COURSE DESCRIPTION

This course introduces disabilities in public schools; covers National Standards, federal legislation, IEP's and developmental inclusion models. Field experience is required.

COURSE OBJECTIVES

1. To demonstrate knowledge of various disabilities and to be able to accurately identify the impact each could have on safe and successful participation in physical education and health through tests, discussions, and assignments.
2. To identify appropriate teaching methods to meet the needs of students with disabilities including the NASPE National Standards.
3. To demonstrate the ability to modify PE activities and health units based on a student's individual needs.
4. To complete a practicum experience with students with disabilities in their school-based PE classes.
5. To demonstrate an understanding of special education laws and to apply this knowledge when developing Individualized Education Programs (IEP's).

NATURE OF COURSE DELIVERY

Face to Face

COURSE OVERVIEW

1. GMU Attendance Policy: "Students are expected to attend the class periods of the courses for which they register. In-class participation is important to the individual student and to the class as a whole. Because class participation is a factor in grading, instructors may use absence, tardiness or early departure as evidence of non-participation." Attendance is recorded at the beginning of class. Two absences are permitted. Arrivals up to 10 minutes late constitute a tardy. Two tardies equal one absence. Three to four absences will result in a deduction of 12 points each from your total points. Five or more absences will result in a deduction of 15 points each from your total points. Arrivals 10 minutes late or more are considered absences.
2. There will be videos, readings, three tests and assignments. Information will be posted to print out before each class from Blackboard.
3. All written assignments must be turned in within the first 10 minutes of class in order to receive full credit. Assignments received within 24 hours of the due date will be automatically dropped one letter grade before they are graded. **No assignments will be accepted later than 24 hours past the due date without written documentation**

from an “official” source (i.e. GMU sponsored activity or medical personnel). Arrangements must be made to deliver a late assignment.

4. Attendance points will be earned through reviews of materials posted for print out for each class. Students are responsible for getting any notes missed.

5. “Technology” problems with printing out assignments can happen. An assignment that is emailed to the professor PRIOR TO the beginning of the class it is due because of printer difficulties, will be accepted. Any assignments that are emailed within 24 hours will be subject to the same penalty as a late written assignment.

Professional Dispositions: Professional dispositions are values, attitudes and professional ethics toward learners, peers, professors and the learning process. You will self-evaluate your dispositions throughout the semester and examine your commitment to the teaching profession.

Further, upon completion of this course, students will meet the following professional accreditation standard:

NASPE #3 – Planning and Implementation: plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
