Course Description: EDLE 610 Leading Schools and Communities (3:3:0)

This course examines critical functions of leadership and organizational management, complex decision making responsibilities of school executives, and constructive relationships between schools and communities. It incorporates historical, ethical, philosophical, and sociological foundations of American education and the impact of organizational structure on reform and student achievement. Practical and academic emphasis on leadership skill development and dispositions are interwoven through the course.

Nature of Course Delivery

A variety of instructional methods are used in this course including: large-and small-group instruction, cooperative learning activities, media use, Internet assignments, lectures, group presentation, individual research, case studies, simulations, and written and oral assignments.

General Goals

Content

All of the EDLE program goals are active, to a greater or lesser extent, in this course. The primary purposes of this course involve helping students to exercise leadership in the school and larger community within an explicit ethical framework. Candidates will deepen their understanding of (1) ethics applied to school and community leadership, (2) the use of research and development tools to lead schools and communities, (3) how organizations function, and (4) how leaders influence school change and improvement. Specific content includes:

1. Reviewing and expanding on the meanings of leadership and the role leaders play in change within the school community through attendance at various public meetings and interviews with school and community leaders.

2. Applying reframing skills to address, assess, develop solutions and make appropriate decisions regarding critical instructional, personnel, community and financial issues at the local school level through analysis of a variety of cases including the student's own school Improvement Plan.
3. Investigating political, financial, legal and instructional implications of an instructional issue as it relates to the needs, strengths and opinions of the local school community and school division through case studies, including the student's own School Improvement Plan and attendance at various public meetings.
4. Exploring educators' codes of ethics to identify and embrace a personal code.
5. Clarifying which framework(s) students find most useful for informing their own leadership styles and choices;
6. Applying skills, knowledge, and dispositions gained through the Education Leadership Program to the analysis of case studies and in role-playing exercises involving leadership behavior and school change as demonstrated through both written and oral assessments.

Teaching and Learning

Each class will include a variety of activities and exercises. Out-of-class work will rely in part on the use of TaskStream, and on the use of web-based resources created to complement the primary text. Specific process goals for the class are as follows:

1. Classes will reflect a balance of activities that encourage high quality, ethical leadership. To promote an atmosphere that allows us to accomplish this, we will:
 - a. Start and end on time;
 - b. Maintain (flexibly) a written agenda reflecting objectives for each class;
 - c. Agree to disagree respectfully during class discussions;
 - d. Strive to be open to new ideas and perspectives; and
 - e. Listen actively to one another.
2. Student work will reflect what is expected from leaders. As such, students are expected to:
 - a. write papers that are well researched, proofread, submitted in a timely fashion, and conform to APA guidelines;
 - b. participate actively in class discussions in a manner that challenges the best thinking of the class; and
 - c. provide constructive feedback to others both on their ideas and on their written work, striving to learn from each other and to test each other's ideas.
3. We will endeavor to create a classroom climate that approximates what we know about learning organizations. As such, it is important that we create conditions that allow participants to try out new ideas and voice opinions without fear of ridicule or embarrassment. The hallmark of a learning organization is a balance between openness and constructive feedback; hence, everyone is expected to:
 - a. come fully prepared to each class;
 - b. demonstrate appropriate respect for one another;
 - c. voice concerns and opinions about class process openly;

- d. engage in genuine inquiry;
- e. recognize and celebrate each other's ideas and accomplishments; and
- f. display an awareness of each other's needs.

Course Objectives

Students will deepen their understanding of (1) ethics applied to school and community leadership, (2) the use of research findings and tools to lead schools and communities, (3) the nature and strengths of diverse communities, (4) how organizations function, and (5) how leaders influence school change and improvement. Additionally, they will sharpen their communication, reflection and general leadership skills.

Student Outcomes

Successful students will emerge from the course able to:

1. Demonstrate knowledge and ability to collaborate with families and other community members, respond to diverse community interests and needs, and mobilize community resources to create and maintain a positive school culture which supports the success of all students.
2. Identify, assess and apply elements of a constructive relationship between a school and its community to support implementing the school's vision.
3. Gain insight into power structures and pressure groups in the school community to create coalitions and increase support for school programs and goals.
4. Identify leadership knowledge and skills that promote success of all students through integrity, fairness and ethical behavior.
5. Create a personal code of professional ethics and demonstrate the ability to resolve ethical dilemmas based on that code.

National Standards and Virginia Competencies

The course addresses selected Virginia Department of Education (VADOE) Competencies, The Interstate School Leaders Licensure Consortium (ISLLC) Standards, and Educational Leadership Constituent Council (ELCC) (NCATE) Standards. Specific ELCC standards addressed include:

Standard 1.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.

1.4 Steward a Vision

1.5 Promote Community Involvement in the Vision

Standard 2.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff.

2.1 Promote Positive School Culture

Standard 3.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment.

3.2 Manage Operations

Standard 4.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources.

4.1 Collaborate with Families and Other Community Members

4.3 Mobilize Community Resources

Standard 5.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by acting with integrity, fairly, and in an ethical manner.

5.1 Acts with Integrity

5.2 Acts Fairly

5.3 Acts Ethically

Standard 6.0: Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

6.1 Understand the Larger Context

6.2 Respond to the Larger Context

Specific VADOE standards addressed in this course include:

a7. Identification, analysis, and resolution of problems using effective problem-solving techniques;

d2. Working collaboratively with staff, families, and community members to secure resources and to support the success of a diverse population;

d3. Developing appropriate public relations and public engagement strategies and process;

d4. Principles of effective two-way communication, including consensus building and negotiation skills;

e4. Intentional and purposeful effort to model professional, moral, and ethical standards as well as personal integrity in all interactions;

f3. Identify and respond to internal and external forces and influences on a school;

Relationship of Course Goals to Program Goals

Student outcomes and activities for this course are related to the following GMU/EDLE program goals:

1. Understand the complexities of change in schools.
2. Develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision-making, reflective practice, and successful achievement of all school-aged youth.

Relationship of Course to Internship

Although the internship is a separate course, the Education Leadership program has integrated “embedded experiences” into course work. This means that some of the work for this class is related to the internship. Students may write about embedded experiences in their internship journals and Collective Records, but they can only count over and above the minimum 320 hours required for the internship.

Outside-of-Class Resources

Online access is vital for the distance learning aspects of the course and is important if we experience school shutdowns because of the weather or other problems. **All students are now required to activate and monitor their GMU e-mail accounts.** If you are uncertain about how to do this, please see me. It is my expectation that you will be fully competent to send and receive e-mail messages **with attachments**. If your computer at school or home has spam blocking that will prevent you from seeing messages with attachments, you are responsible for addressing this problem immediately.

All students are required to use <http://www.taskstream.com> as part of this course. This is an Internet site at which I will post vital information for the course and through which we will communicate from time to time. Samples of student work will be archived on this site for purposes of course, program, and college assessment.

It is my expectation that all students have access to standard word processing software that can be read by Microsoft Office 2007.

Course Requirements, Performance-based Assessment, and Evaluation Criteria

Attendance

Students are expected to attend every class for its entirety. Maximum class participation points will be earned by students who attend all classes, are on time and do not leave early.

General Expectations

Consistent with expectations of a master's level course in the Education Leadership program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:

1. Application of concepts reflected in class discussion and readings;
2. Original thinking and persuasiveness; and
3. Clarity, concision and organization.

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of the various performances are as follows:

Class participation: 15 points

Students are expected to participate actively in class discussions, in group activities, and in serving as critical friends to other students. Attendance is expected for all classes. **If you must be absent, please notify me by e-mail or phone.** More than one absence may result in a reduction in participation points. Arriving at class more than 30 minutes late or leaving more than 30 minutes before the end of class may result in loss of points.

Written assignments: 85 points

Five performance-based assignments will be completed during the semester. Three of those assignments represent *required* program-level performance based assessments for this course. Each assignment relates to the application of educational research in your school setting. A description and directions for each assignment and a rubric for grading each assignment are included at the end of this syllabus. All three assignments (SIP Reframing, School Effectiveness and Code of Ethics) are the program-level Performance-Based Assessments for this course.

ALL ASSIGNMENTS must be submitted electronically, through TaskStream. TaskStream is an online assessment system used by the college to collect student work, provide feedback to students, and maintain an ongoing record of student assessment data. You will be provided with a TaskStream account and use TaskStream to submit work for courses, as well as to prepare and submit your internship portfolio.

Late work: I expect all students to submit their work on time, meaning no later than by midnight of the due date. Papers due on a day when you are absent must be submitted via TaskStream by the due date.

Rewrites: Students may rewrite a paper (other than the final paper) and re-submit the paper for re-grading within one week of receiving the paper back. I recommend that students not consider re-writing papers with scores of 3.6 or higher. If you wish to discuss your work, I am willing to do so at a time of mutual convenience. Papers that are initially submitted more than 48 hours late will not be graded.

Grading scale:

A+	=	100 points
A	=	95-99 points
A-	=	90-94 points
B+	=	87-89 points
B	=	83-86 points
B-	=	80-82 points
C	=	75-79 points
F	=	below 75 points

College of Education and Human Development Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://academicintegrity.gmu.edu/honorcode/>].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/1301gen.html>].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students

as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].

- For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles

Writing Assignment #1: Reframing Your School Improvement Project (30 points)*

Rationale

Bolman and Deal (2003) argue that effective leaders engage in reframing—or re-analyzing—their organizations continually so that they can more clearly understand what is going well, what is going poorly, and what to do about it. The Education Leadership Program agrees with this argument and sees the practice of reframing as an essential component of assessing your leadership efforts as embodied in your School Improvement Project. This should be of great help to you as you reflect on your own effectiveness and the importance of organizational context for improving student and school performance.

Process

Before you begin to write, gather and think about the following information:

1. What was the initial research question that drove your pre-action planning problem analysis? Assuming that this guided the main purpose of your SIP, were you able to maintain this purpose, or did your purpose change over time?
2. What outcomes did you expect when you began your SIP? Are you starting to see those outcomes? Why, or why not? What procedures or activities have you pursued in an effort to achieve these outcomes? How effective were they? How do you know?
3. Which frame(s) do you believe you used initially to engage in problem analysis and action planning? How would using additional frames alter your thinking about the problem and/or action plan?

Product

Use Bolman and Deal's 4 frames as a basis for analyzing your SIP. Your paper should have 5 parts.

1. An *introduction* which should include a thesis statement and what you intend to do with the paper.
2. A *description of the SIP*, including
 - a. the purpose of the project,
 - b. the research question you sought to answer, the outcomes you expected,
 - c. a brief description of what you did
 - d. a brief summary of your data (If you have not completed your project, this summary may be a progress report).
 - e. a reflection of your experiences and personal learning as a result of this project. Use the four frames to structure your discussion.
3. A *description* of the original frame(s) through which you viewed the project.

4. A *discussion* of reframing of the project.
5. A discussion of *implications* of the reframing.

*A required program-level performance assessment

Organization of paper (5%)	Paper is powerfully organized and fully developed	Paper includes logical progression of ideas aided by clear transitions	Paper includes brief skeleton (introduction, body, conclusion) but lacks transitions	Paper lacks logical progression of ideas
Mechanics (5%)	Nearly error-free which reflects clear understanding and thorough proofreading	Occasional grammatical errors and questionable word choice	Errors in grammar and punctuation, but spelling has been proofread	

Writing Assignment #2: School/Community Leaders Assessment of School Effectiveness (25 points)*

Rationale

It is easy (and popular) to talk about school vision, but it is rare that we check whether or not others perceive our schools as achieving the vision they set out for themselves. This assignment requires you to determine how leaders in your school community perceive your school’s performance. Taking the interview as raw data and analyzing it through the frame of your school’s vision statements requires you to determine if your school’s theories in use are well aligned with its espoused theories—an important initial step toward school improvement. Weaving community perceptions into the school improvement process is critical to building community support for change and advancement. Presenting your analysis and action plans in writing and orally is a crucial part of the process of leading for school improvement.

This assignment has two parts.

Process

1. Consult with your principal and/or internship supervisor to identify 5-7 leaders in your school community who are both knowledgeable about the school and open to being interviewed. “School community” should be broadly defined to include everyone from the PTA president to the small business owner who hires your students for part time work and should be representative of the demographics of your school.
2. Work with your class study group to develop a series of questions to be used in your interviews. Also develop a script for potential interview participants that will help them to understand the purpose and nature as well as the anonymity of their responses.
3. Conduct your interviews (not more than 30 minutes each). Take detailed notes or record interviews, possibly transcribing them and build a matrix with the questions and significant responses.
4. Identify common responses and/or themes from the interviews. Look also for contradictory or inconsistent perceptions.
5. Use your school’s vision statement as a framework or perspective from which you analyze the interview responses. You are trying to answer the essential question: Is our school living up to the promise of its vision in the eyes of school community leaders?

Products

1. The Paper (15 points) - The thesis for this paper is your answer to the essential question posed in #5 above and contains an indication of what you consider to be an appropriate response. The body of your paper must demonstrate the validity of your thesis through the use of the qualitative data you collected in your interviews and your analysis of those interviews. A vital portion of the body is your **action plan** for addressing significant (findings) community perceptions. Be sure to conclude with a restatement of your thesis and a brief discussion of the implications of what you learned from the interview experience and your action plan.

Your paper will include:

- a. a statement of the issue and its importance to the school and to the individuals selected for the focus group;
 - b. a summary of the results of the group discussion, including a matrix of responses with the participant roles clearly labeled;
 - c. a summary table of themes gathered from focus groups;
 - d. significant findings;
 - e. a plan of action based on the data collected; and
 - f. a summary.
2. The Presentation (10 points) - Using the interview information, develop a 15-minute presentation about “*How Well We Are Implementing Our School Vision*”. The presentation will be presented in class with the audience representing parents, teachers and community members of your schools. The presentation should emphasize how the school is implementing its vision and how it can do a better job. **Be sure you address your presentation to the specified audience-not to your professor and classmates.**

* A required program-level Performance-Based Assessments

Writing Assignment #3 A & B Educators' Code of Ethics and Case Study Application (30 points)*

Rationale

Having your own code of ethics serves as a moral compass “as you navigate the choppy waters” of education leadership. As a place to begin, you will explore published codes of ethics. Select elements of each code that represent your thoughts about ethical leadership. This will result in codes that are attractive to you, while adapting others, as you build your own personal code of ethics. Next, having developed your own Code of Ethics, it makes sense to apply it to a particular situation to test whether or not it is actually helpful to you.

This assignment has two parts:

A. Build an Educators Code of Ethics (10 points)*

1. Identify, read and analyze at least five well written, existing Educators Code of Ethics
2. After reading and analyzing the five existing codes, identify one that best complements and enhances the code's ethical base. Explain the reasoning behind the choice and then add or delete content that will strengthen the ethical base.
3. Rewrite and personalize the Educators Code of Ethics as your own. The conclusion will focus on the personalized code of ethics, emphasizing characteristics of the code that strengthen your leadership performance and effectiveness.

*A required program-level performance assessment

B. Reflect on and apply your Educators Code of Ethics as you analyze its application to two case studies (20 points)

The site identified below may be of assistance in analyzing the problems presented in the cases.
<http://www.tenj.edu/-set/mw-steps.htm> Procedures for Analyzing Ethical Dilemmas, The College of New Jersey.

Each analysis will incorporate reframing skills with two cases that involve the leaders' role in school and community change. The instructor will provide the cases. In analyzing the cases, reflect on personal learning experiences, apply understandings gained through the internship and coursework and demonstrate the ability to apply those understandings and experiences in addressing the conflicts presented in each case study. Use reframing to strengthen your chosen course of action. In particular:

1. Identify the players and their political agendas
2. Identify and analyze the profit each player has to gain/lose through action you may take.
