Adverse Impacts on Park Environment

Environmental Challenge To Federal Highway Project Through Park

Parkland Protection "Paramount Importance"

Political Reversal on National Park Gun Ban

RELATED LINKS:

National Environmental Policy Act (NEPA)

RELATED LINKS: Environmental regulations for applying Section 4(f) 23 CFR 771.135
