

College of Education and Human Development Division of Special Education and disAbility Research

Summer 2013 EDSE 590 B03: Research in Special Education CRN: 42013, 3 - Credit(s)

Instructor: Dr. Anna (Anya) Evmenova	Meeting Dates: 06/03/13 - 07/25/13
Phone: 703-993-5256	Meeting Day(s) and Time(s): W (6/5) 4:30
E-Mail: aevmenov@gmu.edu	pm-7:10 pm in KH 102, M (6/17 & 7/8) 4:30
	pm-7:10 pm synchronously online.
Office Hours: W 4pm - 5pm (via Blackboard	Meeting Location: Fairfax, KH 102/Internet
Collaborate) or by appointment	

Note: This syllabus may change according to class needs. Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Course Description

Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

Prerequisite(s): None

Co-requisite(s): None

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate students should contact the Special Education Advising Office at (703)993-3145 for assistance. All other students should refer to their faculty advisor.

Nature of Course Delivery

Learning activities include the following:

1. Recorded lecture and online discussion

- 2. Application activities
- 3. Small group activities and assignments
- 4. Video and other media supports
- 5. Research and presentation activities

This course is conducted as a hybrid including: (a) one mandatory face-to-face session (will be conducted on June 5th 4:30-7:10pm in 102 Krug Building, Fairfax Campus); (b) two mandatory synchronous sessions (will be conducted on June 17th and July 8th 4:30-7:00pm via Blackboard Collaborate); and (c) an online component using the **Blackboard 9.1** course management system. Please plan to access the Blackboard site several times per week. Access Blackboard 9.1 at <u>https://mymason.gmu.edu</u>. Your login and password is the same as your George Mason e-mail login. Once you enter, select EDSE 590-B03 Summer 2013 course.

All new materials, readings, and assignments within semi-weekly learning modules will be posted on Mondays and Thursdays and students will be expected to complete and **submit** due assignments by **midnight on Sunday and Wednesday** before the deadline. The instruction will be provided via regular and/or narrated PowerPoint presentations. Presentations, case studies, videos and additional appropriate readings will be provided under **Learning Modules** tab. Assignments and weekly activities will be completed using asynchronous tools such as **Discussion Boards**, **Wikis**, and/or submitted under the **Assignments** link. Multiple **Collaboration Tools** will be offered for students to explore different research methods through the **Group Project** of designing a research study.

In order to facilitate interaction, the instructor will be available for office hours via **Blackboard Collaborate** (within Blackboard 9.1) or in person by appointment. Students will be asked to use **Blogs** to interact and reflect on the readings and course content. In addition, **Frequently Asked Questions Blog** will be available to interact with each other and post questions, comments, resources related to the course organization.

Learner Outcomes

Upon completion of this course, students will be able to:

- Identify and understand different methods of educational research suitable for different research purposes in special education.
- Describe and discuss basic theories and methods of quantitative experimental and quasiexperimental research in special education.
- Describe and discuss basic theories and methods of survey research in special education.
- Describe and discuss basic theories and methods of single subject research in special education.
- Describe and discuss basic theories and methods of qualitative research in special education.
- Critically evaluate education research and describe implications for educational practice.

Required Textbooks

McMillan J. (2011). *Educational research: Fundamentals for the consumer* (6th ed.). Boston: AB Longman.

Recommended Textbooks

American Psychological Association. (2009). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author.

Required Resources

None

Additional Readings

The textbook will be used as a framework for the course. Additional readings relevant to the instructional design, instructional/assistive technology fields will be provided by the instructor.

Course Relationship to Program Goals and Professional Organizations

This course is part of the George Mason University, Graduate School of Education (GSE), Masters in Special Education Program. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. The CEC Standards are listed on the following website: http://www.cec.sped.org/Content/NavigationMenu/ProfessionalDevelopment/ProfessionalStanda rds/. The CEC standards that will be addressed in this class include Standard 4: Instructional Strategies and Standard 9: Professional and Ethical Practice.

GMU POLICIES AND RESOURES FOR STUDENTS:

- *a*. Students must adhere to the guidelines of the George Mason University Honor Code [See <u>http://oai.gmu.edu/honor-code/</u>].
- *b*. Students must follow the university policy for Responsible Use of Computing [See <u>http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/]</u>.
- *c*. Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- *d*. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See http://caps.gmu.edu/].
- *e*. Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].

- *f*. Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- g. The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].

PROFESSIONAL DISPOSITIONS

Students are expected to exhibit professional behaviors and dispositions at all times.

CORE VALUES COMMITMENT

The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. [See http://cehd.gmu.edu/values/]

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See http://gse.gmu.edu/].

Course Policies & Expectations

Attendance.

Students are required to attend one face-to-face meeting on June 5th 4:30-7:10pm in 102 Krug Building, Fairfax Campus and two synchronous sessions to be conducted on June 17th and July 8th 4:30-7:00pm via Blackboard Collaborate. Students are also required to complete all semi-weekly online Learning Modules using the **Blackboard 9.1** course management system.

Late Work.

All assignments must be submitted via Blackboard <u>on or before</u> the due date. In fairness to students who make the effort to submit work on time, points will be deducted from your grade for late assignments. Assignments will not be accepted more than 3 days late <u>unless</u> <u>prior arrangements with the instructor have been made</u>. Allow additional time for as well as plan for additional participation during activities that require constructive feedback.

TaskStream Submission

Every student registered for any Special Education course with a required performance-based assessment is required to submit this assessment, (NO ASSESSMENT REQUIRED FOR THIS COURSE) (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in TaskStream. Failure to submit the assessment to TaskStream will result in the course instructor reporting the course grade as Incomplete(IN). Unless the IN grade is

changed upon completion of the required TaskStream submission, the IN will convert to an F nine weeks into the following semester.

Grading Scale

Requirements	Points	Percent
Participation in class activities	90	60%
Research Application: Mini Project	20	15%
Final Research Project: Research Review Paper	40	25%
Total	150	100%

Grade	Range
А	94-100%
A-	90-93%
B+	86-89%
В	80-85%
С	70-79%
F	69%-below

Assignments

NCATE/TaskStream Assignments. None

Common Assignments.

Final Research Project: Research Review Paper

Other Assignments.

Participation in class activities Research Application: Mini Project

1. Students will complete class readings to include a supplemental set of articles that reflect current special education research trends and will explore different methodologies in published special education research.

Participation - 90 points:

a. <u>Class activities and discussions</u>* - 90 points (5-10 points per week): Students will participate in class activities and interactive quizzes in order to practice literature searches, reviews, and relevant research applications. In addition to weekly class activities, students will be prompted to work on their Research Review Wiki Page. This work is designed to help students prepare for their final Research Review Paper assignment one step at a time.

2. Human Subjects CITI Training Module Completion - Pass/Fails

GMU Mandatory Training for Persons Conducting Research Using Human Subjects is accessed at <u>http://www.citiprogram.org</u>. Seven learner modules in the Basic Course are required prior to conducting any research at Mason using human subjects. In addition, you are required to complete additional modules related to conducting research with school aged children and persons with disabilities. *This assignment will be evaluated as pass/fail*.

3. Research Application: Mini-Project – 20 points

The research application mini-project is designed to provide experience in designing, implementing, and evaluating a research application project in special education. All activities for this assignment will be completed in research teams. *Specific directions and a rubric for this assignment will be provided by the instructor*.

4. Final Research Project: Research Review Paper – 40 points

You will complete a traditional research review paper of a selected intervention area of your choice. **Your topic must be approved by the instructor.** You will need to collect a minimum of 8-10 original intervention research studies on a particular topic to include in your review paper. An electronic copy (posted to blackboard) **AND** a hard copy of the project should be submitted no later than 4:30 pm on the due date. **This assignment is the signature assignment for the course**.

a. As part of class activities, students will provide constructive feedback to at least one classmate on their drafts of the literature review introduction, method, results, and discussion sections.

Specific directions will be provided by the instructor and this assignment will be evaluated using the attached rubric.

*Detailed descriptions and step-by-step instructions for each class activity and course assignments will be provided by the instructor and posted in the corresponding Learning Modules.

Schedule

Date	Learning Module	Textbook Readings*,	
		Weekly Activities & Assignments Due	
Monday,	1. Introduction to research		
June 3	methods in special education		
Thursday,	2. Literature searches & reviews	Chapter 1 (pp.2-18)	
June 6	<i>f2f meeting Jun 5th; 4:30-8:30</i>	CITI Training	
	102 Krug Hall	Introduction Forum	
Monday,	3. Empirical article anatomy.	Chapter 3	
June 10	Research problem & questions	Literature Search Scavenger Hunt	
		Research Review Wiki: Research Topic	
Thursday,	4. Experimental research designs:	Chapter 1 (pp. 19-30)	
June 13	Group Research	Chapter 2 (pp. 32-38; 43-55)	

Tentative Class Topics and Due Dates

(Subject to change for any unforeseen interruptions)

		Overview of Research in My Field
		Research Review Wiki: Purpose Statement
		& Research Questions
Monday,	5. Experimental research designs:	Chapter 8
June 17	Single-subject Research	Research Review Wiki: Introduction Section
	Synchronous meeting,	Draft & Peer Feedback
	June 17th 4:30-7:00	Mini-Research Method Group
	Blackboard Collaborate	Brainstorming Session
Thursday,	6. Research components Part I:	Chapter 8
June 20	Participants & variables	Research Review Wiki: Method Section
		Draft & Peer Feedback
Monday,	7. Research components Part II:	Chapter 2 (pp. 38-42)
June 24	Educational measurements & data	Chapter 4
	collection	Research Review Wiki: Description of Each
		Individual Study Draft
Thursday,	8. Discussion and conclusions.	Chapter 5
June 27	APA 6th edition style	Chapter 6
		Research Review Wiki: Results and
		Discussion Section Draft & Peer Feedback
Monday,	9.Mini-Research Proposal work	Chapter 13
July 1	time	Mini-Research Method Outline
	No Assigned Mod	
Monday,	10. Qualitative research designs	Mini-Research Method Due
July 8	Synchronous meeting,	
	July 8th 4:30-7:00	
	Blackboard Collaborate	
Thursday,	11. Non-experimental quantitative	Chapter 10
July 11	research designs: Survey research	Research Review Wiki: Final Research
		Review Draft & Peer Feedback
Monday,	12. Work on Research Review	Chapter 7
July 15	Paper	Reference List in APA Format
Thursday,	13. Mixed methods research	Final Research Review Paper Due
July 18	designs	
Monday,	14. Intelligent Research	Chapter 11
July 22	Consumer/Action research	
Thursday,	15. Final Assignment	Chapter 12
July 25		Reflection Due

* Additional readings will be provided by the instructor for some Learning Modules.

Appendix

Rubric for Participation in Class Activities

Exemplary (5 points): The student:

- □ Correctly completes and posts all activities on time;
- □ Actively participates and supports the members of the learning group and the members of the class. When appropriate provides constructive feedback to at least one of the classmates in a respectful manner.

Adequate (1-3 points): The student:

- □ Completes and posts the majority of the activities that are partially correct;
- □ Occasionally participates in discussions and provides feedback.

Inadequate (0 points): The student:

- \Box Does not complete class activities;
- □ Does not actively participate in discussions and does not provide constructive feedback;
- □ The student may fail to exhibit professional behavior and dispositions.

Final Research project: Research Review Paper Scoring Rubric

Effective literature reviews contain the following:

- An introduction that establishes an important educational problem that needs to be addressed, a logical presentation of information that leads to the purpose statement of the paper (in this case a systematic literature review). Important concepts are defined in this section as well as any background information needed to support search procedures in the methodology.
- A method section that has clearly replicable procedures and demonstrates competency in the search techniques learned in class (search of educational data bases with key terms, ancestry and/or descendent searches, hand searches of relevant journals), and identifies clear and reasonable decision making criteria for individual studies included in the review (inclusion/exclusion criteria).
- A results section that provides an overview of the characteristics of the data set, is logically organized for the reader, demonstrates that search procedures described in the method section were consistently followed, and succinctly and sufficiently describes relevant information from each of the studies reviewed. A visual representation of the findings (i.e., a table) with accurate information helps the reader to understand more thoroughly the research reviewed.
- A discussion section that provides a thoughtful and analytical discussion of findings and is based firmly on studies reviewed (not solely the authors opinion), and references implications for practice where appropriate.
- **Overall** student understanding of the purpose of each of these sections of a research

paper, a professional writing style (has been thoroughly edited), and citations that are in APA format (with careful attention to 'glaring' errors).

Exemplary paper (36-40 points): Meets all of the criteria above.

<u>Adequate paper (32-35 points)</u>: Good overall paper, lacking in one or two of the criteria for an exemplary paper.

<u>Marginal paper (28-31 points)</u>: Overall, acceptable but with one or more significant problems. Contains some useful information, but may have substantial problems with evaluation, writing style, or review of relevant literature.

<u>Inadequate paper (1-27 points)</u>: Paper with substantial problems in important areas such as writing, evaluation of research, overall thoughtfulness. Contains little or no information of value to special education practice.

<u>Unacceptable/no paper (0 points)</u>: No paper turned in or paper was not approved for this assignment.

Exemplary paper	Adequate paper	Marginal paper	Inadequate paper	No paper
40 - 36	35 - 32	31 - 28	<28	0
