#### DESCRIPTION:

Intensive, supervised clinical experience for full semester in accredited schools, both at elementary and secondary levels. Students must register for appropriate section.

#### NATURE OF COURSE DELIVERY:

This course is highly interactive by design. It is predicated upon *learning by doing* and *discovery learning* under the guidance and supervision of a cooperating teacher, an on-site supervisor, and

a university supervisor over a fifteen week period. Assessment is conducted through performance-based assignments while in a P-12 classroom. Students will be engaged in cooperative learning, small group discussions, student-led teaching, videos, multimedia, and reflection. Assessments and rubrics are provided in the Student Teaching Manual.

## **LENGTH OF STUDENT TEACHING**

GMU requires a minimum of 300 student teaching clock hours, including 150 clock hours of direct teaching. This commitment is a 15-week full-time experience. These requirements exceed the current state licensure requirement. An extended period of student teaching provides better preparation and is protection against contingencies such as illness or other interruptions. Students are expected to model the policies and regulations of the school in which they are student teaching. That includes timely arrival, attendance at faculty meetings, parent meetings/conferences, professional dress and all roles of a full-time teacher. Students are expected to complete the full semester of student teaching except in unusual circumstances. In such cases, the Director of Student and Faculty Services may approve early termination based on the recommendation of the university supervisor and cooperating teacher.

## **FORMAT FOR STUDENT TEACHING**

All students are placed in an accredited P-12 school for the duration of student teaching. Students should obtain a placement from the FAST TRAIN Field Coordinator well in advance of beginning student teacher. Student teachers in the ESOL program spend half of the student teaching period at the elementary grade level (K-6), and then switch to the secondary level (7-12). This often requires a change of school. Students in the Elementary program spend half of the semester at K-3 level and half at 4-6 level. This is a seven week placement for each grade and a week transition/preparation in between placements.

In all cases, the student teacher begins by observing and co-teaching and then gradually assumes responsibility for instruction until he or she carries the full teaching load. Toward the end of the assignment, the student gradually returns responsibility for instruction to the classroom teacher. During the transition periods before and after independent teaching, the teacher and the student may co-teach or share responsibility for specific periods or subjects. Student teachers are not yet credentialed and should never have sole responsibility for the students without a full-time teacher in the room.

However, student teachers should always progress at a rate appropriate to their preparedness to assume responsibility for instruction.

## **LEARNER OUTCOMES:**

Based upon Interstate New Teacher Assessment and Support Consortium (INTASC) standards, this course will enable students to:

- Understand the central concepts, tools of inquiry, and structures of the discipline he or she teaches and create learning experiences that make these aspects of subject matter meaningful for students (Standard 1).
- Understand how children learn and develop and provide learning opportunities that support children's intellectual, social, and personal development (Standard 2).

- Plan instruction based on knowledge of subject matter, students, the community, and curriculum goals (Standard 7).
- Understand and use formal and informal assessment strategies to evaluate and ensure the intellectual, social, and physical development of the learner (Standard 8).

### Grading -- GRADING POLICY

The Graduate School of Education has approved the following grading policy for EDCI 790.

1. The grading scale will be S (Satisfactory), NC (No Credit), or IP (In Progress) in accordance with GMU policy for student teaching and GSE policy for counseling and administrative internships
2. The cooperating teacher(s) and the university supervisor shall determine the interim and final grades jointly after consultation. If they cannot agree, the Director of Student and Faculty Services will determine the grade based on a review of the documentation and, in some

cases, observation of the student teacher's performance.

3. A graduate student teacher who receives a No Credit grade or an undergraduate who receives a grade of D or F will not be recommended for teacher licensure unless he/she repeats all or part of the experience with satisfactory performance. (This may require enrolling and paying tuition for additional credit hours in a subsequent semester, or paying a fee for extended supervision.)
4. Any student teacher whose performance cannot be evaluated at the end of the grading period will receive a grade of IP (In Progress). An IP grade shall be changed to Satisfactory or No Credit for graduate students or to A-F for undergraduates upon completion of requirements - usually before the beginning of the next semester.
5. In some cases, a grade of No Credit may be accompanied by a recommendation that the student not be allowed to repeat the student teaching experience. In such cases, the student will be counseled out of the licensure program although not necessarily out of the degree program.
