ECED 401 Developmental Pathways of Diverse Learners, Birth-Adolescence (3:3:0)
Fall 2012
Thursday 7:20-10:00 pm
University Hall 1203

Instructor: Sarika S. Gupta, Ph.D.
Telephone: 703.993.6049
Email address: sgupta12@gmu.edu (preferred method of contact)
Office hours: Before class and by appointment
Office: Thompson 1252

Course Description
Examines child and adolescent development from diverse perspectives. Addresses typical and atypical physical, social, and emotional, language, and intellectual development. Explores role of individual differences and culture in understanding and interpreting child and adolescent development.

Nature of Course Delivery
This course utilizes a distributed learning format requiring active participation of all students. Students are expected to complete all class readings prior to each session so as to engage in active dialogue, productive learning, and critical reflection. Activities will include instructor presentation, small-group discussions, student presentations, videos, and whole class sharing to support course content. In addition, a Blackboard online component of coursework is required.

Learner Outcomes
This course is designed to enable students to do the following:

• Describe the major theories of development and critically examine the theories as they apply to the lives of culturally, linguistically, and ability diverse children and their families.
• Examine the transactional nature of overall development in the context of the family, community, socioeconomic conditions, and culture.
• Examine typical developmental milestones of diverse children from birth through adolescence and their cultural and socioeconomic variations.
• Examine the demographic, historical, social, economic, immigration and political issues affecting linguistically and culturally diverse young children and families.
• Observe and describe overall development in the social and emotional domains as well as physical and cognitive as it occurs in natural environments and through play.
• Identify environmental and biological/physical/medical at-risk factors that can contribute to possible developmental risk and atypical development across the physical, cognitive,
Discuss the etiology of major disabilities as well as giftedness.
• Develop culturally and linguistically appropriate resources to use with diverse families and their children.
• Examine culturally and linguistically responsive professional practices that facilitate development in the physical, cognitive, social, and emotional domains.
• Explain the affect of child abuse and neglect on development.

Professional Standards
This course is aligned with the standards established by the National Association for the Education of Young Children (NAEYC) and the Council for Exceptional Children (CEC).

Required Texts

Recommended Texts

George Mason University Policies and Resources for Students
• Academic integrity (honor code, plagiarism) – Students must adhere to guidelines of the George Mason University Honor Code [See http://academicintegrity.gmu.edu/honorcode/].
• Mason Email – Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, division, and program will be sent to students solely through their Mason email account. Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/1301ge.html].
• Counseling and Psychological Services – The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops, and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].
• Office of Disability Services – Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor in writing at the beginning of the semester http://ods.gmu.edu/].
• Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
• The Writing Center (Optional Resource) – The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].

• University Libraries (Optional Resource) – The George Mason University Libraries provide numerous services, research tools, and help with using the library resources [See http://library.gmu.edu/].

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See http://gse.gmu.edu/].

**Core Values Commitment:** The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.

**Collaboration**
Collaboration is an important human activity that involves shared responsibility in promoting healthy, productive lives, and educational success. We commit ourselves to work toward these goals in genuine partnerships with individuals, families, community agencies, schools, businesses, foundations, and other groups at the local, regional, national, and international levels.

**Ethical Leadership**
In all professions represented by the college, leadership is an essential component denoting ability and willingness to help lead professional practice to higher levels. We commit ourselves to practice ethical leadership through deliberate and systematic attention to the ethical principles that guide all leaders in a moral society.

**Innovation**
We have a history of creating dynamic, innovative programs, and we are dedicated to continue creating innovative approaches in all areas of our work. We commit ourselves to seeking new ways to advance knowledge, solve problems, improve our professional practice, and expand on our successes.

**Research-Based Practice**
The best practice in any discipline is based upon sound research and professional judgment. We commit ourselves to basing our instruction, scholarship, and policy recommendations on well-established principles that, wherever possible, emerge from research and reflection on its implications for professional practice.

**Social Justice**
Social justice embodies essential principles of equity and access to all opportunities in society, in accordance with democratic principles and respect for all persons and points of view. We commit ourselves to promoting equity, opportunity, and social justice through the college's operations and its missions related to teaching, research, and service.
Course Requirements

General Requirements

1. The completion of all readings assigned for the course is assumed. Because the class will be structured around discussion and small group activities, it is imperative that students keep up with the readings and participate in class.

2. Attendance in class is important to students’ learning; therefore, students are expected to make every effort to attend class sessions. Absences, tardiness, and leaving early may negatively affect course grades. If, due to an emergency, students will not be in class, they must call the instructor and leave a message or send an email before class. The following policy is from the university course catalog:

   Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor’s grading policy, as stated in the course syllabus.

3. In line with Mason’s policy that students should not be penalized because of observances of their religious holidays, students shall be given an opportunity to make up, within a reasonable time, any academic assignment that is missed due to individual participation in religious observances. It is the student’s responsibility to inform the instructor of any intended absences for religious observations in advance of the class that will be missed. Notice should be provided in writing as soon as possible.

4. During face-to-face meetings, cell phones, pagers, and other communicative devices are not allowed in this class. Students must keep them stowed away and out of sight. Laptops or tablets (e.g., iPads) may be permitted for the purpose of taking notes only, but students must submit a request in writing to do so. Engaging in activities not related to the course (e.g. gaming, email, chat, etc.) will result in a significant deduction in their participation grade.

5. It is expected that assignments will be turned in on time (the beginning of the class in which they are due). However, it is recognized that students occasionally have serious problems that prevent work completion. If such a dilemma arises, students should speak to the instructor prior to the assignment due date (when possible). If the student does not communicate with the instructor, a late penalty will be applied.

6. Mason is an Honor Code university; please see the Office for Academic Integrity for a full description of the code and the honor committee process. The principle of academic integrity is taken very seriously and violations are treated gravely. What does academic integrity mean in this course? Essentially this: when responsible for a task, students will perform that task. When students rely on someone else’s work in an aspect of the performance of that task, they will give full credit in the proper, accepted form. Another aspect of academic integrity is the free play of ideas. Vigorous discussion and debate are encouraged in this course, with the firm expectation that all aspects of the class will be conducted with civility and respect for differing ideas, perspectives, and traditions. When in doubt (of any kind), students will ask for guidance and clarification.
Written Assignments

All written assignments prepared outside of class will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library web guide at http://library.gmu.edu/resources/edu/. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.

Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at http://catalog.gmu.edu. Those students enrolled in a CEHD Licensure Graduate Certificate program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

Submission of Performance-Based Assessment

This course has a Program Performance-Based Assessment (PBA) that MUST be uploaded and submitted to Task Stream for evaluation when the assignment is due. Only PBAs posted to TaskStream will be graded. This means that NO final grades will be posted until all materials are on Task Stream.

I. Attendance and Participation (15 points)

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class and online learning experiences as is evidenced by (1) participating in all activities, (2) engaging in small and large group discussions, (3) completing written work related to the activities, and (4) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections. Go to mymason, [http://mymason.gmu.edu](http://mymason.gmu.edu), to login to Blackboard 9.1

II. Weekly Online Journal (10 points)

Students will keep an electronic weekly journal based on their reflections from the readings and
post it on Blackboard during the semester. The purpose of the journal is to encourage critical reflections and the sharing of ideas around the theories of development students are exposed to in the assigned readings. Students may be provided with 2-3 topics to reflect and write about. Students may be grouped into online (BB) discussion groups based on the age groups they teach. They may also be asked to choose 2-3 main ideas they learned from the week’s assigned readings and connect reflections and questions to their observations in their internship experiences. Students will come to each class prepared to share one question or reflection.

Due: **Tuesday Prior to Class - Sept 4, 11, 18, 25 / Oct 16, 23, 30 / Nov 6, 13, 27**

III. **Child Abuse and Neglect Online Training (5 points)**

Students must complete an online mini course on Child Abuse and Neglect. Students will upload and submit a copy of the certificate of completion onto TaskStream before the last class period. Virginia Commonwealth University (VCU) School of Social Work’s Virginia Institute for School Services Training Activities (VISSTA) Program offers an online course that fulfills the requirement. This course is entitled “Child Abuse and Neglect: Recognizing, Reporting, and Responding for Educators” and is available, at no cost, at [http://www.dss.virginia.gov/family/cps/mandated_reporters/cws5691/index.html](http://www.dss.virginia.gov/family/cps/mandated_reporters/cws5691/index.html).

Certificate Date of Completion: September 27

Certificate Due in TaskStream: December 13 by 7:00 PM EST

IV. **Developmental Theory Perspective (15 points)**

In order that all class members leave this course with an overview of the most prominent developmental theories in the field of early childhood education and gain a critical perspective on the values and liabilities of different theories and their application, students will prepare a review of three individual theories and associated theorists. Grand theories included in the text include Psychodynamic Theories, Social Learning Theories, Piaget’s Constructive Theory, Vygotsky’s Sociocultural Theory and modern theories include Evolutionary Theories, Information-Processing Theories, Systems Theories, and Critical Theories. Students will select three theoretical perspectives, and write a 1-2 page, double-spaced summary on each theory that includes the following information:

1. Important theorists within the particular paradigm
2. Key tenets of the theory
3. How theory explains cultural differences that are apparent in development
4. How theory explains variation in development, including disabilities
5. The impact of the theory on Education
6. Weaknesses and strengths of theory

Students will then collaborate on a group presentation on one selected theoretical perspective and prepare a poster to engage peers in learning about the key aspects of theory. Group will also model the theory in a hands-on learning activity. Presentation should be informative, creative and interactive.

The main source of information will be course textbooks; however, other sources should be consulted and sited. A scoring guide will be based on key elements of assignment.
Paper Due: October 4 (10 points)
Presentation: October 4 and October 11 (5 points)

V. Observation and Analysis of Children’s Play (15 points)

All early childhood special educators need to develop the skills needed to observe and analyze young children’s play. They learn most about children by studying their behavior directly, observing with objectivity, making careful notes and reflecting upon them thoughtfully. Accurate observations make valuable contributions toward planning for one child’s learning or improving curriculum for the entire group. Observations help develop an understanding of the theories and how they provide information about child development. To this end students will conduct three observations of a focus child in different settings. Students must use the observation form provided to document their observations and bring the notes to class. They will analyze the observations notes in class, in small groups and will report out to the entire class. To receive points for observations #1-3, students must submit their observations notes to the instructor and participate in the small group activities. Scoring guide will be based on key elements of assignment.

Observation 1 will be conducted during a free play session. Due: November 1 (5 points)
Observation 2 will be conducted during a structured activity. Due: November 8 (5 points)
Observation 3 will be conducted during free play outdoors. Due: November 15 (5 points)

VI. Understanding and Integrating Developmental Pathways Case Studies Analysis (40 points)

This is the NCATE 2 Assessment of Content Knowledge that shows evidence of meeting CEC and NAEYC Standards. This assignment must be submitted on TaskStream. See the assessment description and scoring rubric attached.

Early Childhood Education PK-3 NCATE Assessment 2 Content Knowledge
Understanding and Integrating Developmental Pathways - Case Studies Analysis

Early Childhood Education PK-3 NCATE Assessment 2 Content Knowledge is the Understanding and Integrating Developmental Pathways Case Studies Analysis and is in ECED 401/501 Developmental Pathways of Diverse Learners. This assessment shows evidence of meeting NAEYC Standard Elements 1a and 1b.

NAEYC Standard Elements Assessed
NAEYC 1a Knowing and understanding young children’s characteristics and needs
NAEYC 1b Knowing and understanding the multiple influences on development and learning

Assessment Overview
In this assignment, candidates will focus on their knowledge of child development and learning and apply that knowledge to learners of focus across the age span of birth through age eight. Candidates will do the following:

- View video recordings of children, birth through eight, from those provided via the internet.
- Choose three video recordings that address different age ranges, infant/toddler, preschool, and kindergarten through grade 3.
- Use course readings, previous assignments, and class materials to support their presentation of development in light of the three observed video recordings.
- Address the following areas of development: Language Acquisition, Physical and Cognitive Development, and Social and Emotional Development.
- Specify the particular theories that support their reflection and briefly present the main assumptions of those theories, choosing at least three theories to address.
- Discuss how the theory/theorist addresses the interactions between language and culture, choosing a focus child from the video and reflecting on the potential role of the child’s community in terms of social, cultural, and economic impacts on development.
- Present all of this information in an organized and accurate paper on Understanding and Integrating Developmental Pathways.

Assessment Procedures
Candidates will gather information on Steps One through Four below and develop their paper, Step Five, on Understanding and Integrating Developmental Pathways.
**Step One:** Candidates will choose one video at each of the developmental age groups. They provide an explanation regarding why they chose the particular video to examine child development. Below are the video recordings grouped by developmental age group.

**Infant/Toddler**

Special Quest Christopher's Story
http://www.youtube.com/watch?v=LEty6-c0cfQ

Reading to Infants
http://www.youtube.com/watch?v=wmWnlW2ujRM

**Early Childhood**

Three-Year-Old Vanessa (Assistive Technology)
http://www.youtube.com/watch?v=r0adFdlbYZE

**Kindergarten to Grade 3**

Five-Year-Olds Pilot Their Own Project Learning
http://www.youtube.com/watch?v=_eyucHMifto

http://www.learner.org/vod/vod_window.html?pid=1773
There are two possible videos to use at this site
1. Making Bread Together (kindergarten)
2. Caring for the Community (grades 1-3)

Also, candidates can identify a video that they think meets the needs of this assignment. The video has to be available publically, fit in the needed age range, and include at least one focus child from a diverse economic, language, or cultural background or who has a disability. Minimum length for a video is 5 minutes.

**Step Two:** Candidates will provide an explanation of the child’s (children’s) unique characteristics and needs for each of the video recordings (*NAEYC 1a*). Candidates will do the following:

- Specify relevant theories applicable to their description of development and briefly present the main assumptions of those theories using at least three theories of human development and learning.

---

1 We expect the offering of video recordings to increase as we use this PBA and identify more. Clips need to be at least 5 minutes long.
Step Three: Candidates will elaborate on each of the theories presented in Step Two (NAEYC 1a, 1b). For each of the theories, candidates will do the following:

- Elaborate on the theories presented in Step Two by providing the following:
  a. key tenets of the theory;
  b. how the theory explains cultural differences that are apparent in development;
  c. how the theory explains variation in development, including disabilities; and
  d. weaknesses and strengths of the theory.

- Include class readings and specific examples of observations from the video recording that help to explain the theories.

Step Four: Candidates will use the theories, descriptions of child development, and associated video recordings to further address issues of diversity and human development (NAEYC 1b). Candidates will do the following:

- Explain how development manifests itself in young children from diverse backgrounds, including the multiple influences on young children’s development and learning, including the following:
  a. Family and community view of child/children’s development, particularly their strengths;
  b. the socio-cultural context (social, political, economic, historical, and personal family story) of the family and community; and
  c. how children’s exceptional abilities interact with (a) and (b).

Step Five: Candidates will write a comprehensive, accurate, well organized paper on Understanding and Integrating Developmental Pathways based on the information gathered in steps one through four. This paper combines the information in a framework of candidates’ design. They will use APA style.
