COURSE ASSIGNMENTS AND EXAMINATIONS:

1. Assignment Descriptions

a. Literature Circle (20 points)

There is a good deal of reading in this course, and it is your responsibility to read the assigned book and article selections every week. Just completing the readings is not enough to maximize your learning opportunities. Therefore, we will use literature circles to frame our weekly discussions of the readings. Each week, you will assume one of the literature circle roles (on Bb) and record your responses accordingly in your literature circle journal. You should bring your journal to class each week, as these will be used in class to guide your literature circle discussions. Your grade will be based on both a peer and self-evaluation of 1) your weekly completion of your literature circle role and 2) your engagement in the group discussion.

b. Attendance and Participation (3 pts. per week/42 pts. total)

This course operates with the assumption that knowledge is socially constructed and the most meaningful learning opportunities are those where you have the opportunity to offer and explore diverse perspectives with peers. To do this **it is expected that you attend all scheduled classes and asynchronous/synchronous online meetings** outlined within the syllabus. Absence from class to observe a religious holiday, to serve jury duty, or to participate in required military service, and medical emergencies are exceptions to the above policy. If you anticipate being absent for any of these reasons, please make arrangements at least 48 hours in advance. In addition, **you are expected to be on time to class** each week unless advance notice has been provided to the instructor.

c. Exit Tickets (3 pts. per week/42 pts. total)

At the end of each class, you will review your concept map and you will then complete an exit ticket that details how your answers to any of the questions in your concept map have changed/evolved given our readings/discussions. This serves as a type of “exit card”

to help you process your immediate learning and to provide me insight into your developing understanding and perspective. It is expected that your response is brief but that you connect your response to class discussion and the readings.

d. Educational History (15 points)

We know from the research literature that your prior school experiences as a student (aka-your apprenticeship of observation-Lortie, 1974) wield incredible influence on your views of teaching and learning. Therefore, it is essential that we explore your K-12 school experiences so that you are aware of the pre-existing perceptions that you bring to teacher preparation. Your Educational History should be 1-2 single spaced pages in length and should be an introspective summary/reflection on your memories of teaching/learning in

- Elementary school
- Middle school
- High School
- College

e. Beliefs Statement (20 points)

As you progress through your program, you will identify, develop, and refine your beliefs about teaching and learning. These beliefs may or may not reflect your actual teaching practice. We often aspire to something that we are not yet able to do or that we don't do consistently. Your Beliefs Statement serves as a tool for acquiring new knowledge and studying your own teaching practice. Remember, your Beliefs Statement is likely to shift, grow, and deepen as you gain more experience in the classroom and deepen your knowledge of theory and practice.

On the first day of class, you will reflect on the prompts below and develop a concept map of your beliefs and how they relate to one another. You will highlight areas that intersect and sources of tension in your map. Each week we will complete exit tickets to reflect how your thoughts are changing/evolving and we will revisit this map to refine/expand your thoughts. At the end of the course you will write your beliefs statement based on the concept map and exit tickets.

Your Beliefs Statement should be 5-6 pages in length and should address each of the following prompts:

- I believe the purpose of schooling is...
- I believe that teaching and learning...
- I believe my classroom is...
- I believe all my students are/they learn best when they...

- I believe my students learn best when I...
- I believe community/family is/are...
- I believe collaboration is...
- My professional goals as a teacher are...(5 years)...(10 years)...

f. Current Events/Instructional Strategy Presentations (15 points)

In small groups, you will select an additional resource (eg-current events news story, video clip, scholarly reading) to share with the class. The resource should relate to the questions guiding the course for the week the small group has been assigned. Groups should select a resource that they consider a ‘must read’ related to the topic. Links to the resource should be posted to Blackboard 48 hours before class so that the other students and instructors can familiarize themselves with the issue.

The group will be allotted 20-30 minutes in class to facilitate a discussion/activity about the story. The group should use an instructional strategy that they might use in their future classrooms. The group will be responsible for a one-page handout summarizing the strategy they use to shape their discussion. Great resources for finding resources include (but are NOT limited to):

g. Community Mapping Activity (15 points)

In your field experience school groups, you will complete a community mapping activity. The purpose of this activity is to familiarize you with the myriad factors that influence students’ daily school experiences and to provide a format for introducing your school to

your peers. You and your peers at your field experience site will create a brief presentation (7-10 minutes max) that introduces us to the following aspects of your school:

- 1) a visual tour of both your school and the surrounding community
- 2) school description/demographics
- 3) community description/demographics
- 4) aspects of your school that make it unique
- 5) intersection of course readings/discussions with your school experiences.

The presentation can take any format that your group prefers! Be creative☺. Please be cognizant of taking pictures of children—any photographs need to be used only for the purposes of this assignment and not distributed/used in any other forum.

h. The Story of The Perfect Future School (20 points)

Your final and most open-ended project of the semester will be one that calls on you to be your most creative self. For this project you will write and illustrate a story of the *perfect* future school—the one in which you would like to teach, organized in the way you believe schools should be organized, with curricula you think schools should address, etc. You will not write a description of the qualities of this perfect school and your classroom in it; rather, you will create a picture book that you could share with your future students, maybe as a way to begin your school year in your future classroom, to help young people understand the type of classroom you hope to create with them, and share the positive changes you hope to make in their lives and in the broader community.

Based on everything we have encountered during our course—your philosophy, readings, each other, youth, other teachers, etc.—what do you now believe schools, classrooms, our curricula, and our pedagogies should look like? Specify the practices, policies or expectations that you could implement to make schools the places you believe they should be, paying particular attention to student learning and serving diverse learners with justice-focused opportunities to learn. You might try to answer the questions you addressed in your teaching philosophy, or the tensions that emerged in your concept map, or the memories you revisited in your history. For this project you will be given a book kit to use—a full-color, minimum sixteen-page book that you will submit to Dr. Kopfman for publication. One additional goal of this project is for you to be a published author by the end of the semester and to use all of your creativity to develop an intriguing, relevant storybook that matters to you and your future students. Please let your brains hurt as you consider what you might create for this project.

i. Reflective Practitioner Paper (40 pts) PBA:

In order to become reflective practitioners for a multicultural classroom, candidates must reflect on a variety of professional issues that teachers confront in their day-to-day teaching as well as the broader educational and social context, which affects the work of the public

school teacher. To this end, the candidates will analyze a current issue/innovation around race and culture, gender equity, special education, social class, or language diversity. They will then relate it to historical and sociological trends/perspectives as well as to their own experiences. *A detailed task description and rubric is attached.

5. Performance-based assessments

Reflective Practitioner Paper (40 pts) PBA

In order to become reflective practitioners for a multicultural classroom, candidates must reflect on a variety of professional issues that teachers confront in their day-to-day teaching as well as the broader educational and social context, which affects the work of the public school teacher. To this end, the candidates will analyze a current issue/innovation around race and culture, gender equity, special education, social class, or language diversity. They will then relate it to historical and sociological trends/perspectives as well as to their own experiences. *A detailed task description and rubric is attached.

Note: I reserve the right to add, alter, or omit any assignment as necessary during the course of the semester.

TASKSTREAM REQUIREMENTS

Every student registered for any Elementary Education course with a required performance-based assessment (designated as such in the syllabus) is required to submit this assessment (EDCI 542: *Reflective Practitioner Paper*) to TaskStream (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of your performance-based assessment will also be provided using TaskStream. Failure to submit the assessment to

TaskStream will result in the course instructor reporting the course grade as Incomplete(IN). Unless this grade is changed upon completion of the required TaskStream submission, the IN will convert to an F nine weeks into the following semester.

IMPORTANT INFORMATION FOR LICENSURE COMPLETION

Beginning with Spring 2015 internships, all official and passing test scores must be submitted and in the Mason system (i.e. Banner/PatriotWeb) by the internship application deadline. Allow

a minimum of six weeks for official test scores to arrive at Mason. Testing too close to the application deadline means scores will not arrive in time and the internship application will not be accepted.

Required tests:

- Praxis Core Academic Skills for Educators Tests (or qualifying substitute)
- VCLA
- RVE
- Praxis II (Content Knowledge exam in your specific endorsement area)
- For details, please check <http://cehd.gmu.edu/teacher/test/>

Endorsements:

Please note that ALL endorsement coursework must be completed, with all transcripts submitted and approved by the CEHD Endorsement Office, prior to the internship application deadline. Since the internship application must be submitted in the semester prior to the actual internship, please make an appointment to meet with the Endorsement Specialist and plan the completion of your Endorsements accordingly.

CPR/AED/First Aid:

Beginning with spring 2015 internships, verification that the Emergency First Aid, CPR, and Use of AED Certification or Training requirement must be submitted and in the Mason system (i.e. Banner/PatriotWeb) by the application deadline. Students must submit one of the "acceptable evidence" documents listed at <http://cehd.gmu.edu/teacher/emergency-first-aid> to CEHD Student and Academic Affairs. In order to have the requirement reflected as met in the Mason system, documents can be scanned/e-mailed to CEHDacad@gmu.edu or dropped-off in Thompson Hall, Suite 2300.

Background Checks/Fingerprints:

All local school systems require students to complete a criminal background check through their human resources office (not through George Mason University) prior to beginning field hours and internship. Detailed instructions on the process will be sent to the student from either the school system or Mason. Students are strongly advised to disclose any/all legal incidents that may appear on their records. The consequence of failing to do so, whether or not such incidents resulted in conviction, is termination of the field hours or internship.

Please Note: Your G-Number must be clearly noted (visible and legible) on the face of the document(s) that you submit.

Application Deadlines:

The internship application can be downloaded at <http://cehd.gmu.edu/teacher/internships-field-experience>.

Spring internship application:

- Traditional semester long internship: September 15

Fall internship application:

- Traditional semester long internship: February 15

- Year Long Internship: April 1 (All testing deadline are August 1 immediately proceeding the fall start; RVE deadline is December 1)

Reflective Practitioner Paper

“A large part of the problem [of the achievement gap] is that many educators do not understand what it means to engage in educational practices that promote equity. Equity involves more than simply ensuring that children have equal access to education. Equity also entails a focus on outcomes and results”

(Boykin & Noguera, 2011, p. viii)

In consideration of the above quote, this assignment will offer you an opportunity to expand your understanding of public education as a system that both expands and diminishes equity. Taken another way, you will explore the following question: What are the tensions within efforts to reform public education and how do these debates shape your thinking and actions as a teacher? Follow the steps below to successfully write this scholarly paper.

1. Pick an educational initiative introduced through class (readings, discussion, materials).
2. Research who this initiative is designed to benefit (a group of students targeted by the initiative).
3. Find peer-reviewed research articles and review class readings that address the initiative and its impact on students (If you are not sure about whether a research journal is peer-reviewed consult with me). Take notes as you read.
4. Write your paper. Include the following as headings so that you and the reader [your instructor] will know exactly where you are headed and whether you have addressed all of the content requirements.

- Introduction (this is where you introduce your topic, establish its significance (hook), and give your reader an advance organizer for the paper)

Part One (The initiative)

- Description of the initiative
- Background and historical information of initiative
- Strengths of the initiative
- Weaknesses of/challenges to the initiative
- Implications for teachers (What does this initiative mean for teachers? You will want to think about what is essential for teachers to consider, know, and do within this initiative)

Part Two (The students)

- Background of the student population targeted by the initiative (may include US, VA, DC demographics)
- Classroom/school implications for young learners in this population (How has this population of students historically experienced education? How do identity characteristics of this population intersect with characteristics of school?)
- Implications for teachers such as yourself (compare/contrast your background) teaching this population of students (You must first deconstruct and then describe relevant aspects of your identity. Then you must analyze how these pieces of your identity potentially intersect with teaching this student population. Use first person here to then generalize to a broader population of teachers like you.)

Part Three

- Conclusions (Based on what you have presented in your paper, this is where you draw conclusions about the impact of the initiative on students. Who is benefitted and how? Who is disadvantaged and how? What does that mean for the group of students targeted by the initiative?)

Tips

While you are writing the paper make sure that you are:

- Integrating concepts from readings. You CANNOT make a claim without evidence to support it. That evidence comes from your readings and research. Each section needs multiple (2 or more different) sources. I will be looking for breadth and depth in your references.
- Integrating class discussions and integrating experiences and/or personal reflection (especially in Part 2: Implications for teachers such as yourself).

Clarity of writing

- It is logically organized
- Has an introduction that includes the goals/purpose of the paper

- Has points representing strengths and weaknesses of the initiative
- Has smooth transitions between ideas
- Ends with a conclusion that restates the main points of the paper (without introducing new ideas) and draws conclusions about the initiative's outcomes on intended students.
- Information is presented clearly within the page limits (**8-10 pages**)
- The paper has NO grammar or spelling errors. None.
- Read and re-read your writing before submitting
- If academic writing is difficult for you, ask a colleague or friend to review your work and provide feedback or visit the GMU Writing Center (see link above).

APA format

- title page
- headings
- page numbers
- proper use of in-text citations and appropriately formatted reference list
- Do NOT use standalone quotes in your paper. See the "Citation Cheat Sheet" on blackboard for help with this.
- Do NOT include anything in your reference list that you do not cite in your paper.
