COURSE DESCRIPTION: Emphasizes safety, liability, risk, and insurance. Covers current law and liability issues for administrators of Recreation, Health, and Tourism facilities and programs.

COURSE OBJECTIVES: At the completion of the course, students should be able to:

- (1) read a series of articles and case reports which illustrate general legal principles governing recreation injury liability in recreation, sports, and physical education programs.
- (2) identify general legal principles and rules of law governing recreation injury liability in recreation, sports, and physical education programs as described in lectures, review questions, objectives, and required reading material used in the course.
- (3) identify definitions and terms which demonstrate a working knowledge of federal civil rights laws and their applicability to sports, recreation, and physical education programs, specifically gender discrimination.

PROFESSIONAL ASSOCIATION STANDARDS

Further, upon completion of this course, students will meet the following professional accreditation standards:

Council on Accreditation of Parks, Recreation, and Tourism Related Professions standards met

- 8.26:02 Contracts and tort law.
- 8.27 Understanding the principles and practices of safety, emergency, and risk management related to recreation, park resources, and leisure services.
- 9A.03 Understanding of the use of the law in management of leisure services, including land management, personnel, human rights, financing, and risk management.

COURSE OVERVIEW: This course examines the issue of personal injury liability in a variety of contexts related to Recreation, Health, and Tourism, including recreation and parks, sports, events, and physical education administration. Case reports and articles will be used to illustrate general legal principles which determine recreational injury liability in a variety of contexts. Negligence liability will be defined through general legal principles, including reasonableness, foreseeability, and standard of care.

In addition to lifeguard and aquatics liability, this course will examine sport injury liability for coaches, participants, and spectators. The course will also examine the validity and enforceability of waivers and releases in sports and recreation. This overview of program supervision liability in sports and recreation will be complemented by an examination of general legal principles governing landowner liability for grounds and facilities used in sports and recreational activities. In addition to recreation injury liability, this course will also review several civil rights issues which impact significantly upon sport and recreation administration.

NATURE OF COURSE DELIVERY

REQUIRED READINGS & CLASS ITEMS:

The "textbook" in this course is a compilation of case reports and related articles which I have written, in particular my monthly "NRPA Law Review" column in *Parks & Recreation* magazine (the official publication of the National Recreation and Park Association). These case reports and related articles will be available for reading, downloading and printing on the PRLS 460 site of my GMU homepage at the following address: <http://classweb.gmu.edu/jkozlows/460.htm>

EVALUATION: 4 EXAMS on Blackboard 9.1 (open book, weighted equally, each exam worth 25%)

Allowing students to take PRLS 460 exams off campus on a more flexible schedule is a privilege which PRLS 460 students have traditionally appreciated and have conducted themselves responsibly, but it may be subject to abuse. I expect every PRLS 460 student to know and adhere to their personal duties and responsibilities under the GMU Honor Code.

Individual exam questions on each exam are randomly selected by Blackboard from question sets in the PRLS 460 question database. As a result, while testing a student's understanding of a similar principle in each question, no two exams are identical. Moreover, Blackboard provides extensive data on each exam to determine any irregularities on individual exams and identify patterns which may indicate collusion among students on PRLS 460 exams.

I am, therefore, able to examine each exam and/or exam question to determine whether there are irregularities that warrant further investigation pursuant to the Honor Code. Moreover, any irregularities could artificially inflate and skew the scores on individual exams and questions which might produce an adverse effect on the course curve to the detriment of individual students and the class as a whole.

Accordingly, you are reminded that the Honor Code is in effect for all exams in PRLS 460 on Blackboard. Further, to clarify and reiterate, no collaboration or group participation whatsoever is permissible during PRLS 460 examinations.

All PRLS 460 exams are open book, but you are limited to primary course materials and video lectures posted to the PRLS 460 course webpage, as well as your own notes prepared prior to the

exam. The use of any other study aids, memoranda, books, data, or other information during PRLS 460 exam is prohibited.

Further, you are not to discuss the exam with any other student during or after the time which the exam is accessible. Providing or reproducing any information to another student about any questions on a PRLS 460 exam would constitute cheating within the context of the Honor Code, i.e., unauthorized use of study aids, memoranda, books, data, or other information. Such unauthorized information may provides individual students with an unfair advantage over other students in preparing for exams. Moreover, prior to each exam, practice questions taken from the PRLS 460 exam question database are made available to the entire class on Blackboard, providing an equal opportunity to prepare for the type and format of questions for each exam.

GRADING SCALE

Final grades are based solely on the percentage of points earned out of the total number of points available on all four exams. THERE IS NO EXTRA CREDIT. The grading scale for final grades based on the number of points earned out of a possible 200 on all four exams:
