

**GEORGE MASON UNIVERSITY
COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT
SPECIAL EDUCATION**

**EDSE 517 Sections 664 (3 credits)
Computer Applications for Special Populations
Summer 2012
May 31-June 23
Luray High School Room C-113/Aquia Building 219**

INSTRUCTOR

Anna Evmenova, Ph.D.
Office phone: (703) 993-5256
Office location: Finley Building 116
Office hours: By appointment
Email address: aevmenov@gmu.edu

COURSE DESCRIPTION

Lecture and laboratory course for teachers of special populations in applications of computer technology for instructional programs and computer skills. Students learn to use computer technology designed for special populations.

NATURE OF COURSE DELIVERY

Learning activities in this class will include the following:

1. Online lectures and reflections via Blackboard 9.1(<http://mymason.gmu.edu>)
2. Class discussion and participation
3. Software and hardware presentations
4. Group and independent in-class activities
5. Class presentations
6. Written papers using the American Psychological Association format (6th edition)

STUDENT OUTCOMES

Upon completion of this course, students will be able to:

1. Demonstrate an understanding of the history of assistive technology
2. Describe and implement a comprehensive set of procedures for software review and evaluation for specific populations
3. Describe and utilize key devices and software tools designed to help individuals with disabilities in educational settings including learning, physical, sensory, and intellectual disabilities
4. Describe key features in selecting and using an augmentative and alternative communication device for an individual
5. Define issues related to the accessibility of the Internet by individuals with disabilities
6. Evaluate and select appropriate web-based activities for individuals with disabilities
7. Adapt and modify general education curriculum and class activities using assistive technology to meet the needs of diverse learners
8. Design an appropriate technology integrated lesson plan for a specific special education population

RELATIONSHIP OF COURSES TO PROGRAM GOALS AND PROFESSIONAL ORGANIZATIONS

This course is part of the George Mason University, Graduate School of Education, and Special Education Master's Degree Program.

REQUIRED TEXTS

This semester we will be using Blackboard 9.1 (<https://mymason.gmu.edu>) course management system. Course information, lectures, and readings will be posted under the Courses Tab >> EDSE 517 (664) on Blackboard 9.1. If you cannot log in or are having technical difficulties, please direct any technical difficulties to the ITU Support Center at 703-993-8870 or support@gmu.edu

PowerPoint lectures will be posted prior to class. It is the students' responsibility to print PowerPoints before they come to class if they wish to have them during class. There is no required textbook. We have listed a few recommended books if you would like a resource to use in the future. You do not need to purchase them for class. **Students are required to bring a USB memory drive (also known as jump drives or thumb drives) to class to save work.**

RECOMMENDED TEXTS

- Robitaille, S. (2010) *The illustrated guide to assistive technology and devices: Tools and gadgets for living independently*. New York: Demos Medical Publishing.
- Bugaj, C., & Norton-Darr, S. (2010). *The Practical guide to Assistive Technology in public Schools: Building or Improving Your Districts AT Team*. Washington DC: International Society for Technology in Education (ISTE)

ASSESSMENT OF COURSE REQUIREMENTS

All assignments should be word-processed and are due at the start of class on the dates indicated, including assignments submitted through Blackboard. If the due date is not a day the class meets in person then assignments must be posted by midnight the day they are due. Consult with the instructor in advance if there is a problem. In fairness to students who make the effort to submit papers on time, points will be taken off assignments submitted late unless prior arrangements with the instructors have been made. At the instructor's discretion, students may be given the opportunity to resubmit an assignment. Resubmitted assignments are not eligible for full credit.

- It is recommended that students retain ELECTRONIC copies of all course products to document their progress through the GSE ED/LD/MR and/or SD/VI licensure programs. Products from this class can become part of your individual professional portfolio used in your portfolio classes to document your satisfactory progress through the GSE program and the CEC performance based standards.

COURSE EXPECTATIONS

- Students are expected to (a) access and review all course lectures via Blackboard 9.1 as well as complete all online discussions and reflections prior to face-to-face meeting; (b) attend all face-to-face classes during the session, (b) arrive on time, (c) stay for the duration of the class time and (d) complete all course assignments on time.
- Students are expected to allot approximately four hours for review of course lectures and online reflection posts in place of the usual Friday night face-to-face meetings (substituted by the online component this semester).
- During class time, computers and printers are to be used only for work related to the class.
- Use APA guidelines for all course assignments (<http://www.apastyle.org>). In particular, it is expected that you know how to paraphrase and cite information appropriately to meet both APA guidelines and to avoid plagiarism. This website provides some useful information on how to avoid plagiarism in your writing <http://www.collegeboard.com/student/plan/college-success/10314.html>
- We will use person-first language in our class discussions and written assignments (and ideally in our professional practice). Please refer to “Guidelines for Reporting and Writing about People with Disabilities in APA Journals” <http://www.apastyle.org/manual/related/guidelines-reporting-and-writing.pdf>

COURSE ASSIGNMENTS

Refer to Blackboard 9.1 (<https://mymason.gmu.edu>) for further information about the assignments.

- 1. Online and Class Participation (45 points)** Participation in all online activities is very important. Attendance at all face-to-face sessions is mandatory because many of the activities in class are planned in such a way that they cannot necessarily be recreated outside of the class session. Online and class participation is demonstrated by:
 - a. Online reflection posts & feedback (4 posts x 2.5 points = 10 points; 2 feedback x 2.5 points = 5 points; 15 points total)
 - b. Completion of 6 in-class activities handed in at the end of each class period (30 points total)

Students can earn a maximum of 45 points for online and in-class participation.

- 2. Software Review (10 points)** Students will choose a piece of educational software and/or mobile application available in their classroom and/or school to review. The review includes a completed software evaluation form. The software review should provide a brief description of the software followed by a thorough review of the software guided by the provided checklist, as well as the discussion of possible software application within a chosen environment. The review should address the primary features of the software including accessibility and other topics addressed in class (content, user friendliness, adult management features, support materials, and value). Students will use the software review format introduced in class to evaluate the selected software. Please refer to the scoring rubric for additional information on this assignment available on the Blackboard. We will complete this assignment during our first face-to-face class. (Due June 2)

3. **Technology Tools Assignment (15 points)** Students will select a broad technology category that could be helpful to one of the students in their classroom to research, describe, and analyze. A list of technology categories (i.e. word prediction) will be provided by the instructor. Students will then select two specific technologies within their category (i.e. CoWriter and WordQ) as part of their analysis. In a 3-4 page paper, provide (1) a description of the overall technology category including its intended purpose, audience, and important features; (2) a brief description of each specific device/software they have selected along with a comparison of product similarities and differences (3) a recommendation for one of the specific technologies based on the needs of the student. A template with the required elements will be available on Blackboard. **Please note: It is anticipated that students will use the Internet and/or product catalogs to obtain product information and descriptions; however, students are expected to reference such information using proper APA format. This includes correct referencing both within the narrative and in the reference list. Please refer to the scoring rubric for additional information on this assignment available on the Blackboard.** **(Due June 16)**

4. **Assistive Technology Lesson Plan (30 Points)** Students will design an interactive computer-based lesson that has been adapted for a specific population and includes on-line and off-line products. This lesson should integrate instructional and assistive technology and should engage students actively with the technology. Students will write a lesson plan in paragraph or bulleted format addressing all the required elements provided by the instructor and create interactive on-line and off-line products to be used in the lesson. Students will present the lesson and their products on the last day of class. Please refer to the scoring rubric for additional information on this assignment. Please refer to the scoring rubric available on the blackboard for additional information on this assignment **(Due June 23)**.

GRADING SCALE

95-100 = A
90-94 = A-
85-89 = B
80-84 = B-
70-79 = C
< 70 = F

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.

Student Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://academicintegrity.gmu.edu/honorcode/>].

- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/1301gen.html>].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

PROPOSED CLASS SCHEDULE

Session	Date	Topic/Learning Experiences	Assignments Due
1	May 25	Online Module 1 posted on the Blackboard	
2	June 2	First Face-to-Face Class (Luray High School) Introduction to EDSE 517 Teacher Tools and Software <ul style="list-style-type: none"> • Introduction to AT • Teacher Productivity Tools • Educational Software 	Introduction Forum Post Online Module 1 Review Software Review Assignment (to be completed in class)
3	June 3	Online Module 2 posted on the Blackboard	
4	June 9		1st Online Reflection Post to Discussion Board 1st Online Feedback Post Discussion Board
