E-Mail: bwoody@gmu.edu
Mailing Address: GMU-EDLE
4085 University Drive, MSN 4C2
Fairfax, Va. 22030

Office Hours: Tuesday and Wednesday, 1-3 pm

Schedule Information

Location: Innovation Hall Room 316
Meeting times: 4:30-7:10

Course Description: EDLE 620 (Organizational Theory and Leadership Development 3:3:0)

Studies basic organizational theories and models of leadership and management. Emphasizes shared leadership in professional environments, communication skills, and the process of personal and organizational change. Bridges theory to practical applications in educational settings.

Course Delivery

Class sessions will consist of brief lectures, discussions, and role playing. Students will benefit from and contribute to the learning experience to the extent that they are prepared and ready to participate in each class meeting.

National Standards and Virginia Competencies

EDLE 620 addresses a variety of the ELCC Standards, focusing primarily on the following:

ELCC Standards:

ELCC Standard 1.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.
1.2 Articulate a vision
1.3 Implement a Vision
1.4 Steward a Vision
ELCC Standard 6.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

6.1 Understand the larger context

The Virginia competencies that are addressed are as follows:

a. Knowledge, understanding and application of planning, assessment and instructional leadership that builds collective professional capacity, including:
   (7) Identification, analysis, and resolution of problems using effective problem-solving techniques;
   (8) Communication of a clear vision of excellence, linked to mission and core beliefs that promotes continuous improvement consistent with the goals of the school division.

b. Knowledge, understanding and application of systems and organizations, including:
   (1) Systems theory and the change process of systems, organizations and individuals, using appropriate and effective adult learning models.
   (2) Aligning organizational practice, division mission, and core beliefs for developing and implementing strategic plans.

e. Knowledge, understanding and application of the purpose of education and the role of professionalism in advancing educational goals, including:
   (3) Reflective understanding of theories of leadership and their application to decision-making in the school setting.
   (5) Intentional and purposeful effort to model continuous professional learning and to work collegially and collaboratively with all members of the school community to support the school’s goals and enhance its collective capacity.

f. Knowledge, understanding and application of basic leadership theories and influences that impact schools including:
   (1) Concepts of leadership including systems theory, change theory, learning organizations and current leadership theory.
   (2) Historical leadership theories including organizational theory, motivational theory, political and social systems theory to practical situations.
   (3) Identify and respond to internal and external forces and influences on a school.

Student Outcomes

Upon completion of this course, students will be able to: 1) Describe connections between leadership and organizational practices and theories, and apply them to current leadership challenges and opportunities 2) Articulate their core beliefs about teaching, learning and leading, and relate these to their vision of effective school leadership 3) Demonstrate an understanding of a variety of effective strategies for bringing about personal and organizational change.

Course Objectives

Students participating in this course will understand organizational theory and development, and their connections with effective school research and practice. They will understand the change process, and begin to apply it. Students will also be expected to understand and articulate their beliefs about
leadership, its characteristics and traits, and how school leadership is changing in the second decade of
the twenty first century.

**Relationship of Course Goals to Program Goals**

The Education Leadership program is designed to prepare candidates for leadership and management
positions in a variety of educational settings. The program emphasizes an understanding of the
complexities of change in schools, communities and organizations. This is the first class in the licensure
sequence in EDLE and is therefore intended to introduce students to theory and practice in school
leadership. Theory introduced in this class will be used throughout the program to frame candidates’
thinking about leadership practice and decision making.

**Relationship of Course to Internship**

The internship experience for all students begins during the second semester of their enrollment in the
EDLE program. EDLE 620 does not include “imbedded internship experiences.”

**Course Materials**

*Readings- Required:*

*Readings- Highly Recommended:*

*Outside of Class Resources*

Online access is vital for the successful completion of this course and is important if we experience
school shutdowns due to the weather or other problems. **All students are now required to activate
their GMU e-mail accounts.** If you are uncertain as to how to do this, please see me. It is my expectation
that you will be fully competent to send and receive e-mail messages **with attachments.** IF your
computer at home or at school has spam blocking that will prevent you from seeing messages with
attachments, you are responsible for addressing this problem immediately.

All students are required to use [http://www.taskstream.com](http://www.taskstream.com) as part of this course. This is
an internet site at which I will post vital information for the course. Samples of student work will be
archived on this site for purposes of course, program and college assessment.

It is my expectation that all students have access to standard word processing software
that can be read by Microsoft Office 2007.
**Course Requirements, Performance-based Assessment and Evaluation Criteria**

**Attendance**
Students are expected to attend every class for its entirety. Maximum class participation points can only be earned by students who attend all classes, are on time, and do not leave early.

**General Expectations**
Consistent with expectations of a master’s level course in the Education Leadership Program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:
1. Application of concepts reflected in class discussions and readings
2. Original thinking and persuasiveness
3. The ability to write in a clear, concise and organized fashion.

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of various performances are as follows:

**Class Participation (20 points)**
Students are expected to actively participate in class role plays, discussions, and during all large and small group activities. Attendance is expected for all classes. If you must be absent, please notify me by e-mail or telephone. More than one absence will result in a reduction in participation points. Arriving at class late or leaving from class early may result in a loss of points.

There will be numerous opportunities for students to demonstrate initiative during EDLE 620. Some examples include: Volunteering to lead small group class time activities; Reporting out small group findings to the entire class; Verbally questioning and/or challenging others’ assumptions and stated beliefs during class discussions; Specifically citing and using previously learned materials; and Initiating discussion and student-to-student interaction.

**Assignment  #1 - Platform of Beliefs Project (30 points)**
Students will identify the core beliefs that support the foundation of their professional practice and decision-making. For this project, each of you will be involved in “presenting” (Phase one) these beliefs, as well as “reacting” (Phase two) to the beliefs presented by one of your colleagues.

**Phase one---** will consist of a brief *presentation* during class time, in which you will address the following three components:
1) Identify and state 3 or 4 core beliefs that are important to you (teaching, learning, leadership, etc)
2) For each belief stated, explain why it is important, and how it connects to your other stated beliefs
3) For each belief stated, describe how it does and/or will impact your behavior as a school professional. How do/will others learn about your beliefs as a result of your behaviors?

For this presentation during class time, you will play the role of a recently hired assistant principal at George Mason Elementary School (your call to change this to a middle or high school). Your principal has asked you to introduce yourself to your new faculty during the first day of pre-school workshops. He/she has requested that your brief introduction include your beliefs, and how they might impact the ways that you will be providing leadership with your new faculty (per #1 thru #3 above). Your principal is very task-oriented and has only *allotted five minutes* max for your introduction (as you are aware, you
are on the pre-school workshop agenda as a presenter later in the week...at which time you will have an opportunity to more fully work with your new staff and develop relationships.

Your principal has reinforced the importance of making a positive first impression during your five minutes, and has suggested that you should feel free to be creative, using any handouts, posters, props, etc that may be appropriate (not required---your call!) You principal has requested that you not plan on using power points, other computer-based software programs, or videos for this brief presentation.

Phase two--- Each student will be required to take notes and subsequently prepare a written reaction paper relating to a presentation by one of your colleagues (you will receive information at the beginning of the class as to which student presentation will be the subject of this required paper.) Your paper will be addressed to the student, and will cover the following three elements:

1) Did your classmate address each of items #1, #2, and #3 from above?
2) From the perspective of a faculty member at George Mason, describe the first impression that your new leader made with you. Did he/she connect with you—why/why not?
3) What constructive criticism can you offer to your new assistant principal (regarding “product” (content) or “process” (the presentation)

NOTE: Your paper will be due on September 21, one week after the presentations in class on September 28. You will address the paper to your cohort colleague and present it to him/her at the end of class, and provide a copy to me as well. Paper length- 2 pages minimum to 3 pages maximum.

Assignment #2 - Personal Best (20 points)

Students will review the opportunities and experiences that they have had as leaders. You will select one such experience in which you performed in an exceptional manner, and describe it in a 3-4 page paper. It is strongly recommended that this experience be connected to your professional life as an educator. In the event that you have difficulty in identifying such an experience, you may write about a community based scenario. You should avoid using and writing about a teacher-student situation.

Examples of acceptable personal best scenarios include:
Chairing a school or system-based committee; Accepting responsibility for leading one or more components of a School Improvement Plan
Preparing and presenting a professional development workshop or in-service
Mentoring a colleague
Accessing and managing resources
Collaborating with parents and/or the broader community; etc

There will be four required components of this personal best paper:
1) Description: Describe your personal best, stating who (by title) was involved, and in what roles. When and where did this scenario occur?
2) Why: Why did you become involved in a leading role? (did you volunteer, were you recruited?) Did you receive additional compensation for assuming this leader role?
3) Evaluate your leadership: Were you successful? What could you have done differently?
4) Compare and contrast with leadership models, traits, theory: Using the class discussion that we have had (and any outside resources you select), how were your leader behaviors consistent with the literature and/or studies on school leadership?

NOTE: Your paper will be due on October 21. Paper length- 3 pages minimum to 4 pages maximum.
Assignment #3 - Reframing Paper (30 points)

Students will reflect on the readings from Bolman and Deal, and thoroughly analyze a school improvement project or policy change that has occurred in their school and/or system within the past two years. This significant change in practice must be related to teaching and learning. Each student will complete a paper in which this authentic change scenario is analyzed using multiple frames (Bolman and Deal). There will be four required components of this paper:

1) **Description:** Describe the change scenario, by identifying and discussing the primary stakeholders who were involved as change agents, as well as the reactions of those who implemented and were otherwise affected by the change. Be clear as to when and where this change occurred. Discuss the rationale and goals, stated and assumed, for this change.

2) **Analysis #1-Frame this scenario:** Using one of the four Bolman and Deal frames/lenses, analyze this change, and conclude by stating whether or not it was successful (through the lens you selected). Clearly state the frame that you have selected, and cite specific assumptions* that are a part of the frame that you selected.

3) **Analysis #2-Reframe this scenario:** Select one or more of the other three frames, and analyze the change from a different perspective (as you selected). Was this change effort successful as viewed from a different frame/lens? Clearly state the frame(s) that you selected, and cite specific assumptions* that are a part of the frame that you selected.

4) **Implications:** What did you learn while using two (or more) different perspectives to reflect on the same scenario? What are the implications for your growth and development as an aspiring school leader?*--- During our class discussions, we have discussed the text-based assumptions that serve as the foundation for each frame.

NOTE: Your paper will be due on December 10. It is expected that you will use and cite several out-of-text resources as you describe your scenario and discuss your conclusions as to whether or not this change effort was successful. Paper length—5 pages minimum to 7 pages maximum.

ALL ASSIGNMENTS (except the peer to response to Platform of Beliefs) must be submitted by the posted due dates. Taskstream is an online assessment system used by the college to collect student work, provide feedback to students, and maintain an ongoing record of student assessment data. You will be provided with a Taskstream account and will use taskstream to submit work for courses, as well as to prepare and submit your internship portfolio.

LATE WORK: It is expected that all students submit work on time, no later than midnight of the due date. Late projects may be accepted in extenuating circumstances, and will result in a minimum of a one letter grade reduction.

Students may revise and re-submit graded work to improve their performance. Such revisions are due **no later than one week after** receiving my feedback on the previous draft. I may re-consider an assignment grade, but I will not negotiate grades with students.

COMMUNICATION WITH INSTRUCTOR: Feel free to address any/all class related concerns with your instructor. You may use e-mail, but a better beginning option is a personal contact (before class, after class or during the break---or a scheduled office visit). IMPORTANT NOTE: When using e-mail for any purpose, please use my gmu email account(bwoody@gmu.edu), and not the taskStream e-mail option.
GRADING SCALE:
A+  100
A   95-99
A-  90-94
B+  87-89
B   83-86
B-  80-82
C   75-79

College of Education and Human Development Statement of Expectations

-Students are expected to exhibit professional behavior and dispositions
-Students must follow the guidelines of the University Honor Code. See http://academicintegrity.gmu.edu/honorcode for the full honor code
-Students must agree to abide by the university policy for Responsible Use of Computing. See http://mail.gmu.edu and click on Responsible use of computing at the bottom of the screen.

-Students with disabilities who seek accommodations in a course must be registered with the GMU Disability Resource Center (DRC) and inform the instructor, in writing, at the beginning of the semester. See www.gmu.edu/student/drc or call 703-993-2474 to access the DRC.
