Note: This syllabus may change according to class needs. Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Course Description
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

Prerequisite(s): None

Co-requisite(s): None

Advising Contact Information
Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate students should contact the Special Education Advising Office at (703) 993-3145 for assistance. All other students should refer to their faculty advisor.

Nature of Course Delivery
Learning activities include the following:
1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Field Experience Requirement
A Field Experience is a part of this course. "Field Experiences" entail Mason students conducting activities that may involve students, parents, and/or teachers, etc. in a school setting. "Finding" an individual needed to complete a Field Experience Project/Case Study for a course may be a challenge. Mason's Field Placement Office, internsh@gmu.edu can assist in placing Mason students at school sites. Mason is required to track when and where Mason students complete any field experiences. Consequently, EACH PERSON ENROLLED in this course must access this link http://cehd.gmu.edu/endorse/ferf at the beginning of the semester (if not before) and complete the information requested REGARDLESS if one needs assistance in 'finding' an individual for the project/case study or not.

Evidence-Based Practices
This course will incorporate the evidence-based practices (EBPs) relevant to characteristics of students with mild disabilities, etiology of mild disabilities, inclusionary practices. These EBPs are indicated with an asterisk (*) in this syllabus’ schedule. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.

Learner Outcomes
Upon completion of this course, students will be able to
• Describe the field of learning disabilities from its origins to policies and practices of today.
• Compare the history of education for students with emotional and behavioral disorders, students with learning disabilities students with mild intellectual disabilities.
• Define learning disability, emotional disturbance, and mild intellectual disabilities.
• Describe how educators and other professionals determine the difference between normal and atypical behaviors.
• Describe characteristics of K-12 students with learning disabilities, emotional disturbances, and/or mild intellectual disabilities.
• Compare conceptual models of behavioral deficits with three conceptual models that explain learning disabilities and/or mild intellectual disabilities.
• Discuss the various etiologies in relation to biological, family, cultural, and school perspectives.
• Identify various procedures and practices that motivate reluctant learners to complete class work and develop skills that build self-understanding and confidence as learners.
• Describe and discuss a range of learning disabilities, emotional disturbances, and mild intellectual disabilities for a parent and suggest possible interventions for home and school.
• Describe how children develop language.
• Describe informal assessment procedures for determining knowledge and skills of children with various learning disabilities and emotional/behavioral problems.
• Based on informal assessment procedures, design appropriate clinical teaching strategies for children with various learning disabilities and/or behavior problems.
• Describe what an Individualized Education Program (IEP) is and how it is developed.

**Required Textbooks**

**Digital Library Option**
The Pearson textbook(s) for this course is available as part of the [George Mason University Division of Special Education and disAbility Research Digital Library](http://gmu.bncollege.com). The division and Pearson have partnered to bring you the Digital Library; a convenient, digital solution that can save you money on your course materials. The Digital Library offers you access to a complete digital library of all Pearson textbooks and MyEducationLabs used across the Division of Special Education and disAbility Research curriculum at a low 1-year or 3-year subscription price. Access codes are available in the school bookstore. Please visit [http://gmu.bncollege.com](http://gmu.bncollege.com) and search the ISBN.

- 3 years subscription $525 ISBN-13: 9781269541381
- Individual e-book(s) also available at the bookstore link above or at [http://www.pearsonhighered.com](http://www.pearsonhighered.com). Search by author, title, or ISBN.

Additional Readings
Assigned during class.

Course Relationships to Program Goals and Professional Organizations
This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Students with Disabilities who Access the General Curriculum K-12. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. The CEC standards that will be addressed in this class include Standard 1: Foundations, Standard 2: Development and Characteristics of Learners, Standard 3: Individual Learning Differences, Standard 6: Language, and Standard 8: Assessment, Standard 9: Professional and Ethical Practice, and Standard 10: Collaboration.

GMU POLICIES AND RESOURCES FOR STUDENTS:

a. Students must adhere to the guidelines of the George Mason University Honor Code [See http://oai.gmu.edu/honor-code/].

b. Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/].

c. Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

d. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].

e. Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].

f. Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].

PROFESSIONAL DISPOSITIONS
Students are expected to exhibit professional behaviors and dispositions at all times.

CORE VALUES COMMITMENT
The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. [See http://cehd.gmu.edu/values/]

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See http://gse.gmu.edu/]

Course Policies & Expectations

Attendance.
Students are expected to (a) attend all classes during the course (b) be actively involved in on-line activities (c) arrive on time and stay for the duration of class time. Lack of attendance and professional participation at all sessions (online and in class) with significantly diminish the impact of the course and interfere with creating a collaborative learning community. As such, absences from any portion of the course are strongly discouraged. Lack of participation by a student for any two weeks will result in a recommendation that the student drop the course(s). Please notify me in advance by phone or email if you will not be able to attend class.

Late Work.
In-depth reading, study, and work on course requirements require outside class time. Students are expected to allot class study and preparation time weekly in addition to time spent on papers and assignments. The result of late work will be the loss of 10 points per day until the assignment is received by the instructor. Individual situations will be addressed with students outside of class.

Withdraw.
If you are unable to meet the participation requirements of the course(s) it is strongly recommended that you drop the course. Withdrawing from the course is not an automatic process. You must inform the instructor in writing if you wish to withdraw from the course. Failure to notify the instructor will result in an “F” on your official George Mason University transcript.

Written and Oral Language.
APA Style is the standard format for any written work in the College of Education. If you are unfamiliar with APA, it would benefit you to purchase the Publication Manual of the American Psychological Association (6th ed.) You are required to use APA guidelines for all course assignments. This website links to APA format guidelines: http://apastyle.apa.org

We will use person-first language in our class discussions and written assignments (and ideally in our professional practice). We will also strive to replace the term “Mental Retardation” with “Intellectual Disabilities” in our oral and written communication in accordance with terminology choices in the disability community.

Academic Integrity.
Students in this course are expected to exhibit academic integrity at all times. Be aware that plagiarism is presenting someone else's work as your own. Whether the act is deliberate or unintentional is irrelevant. You must take great care to give credit to an author when you borrow either exact words or ideas. Generally, if you use 4 or more words in a row you should use quotation marks and a proper APA citation. Remember that plagiarism is a very serious offense and can result in dismissal from the University. Evidence of plagiarism or any other form of cheating in the class will result in a zero on that assignment and a report of the incident to the Dean’s Office.

TaskStream Submission
Every student registered for any Special Education course with a required performance-based assessment is required to submit this assessment, Observation Case Study to TaskStream (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in TaskStream. Failure to submit the assessment to TaskStream will result in the course instructor reporting the course grade as Incomplete(IN). Unless the IN grade is changed upon completion of the required TaskStream submission, the IN will convert to an F nine weeks into the following semester.

If you have never used TaskStream before, you MUST use the login and password information that has been created for you. This information is distributed to students through GMU email, so it is very important that you set up your GMU email. For more TaskStream information, go to http://cehd.gmu.edu/api/taskstream

Grading Scale
95-100% = A
90-94% = A-
86-89% = B+
80-85% = B
76-79% = C+
70-75% = C
>70% = F
Assignments

NCATE/TaskStream Assignments.

*Case Study Paper (100 points). A comprehensive case study on a student with emotional disability, learning disability, intellectual disability, or high functioning autism will be completed.

CASE STUDY IS DUE THURSDAY, OCTOBER 31st. Be prepared to present your case study in class orally on one of the following dates: Oct. 31st; Nov. 7th; or Nov. 14th. Be creative in your presentation style! (see provided examples)

The case study should include the following components:

- Student’s characteristics, disability, & strengths/challenges (Draft 10/3)
- Description of school and student’s community (Draft 10/3)
- Educational history (schools attended, reason for referral, pre-referral interventions, results of multidisciplinary evaluation, special education classification, description and location of educational service provision, related services) (Draft 10/3)
- Educational goals and objectives, classroom accommodations, & services (Draft 10/3)
- Observational information (at least two class periods of observations specifically related to student goals, objectives, and accommodations) (Draft 10/10)
- Parent interviews (related to education goals, objectives, accommodations, and any other relevant issues.) (Draft 10/10)
- Additional recommendations, educational accommodations, and/or modifications (Draft 10/10)
- Summary and synthesis (comparison of student’s characteristics with those described in the textbook or other research. i.e., which characteristics were identified in your student? So What? What have you learned from this case study about teaching students with disabilities? (Draft 10/10)
- Appendices – to include student work samples, parent interview questions/answers. (Draft 10/10)

Common Assignments.

N/A

Other Assignments.

Class Attendance and Participation (100 points). Completion of weekly class activities, participation in class discussions, and project presentation update discussions throughout the semester. Points missed due to absences cannot be made up. Excessive absences can result in additional penalties and potential withdrawal from class.
Philosophy of Teaching Statement (Part I & II- 50 points each=100 points)
Due Date: Part I- Sept. 26th and Part II – Nov. 7th

A philosophy of teaching statement is a personal narrative that will include: (1) your conception of teaching and learning; (2) a description of how you teach; and (3) a justification of why you teach the way that you do.

Your philosophy of teaching statement should: (1) demonstrate that you have been reflective and purposeful about your teaching; and (2) communicate your goals for student learning and corresponding actions in your classroom.

Why do teachers need to articulate their philosophy of teaching? What purpose does a philosophy of teaching statement serve? It has been recognized by many teachers that the process of identifying a personal philosophy of teaching and continuously examining and verifying this philosophy through teaching can lead to change of teaching behaviors and ultimately foster professional and personal growth (Brookfield, 1990).

You will develop a personal purpose—which describes a clear picture of why you are doing what you are doing. You will also develop a pedagogical purpose—this perspective allows you to ask the most important question in teaching—“what effect am I having on students and student learning?”

There is no required content or set format. There is no right or wrong way to write a philosophy statement. Only you decide how to write your teaching philosophy. It is generally 1–2 pages in length.

Use present tense, in most cases. Writing in first–person is most common and is the easiest for your audience to read.

Include teaching strategies and methods to help people “see” you in the classroom. Help the reader of your teaching statement visualize what you do in the classroom to establish a student-centered learning environment, including building positive student relationships and engaging all students. Help the reader of your statement visualize your teaching and assessment practices when focused on the learning for all students.

By writing about your experiences and your beliefs, you “own” those statements and establish a personal mindset for student learning.

Journal Abstract Summaries Paper (100 points)
Due Date THURSDAY, Nov. 14th

Each student will summarize three (3) journal articles that are relevant to the needs of the student chosen for the case study. Papers chosen for this requirement
must be from peer-reviewed published journals (no ERIC documents!) and should be data-based examinations of issues relevant to the field. Appropriate sources for journal articles include: Exceptional Children, The Journal of Learning Disabilities, Learning Disabilities Quarterly, The Journal of Special Education, Learning Disabilities Research and Practice, Remedial and Special Education, Journal of Emotional and Behavioral Disorders, etc… PLEASE DO NOT USE A STUDY WHICH IS NOT INTERVENTION RESEARCH.

The purpose of this assignment is twofold: first to identify research-based findings that are relevant to the needs of your case study student and second, to distill the major points of the article to a one-page summary. The abstract should be typed and include an introduction to the students needs, followed by 3 summaries with an APA style citation at the top of the page.

Each entry should consist of two parts labeled 1.-Summary and 2.-Critique. Finally, a conclusion that ties together the 3 summaries’ findings should be presented as an action plan for assisting the student to meet an identified need. A “so what” section is asked to state what you have learned about the student to enhance your teaching practice. A MODEL PAPER WILL BE PROVIDED.

All articles should be from current literature and should not be more than seven years old. You must use your own words to summarize but be sure to cite liberally!

TOTAL POINTS: 400 points
