COURSE DESCRIPTION
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy.

COURSE OVERVIEW
This course is designed to prepare students to work with individuals with disabilities by assessing then implementing programming techniques and intervention strategies based on trends.

COURSE OBJECTIVES
1. Define the role of the therapeutic recreation professional as an advocate for leisure and human rights and services for individuals with illnesses and disabilities.
2. Illustrate the rationale for the provision of therapeutic recreation services in both the clinical and community settings.
3. Explain therapeutic recreation delivery models, theories and concepts and their application to health care.
4. Discuss holistic health and wellness including disease prevention and health promotion.
5. Recall the use of self as an instrument in therapeutic relationships and the ability to establish such relationships.
6. Demonstrate a working knowledge of a facilitation technique.
7. Identify resources and references available to assist persons with disabilities.
9. Define leisure education content and techniques among individuals, families and caregivers.
10. Research assistive techniques, adaptive devices and equipment, as well as program adaptations to assist individuals to achieve independence.
11. Demonstrate effective management techniques within the field of therapeutic recreation.
12. Differentiate among effective implementation techniques and interventions to be used within individuals with disabilities in a recreation setting.
ACCREDITATION STANDARDS
Further, upon completion of this course, students will meet the following professional accreditation standards for the Council on Accreditation of Parks, Recreation, Tourism, and related Professions (COAPRT):

**Attendance Policy**

GMU Catalog: “Students are expected to attend the class periods of the courses for which they register. In-class participation is important to the individual student and to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of non-participation.” Accordingly, in this course, absences, tardiness, or early departure are considered de facto evidence of non-participation. Three tardies and/or early departures equal one absence. Three or more absences will result in 0 points for Class Participation.

**EVALUATION**

8 Weekly Chapter Assignments and Selected Chapter Presentations:
Each student individually will be responsible for completing chapter assigned readings and an activity associated with the chapter online or in class. Each student will present one of the chapters from the text and distribute a study guide for the test.

Six practice tests for CTRS exam:
Using information from Stumbo's two texts and additional content as distributed by the professor, students will be prepared to complete practice tests towards certification.

Group Visitation Identification and Evaluation:
Determined by the class, visitations will be identified based on students’ interests to meet professionals in the field and learn how current issues are being met. A follow-up evaluation of the site will be distributed by the professor and completed by the next class period.

**TENTATIVE COURSE SCHEDULE**

Visitations will be booked along with students' chapter assignments at next class.

**Student Expectations**

- Students must adhere to the guidelines of the George Mason University Honor Code [See http://oai.gmu.edu/honor-code/].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].
- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/].
- Students are responsible for the content of university communications sent to their George Mason University email
account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

**Campus Resources**

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].

- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].

- For additional information on the College of Education and Human Development, School of Recreation, Health, and Tourism, please visit our website [See http://rht.gmu.edu].

PROFESSIONAL BEHAVIOR: Students are expected to exhibit professional behaviors and dispositions at all times.

CORE VALUES COMMITMENT: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.
