Course Description
EDCI 490 a full semester of intensive teaching experience in secondary education. The course is
designed to support the intern in planning, implementing, and reflecting on teaching in the
secondary setting. The intern supported by the university supervisor and cooperating teacher will
gradually take over responsibilities of teaching in a secondary classroom.

<td>No Credit—Intern will not be recommended for teacher licensure unless he/she repeats all or part of the internship with satisfactory performance. (This may require enrolling and paying tuition for additional credit hours in a subsequent semester, or paying a fee for extended supervision.)</td>
</tr>
<tr>
<td>IP</td>
<td>In Progress—Intern’s performance cannot be evaluated at the end of the grading period. IP grade can be changed to S or NC for graduate students, upon completion of requirements</td>

The Cooperating Teacher and the University Supervisor will determine interim and final grades jointly.

Assignments

The University Supervisor will have a minimum of 6 meetings throughout the semester with each intern, one pre-Internship meeting, four on-site visits, and one post-Internship meeting. In addition, it is expected that the intern will maintain weekly contact with the university supervisor to turn in log hours and other documentation to demonstrate progress.

Throughout the first 10-11 weeks of the Internship, the intern will co-teach and gradually assume more teaching responsibilities for the Cooperating Teacher’s classes. The intern should take responsibility for all or nearly all of the courses for the 4-5 week period following the co-teaching experience.

After the first week of internship experience, the intern should:
1) have a period-by-period schedule written out so it can be handed to your university supervisor. This schedule should indicate your teaching periods, subjects being taught, room number, the time each period begins and ends, your non-teaching periods, your cooperating teacher’s periods, and the time you and your cooperating teacher confer about your daily programs; A form for a period-by-period schedule is attached to the syllabus.
2) arrange a specific time and place for the university supervisor to visit with you and with your cooperating teacher.

During the first few days in your student teaching:
1) get acquainted with the classroom, its personnel, and its policies;
2) become accustomed to handling routine matters;
3) assist the cooperating teacher by helping in daily activities, work with small groups of pupils, make reports, read announcements, help a pupil who has been absent, arrange bulletin boards, etc.;
4) become familiar with a wide variety of instructional materials;
5) begin planning the first units of work you will teach;
6) learn as much as you can about the pupils in the classes you will teach;
7) set aside a definite time each day for conferring with the cooperating teacher about progress and for suggestions for improvement;
8) develop skill in management routines;
9) identify and use effective techniques for maintaining a good climate for learning;
10) become familiar with the policy related to writing unit and daily lesson plans, and routines for submitting these materials to your cooperating teacher and/or other personnel.

At the end of each week, interns should turn in their log hours and a summary of their focus topic.
Suggested topics are listed in the schedule below. The design of the topics helps you to focus your observations on items that will be useful to you when you assume more responsibilities in the classroom. Interns may choose other topics that are relevant to their work in the classroom. You will be taking in lots of information, this assignment is designed to help you process pertinent information for use in your classroom.

Two elements of learning should be included in the weekly summary:
1. Summary of the knowledge learned during the internship on the topic
2. How the topic will be implemented in the last 4-5 weeks of the internship

The format of your weekly topic is your choice, as long as it communicates the two elements listed above. Some suggestions for topics include
- A one page summary in narrative form
- A concept map linking ideas with implementation
- A case study of the topic with ideas for implementation

Log hours and weekly topics should be turned in the following Monday either electronically or by delivering a hard copy to campus.

Log hours are to be kept on Appendix O provided in your Intern Handbook.

Observations by University Supervisor
I will be coming to your classroom to observe your progress in assuming responsibilities for teaching at least 4 times. If you would like me to come and visit your classroom more than 4 times, I will be pleased to provide you with more feedback. This is a learning experience, so please accept me into your classroom as an extra pair of eyes, rather than an evaluator. I am there to provide feedback so that you can inform your instruction.
