

GEORGE MASON UNIVERSITY
COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Education Leadership Program
Course Syllabus

Course Number and Title

EDLE 616.001: Curriculum Development and Evaluation (3 credits) [Fall, 2012]

Instructor

Name: Dr. Alan Sturrock

Phone: 703-993-4256 [GMU]; 410-257-6452 [Home]

Email: asturro1@gmu.edu

Fax #: 703-993-3643

Website: www.taskstream.com

Class BLOG: tba

Mailing Address: Thompson Hall, Suite 1300,
Fairfax, VA 22030

Office Hours: Mondays, 1:30 to 3:30pm [Thompson Hall]; before & after class meeting times.

Office Location: EDLE Office, Thompson Hall, Suite 1300.

Program Vision: The Education Leadership Program is devoted to improving the quality of pre-K through 12 education through teaching, research and service. Candidates and practicing administrators engage in course work devoted to experiential learning, professional growth opportunities, and doctoral research that informs practice. We educate exceptional leaders who act with integrity as they work to improve schools.

Schedule Information

Class Location: Planetary Hall 126

Class Days/Times: Mondays, 7:20 to 10:00pm [except October 9 & October 15th [conference week]]
August 27 through December 8, 2012

Course Description: Examines relationship of written, taught, and tested curriculum; and identifies critical leadership decisions that can positively impact student achievement. Identifies components of effective curriculum guides, and constructs a Curriculum Design model for emerging leaders.

Textbooks:

English, Fenwick J. (2010). *Deciding What to Teach and Test*: Corwin Press. [3rd edition]

[The required text[s] is/are available in the GMU Bookstore in the Johnson Center]

Reference texts (optional use as resources.... purchase not required)

Jacobs, Hayes H. (2010) *Curriculum 21: Essential Education for a Changing World*
Alexandria, VA: Association for Supervision and Curriculum Development (ASCD)

Virginia Standards of Learning

Relationships to Program Goals and Professional Organizations: The importance of strengthening and guiding instruction in educational settings is a leadership theme of academic and professional organizations alike. The purpose of the course is to strengthen the knowledge, skills and dispositions of EDLE candidates as instructional leaders and managers. The course provides models for (1) designing and managing curriculum; (2) relating to school board policy, professional development, and budget to effective instructional leadership; (3) constructing effective teacher-friendly curriculum guides; and (4) collecting and using demographic data to create a plan for improved student performance.

This course meets applicable competencies, standards, and guidelines set forth by the Virginia Department of Education (VA DOE), Interstate School Leaders Licensure Consortium (ISSLC), National Council for Accreditation of Teacher Education (NCATE), and Educational Leadership Constituent Council (ELCC), as shown below.

VA DOE Competencies (a 1,3,4,5 and 6; c1; e1; f 4,5)

NCATE Guidelines (Strategic Leadership: 1.3, 1.6, 2.4; Instructional Leadership: 3.3, 3.4, 3.5, 3.6, 3.9; Organizational Leadership: 9.1)

ELCC Standards (1.2), (1.3), (1.4), (2.1), (2.2), (2.3), (6.3)

Learner Outcomes: Students who successfully complete the requirements for EDLE 616 will be able to:

[i] demonstrate an in-depth knowledge of curriculum design, development and evaluation and connect all parts to ELCC standards in the design [and presentation] of a mini curriculum framework

[ii] demonstrate the ability to analyze school demographic and assessment data and use the same to create a professional development plan [PDP] to improve student performance in two critical areas

[iii] identify an emerging/controversial issue in curriculum development/evaluation and create a plan to serve as a guide for educators to fully understand it [the plan should connect best thinking/practices on the issue to 2 or 3 essential questions]

[iv] investigate the components of a well-formed BOE policy on curriculum development/evaluation and apply that knowledge to *solve* a problem either at a specific grade level or content area.

Internship [EDLE 791]: For questions relating to the connections between the Internship and coursework, please talk with either [i] the Instructor, or [ii] your Internship Advisor.

Nature of Course Delivery: A variety of instructional methods are used to cover the subject matter and create a dynamic, interactive learning environment. These methods *may* include large and small group discussions, case studies, media, Internet assignments, lecture, guest practitioners, group presentations, interviews, collaborative learning and reflection. There is some out-of-class work expected. *The challenge is to become a community of learners.*

Course Requirements: You are expected to attend each class because discussion, presentations and hands-on activities are critical parts of the course. The completion of and reflection on assigned readings, **constructive participation** in discussions and group work as well as on-line communication with group members are routine expectations. *Access to a computer and a GMU email account are essential because you will receive important information from the university only on your GMU account and only GMU email accounts may be used to communicate with the instructor.* You must also have an account in **Taskstream**.

If missing a class is unavoidable, you are responsible for notifying the instructor (preferably in advance). **It is your responsibility to check with class colleagues for notes and assignments and complete any missed assignments and readings, etc. before the start of the next class.** All absences **may** affect your final grade because of

the heavy emphasis on class participation. All written assignments must be completed on a word processor (unless otherwise indicated) and turned in on or before the due date.

Assignments # 2 and #3 are program performance-based assessments and are to be submitted on Taskstream.

Late assignments will lower your grade on the project, and will not be accepted or given credit if received 48 hours late. Specific course requirements and assigned due dates *may* be altered as the instructor receives input from you and your classmates about your school calendars. To plan and complete group projects, you may need to meet with other group members at times other than during scheduled class sessions.

Evaluation and Grading:

Because EDLE 616 is a graduate level course, high quality work is expected in class and on all assignments. Assignments 1, 2, 3 and 4 are graded by a rubric. In this way, the rubric can both inform the completion of the assignments and serve as an instrument to assess your grade for the activity.

This course is designed to further develop and expand your managerial and ethical skills in the area of instructional leadership and management. You will be assessed on your ability to analyze situations from the broad perspective of a school administrator, and be expected to view the impact of the decisions from a systematic perspective and from the benefit to student learning.

The grading assessment scales and assigned percentages shown below are guidelines only. Your final grade for the semester will reflect the instructor's judgment of your classroom performance as you attempt to demonstrate leadership behaviors, perspectives and attitudes.

Students may rewrite an assignment [other than the final group project] for re-grading within one week of receipt. The original assignment should be clipped/stapled to the re-write.

Grading Scale:

Participation in class, contribution to group learning	10 points
Assignment #1	15 points
Assignment #2.....	20 points
Assignment #3.....	40 points
Assignment #4.....	15 points
TOTAL:	100 points

A+=100 points	A=95-99 points	A- =90-94 points
B+=87-89 points	B=83 -86 points	B- =80 -82 points
C=75 -79 points	F=74 points or below	

College of Education and Human Development Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://academicintegrity.gmu.edu/honorcode/>].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/1301gen.html>].
- Regarding electronic devices (such as laptops, cell phones, etc.), please be respectful of your peers and your instructor and do not engage in activities that are unrelated to class. Such disruptions show a lack of professionalism and may affect your participation grade.
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times
 Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks)

- intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
- For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

.....

Assignment #1

Identify critical school board policy for curriculum development and evaluation [Individual Assignment]

Purpose:

As educators, it is important that we have a clear understanding of the educational policies developed by our school boards, and our responsibility as educational leaders to implement them. This assignment will challenge your ability to investigate a particular policy adopted by a chosen school board and examine its impact on student learning and achievement.

Assignment:

Prepare at minimum a 3 -5 page, double spaced document that investigates one chosen school board policy and analyze its components in relation to the needs of a [i] specific grade level or [ii] content area. Candidates will conduct interviews with administrators and/or stakeholders in order to gain detailed knowledge of the policy and its impact at the local school level.

**Assignment #2: Demographic Analysis of Assessment Data
(Study of Demographic Information and Assessment Data for Improved Student
Performance—Individual Assignment)**

****REQUIRED PERFORMANCE** [Taskstream]**

Purpose:

The purpose of this assignment is to demonstrate the ability to analyze demographic information and test data (Standards of Learning or other test results) **as it relates to curriculum and/or instructional improvement**. Each candidate will obtain above mentioned information from their schools, and analyze strengths/weaknesses of existing Action Plans with a view to *helping teachers improve student performance in two curriculum areas*. Candidates should also include analysis of relevant [recent] research-based strategies as a part of the effort to lead school improvement. (An individual learning activity completed during and outside of class).

Assignment:

Prepare, at minimum, a Mini-CASE STUDY [5 to 7 pages, including graphics] utilizing the analysis of actual demographic information and test data from your school, and, after examining existing site-based Action Plans, analyze the *strengths and weaknesses in the Action Plan* with a view to helping teachers/staff members improve student performance in the two targeted curriculum areas.

Plan of Action

1. Locate the most recent AYP data for your school
2. Identify demographic information for your school as it relates to AYP data for NCLB sub-groups
3. Analyze the data in two academic areas. Include a brief description of your findings and conclusions regarding curriculum/instruction deficit areas.
4. Examine and analyze existing site-based “action plans”[focusing on strengths and weaknesses] that target the two curriculum areas you selected for improving student achievement.
5. Locate current research-based strategies [recent] that would help [i] target the identified deficit areas, and [ii] strengthen [and improve] the delivery of curriculum/instruction to improve future student performance in those areas.
6. Describe [finally] how site-based leadership should involve school staff in the change process.

Assignment #3: Design of Curriculum Framework
[Curriculum Framework Design Project]
*****REQUIRED PERFORMANCE*** [Taskstream]**

PURPOSE:

The purpose of this assignment is to demonstrate knowledge of program design in curriculum as evidenced in the creation of a model for emerging leaders in the field.

ASSIGNMENT:

In small groups explore and research existing leadership programs, then individually design and construct a Curriculum Guide Framework for aspiring educational leaders. The document is not to exceed 20 pages [25 slides if using PowerPoint], including references that are written in APA style. Components to be included in the curriculum framework are listed in the directions below.

DIRECTIONS:

[a] In small groups.....

- Conduct Internet searches of other leadership programs across the nation (and world).

- Interview both seasoned and new administrators about what they believe beginning administrators needed for educational leaders.
- Check the web sites of educational organizations, the State Departments of Education, accrediting agencies to discover the requirements and suggested content and activities for leading-edge programs.
- Collect information and ideas about leadership development from other sources selected by your group.

[b] **Individually.....**

- Be creative in your ideas about the different teaching methods that could help aspiring leaders learn, how they will be assessed, activities for learning, and locations where leadership development could occur.
- Synthesize those data that your group collects from various sources and make content and format decisions for your [individual] curriculum document. Select the essential knowledge, skills, and dispositions that you believe should be included in a curriculum framework for aspiring leaders. Then, construct a matrix to validate and support what you consider “the right curriculum.” Select one of the items on your matrix and use a modified “backward design” mini lesson plan to teach the item to aspiring leaders [Assignment #4]

Your curriculum framework –curriculum map, course offerings & brief descriptions-- should include the following components:

1. a philosophy and/or vision for the aspiring leaders’ program
2. a validation matrix with at least 4 to 6 sources (include ISLLC, NCATE, ELCC, VA DOE components)
3. a list of the critical knowledge, skills, and dispositions needed by aspiring leaders
4. a list of essential questions to guide the content of your curriculum framework
5. evidence of thoughtful inclusion of UBD as part of the design
6. a reference page to document the sources [minimum of 6] used when collecting data and constructing the framework.

Assignment #4

Professional Development for Curriculum Change

**Identify, Create [and deliver] a Professional Development Session for a Selected Curriculum Issue from Assignment #3 or a current controversial curriculum issue
(Group Project –IN CLASS)**

Purpose:

As educational leaders, we are frequently faced with instructional issues directly related to the written/taught curriculum, and the challenge of presenting them to colleagues in the schoolhouse. The purpose of this assignment is to demonstrate the ability to deliver a PD session to class colleagues based on a **new** course[or new course idea] either [i] identified in Assignment 3, or [ii] a current controversial curriculum issue, utilizing the tenets of the *taught curriculum* & ‘backward design’ [UBD].

Assignment:

You [plural] will identify a current/future curriculum issue and create a PD plan that serves as a guide for educators [can be an issue identified in Assignment #3]. Candidates may use a variety of information gathering methods including interviews with peers, administrators and/or central office personnel; you may also wish to obtain information from the text as well as curriculum guides. Prepare a 10 to 15 minute PD presentation that is designed to assist educators in their understanding of the curriculum issue, and which utilizes the format of the Taught Curriculum & ‘backward design’ [UBD].
