Course Description: EDLE 614 Managing Financial and Human Resources

Explores basic functions in financial and human resource management. Examines legalities, ethics, and politics of resource procurement and allocation. Provides experiences to help students better understand tasks typically performed by school leaders.

Additional Course Description

The course provides authentic experiences that help students to achieve a deeper understanding of the tasks typically performed by school leaders. Students are expected to participate actively in hands on, real world based activities, applying what they read and learn in class.

Nature of Course Delivery

Class sessions will consist of brief lectures, discussions, problem-based learning, role-playing, and student presentations. Students should see themselves as my partners in creating a valuable and memorable educational experience.

National Standards and Virginia Competencies

The following ELCC standards are addressed in this course: 3.1 and 6.1

This course addresses the following VDOE Competencies:

1.b. Knowledge, understanding and application of systems and organizations, including (7) Effective communication skills including consensus building, negotiation, and mediation skills.

1.c. Knowledge understanding and application of management and leadership skills that achieve effective and efficient organizational operations, including (3) Management decisions that ensure successful teaching and learning including, human resources management and development, theories of motivation, change in school culture, innovation and creativity, conflict resolution, adult learning and professional development models; (4) Principles and issues related to fiscal operations of school management; and (7) Technologies that support management functions.

Learner Outcomes

At the conclusion of this course, successful students will emerge from the course with the ability to:

1. apply major concepts related to financial and human resource allocation and management;
2. use a site allocation to build a budget that supports school mission and goals (required performance);
3. develop a staffing plan that is consistent with site goals and district guidelines (required performance);
4. evaluate the effectiveness of simulated teacher interviews that are consistent with legal guidelines;
5. experience their efforts to mediate disputes;
6. construct a persuasive grant proposal to support school improvement;
7. use technology for learning and administrative purposes; and
8. participate in reflective practice.

In addition to the student outcomes stated above, I have the following process goals for this course:

Teaching and Learning:

1. Each class will mirror as much as possible the real world of a school administrator and will reflect good management. I expect that we will:
 - start and end on time;
 - maintain and follow a written agenda for each class;
 - listen first to understand, then seek to be understood; and

- work toward common goals in a professional and cordial manner.
2. Every student product will as closely as possible reflect what would be expected from a school administrator. Consequently, students will:
- write budget and staffing reports using Excel or some equivalent spreadsheet program;
 - present data in a clear, readable format;
 - write brief memos to support their data presentations;
 - run meetings that range in size from one-on-one to 10;
 - present information orally; and
 - participate in role playing and other interactive activities, consider the experience, and communicate about the experience.

Classroom Climate:

Our classroom must be a place in which we can try out new ideas and take risks free from the fear of embarrassment. We must be able to look at each other's work critically so that we may all receive valuable feedback that will help us to do our jobs better in the future. Therefore, I expect a commitment from all of us to:

- be fully prepared for each class session;
- respect and care about one another as human beings;
- work toward a common purpose;
- persevere through common challenges; and
- affirm one another's successes and help one another overcome weaknesses.

Professional Development:

I see this course in a context larger than the boundaries of its content. Therefore, it is important to keep in mind goals for each student's administrative career. This course is part of a larger picture of administrator training that seeks to develop the student to be:

- a thoughtful, wise administrator;
- a careful, decisive decision maker;
- the kind of person who can understand detail and the big picture simultaneously;
- a supervisor, an assistant principal, a principal, and/or a superintendent capable of visionary school leadership; and
- a strong colleague who will be a valued member of any team.

Relationship of Course Goals to Program Goals

This course introduces students to major issues and practices in financial and human resource management as part of the Education Leadership endorsement sequence. A substantial emphasis on simulation and follow-up discussion gives students opportunities to learn and practice skills they will use in their internship experiences and administrative careers. All of the program goals are active, to a greater or lesser degree, in this course. Students will:

- engage in reflective practice with regard to financial and human resource management.
- strengthen and improve their communication skills through simulation, class discussion, and paper writing.
- understand how resource allocation supports or inhibits cultural, economic, and learning diversity.
- reflect on the ethical implications of resource allocation choices in schools and school districts.
- use computers for communication, data analysis, and data presentation.

Course Materials

Readings

Research articles will be made available to students and may be assigned at my discretion.

Recommended

The American Psychological Association (2009). *Publication Manual of the American Psychological Association* (6th edition). Washington, D.C.: American Psychological Association.

Classroom Materials

I expect all students to maintain a binder that contains all readings, reading notes, class notes, student products, and class handouts. The binder will probably need to have at least 2-inch rings.

Outside-of-Class Resources

Online access is vital for the distance learning aspects of the course and is important if we experience school shutdowns because of the weather or other problems. **All students are now required to activate and monitor their GMU e-mail accounts.** If you are uncertain about how to do this, please see me. It is my expectation that you will be fully competent to send and receive e-mail messages **with attachments.** If your computer at school or home has spam blocking that

will prevent you from seeing messages with attachments, you are responsible for addressing this problem immediately.

All students are required to use <http://www.taskstream.com> as part of this course. This is an Internet site at which I will post vital information for the course and through which we will communicate from time to time. Samples of student work will be archived on this site for purposes of course, program, and college assessment.

It is my expectation that all students have access to standard word processing software that can be read by Microsoft Office 2007.

Course Requirements, Performance-based Assessment, and Evaluation Criteria

Attendance

Students are expected to attend every class for its entirety. Maximum class participation points will be earned by students who attend all classes, are on time and do not leave early.

General Expectations

Consistent with expectations of a master's level course in the Education Leadership program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:

1. Application of concepts reflected in class discussion and readings
2. Original thinking and persuasiveness
3. The ability to write in a clear, concise, and organized fashion

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of the various performances are as follows:

Class participation and Reflection (30 points)

Students are expected to participate actively in class discussions, in group activities, and in serving as critical friends to other students. Attendance is expected for all classes. **If you must be absent, please notify me by e-mail or phone.** Any absence will result in a reduction in participation points. Arriving at class more than 30 minutes late or leaving more than 30 minutes before the end of class may result in loss of points.

Written assignments (70 points)

Several different types of performance-based assignments will be completed during the semester. Each assignment relates to the application of educational research in your school setting.

ALL ASSIGNMENTS must be submitted electronically, through TaskStream. TaskStream is an online assessment system used by the college to collect student work, provide feedback to students, and maintain an ongoing record of student assessment data. You will be provided with a TaskStream account and use TaskStream to submit work for courses, as well as to prepare and submit your internship portfolio.

Late work: I expect all students to submit their work on time, meaning no later than by midnight of the due date. Papers due on a day when you are absent must be submitted via TaskStream by the due date.

Students' grades are based on their proficiency with respect to the student outcomes stated above. Each outcome will have an oral (class participation) and/or a written component. The outcomes are weighted as described below:

College of Education and Human Development Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://academicintegrity.gmu.edu/honorcode/>].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/1301gen.html>].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
- For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles

BUDGET ALLOCATION

15 Points

Rationale:

Budget allocations must be prepared in a fashion that is both comprehensive and clearly understood by school personnel, central office administrators, and parents. The primary goal of this assignment is to help students learn how to take a site budget dollar amount; allocate it among needs at the school site consistent with the school's vision, mission, and goals; and present the allocation in a brief verbal statement, in detail using numbers, and orally to multiple constituents.

Product:

Each group is required to submit four written pieces for this assignment (Note: Every student in the group must submit all four pieces so that all can be graded through TaskStream):

1. For each school, a brief, verbal overview of the budget that includes a clear rationale for the allocation of funds—this may not be longer than one single-spaced page and serves as a cover sheet for #2 below
2. For each school, a spreadsheet that shows the dollar amount allocated to each relevant budget category and the fact that the budget balances

Suggestions:

1. Your cover sheets should be as brief as possible, but they also need to be clear. They should be written with the person who misses your budget meeting in mind. In other words, you want to state all the important thinking that went into the budget to avoid future arguments as much as possible.
2. Be certain your cover sheets have a clear thesis—"My rationale for this budget allocation is _____ because _____." Support your thesis with strong reasoning in the rest of the statement.
3. Your spreadsheets should be simple enough for your grandmother to be able to understand. Teachers are most concerned about who gets what relative to their own budgets, so you need to make certain that comparisons are easily made.

STAFFING ALLOCATION

15 Points

Rationale:

This assignment is very similar in format and requirements to the budget allocation assignment. The reason for this is that the needs are essentially the same—to present somewhat complicated data in a fashion that others can easily grasp.

Product:

Groups are required to submit four written pieces for this assignment:

1. A brief, verbal overview of the staffing allocation for each school that includes a clear rationale explaining how each one serves the vision, mission, and goals of the school
2. For each school, a spreadsheet that shows staff FTE allocated to each course or grade level and the fact that the school has not exceeded its staffing allotment (any “understaffing” must be indicated)

Suggestions:

1. See the budget allocation assignment.

REFLECTIVE ESSAY ON INTERVIEW PROCESS
10 points

Rationale

Perhaps the most important activity for a school site administrator is the selection of staff—both certified and classified. Going through a mock process of teacher selection is helpful for thinking about important characteristics of prospective teachers and school needs. But, the experience is made richer by reflecting on the experience so that the student can become much clearer in her or his own mind about how to make teacher selections count toward school improvement. It is my hope that this reflection paper will help you to discover what worked well during the interview(s), what could be improved, and what you would do differently next time.

Product

You will write a coherent reflective essay that explains your reaction to the total interview experience you had in connection with this class. Your paper must contain the following:

1. A thesis that clearly describes the major insights you gained as a result of participating in preparing an interview and the actual interviews that you witnessed
2. A brief description of what happened during preparation and the interviews
3. A thorough reflection of the entire process from start to finish that demonstrates the validity of your thesis
4. A conclusion that includes what you learned from the process and how you might engage in it differently when you are working as an administrator

	EXCEEDS EXPECTATIONS	MEETS EXPECTATIONS	APPROACHING EXPECTATIONS	FALLS BELOW EXPECTATIONS
<p><u>Thesis (20%)</u> The thesis establishes the burden of proof for the paper, i.e., your overall learning from the interview process. It provides structure for the paper by telling the reader what the author intends to prove.</p>	<p>A clear, one-sentence thesis is presented at the end of the opening paragraph and <u>establishes a burden of proof</u>. The thesis clearly states everything the author has learned as a result of the interview process.</p>	<p>The thesis appears in the opening paragraph and is relatively clear. The thesis is more expository than analytical.</p>	<p>The thesis is confusing or is strictly descriptive.</p>	<p>The paper contains no explicit thesis.</p>
<p><u>Supporting Arguments (45%)</u> The author must articulate arguments in support of the thesis. These should be logical and made compelling by clear examples.</p>	<p>Each paragraph of the body of the paper has a direct relationship to the thesis and helps to demonstrate the validity of the thesis. The author uses persuasive arguments relevant to the thesis.</p>	<p>The body of the paper provides some support for the thesis, but it also contains paragraphs are not entirely persuasive.</p>	<p>Analysis is weak or difficult to follow. <p><u>Concluding Paragraph (25%)</u> It is important to conclude your paper in a manner that is persuasive to the reader and that leads to broader thinking on the topic.</p>	<p>The conclusions the author draws are clearly stated in the final paragraph, beginning with a restatement of the thesis in new language. The concluding paragraph follows in a compelling manner from the body of the paper and explains what the author would do differently for the next interview opportunity</p>	<p>The conclusions the author draws are clearly stated in the final paragraph, but they may not be entirely persuasive.</p>	<p>Conclusions can be inferred from the body, but the thesis is not re-stated and the conclusions are not persuasive.</p>	<p>Conclusions are unclear or irrelevant to the thesis.</p>

GRANT PROPOSAL

10 points

Rationale

Funds are usually tight in schools and districts, making it very difficult to initiate new and innovative programs. Consequently, grant money is often the only way to reach a particular population of students in a new way. Learning how to write a grant is a vital skill for a future educational leader.

Product

1. Identify the financial needs of your SIP that cannot or will not be met through your school or district and target your grant toward meeting these needs. Alternatively, work with your principal or supervisor to identify an area of need that could be addressed through the procurement of additional funds.
2. Once you have identified a need at your site, you will explore several different sources of grant money to find one that is most appropriate to the need you have identified.
3. Following the guidelines of the grant you wish to receive, you will write a proposal that presents the need, your plan for how to meet the need, expected outcomes, how you will evaluate the success of your project, and a budget for the grant.
4. Grant proposals must be for not less than \$1,000 and should probably not exceed \$20,000.
