**ECED 503.001 & P01 Inclusive Curriculum for Young Learners:  
Planning Instruction and Guidance (3:3:0)**

**Fall 2015**

**Mondays, 7:20-10pm**

**Robinson Hall B205**

**Instructor: Raymond D. Shorter, PhD; Rhode Fernández, MA, Doctoral Candidate**

**Email address: [rfernand5@gmu.edu](mailto:rfernand5@gmu.edu), [rshorter@gmu.edu](mailto:rshorter@gmu.edu)**

**Office hours: By Appointment Only**

### **Course Description**

Explores principles of learning, curriculum development, and relationship between assessment and instruction. Examines role of play and active exploration in learning. Addresses guiding children's behavior and the role of families and culture in children's learning.

**Note:** Field experience required

### **Nature of Course Delivery**

This course utilizes a distributed learning format requiring active participation of all students. Students are expected to complete all class readings prior to each session so as to engage in active dialogue, productive learning, and critical reflection. Activities will include instructor presentation, small-group discussions, student presentations, videos, and whole class sharing to support course content. In addition, a Blackboard online component of coursework is required.

### **Learner Outcomes**

This course is designed to enable students to do the following:

1. Plan meaningful curriculum activities that are responsive to the interests, preferences, motivation, interaction styles, developmental status, learning history, and cultural variables of the child and family.
2. Demonstrate how meaningful curriculum activities link to VA Foundations of Learning Standards for Early Childhood Education.
3. Develop individual and group activity plans and implement strategies to facilitate functional cognitive, social, communication, motor, and adaptive development.
4. Plan and adapt curriculum activities that are respectful of family identified outcomes, preferences, interaction styles, and cultural norms.
5. Develop and reflect on various behavior management strategies for culturally, linguistically, and ability diverse young children and their families.

6. Apply current research on effective developmentally appropriate practices to teaching young children from diverse backgrounds and varying abilities.
7. Analyze and design appropriate environments and materials to include addressing developmentally appropriate practices, anti-bias curriculum, and inclusion settings.
8. Utilize problem-solving strategies to address dilemmas encountered in diverse educational and community settings.
9. Analyze and describe the varied theoretical frameworks guiding early childhood curriculum approaches and practices.
10. Describe how ongoing data collection and management of classroom plans can be used to monitor child progress in the context of daily activities.
11. Analyze one's own teaching practices and set appropriate goals for teaching change.

### **Professional Standards**

This course is aligned with the standards established by the National Association for the Education of Young Children (NAEYC) and the Council for Exceptional Children (CEC).

### **Required Texts**

- Burns, M. S., Johnson, R., & Assaf, M. (2012). *Preschool education in today's world: Teaching children with diverse backgrounds and abilities*. Baltimore, MD: Brookes.
- Gartrell, D. (2012). *Education for a civil society: How guidance teaches young children democratic life skills*. Washington, DC: NAEYC.

## George Mason University Policies and Resources for Students

- Academic integrity (honor code, plagiarism) – Students must adhere to guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/the-mason-honor-code/>].
- Mason Email – Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, division, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>].
- Counseling and Psychological Services – The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops, and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- Office of Disability Services – Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor in writing at the beginning of the semester <http://ods.gmu.edu/>].
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- The Writing Center (Optional Resource) – The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
- University Libraries (Optional Resource) – The George Mason University Libraries provide numerous services, research tools, and help with using the library resources [See <http://library.gmu.edu/>].

## Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

**Core Values Commitment:** The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.

### *Collaboration*

Collaboration is an important human activity that involves shared responsibility in promoting healthy, productive lives, and educational success. We commit ourselves to work toward these goals in genuine partnerships with individuals, families, community agencies, schools, businesses, foundations, and other groups at the local, regional, national, and international levels.

### *Ethical Leadership*

In all professions represented by the college, leadership is an essential component denoting ability and willingness to help lead professional practice to higher levels. We commit ourselves to practice ethical leadership through deliberate and systematic attention to the ethical principles that guide all leaders in a moral society.

***Innovation***

We have a history of creating dynamic, innovative programs, and we are dedicated to continue creating innovative approaches in all areas of our work. We commit ourselves to seeking new ways to advance knowledge, solve problems, improve our professional practice, and expand on our successes.

***Research-Based Practice***

The best practice in any discipline is based upon sound research and professional judgment. We commit ourselves to basing our instruction, scholarship, and policy recommendations on well-established principles that, wherever possible, emerge from research and reflection on its implications for professional practice.

***Social Justice***

Social justice embodies essential principles of equity and access to all opportunities in society, in accordance with democratic principles and respect for all persons and points of view. We commit ourselves to promoting equity, opportunity, and social justice through the college's operations and its missions related to teaching, research, and service.

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

## **Course Requirements**

**General Requirements**

1. The completion of all readings assigned for the course is assumed. Because the class will be structured around discussion and small group activities, it is imperative that students keep up with the readings and participate in class.
2. Attendance in class and/or online is important to students' learning; therefore, students are expected to make every effort to attend class sessions and/or complete online modules within the designated timeframe. Absences, tardiness, leaving early, and not completing online modules in the designated timeframe may negatively affect course grades. If, due to an emergency, students will not be in class, they must call the instructor and leave a message or send an email before class. The following policy is from the university course catalog:
 

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.
3. In line with Mason's policy that students should not be penalized because of observances of their religious holidays, students shall be given an opportunity to make up, within a reasonable time, any academic assignment that is missed due to individual participation in religious observances. It is the student's responsibility to inform the instructor of any intended absences for religious observations in advance of the class that will be missed. Notice should be provided in writing as soon as possible.

4. During face-to-face and live online meetings, cell phones, pagers, and other communicative devices are not allowed in this class. Students must keep them stowed away and out of sight. Laptops or tablets (e.g., iPads) may be permitted for the purpose of taking notes only. Engaging in activities not related to the course (e.g. gaming, email, chat, etc.) will result in a significant deduction in their participation grade.
5. It is expected that assignments will be turned in on time. However, it is recognized that students occasionally have serious problems that prevent work completion. If such a dilemma arises, students should speak to the instructor prior to the assignment due date (when possible). If the student does not communicate with the instructor, a late penalty will be applied.
6. Mason is an Honor Code university; please see the Office for Academic Integrity for a full description of the code and the honor committee process. The principle of academic integrity is taken very seriously and violations are treated gravely. What does academic integrity mean in this course? Essentially this: when responsible for a task, students will perform that task. When students rely on someone else's work in an aspect of the performance of that task, they will give full credit in the proper, accepted form. Another aspect of academic integrity is the free play of ideas. Vigorous discussion and debate are encouraged in this course, with the firm expectation that all aspects of the class will be conducted with civility and respect for differing ideas, perspectives, and traditions. When in doubt (of any kind), students will ask for guidance and clarification.

### **Written Assignments**

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library web guide at <http://library.gmu.edu/resources/edu/>. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.

### **Grading Criteria**

A = 95-100   A- = 90-94   B+ = 87-89   B = 83-86   B- = 80-82   C = 70-79   F = < 70

### **Grading Policy**

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students enrolled in a CEHD Licensure Graduate Certificate

program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

### **Submission of Performance-Based Assessment**

Every student registered for any Early Childhood Education course with a required performance-based assessment is required to submit this assessment, Instructional Planning Analysis, to Blackboard (regardless of whether a course is an elective, a onetime course, or part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in Blackboard. Failure to submit the assessment to Blackboard will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Blackboard submission, the IN will convert to an F nine weeks into the following semester.

### **Specific Course Assignments**

<b>Assignments</b>	<b>Due Dates</b>	<b>Points</b>
Attendance & Participation	Ongoing	15
Curriculum Content Area: Exploration and Resources	As Assigned	35
Instructional Planning Analysis	As Assigned	50
<b>TOTAL</b>		<b>100</b>

### **Attendance and Participation (Ongoing): 15 points**

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class and online learning experiences as is evidenced by (1) participating in all activities, (2) engaging in small and large group discussions, (3) using laptops and other electronic devices only to support discussion and learning and not for non-academic uses during class time, (4) completing written work related to the activities, and (5) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.

**Note:** To determine whether the campus is closed due to inclement weather, call 703-993-1000 or go to [www.gmu.edu](http://www.gmu.edu).

### **Curriculum Content Area: Exploration and Resources (Due dates: As Assigned): 35 Points**

Students will select and research curriculum content areas and resources to share with classmates. Each group will prepare an interactive/play/center-based presentation to help communicate the importance of this curriculum content area, the key outcomes for children from culturally, linguistically, and ability diverse backgrounds and their families connected to this area, and examples of activities that would support learning in this area. It is important to consider the student ability levels and developmental and cultural appropriateness for preschool-aged children, especially children with special needs. The in-class presentation should include interactive activities to enable classmates to explore the curriculum content area.

The handout for this project should include the following:

- A brief statement of the significance of this area and the associated learning outcomes for children from culturally, linguistically, and ability diverse backgrounds;
- An annotated list of at least five key resources that contribute to understanding this area; and
- An annotated list of activity resources that could be used when implementing developmentally and culturally appropriate curriculum or provided to families to support this area of learning.
- Annotations must be written in student's words, providing a brief description of the source, the strengths of the resource as well as concerns about the resource.
  - The topics will include the following: 1) science; 2) creative arts and music (fine art, drama, dance); 3) language and literacy; 4) social studies; 5) math; 6) physical/large motor activity/movement; or 7) social emotional.

### **Instructional Planning Analysis: 50 Points**

This is the CAEP 3 Assessment of Ability to Plan Instruction that shows evidence of meeting CEC and NAEYC Standards. All assignments listed below must be submitted on Blackboard. See the assessment description and scoring rubric attached.

Part 1: Early Childhood Learning Environment—Due 11/09

Part 2: Child Interests—Due 11/09

Part 3: Lesson Plans-Include: Standards, Developmental Domains, Child interests, Assessment, Families/Culture—Due 12/14

Part 4: Behavior Management Practices—Due 12/14

### Course Schedule and Topics

Date	Topics	Readings & Assignments Due
8/31	What is curriculum? Play and learning Introductions/Group selections/Syllabus Review	Review course syllabus Familiarize class texts
9/7	Labor Day (No Class)	
9/14	Reflective practitioner Becoming an Early Childhood Teacher	<b>Readings:</b> Cowhey Chapter 1 (BB) Burns Chapter 1 Gartrell Chapter 5 Derman-Sparks Chapter 3 (BB)  <b>BRING to class:</b> List of qualities teachers should have and why

11/2	<b>Presentation:</b> Performing Arts Content Area  Involving Families in the classroom	<b>Readings:</b> NAEYC Journal March 2010 (BB) Neuman Chapter 10, 12 (BB)  <b>Presentation:</b> Performing Arts Content Area
11/9	Daily Schedule GMU Required Lesson Plan Format Plan/design/refine Anti-bias education approach/cultural identities/coalition building/advocacy/social justice	<b>Readings:</b> Will be provided  <b>Bring to class:</b> Daily Schedule, Lesson Plans, Thematic Unit tentative plans (from Child/Family Interests)  <b>**DUE: <u>Early Childhood Learning Environment &amp; Child/Family Interests PAPER</u>**</b>
11/16	<b>Presentation:</b> Social Studies Content Area	<b>Readings:</b> NAEYC Journal September 2005 (BB)

Date	Topics	Readings & Assignments Due
	Curriculum planning, integrated curriculum, developmentally appropriate practice Goals and Objectives	Neuman Chapter 9 (BB) <b>Presentation:</b> Social Studies Content Area  <b>Bring to class:</b> Daily Schedule, Lesson Plans, Thematic Unit tentative plans (from Child/Family Interests)
11/23	<b>Presentation:</b> Math Content Area  Behavior Management	<b>Readings:</b> NAEYC Journal May 2009 (BB) NAEYC Journal November 2013 (BB) Neuman Chapter 7 (BB)  <b>Presentation:</b> Math Content Area  <b>Bring to class:</b> Behavior Management strategies you have seen or used
11/30	Preparation for Final Papers and Presentations	<b>Readings:</b> Independent Reading Day
12/7	<b>Presentation:</b> Physical/large motor activity/movement Content Area	<b>Readings:</b> Burns Chapter 9 Neuman Chapter 11 (BB)  <b>Presentation:</b> Physical/large motor activity/ movement Content Area
12/14	Presentation of Instructional Planning Project Wrap up  Final papers due DUE at 7:30 pm Instructional Planning Analysis and Behavior Management Practices	<b>MUST Upload all 4 elements of Instructional Planning Analysis Blackboard</b>

**Early Childhood Education**  
**CAEP Assessment 3**  
**Ability to Plan Instruction**  
*Instructional Planning Analysis*

Early Childhood Education CAEP Assessment 3 is Ability to Plan Instruction in ECED 403/503 Inclusive Curriculum for Young Learners: Planning Instruction and Guidance. This assessment shows evidence of meeting NAEYC Standard Elements 4a and 4b and CEC Standards 2.1, 3.3, 5.1, and 5.3.

**Assessment Overview**

In this assessment, candidates will document knowledge of instructional strategies and planning through an in-depth investigation of the connections between environment and curriculum in relation to individual student learning. Candidates will demonstrate their understanding of developmentally effective approaches through analyzing the environment as it relates to the curriculum. Candidates will use knowledge of individual learning differences to develop learning objectives as well as instructional strategies to individualize instruction for children within the context of the general curriculum and environment. Candidates will provide the following:

- A written analysis of the classroom environment from the teacher, children, and family perspective and recommendations to improve the effectiveness of the environment to meet the learning needs of all children;
- An analysis of interactions during two to three child-initiated activities; and
- An individualized plan within the context of the general classroom environment and curriculum that includes materials, organizational structures, interaction strategies, and technology resources, including assistive technology, to meet the social, emotional, and academic needs of the identified child.

**NAEYC Standards Assessed**

*NAEYC 4a. Understanding positive relationships and supportive interactions as the foundations of their work with children*

*NAEYC 4b. Knowing and understanding effective strategies and tools for early education*

**CEC Standards Assessed**

*CEC 2.1 Beginning special educators through collaboration with general educators and other colleagues create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.*

*CEC 3.3 Beginning special educators modify general and specialized curricula to make them accessible to individuals with exceptionalities.*

*CEC 5.1 Beginning special educators consider an individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.*

*CEC 5.3 Beginning special educators are familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.*

## **Assessment Procedures**

Candidates will examine the classroom environment from multiple perspectives and prepare a report that integrates analyses of the environment and interactions during two to three child-initiated activities with an individualized instructional plan that includes objectives and identifies instructional strategies and changes needed in the environment to support a child's learning outcomes. Candidates will use the following steps to complete this assignment.

### **Step One: Prepare a written analysis of the classroom environment** (*CEC 2.1; NAEYC 4a*).

Candidates will provide a written analysis of the classroom environment and recommendations to improve the effectiveness of the environment to meet the learning needs of all children.

Candidates will do the following in the written analysis:

#### **Classroom sketch**

- Provide a sketch of the layout of the classroom and photos of specific areas within the classroom.

#### **Multiple perspectives on the classroom environment**

- Describe and analyze the general environment from the **teacher's** point of view to include the affective environment, the social environment, the physical environment, and the temporal environment.
- Describe and analyze the general environment from the **children's** point of view to include the affective environment, the social environment, the physical environment, and the temporal environment. Explain how this point of view differs from the **teacher's** point of view.
- Discuss and analyze the classroom environment from the **family perspective** and how the environment welcomes and includes families from diverse backgrounds.
- Support analyses based on the information in course readings, class materials, and other appropriate sources to support assertions and conclusions.

#### **Perspectives on the environment and learning**

- Describe and analyze ways in which the environment promotes active engagement; encourages independence; and values all children with diverse abilities, cultures, and/or languages.
- Discuss the accessibility of the environment. Explain how the environment supports children with exceptionalities. Identify the types of technology resources and assistive technology being used.
- Illustrate the effect of the environment on interactions between students as well as among teachers, students, specialists, and families, including families from diverse backgrounds.
- Support analyses based on the information in course readings, class materials, and other appropriate sources to support assertions and conclusions.

### **Recommendations to improve environment**

- Present and discuss recommendations to improve the effectiveness of the environment to meet the learning needs of all children.
- Support analyses based on the information in course readings, class materials, and other appropriate sources to support assertions and conclusions.

### **Step Two: Select a child with a developmental or learning difference and interact with the child during two to three child-initiated activities within the general environment (CEC 5.1; NAEYC 4a).**

Candidates will integrate their understanding of positive and supportive relationships with children in a written analysis as they do the following:

- Interact with a child for at least 30-45 minutes for a total of at least 90 minutes spread over two to three separate days and record anecdotal notes during interactions with the child.
- Describe and analyze ways in which the child demonstrates engagement with other children in the classroom.
- Describe strategies used with the child to encourage responsiveness to open-ended questions and participation in feedback loops with the teacher.
- Describe strategies used to encourage personal connections with the child.
- Support based on the information in course readings, class materials, and other appropriate sources to support assertions and conclusions.

### **Step Three: Based on what was learned in Step 2, prepare an instructional plan for the child (CEC 3.3, 5.1, 5.3; NAEYC 4b).**

Candidates will develop an individualized plan for a child with developmental or learning differences within the context of the general environment and curriculum that includes the following:

- A description of the individual child that includes the child's age, language and cultural background, interests, developmental skill levels and abilities, and learning differences.
- Identification of three learning objectives that support meaningful learning activities and social interactions for the child.
- Description of at least two modifications needed to enhance the environment to support achievement of student learning objectives (e.g., access to or use of materials, organizational structure, specific interaction strategies, and appropriate technology resources).
- Descriptions of at least three instructional strategies that address the learning objectives and reflect the child's abilities, interests, language, culture, and family background.
- Instructional adaptations and accommodations, including the use of augmentative and alternative communication systems and assistive technologies.

- Support based on the information in course readings, class materials, and other appropriate sources to support assertions and conclusions.

#### Step Four: Reflection

Candidates will respond to the following questions:

- How does the analysis of the classroom environment and recommendations for modifications support individual learning needs and objectives for this child?
- How do the adaptations and modifications suggest a safe, inclusive, learning environment for **all** children?
- How would other children benefit from the individualized plan?
- How will the child's progress be assessed?

ECE PROGRAM OUTCOME STANDARDS (Aligned With State, NAEYC and CEC Standards)	Assessment Measure Descriptions			
	Exceeds Criteria	Meets Criteria	Partially Meets Criteria	No Evidence
<b>Early Childhood Education CAEP ASSESSMENT 3 Ability to Plan Instruction Instructional Planning Analysis ECED 403/503 Inclusive Curriculum for Young Learners: Planning Instruction and Guidance</b>				
CEC 2.1 Create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.	Analyzed interactions during a child-initiated activity and described in detail three or more strategies used to promote positive relationships and support interactions supported by information from readings, discussions, class materials and other appropriate materials	Analyzed interactions during a child-initiated activity and described three strategies used to promote positive and supportive relationships and support interactions supported by information from readings, discussions, class materials and other appropriate materials	Analyzed interactions during a child-initiated activity and described with minimal detail fewer than three strategies used to promote positive relationships and supported interactions based on minimal information from readings, discussions, class materials, and other appropriate materials	Did not analyze interactions during a child-initiated activity

<p>NAEYC 4a Understanding positive relationships and supportive interactions as the foundations of their work with children</p>	<p>Analyzed current environment in detail including photographs/sketches to support ideas and identified in detail four or more ways it promotes active engagement, values diversity, encourages independence, and promotes and supports positive relationships with all children supported by information from readings, class discussions, and other appropriate materials</p>	<p>Analyzed current environment including photographs/sketches to support ideas and identified three or more ways it promotes active engagement, values diversity, encourages independence, and promotes and supports positive relationships with all children supported by information from readings, class discussions, and other appropriate materials</p>	<p>Analyzed current environment and identified with minimal detail fewer than three ways it promotes active engagement, values diversity, encourages independence, and/or promotes and supports positive relationships with all children based on minimal or no support from information from readings, class discussions, or other appropriate materials</p>	<p>Did not analyze current environment and interactions during a child-initiated activity</p>
<p>CEC 5.1 Consider individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individuals with exceptionalities.</p>	<p>Provided in-depth descriptions of two or more modifications to improve the environment to promote active engagement, support individual learning objectives, support individual social development objectives, and promote a challenging learning environment AND modifications include two appropriate uses of each of the following: materials, organizational structure, specific interaction strategies, and technology resources supported by information from readings, class discussions, and other appropriate materials</p>	<p>Provided descriptions of two modifications to improve the environment to promote active engagement, support individual learning objectives, support individual social development objectives and promote a challenging learning environment AND modifications include one appropriate use of each of the following: materials, organizational structure, specific interaction strategies, and technology resources supported by information from readings, class discussions, and other appropriate materials</p>	<p>Provided descriptions of fewer than two modifications to improve the environment to promote active engagement, support individual learning objectives, support individual social development objectives, and promote a challenging learning environment AND/OR modifications include fewer than one appropriate use of each of the following: materials, organizational structure, specific interaction strategies, and technology resources supported minimally from information from readings, class discussions, and other appropriate materials</p>	<p>Did not describe modifications</p>

CEC 3.3 Modify general and specialized curricula to make them accessible to individuals with exceptionalities	Provided in-depth descriptions of four or more instructional strategies that appropriately reflect the child's language and cultural background, interests, developmental skill level and ability and family background and address the learning objectives	Provided descriptions of three or more instructional strategies that appropriately reflect the child's language and cultural background, interests, developmental skill level and ability and family background and address the learning objectives	Provided descriptions of fewer than three instructional strategies that appropriately reflect the child's language and cultural background, interests, developmental skill level and ability and family background and address the learning objectives	Did not describe instructional strategies that reflect the child's language and cultural background, interests, developmental skill level and ability and family background and address the learning objectives
CEC 5.3 Are familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.	Identified and described in detail three or more instructional adaptations and accommodations including augmentative, alternative communication systems and assistive technology to support the communication and learning of a child	Identified three or more instructional adaptations and accommodations including augmentative, alternative communication systems and assistive technology to support the communication and learning of a child	Identified one or more instructional adaptations and accommodations including augmentative or alternative communication systems or assistive technology to support the communication and learning of a child	Did not identify instructional adaptations and accommodations to support the communication and learning of a child
