5. Identify responsibilities of the sports medicine team and related disciplines;
6. Describe certification requirements for athletic training;
7. Describe legislative concerns related to athletic training;
8. List components of an athletic training room;
9. Demonstrate record keeping practices in athletic training;
10. Illustrate how tissues of the body respond to injury;
11. Classify basic musculoskeletal injuries and mechanisms;
12. Outline the process of injury evaluation; and
13. Identify the basic psychological components of injury.

NATURE OF COURSE DELIVERY

Face to face.

ATTENDANCE

Students are expected to be on time, attend all class meetings and be prepared for in class assignments and projects. Excused absences include the following: illness (must bring a receipt or note from a doctor), family death, athletic/academic event(contact instructor in advance), and others at the discretion of the instructor. For known upcoming absences, students must contact the instructor at least one week in advance to the missed class to make up work. In the case of illness or some other unforeseen absence, the student must contact the instructor before the course meeting via e-mail or telephone. At the next attended class meeting the student will discuss material that is to be completed. ***Students will have one week from the excused absence to complete any missed assignments.*** It is the student's obligation to pursue any make-up work.

DRESS

During the laboratory section of the course, students will be asked to wear appropriate clothing to expose various body parts for the purposes of practicing the application of various medical procedures. Tank tops, tee-shirts or sports bras/bathing suit tops will be required when topics focus on the upper body. Shorts will be required will be required when topics focus on the lower body. If there is a concern with exposing areas of the student's body or classmates, it is the student's responsibility to contact the instructor to make appropriate arrangements.

LABORATORY SUPPLIES

The student will use issued supplies to practice skills that are taught in the laboratory section of the course. Students are not required to bring their supplies to the formal laboratory course meetings. A laboratory fee of \$120.00 for this course was assessed through financial aid. Supplies will be issued at the all-athletic training majors meeting on January 21st at 11:30am-12:30pm in the Verizon Auditorium. If you cannot make the meeting due to a class conflict, please see the instructor after class.

TECHNOLOGY USE DURING CLASS

As per GMU policy, all sound emitting technology is required to be turned off during the class meeting time. Additionally, *no laptop computers, Smart Phones, or other technology* will be permitted for use during class time; the exceptions are for use during presentations/projects, and technology deemed as necessary by the Office of Disability Services. Students utilizing various technology devices during class will be asked to leave class and will not be permitted to complete course work or receive any points for assignments that day.

E-MAIL CORRESPONDENCE

Only messages that originate from a George Mason University address will be accepted. The following is an appropriate professional format:

Dear Dr. Mrs. Caswell; *(Beginning salutation)*

I am looking forward to your class. *(Text body)*

Regards, *(Ending Salutation)*

First Name Last Name *(Your name)*

ACCREDITATION STANDARDS

The course meets Commission on Accreditation of Athletic Training Education (CAATE) competencies and proficiencies in one or more of the following content areas: evidence-based practice, prevention and health promotion, clinical examination and diagnosis, acute care of injury and illness, therapeutic interventions, psychosocial strategies and referral, healthcare administration, professional development and responsibility.

REQUIRED READINGS

1. Prentice, W.E. (2014). Arnheim's Principles of Athletic Training: A Competency-based Approach, 15th Edition. McGraw Hill Publishers.
2. Beam, J. (2006). Orthopedic Tapping, Wrapping, Bracing and Padding. F.A. Davis Publishers.

EVALUATION

Students will be evaluated on content standards (knowledge gained) and performance (demonstration of the content). Content standards will be assessed via written assignments, quizzes, and exams. Performance will be assessed through completion of class participation activities and competency testing.

Assignments

Various assignments will be used to provide learning opportunities related to topics covered in class. Guidelines and directions will be provided in class for each assignment.

Professional Phase Student Interview

Students will be assigned a professional phase student to contact and conduct an interview about the ATEP. Guidelines and directions for the interview will be provided.

Quizzes

As indicated on the Course Calendar, a quiz will be given at the beginning of class for the required reading. This will be a brief multiple choice and true-false assessment of your knowledge from the reading. ***You are required to bring a Scantron to each examination.*** If you are late to class, you cannot make up the quiz at the end of class.

Lecture Examinations

Four written examinations will be administered. The format of the examinations will be multiple choice, true/false, short answer, matching, and fill in the blank type questions. Each of the examinations will test material covered during the prior class meetings and previous reading assignments. Exams will also cover material in the textbook and activities completed during class sessions. ***You are required to bring a Scantron to each examination.***

Laboratory Assessment

Four assessments of various taping related psychomotor skills will be administered throughout the semester. The skills practiced in class will be assessed in a live practical examination format. This is a real time examination that will require the student to demonstrate various taping techniques. Students will be randomly scheduled for testing.
