Beginning December 21, 2011, and continuing January 11, 2012 (online class) – March 21, 2012

I. COURSE DESCRIPTION

Uses cultural inquiry process (CIP) and web site to acquire cultural, social, and language-related perspectives on educational processes; and teaches skills to analyze educational settings and expand strategies to address puzzlements in student's own practice.

Prerequisites: Admission to the College of Education and Human Development and the ASTL Program, or with permission of the ASTL Director.

II. COURSE GOALS AND PROCESS

A primary goal of this course is for participants to attain the knowledge and skills needed to develop an appreciation for cultural perspectives that influence the learning of all students. The course will increase participants' understanding of inter-cultural perspectives and explore varied

educational practices and processes that meet the needs of an increasingly diverse student population. The Cultural Inquiry Process (CIP) and the CIP Web site provide a framework for achieving these goals and for conducting a culturally focused action research study.

STUDENT LEARNING OUTCOMES - By the completion of EDUC 606, ASTL Core participants will be able to:

- A. Understand the application of research approaches to inquiry and inquiry into practice through the systematic monitoring of student learning;
- B. Articulate perspectives (assumptions, theories, principles, and findings) and methods useful for understanding cultural influences and diversity in the educational setting;
- C. Apply cultural perspectives and culturally responsive methods in educational settings;
- D. Use cultural perspectives and research literature to help construct and evaluate appropriate interventions for classroom use;
- E. Explain the critical importance of considering multiple perspectives and second language learners' needs; and
- F. Explore and respect differences in teaching and learning as they relate to cultural diversity and social justice in the field of action research.

The *performance-based assessment and major course product for EDUC 606* is a culturally based action research study. To help you complete this action research in your classroom, the course is organized as a *scaffolded inquiry process*, as follows: (1) the Cultural Inquiry Process (CIP) Web site will provide you with a scaffold throughout the course by providing a process and supporting information (e.g., cultural questions and related text for an inquiry process in CIP Step 3, Success Stories, and previously implemented CIP studies); (2) various studies conducted recently by ASTL students and weekly readings will provide a scaffold for learning how cultural inquiry can help you develop critical capacity in understanding cultural perspectives and consider their impact on your classroom and your educational practice; (3) building on the ASTL Core experiences you have already completed, being part of a dynamic learning community, and having supported experiential learning in a full research project is also a feature of this course. As such, you will be asked to participate in different small Critical Research Groups based either on your professional interests or on a particular cultural question. As part of this collaborative group work, you will analyze cases and your own study, and you will begin to use cultural inquiry to address puzzlements you have identified in your classroom practice.

Mini-lectures, videos, interactive discussions of readings and ongoing critical reflective practice support learning experiences throughout the course and will complement your experiences and expose you to the major cultural perspectives, as explored through the CIP process. Discussions may take place in class, via email, or our electronic MyMason. The instructors will be available for in-person or phone consultations to complement the support from your Critical Research Groups.

Important Note: The **performance-based assessment (PBA)** **MUST** be uploaded and submitted to Taskstream for evaluation when the assignment is due. **Only PBAs** posted to Taskstream will be graded. **NO** final grades are able to be posted until all materials are in Taskstream.

III. RELATIONSHIP OF EDUC 606 TO ASTL CORE, NBPTS PROPOSITIONS, and the CEHD CORE VALUES

EDUC 606 is one of the five courses that comprise the ASTL Education Core. Within the ASTL Core, EDUC 606 is carefully aligned with the learning experiences along the Core continuum EDUC 612, EDUC 613, EDUC 614, and preceding EDUC 615. EDUC 612 (Inquiry into Practice) helped participants develop critical reflective skills and research knowledge for conducting inquiry related to practice. In EDUC 613 (How Students Learn), Core participants were introduced to various factors that influence the individual learner and conducted a case study research of a learner. In EDUC 614, participants looked at new ways to design and assess teaching and learning in their classrooms and researched their teaching practice via video-tape analysis. In EDUC 606, our focus will turn to looking at students and educational settings from various cultural perspectives. The class will introduce you to cultural perspectives and the CIP, a process that guides practitioners through cultural inquiries. You will use this process and the inquiry and research skills begun in EDUC 612 and the preceding coursework to conduct an action research study that focuses on cultural influences designed to deepen your knowledge about student learning. The focus of your study may range from the individual student to an entire classroom.

EDUC 606 is aligned with the NBPTS propositions, specifically with

- Proposition I: Teachers are committed to students and their learning;
- Proposition IV: Teachers think systematically about their practice and learn from experience; and
- Proposition V: Teachers are members of learning communities.

EDUC 606 is aligned with the additional three propositions that guide the ASTL Core:

- Teachers account for the needs of culturally, linguistically, and cognitively diverse learners;
- Teachers are change agents, teacher leaders, and partners with colleagues; and
- Teachers use technology to facilitate student learning and their own professional development.

Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practices, and social justice. Students are expected to adhere to these principles. The EDUC 606 focuses on all five of these core values through promoting culturally based action research that is intentional and committed to social justice, ethical and collaborative research. Through online groups and creative solutions to classroom puzzlements, this course also promotes innovative classroom practices that are data driven and aimed at making a difference for all students and improving instructional decisions.

IV. RESOURCES

The **Cultural Inquiry Process Web site** <http://classweb.gmu.edu/classweb/cip/index.htm> is a principal resource for this course.

Some readings are required for everyone, and some will be optional. In addition to the required book (a culturally based action research project conducted with young English language learners) that is available from the GMU bookstore, there is a set of readings and resources that may be accessed on line via our GMU Fenwick Library E-Reserves or through our MyMason articles archive. In addition, you will also be asked to find and read different original sources related to the particular cultural questions that you explore for practice cases and your own major project.

Required Book

Ballenger, C. (1999). *Teaching other people's children*. New York: Teachers College Press.

Supplemental Resource (from EDUC 612)

Falk, B. & Blumenreich, M. (2005). *The Power of Questions: A guide to teacher and student research*. Portsmouth, NH: Heinemann.

Required and Optional Readings (E-Reserves)

For the key performance assessment for this course, you will use resources that relate to your “puzzlement” (your culturally related action research study). To assist you in locating information concerning your topic, we have posted a few articles that you can access in the Electronic Reserve located on-line through the GMU Fenwick Library, which are also supplemented through articles located on MyMason. Some are class readings while others are provided as resources for your research and individual areas of inquiry. Additional support articles not included in this list may also be posted for your use and reference prior to and during the class. *When retrieving articles from the electronic reserves, choose **EDUC 606** and **Hardy, Shanon** as the instructor. V. GEORGE MASON UNIVERSITY - COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Student Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://academicintegrity.gmu.edu/honorcode/>].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/1301gen.html>].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

VI. COURSE DELIVERY

The delivery of EDUC 606 is through experiential hands-on learning activities, in-class collaborative work groups, online learning modules, special videos, and mini-lectures to accomplish the course objectives.

VII. COURSE REQUIREMENTS, ASSIGNMENTS, AND EVALUATION CRITERIA

General Requirements

1. Class attendance is both important and required. *If, due to an emergency, you will not be in class or will be late, you should contact the instructor via phone or email prior to the class meeting. Students with more than two absences risk a drop in letter grade or may lose course credit.*
2. It is expected that assignments or action research section drafts will be turned in on time (the beginning of the class in which they are due or submitted electronically by the required date – please note points for section drafts in the assignments section of this syllabus and on the rubric). Timely submission of drafts is imperative for receiving instructor feedback.
3. The completion of all readings assigned for the course is assumed. Because the class will be structured around discussion and small group activities, it is *critical* for you to keep up with the readings and to participate in class.
4. According to university policy, all beepers and cell phones should be turned off before class begins. *Thank you!*

EVALUATION CRITERIA

1. Class Participation - 40%

Class Discussions and Engagement. You should come prepared to each class to actively participate in whole class and small group discussions. You will participate in various types of groups for class discussions that will be created based on your current teaching assignments. Later in the course, you will be part of a research group that will be comprised of a small group of teachers who are exploring related cultural questions in their major projects. In whole class and small group discussions (whether conducted face-to-face or electronically) each person is expected to listen carefully and actively, raise questions, and encourage one another to think more deeply and more broadly. *Please remember that your responses to others and the expertise you lend to any discussion are as important as what you share about your own work.*

Online work & MyMason. We will use online communication in MyMason to communicate regularly in this class. You will be asked to post assignments, read others' postings, and actively participate in discussions. E-mail and MyMason's Discussion Strand will also be an important vehicle for discussing ongoing work on your major project with group members. The online *CIP Web Hunt* and other online work as assigned will be part of your class participation.

Criteria for Evaluation: Evidence of careful reading of relevant material, analytical consideration and application of the material, thoughtfulness of questions raised, detailed sharing of your own work, relevance of remarks to subjects under discussion, demonstration of understanding of cultural influences, and constructive participation in your Critical Research Groups.

Beginning of Final Portfolio – As part of the ASTL Program, all candidates prepare a professional portfolio of their learning during the program. In EDUC 606, we will launch the electronic portfolio process and candidates will begin to design and populate the e-portfolio with course products and reflections.

End of EDUC 606 Portfolio Reflection Point

As a part of the ASTL Core, participants will continue to build their Professional Portfolio and will add Reflection Point #3 (see below) at the conclusion of EDUC 606. For additional detailed information about this Reflection Point, as well as the remainder of the Portfolio, please refer to the Portfolio Guidelines posted on our My Mason site.

Reflection Point following EDUC 606:

Section D: Teacher as Researcher with a Cultural Perspective

This section will be completed at the conclusion of EDUC 606.

Reflection Point:

In this section, you will focus on how coursework, related readings, and products in EDUC 606 have led you to focus more deeply on teachers as researchers with a cultural perspective.

Please reflect on your own learning and your growth and change at this point in the Core. In your reflection, please address any of the applicable eight program learning outcomes and the ways in which the performance assessments included in this section provide evidence of this knowledge.

Suggested course products to be used as evidence of knowledge:

1. Teacher/Action Research Project and Paper (EDUC 606)
2. Selections from the Reflective Journal
3. Other, such as the Okun from EDUC 612, and additional evidence as selected by individual (be specific)

Summary Overview of Class Participation Components:

| Assignment | Participation Points |
|---|----------------------|
| MyMason & Web Hunt – see class schedule | 10 |
| Beginning Portfolio | 10 |
| Reflection Point for Portfolio | 5 |
| In-class Participation | 15 |

2. **Cultural Research Study - 60% -- The EDUC 606 Performance-Based Assessment (Oral Presentation and One Page Summary on March 21st; Final written study submission via email on March 21st)**

The purpose of this culturally based action research study is to provide you the opportunity for a hands-on learning experience using cultural perspectives and methods to understand more about persons, students, yourself, or situations in educational settings. It is designed to hone your inquiry and research skills and to help you develop classroom based expertise in designing and monitoring appropriate educational intervention(s) to promote culturally responsive pedagogy.

To facilitate your action research process, ongoing work on the major research study will be completed along the continuum of the semester, using the time line that is listed. You are asked to hand in (or email) the drafts of each section on the dates listed below, first to be read in class by your Critical Research Group for peer feedback, and then emailed to the instructor. *(Please note that **16 of the total action research project points** are associated with the four draft sections due to Instructor.) When you hand in your drafts you will receive feedback to guide you in your ongoing thinking about your puzzlement and the writing of your final study. Please consult the rubric, as well as the additional details provided in the Syllabus.

Scaffolding of your CIP study proposed, as follows:

Setting and Puzzlement Draft - to Critical Research Group (CRG) in class (2/1) & Instructor by e-mail (2/8): Draft description of the setting and your "puzzlement" (Background information). Assumptions, researcher's role, rationale, importance or relevance to the larger body of knowledge, etc.

Framing the Issue and Literature Review Draft - to CRGs (2/15) & Instructor by email (2/22): Draft of discussion about how you are framing the issue and are connecting to the wider literature about your subject ("building on those who have come before us").

Data Collection Plan, Analysis of Data, Intervention Plan Draft - to CRGs (2/29) & Instructor by email (3/7):

- **Data Collection:** Information concerning how you are collecting data that will serve you in answering your question. A data table is helpful!
- **Analysis of Data:** Information concerning how you interpreted your data and determined what intervention to put in place
- **Intervention/Action Plan:** Your proposed action, intervention, or "solution."

Monitoring of Intervention/Action Plan with Conclusions/Implications – to Instructor by email (3/14)

Draft Due of Emergent Full CIP Action Research Study for Critical Research Group Review and final suggestions (3/14)

Oral Presentations/Sharing with One-Page Executive Summary: March 21

In the past, teachers have often included their list of references on the back. We leave this as an option, but please bring enough copies to share with fellow cohort members and your instructor. – We will compile them all into a CIP Booklet for you to retain.

Final CIP Project due March 21 – please email completed CIP to your instructor

Writing Your Culturally-Related Action Research Study following the Cultural Inquiry Process (CIP) guidelines – special reminders and help for completing your study write-up.

Your paper should follow APA format and include correctly formatted references.

To protect the anonymity of the people involved, use only pseudonyms for participants and proper names in your discussions and in the report.

Write your report with your educational colleagues as the audience. Your written report should incorporate the CIP questions.

Comprehensive evaluation criteria is provided in the rubric and will be discussed in class.

We are here to support your work and help whenever we can. For your planning purposes, general criteria include the selection of appropriate topic, use of cultural perspectives, thorough data collection and analysis, connections to **at least 6 research references** (at least 3 of which come from sources outside course readings; others may come from course readings or the E-reserves), clear presentation of findings, thorough discussion, thoughtful reflections, clear organization and writing. This Culturally-related Action Research Study builds on the research and data collection plans you followed in completing your 613 Case Study of a Learner.

The final section is a **Reflection** to be included at the end of the action research study -- you and your instructor are the primary audience. In this section,

- 1) Please relate your project to EDUC 606 course outcomes and discuss what you personally learned from the project.
- 2) What was your most significant learning with regard to the interrelationship between culture and education?
- 3) What is the potential impact of this study on your teaching, your learning, and on the learning of the students in your classroom? *Explain why.*

Criteria for Evaluation: Refer to attached rubric.

Grading Scale:

| | |
|----|----------------------------------|
| A | 94 - 100 |
| A- | 90 - 93 |
| B+ | 85 - 89 |
| B | 80 - 84 |
| C | 70 - 79 |
| F | Did not Meet Course Requirements |

VIII. Tentative CLASS SCHEDULE AND COURSE ASSIGNMENTS

Note: Because we will try to respond to the particular needs of the class, there may be some changes in the syllabus. Any adjustments will be clearly indicated in writing or via email.
