#### COURSE OVERVIEW

This course satisfies the University general education requirement for the synthesis course. The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the general education curriculum. Synthesis courses strive to expand students' ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design

courses that cover “all” areas of general education, synthesis courses should function as a careful alignment of disciplinary goals with a range of general education learning outcomes.

Students are held to the standards of the George Mason University Honor Code. You are expected to meet all course requirements as listed below as well as fulfill your duties and responsibilities as stipulated by the on-site supervisor.

- working full-time at an approved agency for a minimum of 400 hours (560 for therapeutic recreation students) of professional practice over a period of 10 to 15 consecutive weeks, for no less than 30 hours per week/no more than 40 hours per week.

Other arrangements may be made if the placement site is located outside the Washington D.C. metropolitan area.

#### Grading Scale

The University Supervisor assigns the grade based on the intern meeting the above course requirements. The grade will be either ‘Satisfactory’ (S) (reflecting a C grade or better for undergraduates) or a ‘No Credit’ (NC, which is equivalent to a failing grade). Any intern receiving a NC grade for their overall performance in their internship program will be required to begin a new internship, including re-enrollment and repayment for the 12-credit hours.
