**COURSE DESCRIPTION:**

1. **Co-requisite:** EDCI 516
2. **Course Description from GMU Catalog:** Covers approaches, theories, and methods of teaching foreign and second languages, with practical application to classroom. Students demonstrate teaching strategies, develop lesson and unit-planning skills, and evaluate curricula and materials.

**Note:** Requires field experience in schools.

**NATURE OF COURSE DELIVERY:**

This course is highly interactive by design. Students examine past and current approaches, strategies, and techniques for teaching foreign/second languages. Students demonstrate teaching strategies; develop lesson and unit planning skills, demonstrate knowledge of the application of basic concepts of phonology, syntax, and morphology, and evaluate foreign/second language resources available in the field. The course includes a field experience component and meets Virginia licensure requirements for foreign language teachers.

The course delivery is predicated upon *learning by doing* and *discovery learning*. Students will engage in cooperative learning, small group discussions, whole class discussions, peer feedback, short lectures, and student-led micro teaching simulations. Instruction will include guest-speakers, videos, and other multimedia resources. Assessments are performance-based. Students are encouraged to complete the performance-based assessments such that they are relevant to their own teaching

circumstance. Rubrics are provided for the field experience report, the TAR project, the midterm project, the unit/lesson plan, and the preparation and participation grade.

LEARNER OUTCOMES:

**This course is designed to enable students to:**

- Demonstrate ability to teach a foreign/second language using a synthesis of both older and more recent innovative methods
- Use instructional strategies which accommodate methods of teaching foreign/second languages
- Demonstrate ability to organize a detailed lesson plan for foreign/second language teaching, including all three communicative modes (interpersonal, interpretive, and presentational) while focusing on the end goal of oral proficiency and performance.
- Plan and demonstrate 2 mini lessons that are standards-based and are delivered in the target language

## **GUIDELINES, TEMPLATES, & RUBRICS**

**GUIDELINES AND EVALUATION FOR  
INFORMAL TEACHING DEMONSTRATION  
FALL 2012—10 POINTS**

**Informal Demo Guidelines:**

1. You and your partner(s) will prepare and present a **15-minute** standards-based lesson in class. At the end of your demonstration the class will take 5 minutes to ask questions and give feedback.
2. You and your partner(s) will sign up for a specific date to prepare and present your lesson. You will select a program model (FLES, HS Level 1, etc) and a topic/theme. You will create a simple agenda, performance objectives, a warm-up activity, and one activity of your choice on the topic.
3. It is your responsibility to bring the necessary materials (markers, pens, tape, magnets, transparencies, PPTs, sentence strips, poster paper, timers etc), visuals, and manipulatives for your demonstration.
4. You will be given very limited class time to “set-up” your lesson. Imagine that you share a classroom and do not have access to the room ahead of time.
5. Conduct your lesson in the target language.
6. When preparing your lesson, consider students’ diverse learning styles, multiple intelligences and proficiency levels. How can you differentiate instruction so that all students’ diverse needs and proficiency levels are accommodated?
7. You and your partner(s) may choose one, two or any combination of methods/approaches/strategies to present your lesson.
8. We will be your students. You and your partner(s) can assign us different proficiency levels and ages. Be realistic about student proficiency.
9. Teaching responsibilities can be divided, or you may wish to team-teach.

9. We will be your students. You may assign us whatever roles and ages you wish. Be realistic about the proficiency level of your students.
10. As a team, you may try any combination of team teaching, or each of you may demonstrate a separate activity. If you wish, you may divide teaching responsibilities by proficiency level of students. Remember that you do not have a lot of time (maximum 30 minutes).
11. Prepare a handout for the class AND your lesson plan. It can be short. It might be a summary of some points you have made or it might be sharing something from the lesson you have developed that class members might like to use in their own teaching.

**EVALUATION** of your teaching demonstration will be based upon the following criteria:

1. Quality of lesson plan
2. Usefulness of handout
3. An accurate summary of the method chosen
4. Faithfulness to the general philosophy and techniques of the method chosen
5. Evidence of preparation

## GUIDELINES FOR MID-TERM PROJECT

**Due October 17, 2012  
20 POINTS**

### **Option A**

#### **Using Technology to Enhance Learning Experiences for Foreign/World Language Learners**

“Learner-centered instruction is based on the premise that children learn more effectively by becoming active participants in the process” (Hall Haley & Austin, 2004, p. 282). The challenge for many teachers is creating lessons that engage their students in tasks that are relevant and meaningful to the learner. This is particularly true for technology-based lessons, as many millennial language learners state that they are often asked to unplug the technologies they use in their everyday lives when they enter the classroom (Prensky, 2001).

The goal of this mid-term project is for you to challenge yourself to create a lesson that includes a technology with which you are NOT familiar. NOVA Startalk has several tutorials that will teach you how to use technologies such as Voxopop, Photostory, and Prezi. The website is: <http://novastartalk.nvcc.edu/> Your use of this technology must do more than enhance a teacher-centered lesson (as is often the case with PowerPoint presentations). Your learner-centered, standards-based technology lesson must enhance the learning experiences of your students and must be age and language level appropriate.

#### **Objectives:**

Teachers in EDCI 560 will be able to:

- Create a learner-centered, standards-based product/project that engages the student in the target language and cultures through the use of technology
- Write an introduction that situates this lesson within the larger curriculum and includes references to course readings to support the use and choice of technology
- Create a step-by-step user guide for a novice teacher to use the project

#### **Task:**

Create a learner-centered, technology-based product/project that includes a: WebQuest, Interactive PowerPoint / SmartBoard Activity, Blog, Wiki, Podcast, Voxopop, Flip Video, Facebook/MySpace, Skype, YouTube, Photostory, or other technology

1. Prepare/create a technology-based product or project that employs a course outline topic of your choice and apply it to a teaching setting. The lesson time should be no less than 30 minutes. The purpose of the project is to focus on one course topic (such as standards-based teaching; alternative assessments;

grouping, or learner diversity) and illustrate its implications for teaching through the use of technology.

2. Your product/project should be interactive in the sense that the language learners are active participants in the lesson (No “Death by PowerPoint” projects please!). Tutorials for various technologies are available through NOVA Startalk at: <http://novastartalk.nvcc.edu/>
3. Prepare a printed guide to your product/project to help a novice teacher use it. Include the following:
  - An introduction that describes the student population and their diverse needs.
  - A section that explains how your project can be adapted to the context of a standards-based lesson or thematic unit plan.
  - A section that provides step-by-step details of how to use your product/project
  - Several references to various course readings to support your choice of technology and your course topic.
4. Submit your project in both electronic and in paper format.
5. Mid term projects are due on or before **October 17, 2012**

### **Option B**

If you have other ideas for ways to increase your knowledge on the successful implementation of technology in your classroom, please see your instructor for permission to pursue another option. **You must obtain approval for this option at least 2 weeks in advance of the due date (October 17, 2012).**

**GUIDELINES FOR FINAL UNIT LESSON PLAN**  
**EDCI 560-FALL 2012—30 POINTS**  
**Performance-Based Assessment for ACTFL NCATE Assessment #3**  
**Assessment Project: Assessment of candidate ability to plan for instruction - Unit Lesson Plan**

**Description of Assessment (Unit Lesson Plan) and Its Use in the Program**

The Unit Lesson Plan is the culminating project for the methods course, EDCI 560, *Methods of Teaching Foreign/World Languages*. The Unit Lesson Plan is an assessment of the candidate's understanding of the goal areas and standards of the *Standards for Foreign Language Learning* (SFL) and Virginia Standards of Learning (SOLs); integrating the SFL and SOLs into language instruction; using the standards and curricular goals to evaluate, select, design, and adapt instructional resources; demonstrating an understanding of language acquisition at various developmental levels; and developing a variety of instructional practices that reflect language outcomes and addressing the needs of diverse learners. This assessment connects theory to practice in the application of most of the content, i.e., second language acquisition and methodology, learned throughout the course. The candidates design a standards-based unit plan that is to be taught over the course of five consecutive days.

**PROCEDURE FOR CANDIDATES**

- Use the lesson plan template provided in the syllabus for planning a unit/lesson plan that is specific to your own *current or future* teaching circumstance.
- Provide a written text scenario of the setting for which this plan is intended. This should include geographic location (urban, rural, suburban), approximate time during school year, brief description of student population, and where this unit lesson plan fits in with the school district's curriculum.
- This plan should cover 5 days (1 separate lesson plan for each day) and each day's plan must include national (ACTFL) and state standards (SOLs).
- Choose one theme or topic and the level/age/grade you want to teach. Include this in the title.
- Define the program model, i.e., Foreign Language in the Elementary School, Foreign Language Exploratory, Advanced Placement, Immersion etc.
- Include all components in the table "Alignment with ACTFL Standards, Explanation and Description" (revised version).
- Use the "Analytic Scoring Rubric-Unit Lesson Plan" (included below) as a guide for meeting and exceeding the criteria for this performance-based assessment.

**Objectives of the Unit Lesson Plan**

This signature performance assessment's objectives require Foreign Language licensure candidates to:

16. How the teacher creates a community of learners
17. Were the objectives of the day's lesson given to the students? If yes, what were the objectives and how were they given?
18. Was the atmosphere conducive to motivating students to participate actively? Explain.
19. How did the teacher keep the students on task?
20. Describe the rapport between teacher and students

**PART II – INTERVIEWS WITH THE TEACHER** – plan to conduct at least two interviews with teacher(s). Use the following questions as a guide (add your own as appropriate).

1. What instructional approaches work well for this age group?
2. In terms of classroom management, what strategies are most effective for your students?
3. What are some effective methods/strategies/assessments for working with students from many different countries?
4. What are the areas of weakness or difficulty for students at your grade level and what do you do to overcome these difficulties?
5. In what ways do you assess student progress?
6. How would you describe your teaching style?
7. How has your teaching style changed since your started your career?

**PART III – REFLECTION** - Summarize your learning from each observation and interview. This provides you the opportunity to connect ***theory to practice***. As you think and write about these school-based experiences, refer to the course content, readings, and discussions. Synthesize this information and apply it to the class content as well as your future (or current status) as a foreign/world language teacher.

### **SUGGESTED ACTIVITIES FOR FIELD EXPERIENCE:**

1. Ask to conference with the teacher **both before** and **after** your observation to discuss the day's lesson and to ask questions. While this is NOT possible for each visit, a minimum of 3 times is expected.

2. Work with individual students or small groups to gain confidence and make some initial contact with students.
3. Seek advice and guidance in preparing for teaching assignment from faculty supervisor and cooperating teacher.
4. As student teaching time approaches, begin to plan in written form some general format for each week's work, including types of exercises in logical sequence, with an attempt at varying the activities sufficiently, along with games, visuals, and innovative strategies.

**Note: *Pay strict attention to the above guidelines. Remember, you are a guest in these schools and classrooms. Appropriate attire and conduct are mandatory. Professional courtesy is essential. If you must cancel a scheduled visit, call as soon as possible to let the teacher know.***

These teachers are **not** on display. They have willingly agreed to make themselves available to you. Try to be helpful and lend assistance where possible. This is to be an **interactive** experience - not passive.
