COURSE DESCRIPTION
This course offers an introduction to the planning and management of weddings. The social,
political, economic, cultural, religious and historical influences on wedding planning decision-
making and business strategies will be explored. Practices relevant to successful wedding
planning and consultancy for diverse clients and settings will be reviewed.

DELIVERY METHOD:
This course will be delivered online using an asynchronous (not “real time”) format via the
Blackboard learning management system (LMS) housed in the MyMason portal. You will log in
to the Blackboard course site using your Mason email name (everything before
“@masonlive.gmu.edu”) and email password. The course site will be available on Monday,
August 31st at 9:00 a.m.

TECHNICAL REQUIREMENTS:
To participate in this course, students will need the following resources:
• High-speed Internet access with a standard up-to-date browser, either Internet Explorer or
Mozilla Firefox. Opera and Safari are not compatible with Blackboard;
• Consistent and reliable access to their GMU email and Blackboard, as these are the official
methods of communication for this course
• Students may be asked to create logins and passwords on supplemental websites and/or to
download trial software to their computer or tablet as part of the course requirements.
• The following software plug-ins for Pcs and Macs respectively, available for free
downloading by clicking on the link next to each plug-in:
  o Adobe Acrobat Reader: http://get.adobe.com/reader/
  o Windows Media Player: http://windows.microsoft.com/en-
    US/windows/downloads/windows-media-player
  o Apple QuickTime Player: www.apple.com/quicktime/download/

EXPECTATIONS:
• Course Week: Because asynchronous courses do not have a “fixed” meeting day, our week
will generally start on Monday, and finish on Thursday. Exceptions are noted on the
course schedule.
Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be 3 times per week.

Participation: Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and online group interactions.

Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students are expected to seek assistance if they are struggling with technical components of the course.

Technical Issues: Students should expect that they could experience some technical difficulties at some point in the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

Workload: Expect to log in to this course at least 3 times a week to read announcements, participate in the discussions, and work on course materials. Remember, this course is not self-paced. There are specific deadlines and due dates listed in the CLASS SCHEDULE section of this syllabus to which you are expected to adhere. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

Advising: If you would like to schedule a one-on-one meeting to discuss course requirements, content or other course-related issues, and you are unable to come to the Mason campus, we can meet via telephone or web conference. Send me an email to schedule your one-on-one session and include your preferred meeting method and suggested dates/times.

ASSIGNMENT/PROJECT DESCRIPTIONS

Directed Reading Assignments, Blogs and Other Short Assignments – For each chapter, there will be a directed reading assignment and blog to complete. Additional short assignments may be assigned as well. None of these assignments will be accepted late, nor can they be made up.

Peer Leader Assignment – Each student will be assigned a specific chapter to lead the blog discussions. Students will research an engaging piece of media that relates to the chapter, develop questions for the class that stimulate discussion and comment on all blog posts.

Wedding Planning Project Design – Students will work in small teams to design a wedding. This will start the thought process regarding what will ultimately be a much larger final project. This project will include discussions about the couple, unique situations, theme & vision, number of guests, budget, potential venue sites, timeline and vendors.

Wedding Planning Final Project – Each team will complete a comprehensive wedding project detailing specific elements common to weddings. Students will also complete a detailed budget, a risk management plan, a post-wedding evaluation form, and a production schedule and update all areas included in the project design. This project will demonstrate the student’s ability to design and plan a wedding from start to finish.

When you are the blog peer leader, you are required to comment on all initial comments made by your classmates.

2. **Directed Readings, Blog Assignments and Other Short Assignments** – Throughout the semester, you will regularly have directed readings, blog assignments and other short assignments. None of these assignments will be accepted late, nor can they be made up. Your lowest directed reading, blog assignment or short assignment grade will be dropped.

3. **Peer Leader Assignment** – For one course topic, you will be the peer leader. Your materials should be submitted to your instructor no later than 9:00 a.m. on the Monday prior to the week that your discussion topic will be posted for comment. You will receive up to a 20-point deduction for each day the assignment is late. After five days past your assignment due date, this assignment will not be accepted and you will receive no credit.

4. **Wedding Project Group Assignments** – Your group will be completing a project design and final project. These assignments will receive up to a 20-point deduction for each day the assignment is late. After one week past the due date, wedding project assignments will not be accepted and you will receive no credit.

5. **Peer Evaluations** – At two points during the semester, you will complete peer evaluations as pertaining to the wedding project assignments. Any team member who receives consistently low peer evaluations may lose up to 100 points (no credit) on the
final project. Your instructor will determine deduction amounts, if any, based on the team feedback.

6. **Midterm and Final Exams** – The midterm and final exams must be completed on the scheduled dates. Only documented absences will be considered for make-up exams.
