ECED 405/EDSE 405: Introduction to Early Childhood Special Education (3:3:0)
Fall 2011 Thursday 7:20 pm – 10 pm Innovation Hall # 206

Instructor: Kimberly Sopko, Ed.D.
Office: Robinson A 103A
Telephone: 757-348-5051
Email address: ksopko@gmu.edu
Office hours: by appointment

Course Description
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes historical factors and legislation affecting service delivery.

Note: Field experience required.

Nature of Course Delivery
The class will have lecture, discussion, and group work formats and will require active participation of all students.

Learner Outcomes
This course is designed to enable students to do the following:

1. Explore the philosophical, social, cultural and legal factors that have shaped and continue to affect education, and specifically early childhood special education, in the United States.
2. Describe the legal and historical development of the field of special education and in education in general.
3. Discuss issues and trends in special education, including legislation and litigation, including legislative and judicial mandates related to education and special education (e.g., the Individuals with Disabilities Education Act, § 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, the No Child Left Behind Act of 2001, Assistive Technology Act and use of innovative technology.
4. Demonstrate an understanding of evidence-based principles that influence education, including early childhood special education.
5. Describe factors that place young children at-risk for disabilities.
6. Describe characteristics of major handicapping conditions.
7. Describe the role of assessment in identification, eligibility, and service delivery for young children and their families.
8. Describe current regulations and procedures governing special education to include individualized education program (IEP) development and individualized family service plan (IFSP).

9. Describe typical settings and service delivery models appropriate for work with infants, toddlers, and young children who are at-risk or who have disabilities and their families.

10. Demonstrate an understanding of models of interpersonal and inter-professional collaboration in working with families on behalf of their young children.

11. Demonstrate person-first respect and understanding of young children and their families.

12. Consider critically course topics and readings through the lens of services for children and families from diverse cultural and linguistic communities.

13. Explore social development issues related to major disabling and at-risk conditions.

Professional Standards
This course is aligned with the standards established by the Council for Exceptional Children (CEC).

Required Texts

Recommended Texts

College of Education and Human Development Expectations and Resources
Student Expectations
- Students must adhere to the guidelines of the George Mason University Honor Code [See http://academicintegrity.gmu.edu/honorcode/].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].
- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/1301gen.html].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
• Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
• Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources
• The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].
• The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See http://gse.gmu.edu/].

Note: To determine whether the campus is closed due to inclement weather, call 703-993-1000 or go to www.gmu.edu.

College of Education and Human Development Core Values
In the context of an enduring college-level and university-level commitment to teaching, research and service, the College of Education and Human Development also holds the following core values:

Collaboration
Collaboration is an important human activity that involves shared responsibility in promoting healthy, productive lives and educational success. We commit ourselves to work toward these goals in genuine partnerships with individuals, families, community agencies, schools, businesses, foundations, and other groups at the local, regional, national and international levels.

Ethical Leadership
In all professions represented by the college, leadership is an essential component denoting ability and willingness to help lead professional practice to higher levels. We commit ourselves to practice ethical leadership through deliberate and systematic attention to the ethical principles that guide all leaders in a moral society.

Innovation
We have a history of creating dynamic, innovative programs and we are dedicated to continue creating innovative approaches in all areas of our work. We commit ourselves to seeking new ways to advance knowledge, solve problems, improve our professional practice and expand on our successes.

Research-Based Practice
The best practice in any discipline is based upon sound research and professional judgment. We commit ourselves to basing our instruction, scholarship and policy recommendations on well-
established principles that, wherever possible, emerge from research and reflection on its implications for professional practice.

**Social Justice**

Social justice embodies essential principles of equity and access to all opportunities in society, in accordance with democratic principles and respect for all persons and points of view. We commit ourselves to promoting equity, opportunity, and social justice through the college's operations and its missions related to teaching, research, and service.

**Course Requirements**

**General Requirements**

1. The completion of all readings assigned for the course is assumed. Because the class will be structured around discussion and small group activities, it is imperative that students keep up with the readings and participate in class.
2. Class attendance is important. If, due to an emergency, students will not be in class, they must call the instructor and leave a message.
3. The university requires that all pagers and cell phones be turned off before class begins. All in-class usage of electronic devices, which includes telephones, laptops, etc., must have approval of course instructor. Laptops and other electronic devices are to be used for educational and learning purposes only and should not be used during class time to check email, surf the web, or communicate with people outside of the class unless part of the class activity.
4. It is expected that assignments will be turned in on time (the beginning of the class in which they are due). However, it is recognized that students occasionally have serious problems that prevent work completion. If such a dilemma arises, students should speak to the instructor in a timely fashion.

**Attendance**

Attendance in class is important to students’ learning; therefore, students are expected to make every effort to attend class sessions. Absences, tardiness, and leaving early may negatively affect course grades. The following policy is from the university course catalog:

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor’s grading policy, as stated in the course syllabus.

**Written Assignments**

All written assignments prepared outside of class will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt,
they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library web guide at http://library.gmu.edu/resources/edu/. Students may consult the Writing Center for additional writing support.

Students will do the following:
1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.

**Grading Criteria**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>95 – 100</td>
</tr>
<tr>
<td>A-</td>
<td>90 – 94</td>
</tr>
<tr>
<td>B+</td>
<td>87 – 89</td>
</tr>
<tr>
<td>B</td>
<td>83 – 86</td>
</tr>
<tr>
<td>B-</td>
<td>80 – 82</td>
</tr>
<tr>
<td>C</td>
<td>70 – 79</td>
</tr>
<tr>
<td>D</td>
<td>60 – 69</td>
</tr>
<tr>
<td>F</td>
<td>&lt; 60</td>
</tr>
</tbody>
</table>

A+ is possible if work is of exceptional high quality above and beyond that required for the course.

**Grading Policy**

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at http://catalog.gmu.edu. Those students enrolled in a CEHD Licensure Graduate Certificate program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

**Submission of Performance-Based Assessment**

This course has a Program Performance-Based Assessment (PBA) that MUST be uploaded and submitted to Task Stream for evaluation when the assignment is due. **Only PBAs posted to TaskStream will be graded.** This means that NO final grades will be posted until all materials are on Task Stream.

### Assignments

#### Attendance and Participation (15 points)

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class learning experiences as is evidenced by (1) participating in all activities, (2) engaging in small and large group discussions, (3) completing written work related to the activities, and (4) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class discussions, activities, and written reflections.

#### Websites / Resources (5 points)

Students will identify 5 websites and/or resources that describe federal legislation and/or state regulations relevant to special education and/or individuals with disabilities (e.g. Individuals with Disabilities Education Improvement Act; Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, the No Child Left Behind Act of 2001, the Assistive Technology Act). One of the websites must be user-friendly for parents—help parents understand legislation, shares related information and identifies additional resources for parents. For each website, student will provide the URL, the name/title of the website, and a brief summary of how the website is useful for understanding the field of early childhood special education.

#### Pamphlet About a Disability (20 points)

Students will develop a pamphlet that can be used by families as a resource for understanding the complex nature of a disability that a preschool child might have. They will include the following: 1) the defining features/characteristics of the disability; 2) how it is expressed from birth through age five across the main developmental areas (Social-Emotional, Language and Literacy, Cognitive, Physical, and Sensory Areas); 3) major services usually provided; 4) whether medicines are used, which ones, and why; 5) the typical specialists that serve these children; and 6) good sources for more information.

</tr>
</tbody>
</table>

---
Students will post their pamphlet on the Blackboard site after correcting edits provided by instructor. They will be prepared to discuss their pamphlet in class and will bring enough copies for the class and the instructor. In addition to the pamphlet, students will prepare a brief (one-page) paper for the professor in which they 1) identify differing perspectives of disabilities by families from diverse cultural and language groups and 2) list references they found especially useful and will provide a brief annotation for each.

**Critical Issues Presentation (30 points)**

With a partner or small group, students will research a current topic/issue in the field of early intervention and early childhood special education. Group members will research the topic and prepare an in-class presentation to help the class better understand the nature of this issue and how it is currently being viewed. The session should be structured like a ‘Parent Information Session’ about the group’s particular topic.

Students must send a detailed agenda for their presentation with a brief description of the activity, the power point presentation (if one is used), and any links to videos or other supporting materials by **5:00 pm the Tuesday BEFORE** their group presentation.

Students will **e-mail a teacher/parent friendly** article to instructors and classmates by **5:00 the Monday BEFORE** their group’s presentation. All students are expected to read the article prior to the group presentation.

On the night of their presentation, students are to bring to class a handout that contains the following:

1) an agenda (for **ENTIRE class**)
2) an annotated resource list (ten references, which were reviewed by the GROUP—with 5 peer reviewed research based articles/book about research & 5 teacher/parent-friendly articles/books; the resource list must also be provided in digital form (may be emailed) to the instructor so it can be posted on Blackboard.

The presentation MUST be ONLY **45 minutes** and structured to engage classmates in one VERY meaningful and memorable activity to help them better understand and remember the issue.

Topics include the following: Disproportional representation of African American and Latino children in special education; services to children whose home language is other than English; services for young children with autism; inclusive services in early education; challenging behaviors; RTI – response to intervention; transition; assistive technology.

**Early Childhood Special Education Take-Home Final Examination (30 points)**

This is the NCATE 1 Content-Based Assessment that shows evidence of meeting CEC Standards. This assignment must be submitted on TaskStream. **See the assessment description and scoring rubric attached.**

Early Childhood Special Education NCATE Assessment 1 Content-Based Assessment

Early Childhood Special Education Take-Home Final Examination

Early Childhood Special Education NCATE Assessment 1 Content-Based Assessment is the Early Childhood Special Education Take-Home Final Examination in ECED 505 Introduction to Early Childhood Special Education. This assessment shows evidence of meeting CEC Standard Elements 1a, 1b, 1d, and 3a.

Assessment Overview

In this assessment, students will analyze and respond to questions about a selected case study to demonstrate understanding of philosophies and theories, laws and policies, diverse points of views, and human issues and their impact on educational services for and treatment of individuals with disabilities. Students will do the following:

- Review two case studies and select one to analyze
- Provide reactions to the case study and identify issues and important aspects to consider
- Discuss historical, philosophical, and legal issues
- Discuss developmental issues and expectations and the effects of the child’s exceptional condition
- Discuss assessment, instruction, and classroom environmental issues to consider
- Discuss cultural and familial issues to consider
- Discuss contrasting perspectives, including views of the family, school, school system, and other agencies.
- Provide recommendations and next steps
- Reflect upon the case study exercise and how it affected and/or changed their view of special education, disabilities, culturally and linguistically appropriate services, and their role as an educator

CEC Standard Elements Assessed

**CEC 1a** Impact of philosophies, evidence-based principles and theories, relevant laws and policies, diverse and historical points of view, and human issues on the education and treatment of individuals with exceptional needs both in school and society

**CEC 1b** Impact of philosophies, principles, theories, laws, policies, points of view, and human issues on professional practice, including assessment, instructional planning, implementation, and program evaluation

**CEC 1d** Relationships of organizations of special education to the organizations and functions of schools, school systems, and other agencies

**CEC 3a** Effects that an exceptional condition can have on an individual’s learning in school and throughout life
Students will respond to each of the following steps and questions for the Early Childhood Special Education Take-Home Final Exam.

**Step One:** Students will review two case studies and select one of the two cases (Raymondo or Carlos) to analyze.

**Step Two:** Students will provide an in-depth analysis of this case based on the information provided, course readings, course sessions, and individual and group presentations. Students may extend beyond what is written to what they might expect, based on their understanding of typically developing children, of disabilities, and of recommended practices. They will provide support with specific references to course readings, course discussions, course lectures, films, and the presentations of other students.

- **Section I: Reactions** Students will respond to the following:
  a. What is their initial reaction to this case and why?
  b. What do they see as the key issues?
  c. If they were a new teacher and were going to be working with this child, what do they think is important to consider?

- **Section II: Discussion** Students will discuss this case in the light of larger issues in the field. (CEC 1a, 1b, 1d, 3a). In particular, they will address the following:
  a. Historical, philosophical, and legal issues that may have affected or continue to affect educational services for this child in both a school setting and the community
  b. Developmental issues and expectations and the effects of the exceptional condition on the individual’s ongoing learning throughout school and life
  c. Assessment, instruction, and classroom environmental issues that may need to be considered based on the individual’s learning needs
  d. Cultural and familial issues to be considered
  e. Contrasting perspectives related to serving this child that might be representative of current issues in the field, being sure to consider a special education system/organization and a school, school system, and other agencies

- **Section III: Recommendations** Students will identify, based on their discussion of the issues, what they would recommend as an appropriate response and next steps in this case.

- **Section IV: Reflection** Students will identify issues that came up for them as they completed this assignment and respond to the following:
  a. What do they see differently?
  b. How did completing this exam affect their view of special education, of disability, of culturally and linguistically appropriate services, and of their role as an educator?
