These questions guided your “Planning for Instruction” at the end of the Mickelson ExxonMobil Teachers Academy.

- ☐ What one significant change do you plan to make in your mathematics and science instruction when you return to your classroom? If you are not a classroom teacher, respond from the perspective of your role in supporting mathematics and science instruction.
- ☐ Why is this a change you want to make?
- ☐ What impact do you expect this change to make on student learning? On other’s learning?
- ☐ What support do you need to make this change happen?

Your Reflection Task (1-3 pages double-spaced typed) builds on the plan. Use the questions below to guide this reflection.

- ☐ Describe how this change has impacted your teaching and your students’ learning.
- ☐ Share both challenges and success stories.
- ☐ Share examples of student work or other evidence reflecting this change in your teaching.
Examples: scan samples of your students’ notebooks, share a 5E lesson plan, ask your students for feedback on a lesson, etc.
- ☐ Describe your “next steps” in changing your personal teaching practice to model the objectives of the Mickelson ExxonMobil Teachers Academy.
