Fairfax, VA 22030-4444
Office hours: By appointment; before or after class.

Schedule Information

Location: Kelly Building, Rooms 140A & B
Meeting times: Mondays, Wednesdays, June 19 through July 31, 4:30 to 7:30pm

Course Description: Adult Motivation and Conflict Management in Education Settings: A Case Study Approach
This course uses case studies and simulations to examine conflict mediation and resolution skills, and safety and security issues. It focuses on character and ethics education in schools, coaching and mentoring, and adult motivation to support positive behaviors in work settings.

Nature of Course Delivery
A variety of instructional methods are used in this course, including large-and small-group instruction, cooperative learning activities, media use, guest practitioner presentations, group presentation, individual research, case studies, simulations, and written and oral assignments.

National Standards and Virginia Competencies
The course addresses selected Virginia Department of Education (VADOE) Competencies, The Interstate School Leaders Licensure Consortium (ISLLC) Standards, and Educational Leadership Constituent Council (ELCC) (NCATE) Standards.

Specific ELCC standards addressed include:
1.3b Candidates develop plans and processes for implementing the vision (e.g., articulating the vision and related goals, encouraging challenging standards, facilitating collegiality and teamwork, structuring significant work, ensuring appropriate use of student assessments, providing autonomy, supporting innovation, delegating responsibility, developing leadership in others, and
Candidates demonstrate an understanding of the role effective communication skills play in building a shared commitment to the vision.

3.1a Candidates demonstrate the ability to optimize the learning environment for all students by applying appropriate models and principles of organizational development and management, including research and data driven decision making with attention to indicators of equity, effectiveness, and efficiency.

3.1c Candidates demonstrate an ability to manage time effectively and deploy financial and human resources in ways that promote student achievement.

3.2a Candidates demonstrate the ability to involve staff in conducting operations and setting priorities using appropriate and effective needs assessment, research-based data, and group process skills to build consensus, communicate, and resolve conflicts in order to align resources with the organizational vision.

5.1a Candidates demonstrate a respect for the rights of others with regard to confidentiality and dignity and engage in honest interactions.

5.2a Candidates demonstrate the ability to combine impartiality, sensitivity to student diversity, and ethical considerations in their interactions with others.

5.3a Candidates make and explain decisions based upon ethical and legal principles.

6.1a Candidates act as informed consumers of educational theory and concepts appropriate to school context and can demonstrate the ability to apply appropriate research methods to a school context.

6.1h Candidates demonstrate the ability to explain various theories of change and conflict resolution and the appropriate application of those models to specific communities.

6.2a Candidates demonstrate the ability to communicate with members of a school community concerning trends, issues, and potential changes in the environment in which the school operates, including maintenance of an ongoing dialogue with representatives of diverse community groups.

Specific VADOE standards addressed include:

a7 Knowledge, understanding, and application of planning, assessment, and instructional leadership that builds collective professional capacity, including identification, analysis, and resolution of problems using effective problem-solving techniques.

b1 Knowledge, understanding and application of systems and organizations, including systems theory and the change process of systems, organizations and individuals, using appropriate and effective adult learning models

b3 Knowledge, understanding and application of systems and organizations, including information sources and processing, including data collection and data analysis strategies

b4 Knowledge, understanding and application of systems and organizations, including using data as a part of ongoing program evaluation to inform and lead change

b7 Knowledge, understanding and application of systems and organizations, including effective communication skills including consensus building, negotiation, and mediation skills.

c2 Knowledge understanding and application of management and leadership skills that achieve effective and efficient organizational operations, including principles and issues of supervising and leading others to ensure a working and learning climate that is safe, secure, and respectful of a diverse school community

c3 Knowledge understanding and application of management and leadership skills that achieve effective and efficient organizational operations, including management decisions that ensure successful teaching and learning including, human resources management and development, theories of motivation, change in school culture, innovation and creativity, conflict resolution, adult learning and professional development models
c8 Knowledge understanding and application of management and leadership skills that achieve effective and efficient organizational operations, including application of data-driven decision making to initiate and continue improvement in school and classroom practices and student achievement.
d4 Knowledge understanding and application of the conditions and dynamics impacting a diverse school community, including principles of effective two-way communication, including consensus building and negotiation skills.
e2 Knowledge, understanding and application of the purpose of education and the role of professionalism in advancing educational goals, including integration of high quality, content rich, job-embedded professional learning that respects the contribution of all faculty and staff members in building a diverse professional learning community.
e3 Knowledge, understanding and application of the purpose of education and the role of professionalism in advancing educational goals, including reflective understanding of theories of leadership and their application to decision-making in the school setting.
e4 Knowledge, understanding and application of the purpose of education and the role of professionalism in advancing educational goals, including intentional and purposeful effort to model professional, moral, and ethical standards as well as personal integrity in all interactions.
f1 Knowledge understanding and application of basic leadership theories and influences that impact schools including concepts of leadership including systems theory, change theory, learning organizations and current leadership theory.
f2 Knowledge understanding and application of basic leadership theories and influences that impact schools including concepts of leadership including historical leadership theories including organizational theory, motivational theory, political and social systems theory to practical situations.

Content
All of the EDLE program goals are active, to a greater or lesser extent, in this course. The primary purpose of this course is to help students consider how as school leaders they may access [and use] relevant research regarding the creation of conditions in schools that will cause teachers to be attracted to teaching, to stay in the school and in teaching, and to improve their practice and their impact on increasing student learning.

Course Objectives
Students will:
1. Investigate, evaluate and apply results of research regarding motivation to adults in school settings;
2. Explore and apply the results of research regarding factors related to teacher recruitment, retention and improvement, including methods of creating a culture of continuous improvement through professional support, collaboration and professional development;
3. Conduct a case study of a plan for differentiated compensation by applying the results of research regarding motivation and a variety of compensation plans;
4. Review and apply models of leadership as they relate to creating conditions that recruit, retain and lead to improvement of teaching; and
5. Investigate, evaluate and apply to school settings research regarding models of conflict management.

Student Outcomes
Successful students will emerge from the course able to:
1. Demonstrate knowledge and ability to create conditions that will attract teachers, retain teachers and motivate teachers to improve their practice and student learning.
2. Identify motivation principles and apply them to the creation of such conditions.
3. Exercise leadership skills that engender and support such conditions.
4. Apply conflict management skills in developing and maintaining such conditions.
Teaching and Learning
Each class will include a variety of activities and exercises. Out-of-class work will rely, in part, on the use of TaskStream. Specific process goals for the class appear below.

1. Classes will reflect a balance of activities that encourage high quality, ethical leadership. To promote an atmosphere that allows us to accomplish this, we will:
   a. start and end on time;
   b. maintain (flexibly) a written agenda reflecting objectives for each class;
   c. agree to disagree respectfully during class discussions;
   d. strive to be open to new ideas and perspectives; and
   e. listen actively to one another.
   f. The ultimate goal is to function as a community of learners.

2. Student work will reflect what is expected from leaders. As such, students are expected to:
   a. write papers that are well researched, proofread, submitted in a timely fashion, and conform to APA guidelines;
   b. participate actively in class discussions in a manner that challenges the best thinking of the class; and
   c. provide constructive feedback to others both on their ideas and on their written work, striving to learn from each other and to test each other’s ideas.

3. We will endeavor to create a classroom climate that approximates what we know about learning organizations. As such, it is important that we create conditions that allow participants to try out new ideas and voice opinions without fear of ridicule or embarrassment. The hallmark of a learning organization is a balance between openness and constructive feedback; hence, everyone is expected to:
   a. come fully prepared to each class;
   b. demonstrate appropriate respect for one another;
   c. voice concerns and opinions about class process openly;
   d. engage in genuine inquiry;
   e. recognize and celebrate each other’s ideas and accomplishments; and
   f. display an awareness of each other’s needs.

Relationship of Course Goals to Program Goals
Student outcomes and activities for this course are related to the following GMU/EDLE program goals:

1. Understand the complexities of change in schools.
2. Develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision-making, reflective practice and successful achievement of all school-aged youth.

Relationship of Course to Internship
Although the internship is a separate course, the Education Leadership program has integrated “embedded experiences” into course work. This means that some of the work for this class is related to the internship. Students may write about embedded experiences in their internship journals and Collective Records, but they can only count over and above the minimum 320 hours required for the internship.
Course Materials

*Recommended:*

Additional Resources will be listed in the weekly schedule and will be available on TaskStream.

Outside-of-Class Resources

Online access is vital for the distance learning aspects of the course and is important if we experience school shutdowns because of the weather or other problems. **All students are now required to activate and monitor their GMU e-mail accounts.** If you are uncertain about how to do this, please see me. It is my expectation that you will be fully competent to send and receive e-mail messages with attachments. If your computer at school or home has spam blocking that will prevent you from seeing messages with attachments, you are responsible for addressing this problem immediately.

All students are required to use [http://www.taskstream.com](http://www.taskstream.com) as part of this course. This is an Internet site at which I will post vital information for the course and through which we will communicate from time to time. Samples of student work will be archived on this site for purposes of course, program, and college assessment.

It is my expectation that all students have access to standard word processing software that can be read by Microsoft Office 2007.

**Course Requirements, Performance-based Assessment, and Evaluation Criteria**

 Attendance

Students are expected to attend every class for its entirety. Maximum class participation points will be earned by students who attend all classes, are on time and do not leave early.

General Expectations

Consistent with expectations of a master’s level course in the Education Leadership program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:

1. Application of concepts reflected in class discussion and readings
2. Original thinking and persuasiveness
3. The ability to write in a clear, concise, and organized fashion

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of the various performances are as follows:
Class participation: 15 points
Students are expected to participate actively in class discussions, in group activities, and in serving as critical friends to other students. Attendance is expected for all classes. **If you must be absent, please notify me by e-mail or phone.** More than one absence may result in a reduction in participation points. Arriving at class more than 30 minutes late or leaving more than 30 minutes before the end of class may result in loss of points.

Written assignments [2]: 55 points
Two written assignments will be completed during the semester. A description and directions for each assignment and a rubric for grading each assignment are included at the end of this syllabus.

Group Assignment: 30 points
Groups will select and present a Case Study on a current, controversial issue, highlighting both conflict management and adult motivation.

**ASSIGNMENT #2 must be submitted electronically, through TaskStream.** TaskStream is an online assessment system used by the college to collect student work, provide feedback to students, and maintain an ongoing record of student assessment data. You will be provided with a TaskStream account and use TaskStream to submit work for courses, as well as to prepare and submit your internship portfolio.

Late work: I expect all students to submit their work on time, meaning no later than by midnight of the due date. Papers due on a day when you are absent must be submitted via TaskStream by the due date.

Rewrites: Students may rewrite a paper and re-submit the paper for re-grading within one week of receiving the paper back. I recommend that students not consider re-writing papers with scores of 3.5 or higher. If you wish to discuss your work, I am willing to do so at a time of mutual convenience. Papers initially submitted more than 48 hours late will not be graded.

College of Education and Human Development Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See http://academicintegrity.gmu.edu/honorcode/].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].
- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/1301gen.html].
• Regarding electronic devices (such as laptops, cell phones, etc.), please be respectful of your peers and your instructor and do not engage in activities that are unrelated to class. Such disruptions show a lack of professionalism and may affect your participation grade.

• Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

• Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

• Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

• The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].

The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/]. Graduate School of Education, please visit our website [See http://gse.gmu.edu/].

• Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles

Written Assignment #1: Position Paper on Extrinsic and Intrinsic Motivation (30 points)

This paper will begin with an introduction that includes a thesis statement or your position on the question of the relative importance of extrinsic and intrinsic motivation in retaining teachers and in leading them to increase their impact on student learning. The introduction is followed by the body of the paper which is your argument or justification for your position. The argument should be bolstered by research (with appropriate citations), by practice and by reason. The paper should conclude with a summary of the argument.

</table>
You will interview a current education administrator (identity withheld) about an actual workplace conflict that he or she manages. This paper should include:

a) a description of the interview procedure including at least ground rules, documentation, setting, questions and length.

b) a description of the conflict, including interviewee’s role, issues involved, how the conflict was addressed, and the result.

c) an analysis of the management of the conflict in relation to concepts of leadership and motivation,

d) a conclusion which includes reflections on the quality of the conflict management, what might have been done differently and why, and lessons learned from the interview by the interviewer.

Assignment #3: Group Case Study Presentation (30 points)

In self selected groups, choose a current controversial issue that resonates with all group members. Either [i] research and find a Case Study, or [ii] create a Case Study [using class Case Study format] that attempts to touch on the following:
[a] Leadership Styles
[b] Adult Motivational Theories
[c] Conflict Management & Resolution.
Groups will present their Case Study, ensuring that it is both interactive and engages peers in discussion of possible solutions. Ample reference should be made to class text, class readings and discussions, and outside research for same.
