ECED 513.001 Curriculum Across the Content Areas for Diverse Young Learners (3:3:0)
Spring 2014
Mondays 4:30 – 7:10 pm
Robinson Hall B 224

Instructor: Dr. Ilham Nasser
Office: Thompson Hall Suite 1250
Telephone: (703) 993-4916
Email address: inasser@gmu.edu
Office hours: before or after class and by appointment

Course Description

Explores assessment, curriculum development, planning, and instructional practices across content areas. Examines strategies for guiding children's behavior, integrating instruction across content areas, and planning and implementing community of learners inclusive of children with diverse disabilities.

Prerequisites

Admission to the Early Childhood Education program or approval of course instructor.
ECED 503 Inclusive Curriculum for Young Learners: Planning Instruction and Guidance.

Corequisite

ECED 795 Internship in Early Childhood Education

Nature of Course Delivery

This course utilizes a distributed learning format requiring active participation of all students. Students are expected to complete all class readings prior to each session so as to engage in active dialogue, productive learning, and critical reflection. Activities will include instructor presentation, small-group discussions, student presentations, videos, and whole class sharing to support course content. In addition, a Blackboard online component of coursework is required.

Learner Outcomes

This course is designed to enable students to do the following:

1. Plan curriculum activities that are responsive to the interests, preferences, motivation, interaction styles, developmental status, learning history, cultural variables, and levels of participation of children in pre-kindergarten through grade three (prek-3).
2. Plan curriculum activities that include an in-depth understanding of (a) the relationship among history, literature, art, and music; (b) the relationship between past and present; (c) civic participation in a pluralistic democracy; and (d) how events and history are shaped by ideas and actions of people, including major events in Virginia history.

3. Plan curriculum activities that teach prek-3 students to use primary sources such as artifacts, letters, photographs, and newspapers.
4. Plan, implement, and evaluate an integrated approach across curriculum areas based on local, state, and national curriculum goals and objectives, including the Virginia Standards of Learning.
5. Implement instruction that is linked to children's interests and developmental capacities, that is informed by family and community knowledge and experience, that is relevant to the curriculum, and that promotes learning competence.
6. Select culturally, linguistically, and ability responsive materials that have multiple purposes, are adaptable and varied, and promote learning, including learning about diverse cultures and shared humanity.
7. Construct learning environments that support positive behavioral and learning expectations.
8. Apply systematic problem solving approaches to dilemmas in guiding children's behavior.
9. Use analysis and reflection to better understand the prek-3 learning environment and one's own role as an early childhood educator in that environment.

Professional Standards

This course is aligned with the standards established by the National Association for the Education of Young Children (NAEYC).

Required Texts

Fields, M., Meritt, P., Fields, D. (2014). *Constructive guidance and discipline: Birth to age eight*. (6th ed.). NJ: Pearson Education.

Seefeldt, C., Castle, S., & Falconer, R. (2014). *Social studies for the preschool/ primary child* (9th ed.). NJ: Pearson Education, Merrill.

Additional required weekly readings will be on Black Board and should be retrieved when marked on course schedule.

Recommended Books

Copple, C., & Bredekamp, S. (2009). *Developmentally appropriate practice in early childhood programs serving children from birth through age 8* (3rd ed.). Washington DC: National Association for the Education of Young Children.

Katz, L., & Chard, S. (2001). *Engaging children's minds* (2nd ed.). Stamford, CT: Ablex Publishing.

George Mason University Policies and Resources for Students

- Academic integrity (honor code, plagiarism) – Students must adhere to guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/honor-code/>].
- Mason Email – Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their

account and check it regularly. All communication from the university, college, school, division, and program will be sent to students solely through their Mason email account.

- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>].
- Counseling and Psychological Services – The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops, and outreach programs) to enhance students’ personal experience and academic performance [See <http://caps.gmu.edu/>].
- Office of Disability Services – Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor in writing at the beginning of the semester <http://ods.gmu.edu/>].
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- The Writing Center (Optional Resource) – The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
- University Libraries (Optional Resource) – The George Mason University Libraries provide numerous services, research tools, and help with using the library resources [See <http://library.gmu.edu/>].

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

Core Values Commitment: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.

Collaboration

Collaboration is an important human activity that involves shared responsibility in promoting healthy, productive lives, and educational success. We commit ourselves to work toward these goals in genuine partnerships with individuals, families, community agencies, schools, businesses, foundations, and other groups at the local, regional, national, and international levels.

Ethical Leadership

In all professions represented by the college, leadership is an essential component denoting ability and willingness to help lead professional practice to higher levels. We commit ourselves to practice ethical leadership through deliberate and systematic attention to the ethical principles that guide all leaders in a moral society.

Innovation

We have a history of creating dynamic, innovative programs, and we are dedicated to continue creating innovative approaches in all areas of our work. We commit ourselves to seeking new ways to advance knowledge, solve problems, improve our professional practice, and expand on our successes.

Research-Based Practice

The best practice in any discipline is based upon sound research and professional judgment. We commit ourselves to basing our instruction, scholarship, and policy recommendations on well-established principles that, wherever possible, emerge from research and reflection on its implications for professional practice.

Social Justice

Social justice embodies essential principles of equity and access to all opportunities in society, in accordance with democratic principles and respect for all persons and points of view. We commit ourselves to promoting equity, opportunity, and social justice through the college's operations and its missions related to teaching, research, and service.

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

Course Requirements

General Requirements

1. The completion of all readings assigned for the course is assumed. Because the class will be structured around discussion and small group activities, it is imperative that students keep up with the readings and participate in class.
2. Attendance in class and/or online is important to students' learning; therefore, students are expected to make every effort to attend class sessions and/or complete online modules within the designated timeframe. Absences, tardiness, leaving early, and not completing online modules in the designated timeframe may negatively affect course grades. If, due to an emergency, students will not be in class, they must call the instructor and leave a message or send an email before class. The following policy is from the university course catalog:

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

3. In line with Mason's policy that students should not be penalized because of observances of their religious holidays, students shall be given an opportunity to make up, within a reasonable time, any academic assignment that is missed due to individual participation in religious observances. It is the student's responsibility to inform the instructor of any intended absences for religious observations in advance of the class that will be missed. Notice should be provided in writing as soon as possible.
4. During face-to-face and live online meetings, cell phones, pagers, and other communicative devices are not allowed in this class. Students must keep them stowed away and out of sight. Laptops or tablets (e.g., iPads) may be permitted for the purpose of taking notes only. Engaging in activities not related to the course (e.g. gaming, email, chat, etc.) will result in a significant deduction in their participation grade.

5. It is expected that assignments will be turned in on time. However, it is recognized that students occasionally have serious problems that prevent work completion. If such a dilemma arises, students should speak to the instructor prior to the assignment due date (when possible). If the student does not communicate with the instructor, a late penalty will be applied.
6. Mason is an Honor Code university; please see the Office for Academic Integrity for a full description of the code and the honor committee process. The principle of academic integrity is taken very seriously and violations are treated gravely. What does academic integrity mean in this course? Essentially this: when responsible for a task, students will perform that task. When students rely on someone else's work in an aspect of the performance of that task, they will give full credit in the proper, accepted form. Another aspect of academic integrity is the free play of ideas. Vigorous discussion and debate are encouraged in this course, with the firm expectation that all aspects of the class will be conducted with civility and respect for differing ideas, perspectives, and traditions. When in doubt (of any kind), students will ask for guidance and clarification.

Written Assignments

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library web guide at <http://infoguides.gmu.edu/content.php?pid=39979>. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.

Grading Criteria

A = 95-100 A- = 90-94 B+ = 87-89 B = 83-86
 B- = 80-82 C = 70-79 F = < 70

Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students enrolled in a CEHD Licensure Graduate Certificate program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

Submission of Performance-Based Assessment

Every student registered for any Early Childhood Education course with a required performance-based assessment is required to submit this assessment, NCATE Assessment 5 Effect on Student Learning, to TaskStream (regardless of whether a course is an elective, a onetime course, or part of an undergraduate minor). Evaluation of the performance-based assessment by the instructor will also be completed in TaskStream. Failure to submit the assessment to TaskStream will result in the course instructor reporting the course grade as Incomplete (IN). Unless this grade is changed upon completion of the required TaskStream submission, the IN will convert to an F nine weeks into the following semester.

Specific Course Assignments

Assignments	Due Dates	Points
Attendance & Participation	Ongoing	15
Weekly journal reflections	Due weekly on BB. Starting February 3 & ending April 21	15
Guidance and management approaches	Ongoing as assigned in class Presentations in small groups and due on BB after group presentation. Individual reports due by March 31 on BB	15
Museum visit final report due	March 17- on BB	15
Curriculum unit planning implementation and evaluation	Individual plans due one week prior to take-over period Final report uploaded on TS by May 5	15 25
TOTAL		100

Attendance and Participation (15 points)

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class and online learning experiences as is evidenced by (1) participating in all activities, (2) engaging in small and large group discussions, (3) using laptops and other electronic devices only to support discussion and learning and not for non-academic uses during class time, (4) completing written work related to the activities, and (5) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.

Note: To determine whether the campus is closed due to inclement weather, call 703-993-1000 or go to www.gmu.edu.

Weekly Journals (15 points)

Students will keep an electronic weekly journal based on reflections from the assigned readings and post on Blackboard throughout the semester. In addition, students will come to class prepared to share reflections/ questions from their weekly journal and the weekly readings assignments. The purpose of the journal is to encourage critical reflections, exchange of ideas, and practicing a variety of systematic problem solving approaches around shared classroom and curriculum related issues that students are exposed to in the assigned readings. Students will choose 2-3 main ideas they learned from the week's assigned readings and write about while connecting to the current internship experiences. There will be a total of 10 reflections and each is worth 1.5 points. **See rubric for further guidance.**

Guidance and Management Approaches (15 points)

This assignment is designed to assist students to explore and develop their own philosophy of classroom guidance and management. In small groups, students will research an approach to management that they are interested in learning more about (approach will be based on strategies mentioned in Fields textbook and determined in class). Students will read an **assigned chapter from Fields and three additional research articles** about the approach (additional sources can be used). Students will examine the applicability of the approach in their internship environment and describe ways it would work or not. Where possible students will apply the strategies examined in class and analyze its successes and challenges including sharing information with families about the rationale for using the specific guidance approach. The research portion of this assignment will be completed in small groups (groupings will be determined on first day of class). Students will present their findings in class as a group and individually write a report based on the collective research.

The final report should include the following:

- Description of the guidance approach selected and its main rationale and philosophy

- Discussion of major learning from the three research articles and book chapter.
- Discussion of the implications of findings for planning guidance strategies and meaningful curriculum in the context of the classroom in different grade levels (prek-3)
- Reflections on trying the approach in classroom and challenges faced. If not able, anticipated difficulties should be shared in individual report.
- Reflections on rationale and ways to share the guidance strategies with families and the impact of that on individual students and their learning. In addition, students will share ideas about how to solicit parents' approval and collaboration to implement guidance strategies and to establish strong partnerships with families and communities and to create a culturally responsive classroom. **See rubric for further guidance.**

Museum Visit- Choose one of the following sites

The National Museum of American History, National Archives, or the Museum of American Indians (15 points)

Students will do the following:

- Visit one of the above museums and take notes of the exhibits they visit and specific displays they like. Take pictures of exhibits you choose to spend time and include in final report.
- Examine and document written and visual materials including primary resources at display that can be used to developing lesson plans within a social studies unit for K-3 grades and refer to those in final report.
- Write two lesson plans in social studies (as part of a unit) based on two or more exhibits they visited for students in grade level they are assigned to during the K-3 portion of internship. If in two internships, two lessons should be completed for K-3 classroom only.
- Address ways to integrate different content areas in the lessons they design. For example, if they choose the First Ladies' dresses exhibit, they will address how they would teach lessons about First ladies, presidents, and government and integrate the theme in language arts, math, and science, etc. as appropriate based on curriculum requirements. Lesson plan template will be provided in class and posted on BB.
- Review the Standards in Social Studies for their grade level; include ones that can be addressed in their lessons.
- Include museum sources gathered during the visit such as pictures, newspaper articles, and brochures to the lessons. Also attach a list of electronic resources you used from museum website.
- Share one lesson in class on the day assignment is due and post it on BB in group Discussion Board.
- Write a 1-2 page report about the learning experience and submit with the two lessons.
- Indicate ways they plan to know how children learned the materials they prepared in their lessons.

- Post the lessons on BB by the next class meeting to share with others.
- Enjoy the exhibits and allow 2 hours for visit. Let instructor know of any technical difficulties completing this assignment.

Curriculum Unit Planning, Implementation, and Evaluation (40 points- 15 for planning and 25 for final report including all aspects of unit)

This is the NCATE 5 Assessment of Effect on Student Learning that shows evidence of meeting NAEYC Standards. This assignment must be submitted on TaskStream. See the assessment description and scoring rubric attached.

Course Schedule and Topics

Date	Topic	Readings & Assignments Due
January 27	Introductions and course overview Curriculum planning and design Standards in social studies – Social studies SOLs	Overview of required readings. <u>Weekly journals due every week (by 5 PM on Sunday before class meetings) starting on February 3 and ending on April 21</u>
February 3	Planning social studies curriculum. Teaching of social studies in ECE Designing curriculum in SS that meets local, state, and national standards and is responsive to individual children’s experiences, cultures, needs, strengths, and interests.	Seefeldt Ch. 1 Fields Ch. 1 & 10 Readings On BB- 1. Social studies in today’s Early childhood curriculum
February 10	Considering developmental aspects in planning and designing curriculum in SS. Organizing the classroom and establishing routines to support and guide children’s positive behavior and to prevent challenging behaviors.	Seefeldt Ch. 5 Fields Ch. 2,3, 4
February 17	Planning units and weekly and daily lessons in the content area including assessment strategies Writing objectives and goals. Indicators for academic success in K-3	Seefeldt: Ch. 2 Readings On BB- 1. Curriculum planning 2. Preparing the children of immigrants for early academic success

February 24	<p>SS content- History</p> <p>Developing children’s critical thinking skills to help them understand key social studies concepts, including the relationship between the past and present; use of primary sources (artifacts, letters, photographs, and newspapers); how events in history are shaped by people’s ideas and actions; and the importance of civic participation in a pluralistic democracy-</p> <p>Designing Timelines</p>	<p>Seefeldt Ch. 7</p> <p>Readings On BB</p> <ol style="list-style-type: none"> 1. Teaching history in ECE 2. How planning and reflection develop young children’s thinking skills
March 3	<p>SS content- Geography and Economics</p> <p>Teaching economics and geography content knowledge, including understanding production and consumption, the use of maps and other geographic representations, tools, and technologies to acquire, process, and report information; the relationship between human activity and the physical environment; and physical processes that shape the surface of the earth</p>	<p>Seefeldt Ch. 8 & 9</p> <p>On BB</p> <ol style="list-style-type: none"> 1. Geography in ECE 2. Economics in ECE
March 10	Spring Break- No class meeting	No readings assigned
March 17	<p>Integration across the curriculum and instruction across content areas. Connecting standards and instruction to assessment.</p> <p>Planning, designing, selecting, and evaluating instructional activities and materials to support learning in the content areas</p> <p>Examining relationship between disciplines and integrating history, geography, literature, art, and music.</p>	<p>Seefeldt Ch. 4 Fields, 5 & 6</p> <p>Readings On BB-</p> <ol style="list-style-type: none"> 1. Meeting Standards through integrated curriculum: Book chapter 2. Weaving the tapestry: a first grade teacher integrates teaching and learning; 3. Newspaper to integrate <p>Museum visit report due</p>

March 24	Building communities of learning that include all children, including children with varied abilities, languages, and cultural backgrounds Meeting the needs of children in the classroom-differentiation	Fields Ch. 7 & 8 On BB- 1. Teach me, teach my brain: A call for differentiated classroom. 2. Reconcilable differences? Standards based teaching and differentiation 3. Preparing for the journey – Book chapter
March 31	Developing children’s understanding of diverse cultures and shared humanity. Culturally responsive practice. Connecting teaching to children’s real-life and family and community experiences. Connecting with families. Utilizing the community in curriculum planning and implementation	Seefeldt Ch. 3 & 6 Fields Ch. 9 & 13 1. Creating cultural responsive, inclusive classrooms 2. Making a strong home- school connection by being culturally responsive Guidance and management report due
April 7	SS content- Civic and Government- Social studies content knowledge for teaching and learning, including contributions of ancient civilizations; major events, people, and documents in Virginia and American history; and the evolution of America’s constitutional republic, its ideas, institutions, and practices.	Seefeldt Ch. 10 On BB- 1. Teaching civics in primary grades 2. Peace education in primary grades (Crawford)
April 14	Outside of Class assignment- Museum visit	No weekly journal due
April 21	Global citizenship Connections between social studies and global issues and connections.	Seefeldt Ch. 11 Selected readings on BB: 1. Citizenship teaching and learning- comparative 2. Declaration of Rights’ of Child- United Nations 3. Statement on global citizenship- United Nations

April 28	Use of technology to support the teaching of social studies, including history, geography, civics, and economics. Connecting assessment to instruction for ELL	Selected readings on BB- <ol style="list-style-type: none"> 1. Assistive technology for young children- Book chapter 2. List of website useful in SS 3. Assessment of English Language Learners
May 5	Presentations of unit content and reflections Course wrap up and evaluations	No readings assigned

Guidance and Management Approaches Rubric

15-14 points	13-12 points	11 and below
Paper and presentation include a description of guidance approach/ strategy chosen by the group and all aspects of assignments listed	Paper and presentation include a partial description of guidance approach/ strategy chosen by group and doesn't address all aspects required.	Paper includes very brief description of guidance approach chosen
Paper and presentation include a description and discussion of lessons learned including learning from three research articles And chapter in textbook	Paper and presentation include partial description of lessons learned including learning from one research article and chapter in textbook	Paper includes description of lessons learned without including learning from research articles and chapter in textbook
Paper and presentation include a discussion of implications of findings for planning and teaching and curriculum in general.	Paper and presentation include partial discussion of implications for planning and teaching and no reference to curriculum	Paper includes No discussion of implications of findings
Individual paper includes reflections on guidance approach including implications for partnerships with families and creating a culturally responsive classroom. Paper addresses possibilities for implementation in internship site.	Paper includes personal reflections that are not complete and paper didn't address possibilities for implementation	Paper includes No personal reflections on implications
Paper and presentation are written using APA style and free from errors and presentation is clear and engaging.	Paper and presentation are written using APA style and not free from errors. Presentation is clear but not engaging enough	Paper is written not using APA style and is not free from errors

Weekly Journal Writing Rubric

15-13 Points	12-10 Points	Below 9 points
Weekly journal entries reflect a thorough reading and understanding of assigned weekly materials and reflections on at least 3 main ideas gained	Weekly journal entries reflect quick and brief reading of assigned weekly materials and reflections on one idea gained	Weekly journal entries reflect no readings of assigned weekly materials
Weekly journal entries are well written and free of error. They use direct quotes from readings	Weekly journal entries are well written and free of error.	Weekly journal entries are not written well and full of error.
Each entry (out of 10) is a minimum of one page (300 words) and a maximum of 2 pages (600 words)	Eight entries are less than a page long (300 words)	Seven or less entries are less than a page long (300 words)
Weekly journal entries include a reflection on knowledge gained and implications for practice and implementation	Weekly journal entries include a reflection on knowledge gained and no reflections on implications for practice and implementation	Weekly journal entries include no reflections on knowledge gained and no reflections on implications for practice and implementation

MUSEUM ASSIGNMENT GUIDELINES (15 pts.)

Based on the exhibits you visited your notes on the exhibits, and your pictures documenting the primary resources; develop and reflect on two lesson plans that incorporate social studies and at least two other content areas (you can integrate any content area with social studies).

Lesson Plans (5 pts. per plan)

These match the sections of the GMU lesson plan template provided. All components should be addressed and complete.

Report (5 pts. total)

1. Reflect on the overall learning experience of finding, planning, and teaching with primary sources. Follow points in assignment description on syllabus.

2. **If you implement the lessons in the classroom, discuss:**
 - a. Your assessment of whether the students did/did not learn the material, including specific support of how you know this (i.e. – review of their class work, from class discussion, observing their participation in group activities, the questions they asked, the amount of support they needed, etc.) – This should align with the assessments mentioned in your lesson plans.
 - b. Changes to your plan you would make for future implementation based on your reflection of implementation of the lesson and student learning outcomes. If it went great and you would do it the same next time just explain this including what you liked the best (or was most effective) about your lessons.
 - c. Attempts you made to integrate content.

OR

If you did not have a chance to implement the lessons, discuss:

- a. What do you expect the students will learn and how you plan to determine whether the students did/did not learn the material, including specific support of how you will know this (i.e. – review of their class work, from class discussion, observing their participation in group activities, the questions they asked, the amount of support they needed, etc.) – This should align with the assessments mentioned in your lesson plans.
- b. Discuss possible changes to your plans for future implementation. Since you did not implement the lessons and are only anticipating student learning outcomes this will include the aspects of your lesson you think might need tweaking. For example, you planned three activities and estimated the amount of time they will take, but you think one of them might require more time. Obviously you won't know for sure until you actually try it, but thinking ahead you might anticipate that the second time one of the activities will have to be taken out, or they may all need to be shortened.
- c. Address ways you plans for integrating content

Early Childhood Education PK-3 NCATE Assessment 5 Effect on Student Learning *Curriculum Unit Planning, Implementation, and Evaluation*

Early Childhood Education PK-3 NCATE Assessment 5 Effect on Student Learning is the Curriculum Unit Planning, Implementation, and Evaluation in ECED 513 Curriculum Across the Content Areas for Diverse Young Learners. This assessment shows evidence of meeting NAEYC Standard Elements 3d, 4c, 5a, 5b, and 5c.

Assessment Overview

In this assignment, candidates are asked to plan and implement a curriculum unit during the two weeks of full-time teaching in the classroom during their K-3 internship. They will use knowledge gained in their coursework, along with the learning standards in social studies and other content areas. They will also report on the effect their instruction had on student learning. Candidates will engage in the following:

- Develop a two-week integrated curriculum with focus on social studies that will be implemented during the student teaching internship in K- 3 classrooms.
- Implement the plans prepared.
- Write a report that documents the unit planning and implementation processes; addresses the impact their planning and instruction had on student learning; and explains how information was gathered, how modifications were made, and what lessons were learned.

NAEYC Standard Elements Assessed

NAEYC 3d Understanding and practicing responsible assessment to promote outcomes for each child

NAEYC 4c Using a broad repertoire of developmentally appropriate teaching/ learning approaches

NAEYC 5a Understanding content knowledge and resources in academic disciplines

NAEYC 5b Knowing and using the central concepts, inquiry tools, and structures of content areas or academic disciplines

NAEYC 5c Using their own knowledge, appropriate early learning standards, and other resources to design, implement and evaluate meaningful, challenging curricula for each child

Assessment Procedures

Candidates will use the Virginia Standards of Learning (SOL) as well as knowledge they have gained on how children learn to design, implement, and evaluate a curriculum unit. They will write a report that addresses the impact their planning and instruction had on student learning and explains how information was gathered, how modifications were made, and what lessons were learned.

Step One: Plan an Instructional Unit

Candidates will use a broad repertoire of developmentally appropriate teaching/ learning approaches (*NAEYC 4c*) and will know and use the central concepts, inquiry tools, and structures of content areas or academic discipline (*NAEYC 5b*). They will show their understanding of content knowledge and resources in academic disciplines (*NAEYC 5a*).

Candidates will do the following:

- Design a two-weeks integrated curriculum unit with a focus on social studies that integrates, at a minimum, the following content areas: reading, writing, oral language development, and the fine arts, including art and music.
- The written plans should include the following:
 - A brief description of the unit theme and strategies to be employed to plan the curriculum unit, including choice of content focus and approaches used (no more than one page) and the rationale behind planning daily routines, activities, and lessons including the goals, objectives, and developmentally appropriate approaches and methods to address children's needs
 - A discussion of how learning experiences and instructional activities planned integrate social studies with other content areas
 - A list of the local, state, and national curriculum goals and objectives related to the unit and ways they guide planning the integration of curriculum, including but not limited to Virginia Standards of Learning (SOLs) in social studies (history), English, and the fine arts as applicable
 - A list of selected culturally, linguistically, and ability responsive materials that will be used, including those that have multiple purposes, are adaptable and varied, and promote learning, including learning about diverse cultures and shared humanity
 - A description of how they plan to assess learning and how information will be collected to achieve that
 - An explanation of how assessment information gathered will be used to promote children's outcomes
 - A brief outline of the daily activities and lessons planned for the two weeks

Step Two: Implement Instructional Unit

Candidates will use their own knowledge, appropriate early learning standards, and other resources to design, implement, and evaluate meaningful, challenging curricula for each child (*NAEYC 5c*). Once the plans have been reviewed and approved, students will do the following:

- Implement the integrated curriculum unit plans
- Take daily notes on how successful the lessons were and how responsive students were to the lessons. They will do the following:
 - Note the types of supports in place and obstacles that occurred when implementing the unit
 - Gather evidence of students' learning

Step Three: Document Planning, Implementation, and Effect on Student Learning

Candidates will write a report to evaluate the planning, implementation, and assessment of the unit. More specifically the report should include three separate sections that describe the planning, implementation, and assessment processes (*NAEYC 3d, 5c*).

1. Planning

Candidates will provide evidence of their planning. Candidates will include the following:

- An electronic copy of the original integrated unit plans with instructor's comments
- A copy of the final and modified plans implemented during the two weeks of full time teaching with modifications identified

2. Implementation

Candidates will provide evidence of the implementation of their unit plan. Candidates will include the following:

- An analysis and reflection of the planning and implementation process including a discussion of what went well, what modifications were made to the original plans, and what could be done differently
- An evaluation of content learned, including an appendix with evidence of learning about students and their learning
- A description of the types of home school connections that were established in the overall plans and lessons
- An appendix with samples of **three lessons implemented** during the full-time teaching, including one lesson with social studies content. Suggested content of lessons may be the following (where possible):
 - A lesson that includes the relationship between past and present, civic participation in a pluralistic democracy, and how events and history are shaped by ideas and actions of people
 - A second lesson plan that describes teaching students to use primary sources, such as artifacts, letters, photographs, and newspapers
 - A third lesson that addresses and integrates understanding and knowledge of students' families

3. *Assessment and Documentation of Effect on Student Learning*

Candidates will dedicate the final section of the final report to show their understanding and practice of responsible assessment to promote outcomes for each child (*NAEYC 3d*). Candidates will do the following:

- Describe the specific components of assessment used in the unit and provide evidence that children learned, including the following:
 - how the data gathered were used
 - an appendix including artifacts of students' work to illustrate learning of new related concepts
- Address the selection of assessments used (provide sample copies of formal and informal assessments) during the teaching period and ways in which assessments informed instructional decisions
- Respond to the following questions:
 - How do you know that children learned?
 - What evidence collected shows that instruction had an effect on student learning (e.g., work samples, results of assessments, observational notes and checklists, etc.)?
 - In what ways did assessment inform instruction?
 - What types of individual accommodations were taken into consideration while planning and implementing the unit and specific lessons?
 - How did you adapt your teaching based on the needed accommodations?
 - What information gathered from and about the children informed the adaptations and modifications made?

ECE PROGRAM OUTCOME STANDARDS (Aligned With State and NAEYC Standards)	Assessment Measure Descriptions			
	Exceeds Criteria	Meets Criteria	Partially Meets Criteria	No Evidence
Early Childhood Education PK-3 NCATE ASSESSMENT 5 Effect on Student Learning Curriculum Unit Planning, Implementation, and Evaluation ECED 513 Curriculum Across the Content Area for Diverse Young Learners				
3d. Understanding and practicing responsible assessment to promote outcomes for each child	Used four or more types of assessments to gather data to plan instruction with child outcomes in mind AND Used four or more types of assessment to gather data to evaluate the effects of instruction on student learning AND Explained reasons for selecting the particular types of assessments and the ways they were used to inform instruction and to make accommodations to enhance children's learning	Used three types of assessments to gather data to plan instruction with child outcomes in mind AND Used three types of assessment to gather data to evaluate the effects of instruction on student learning AND Explained reasons for selecting the particular types of assessments and the ways they were used to inform instruction and to make accommodations to enhance children's learning	Used one or two types of assessments to gather data to plan instruction with child outcomes in mind AND/OR Used one or two types of assessment to gather data to evaluate the effects of instruction on student learning AND/OR Explained reasons for selecting the particular types of assessments and the ways they were used to inform instruction and to make accommodations to enhance children's learning	Did not use assessment to plan and evaluate instruction

<p>4c: Using a broad repertoire of developmental appropriate teaching/learning approaches</p>	<p>Designed, implemented, and evaluated the effectiveness of four or more age and developmentally appropriate lessons as part of an integrated curriculum unit AND Implemented four or more types of teaching strategies and activities that are age appropriate and meet different children's developmental needs AND Presented four or more sets of data to show the effects of the instruction on student learning</p>	<p>Designed, implemented, and evaluated the effectiveness of three age and developmentally appropriate lessons as part of an integrated curriculum unit AND Implemented three types of teaching strategies and activities that are age appropriate and meet different children's developmental needs AND Presented three sets of data to show the effects of instruction on student learning</p>	<p>Designed, implemented, and/or evaluated the effectiveness of one or two age and developmentally appropriate lessons as part of an integrated curriculum unit AND/OR Implemented one or two types teaching strategies and activities that are age appropriate and meet different children's developmental needs AND/OR Presented one or two sets of data to show the effects of the instruction on student learning</p>	<p>Did not design, implement, and evaluate the effectiveness of lessons that were part of an integrated curriculum unit</p>
<p>5a. Understanding content knowledge and resources in academic disciplines</p>	<p>Used content knowledge in social studies while integrating with two or more other academic disciplines to plan, implement, and evaluate instruction AND Used school, community, and academic resources in designing and implementing curriculum to promote meaningful learning experiences for young children</p>	<p>Used content knowledge in social studies while integrating with another academic discipline to plan, implement, and evaluate instruction AND Used school, community, and academic resources in designing and implementing curriculum to promote meaningful learning experiences for young children</p>	<p>Used content knowledge in social studies to plan, implement, and/or evaluate instruction AND/OR Used school, community, and/or academic resources in designing and implementing curriculum to promote meaningful learning experiences for young children</p>	<p>Did not use content knowledge to plan, implement, and evaluate instruction</p>

<p>5b: Knowing and using the central concepts, inquiry tools, and structures of content areas or academic disciplines</p>	<p>Used knowledge of content areas to integrate across three or more academic disciplines AND Provided descriptions of how lessons were implemented to meet grade-level requirements, including knowledge of central concepts and inquiry tools in different content areas</p>	<p>Used knowledge of content areas to integrate across two academic disciplines AND Provided descriptions of how lessons were implemented to meet grade-level requirements, including knowledge of central concepts and inquiry tools in different content areas</p>	<p>Used knowledge of a content area to plan instruction in one academic discipline AND/OR Provided descriptions of how lessons were implemented to meet grade-level requirements, including knowledge of central concepts and inquiry tools in different content areas</p>	<p>Did not use knowledge of content areas to integrate across academic disciplines to meet grade-level requirements</p>
<p>5c: Using their own knowledge, appropriate early learning standards, and other resources to design, implement, and evaluate meaningful, challenging curricula for each child</p>	<p>Developed more than three lesson plans based on assessment of student learning that connects to standards AND Implemented more than three developmentally appropriate lessons using a variety of appropriate resources and instructional strategies AND Evaluated successes and areas of improvement in design and implementation of a meaningful, challenging, and developmentally appropriate curriculum across content areas</p>	<p>Developed three lesson plans based on assessment of student learning that connects to standards AND Implemented three developmentally appropriate lessons using appropriate resources and instructional strategies AND Evaluated successes and areas of improvement in design and implementation of a meaningful, challenging, and developmentally appropriate curriculum across content areas</p>	<p>Developed fewer than three lesson plans based on assessment of student learning that connects to standards AND/OR Implemented fewer than three developmentally appropriate lessons using appropriate resources and instructional strategies AND/OR Evaluated successes and areas of improvement in design and implementation of a meaningful, challenging, and/or developmentally appropriate curriculum across content areas</p>	<p>Did not develop, implement, and evaluate lessons</p>
