COURSE OVERVIEW

This course satisfies the University general education requirement for the synthesis course. The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the general education curriculum. Synthesis courses strive to expand students’ ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design
courses that cover “all” areas of general education, synthesis courses should function as a careful alignment of
disciplinary goals with a range of general education learning outcomes.

Students are held to the standards of the George Mason University Honor Code. You are expected to meet all
course requirements as listed below as well as fulfill your duties and responsibilities as stipulated by the on-site
supervisor.

  synthesis course. Other arrangements may be made if the placement site is located outside the
  Washington D.C. metropolitan area.

Grading Scale
The University Supervisor assigns the grade based on the intern meeting the above course requirements. The grade
will be either ‘Satisfactory’ (S) (reflecting a C grade or better for undergraduates) or a ‘No Credit’ (NC, which is
