Students are expected to plan and conduct diagnostic and tutorial lessons for an individual student under the direct supervision of the 637 instructors. Students are also expected to complete all class readings prior to each session in order to engage in active dialogue and sharing of ideas. Activities will include lecture, strategy demonstrations, assessment and teaching practice experiences and analysis, small group discussions and presentations, whole class sharing, critical reflection, and individual technical assistance.

LATE ASSIGNMENT POLICY

All assignments are to be completed and delivered on their due dates. Any late assignment will have points automatically deducted (10% for each day late). This policy will be rigorously applied to Instructional Plans.

CLASS PARTICIPATION

Class participation is critical since most of the class sessions will include tutorial practicum experiences as well as critical information on literacy testing and teaching. If you know in advance that you will be absent for any tutorial sessions, you must withdraw from the course. For each absence from a non-tutorial session, 5 points will be deducted from the total possible participation points. If there is an unexpected absence from a tutorial session, you will be expected to make arrangements with your tutee's parent/guardian to make-up the practicum time missed and produce acceptable verification. If missed practicum time is not made up by the conclusion of the course, you will not receive a passing grade for the course. If your tutee is absent, the practicum time does not need to be made up, nor will this negatively affect your grade.

TASKSTREAM REQUIREMENT

Every student registered for a course with a required performance-based assessment is required to submit this assessment to TaskStream (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in TaskStream. Failure to submit the assessment to TaskStream will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required TaskStream submission, the IN will convert to an F nine weeks into the following semester.

NCATE/IRA STANDARDS AND PERFORMANCE-BASED ASSESSMENTS

Throughout the literacy masters programs, students are required to satisfactorily complete one or more performance-based assessments (PBAs) in each course and are required to submit these to an electronic system entitled "TaskStream." Satisfactory completion of every PBA as well as posting to TaskStream is required before moving to the next course. The TaskStream assessment system can be found at <https://www.taskstream.com/pub/>. Students are REQUIRED to submit the designated PBA to each course instructor so that the assignment can be evaluated when the assignment is due. Only assignments/PBAs posted to TaskStream will be assessed. ***No final grades for courses will be posted until ALL required PBAs are posted to TaskStream.***

FINAL NOTE: A pass/fail grade is assigned to 637 and a letter grade to EDRD 633.

SUPERVISED PRACTICUM

Assignment

The purpose of the practicum experience is to practice working with individual students and to broaden understandings of students' literacy needs in K-12 classrooms. As a part of the practicum, instructional plans will be developed and ongoing assessment and intervention strategies will be implemented under the direct supervision of the course instructors. Documentation of work with the practicum student will be compiled into a case study portfolio..

Procedures

Each practicum session will be approximately 1½ – 4 hours in length.

Diagnostic Sessions: The first two to three sessions will focus on becoming acquainted with the student and conducting preliminary assessments that will inform decisions made when developing instructional plans.

Instructional Sessions: The remaining instructional sessions will focus on providing literacy support for the practicum student based on the initial diagnosis and ongoing interactive assessment. . Emphasis will be on providing a comprehensive literacy experience that further develops critical reading and writing skills by building on the student's strengths and addressing the student's needs as evidenced in initial and ongoing assessments During the instructional sessions, literacy interactions with tutees must include the following four strands:

- (1) writing as meaningful communication;
- (2) phonemic awareness/phonics/vocabulary development;
- (3) fluency building with self-selected readings; and
- (4) strategies for the comprehension of expository/narrative text.

Technology: Two lesson plans must incorporate technology. Utilize the SAMR (Substitution, Augmentation, Modification and Redefinition) model of digital literacy integration as a guide.(SAMR will be discussed in class.)

It is recommended that diagnostic sessions are audio taped. The diagnostic report, instructional plans, instructional summary report, as well as selected samples of student work, and reflections will be compiled in the case study portfolio. The case study portfolio will be overviewed in a parent/student conference at the conclusion of the practicum period and presented to the class.

DIAGNOSTIC PLANS (EDRD 637)

* Use the following format to fill in this section:

The *Analytical Reading Inventory-3 (ARI)*, Woods & Moe, 2011) was administered to assess Henry's reading ability. _____ was first given a practice test at the _____ level. The immediate concern was to put *him/her* at ease, as well as help him/her become familiar with the format of the test and what was expected of *him/her*.

The *ARI* is an informal reading inventory categorized by grade levels, pre-primer through grade nine. Each grade level contains reading selections that are classified as either narrative (tells a story) or expository (fact-based, as found in textbooks). The testing procedure is as follows: decoding words from words lists to determine a starting point for passage reading; making predictions based on the passage title and the first two sentences, reading the passage orally, retelling the story, and answering different types of comprehension questions that assess factual recall and higher level thinking.

_____s performance on the narrative passages of the *ARI* was as follows:

Highest Independent level on the Word Lists: _____.

Passage levels achieved are indicated below:

	Independent	Instructional	Frustration
Word Recognition			
Comprehension			

Overall, _____ made a total of _____ oral reading miscues, of which _____ were determined to be significant. Significant miscues are those that limit _____'s ability to comprehend what he reads. His significant miscues fell into the following pattern:

Omissions: _____

Insertions: _____

Substitutions: _____

(name others)

With each passage read orally, fluency was assessed using the _____ rubric.

Overall, _____ received a score of _____. _____'s fluency strengths were in the specific areas of (rate, expression, phrasing, orchestration). Areas of need were determined to be (rate, expression, phrasing, orchestration). It was noted that _____'s fluency was _____.

On the whole, _____'s predictions before reading were generally (accurate, inaccurate, lacking detail).

_____s retelling of the passages after reading them orally indicated (excellent, fairly good, adequate, limited) comprehension. *His/her* performance on the comprehension questions indicate that *he/she* was (equally capable with both factual and higher level questions; better able to answer the factual questions; better able to answer the higher level questions). Out of a total

of _____ factual questions, *he/she* answered _____ correctly. Out of a total of _____ higher level questions, *he/she* answered _____ correctly.

_____ also read _____ expository passages to gauge his/her ability to handle textbook prose. *He/she* was permitted to look back at the text for answers to the comprehension questions and demonstrated (a great deal of skill, a moderate degree of skill, a limited degree of skill) in skimming and scanning for relevant information. In addition, _____ was asked to give a summary of the expository passages. *His/her* summary indicated (a great deal of, an adequate degree of, a limited degree of) skill in condensing the ideas and information to a single coherent paragraph.

*After conducting a formal administration of the *ARI*, interactive assessment techniques were used to gather further information about _____s needs and abilities as a reader. Interactive assessment is a process of teaching reading strategies to a child and determining how well the child learns to use the strategies while working together with a story or other text. The _____ was used as the interactive assessment. The specific interactions included (KWL charts, Venn diagrams, predictions, etc.) before reading; during reading we (traded off reading paragraphs aloud, asked and answered each other's questions, summarized pages of the story, etc.); after reading we (finished a KWL chart, filled in the remainder of a Venn diagram, created a comic strip, etc.) _____ demonstrated (a great deal of, a moderate degree of, a limited level of) enthusiasm for these strategies. The strategies also seemed to (greatly improve, moderately improve) his comprehension of the story.

EVIDENCE-BASED STRATEGY SHARE

Assignment

The purpose of this assignment is to give you the opportunity to share with your peers an effective strategy and provide support from the professional literature for the strategy. Everyone has success with particular strategies, which should be made available to others. In this way you become a resource to your peers. Furthermore, every effective strategy should be linked to the theoretical and research literature.

Procedure

1. **Select a strategy** or activity you are using in practicum with your student that you have found to be effective or plan to use with your student. It might be a strategy related to word attack, vocabulary, fluency, comprehension, writing, or study reading.
2. **Review the professional literature** for direct and/or related support for your strategy. Direct support refers to studies and expert opinion addressing the specific strategy you are sharing. Related support refers to studies and expert opinion that do not address the specific strategy but benefits of general approaches to developing literacy within which your strategy fits.
3. **Write a one-page description** of the strategy. This description should be a guide for someone else who wishes to use the strategy. The description should include:
 - Description of the strategy.
 - Description of the context for the strategy: With whom would you use this strategy?
 - Brief theoretical and research rationale for the strategy.
 - Description of the effect the strategy could have on a student's reading ability. What evidence do you have to suggest a positive change could occur as a result of working with the strategy?
 - Discussion of future directions with the strategy: Will you continue to use it in the same manner it was presented? Could it be modified, if so how and why?
4. **Prepare talking points** to use in an activity to share your strategy.
5. Provide a copy of the one-page description (approximately 6 copies)

Evaluation

The assignment will be evaluated based on

- (a) the appropriateness of the professional literature used to support the strategy,
- (b) the clarity of writing in your rationale,
- (c) correct APA citation and referencing format, and
- (d) how clearly the strategy is described, exemplified, and linked to specific learning needs of students.
