Course Description

EDCI 490 a full semester of intensive teaching experience in secondary education. The course is designed to support the intern in planning, implementing, and reflecting on teaching in the secondary setting. The intern, supported by the university supervisor and mentor teacher, will gradually take over responsibilities of teaching in a secondary classroom.

Course Delivery

This course is an internship and all meetings will be held in an intern's area school and classroom. Please note that this course is held in conjunction with the internship seminar (optional for undergraduate interns) and that the Internship Handbook also provides a number of details about internship requirements.

Required Texts

There are no required texts for this course. All students in this course must purchase an Edthena license.

Relationships to Professional Standards and Course Objectives

By the end of this course students will demonstrate an understanding and application of subject area standards aligned with the National Content Standards and identified by their Specialized Professional Association (SPA): English teachers: National Council of Teachers of English, <http://www.ncte.org>.

Students should also have an understanding of and be able to apply the teaching and learning standards as outlined by the Interstate New Teacher Assistance and Support Consortium (INTASC):

- http://www.ccsso.org/resources/publications/Intasc_model_core_teaching_standards_and_learning_progressions_for_teachers_10.html

Finally, students should be aware of the skills framework of the Partnership for 21st Century Skills and the professional guidelines offered by the National Board for Teaching Standards:

- <http://boardcertifiedteachers.org/certificate-areas>

GMU/CEHD Policies and Resources for Students

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/the-mason-honor-code-2/>].
- Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
- Professional Dispositions: Students are expected to exhibit professional behaviors and dispositions at all times [See http://cehd.gmu.edu/assets/docs/forms/secondary_ed/sec_ed_handbook.pdf].
- Core Values Commitment: The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles [See <http://cehd.gmu.edu/values/>].
- For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>].

Emergency Notification

The university utilizes a communication system to reach all students, faculty, and staff with emergency information (e.g., in case of severe weather). You can be sure that you are registered with the Mason Alert system by visiting <https://ready.gmu.edu/masonalert/>. An emergency poster can also be found in each Mason classroom. Information about Mason emergency response plans can be found at <http://cert.gmu.edu/>.

Grading

A+	99-100%	B	83-87%	C-	70-72%
A	93-98%	B-	80-82%	D	60-69%
A-	90-92%	C+	78-79%	F	Less than 60%
B+	88-89%	C	73-77%		

Note: No credit toward graduation accrues from a failing grade or a grade that is replaced by a retaken course.

Additional Grade Notations

- **Incomplete (IN):** This grade may be given to students who are passing a course but who may be unable to complete scheduled course work for a cause beyond reasonable control. Unless the faculty member has specified an earlier deadline, the student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 10th week. Faculty members who choose to require an earlier incomplete deadline will be required to file an *Incomplete Grade Contract* with the local academic unit's office, detailing the work that remains to be done, the general reason for the incomplete, and the student's grade at the point of receiving the incomplete. Unless an explicit written extension is filed with the Office of the University Registrar by the faculty deadline, the grade of IN is changed by the registrar to an F. The maximum IN extension is to the end of the same semester in which it was originally due.
- **Absent with permission (AB):** A student who has received permission from the academic dean or director to be absent from a final exam for cause beyond reasonable control may receive a temporary grade of AB. A rescheduled exam must be administered within 10 business days of the original exam date, or the AB will automatically become an F. Final determination of academic status is not complete while the AB remains on the transcript.
- **Special Provision (SP):** The grade of SP may be given by a dean to students who are unable to complete the course requirements because of extraordinary long-term circumstances, such as major illness or military deployment. SP has no effect on the GPA and remains on the transcript until the work is completed and a final grade is assigned.

Note: The mentor teacher and university supervisor will jointly determine interim and final grades.

Assignments**General Expectations**

Throughout the first 6-8 weeks of the Internship, you will co-teach and gradually assume more teaching responsibilities for the mentor teacher's classes. You should take responsibility for all or nearly all of the courses for the 6-8 week period following the co-teaching experience. See internship handbook for a more detailed suggested schedule.

During the first week of internship experience, you should:

- 1) Have a period-by-period schedule written out to submit to your university supervisor. This schedule should indicate teaching periods, subjects being taught, room number, the time each period begins and ends, non-teaching periods, mentor teacher's periods, and conference times scheduled between intern and mentor teacher; A form for a period-by-period schedule is attached to the syllabus. Total hours are to be recorded for each week on the appropriate form included in the handbook appendices.
- 2) Arrange a specific time and place for the university supervisor to visit for a "meet and greet" session.

During the first few days in the internship:

- 1) get acquainted with the classroom and your mentor teacher;
- 2) become accustomed to classroom rules and procedures;
- 3) assist your mentor teacher by helping in daily activities, work with small groups of pupils, make reports, read announcements, help a pupil who has been absent, arrange bulletin boards, etc.;
- 4) become familiar with a wide variety of instructional materials;
- 5) begin planning the first units of work you will teach and review Teacher Work Sample requirements;
- 6) learn as much as you can about the students in the classes you will teach;
- 7) set aside a definite time each day for conferring with your mentor teacher about progress and feedback;
- 8) identify and use effective techniques for maintaining a good climate for learning;
- 9) become familiar with the policy related to writing unit and daily lesson plans, and routines for submitting these materials to your mentor teacher, university supervisor, and/or other personnel.

At the end of each week, you should turn in you log hours, weekly sheets, and a reflective summary of observations/experiences to your university supervisor. Specific artifacts to be submitted are at the discretion of your University Supervisor.

Some suggestions for formatting your reflections include

- A one page reflective summary
- A concept map linking ideas with implementation intentions
- A case study of a student with ideas for impacting achievement

Instructions regarding log hours are found in the appendices of the Intern Handbook, and submitted with all other artifacts found in your internship handbook.

Observations

The university supervisor will have a minimum of seven (7) meetings throughout the semester with you, one pre-internship meeting, four on-site visits with post-observation conferences, one mid-term evaluation meeting, and one post-internship meeting. In addition, it is expected that you will maintain weekly contact with your university supervisor to submit reflections and any other materials, such as hour log, lesson plans or other documentation to demonstrate progress. Mentor teachers will also conduct a minimum of four formal observations and four informal observations during the internship.

Teacher Work Sample

You will complete and submit a Teacher Work Sample designed to measure impact on student learning. Details including objectives, expectations and assessment rubrics for each content area's Teacher Work Sample can be found in the internship handbook. Please review these guidelines carefully, as each content area has distinct expectations. Upon completion of the Teacher Work Sample, you will upload all artifacts to Blackboard/TK20 for assessment.

Edthema Assignments

Teacher candidates will make recordings of their teaching between formal university supervisor visits. In each recording, the candidate will address a maximum of three practices, strategies, or points of growth that the candidate, mentor, and supervisor identified based on the previous formal face-to-face observation conducted by the supervisor. Intern, mentor, and supervisor will code these videos, and the intern will intentionally and explicitly address the identified practices/strategies in the following formal observation conducted by the university supervisor.

Collaborative Learning Team Assessment (see template and rubric below)

Submission/Assessment Directions

- 1) Intern completes the Collaborative Learning Team Assessment
- 2) Intern uploads final task template to TK20
- 3) Mentor teacher evaluates task template in TK20

Assessment Objectives

- The candidate will collaborate with other teachers in a school context.
- The candidate will assess individual student and/or group learning progress and consider this data to make instructional decision.
- The candidate will develop and/or revise lesson plans, instructional delivery methods, and classroom management strategies with the goal of improving student learning progress.
- The candidate will collaboratively develop a teaching action plan that promotes an individual student's or a group of students' academic achievement.

Rationale

Today's teachers are increasingly expected to play a teacher leadership role, with each professional (novice and veteran) facilitating not only his/her own but also colleagues' professional development—all focused on the achievement of the students they work together to educate. As a Teacher Candidate you will enter schools where collaboration with your colleagues in the service of your students is expected. Professional collaborations and teacher leadership must begin and end with joint considerations of the evidence of student learning.

For this assessment, you will complete the Collaborative Learning Team Task to demonstrate that you recognize and can take active responsibility for instruction and student learning.

Assessment Task

To complete this task you will:

- Collaborate with a team of teacher colleagues, potentially including but not consisting solely of the mentor teacher, to discuss individual student or group learning progress based on one or more assessments
- With the learning team, consider assessment results and make responsive instructional decisions that promote an individual student's or a group of students' learning
- Provide input to the team to identify lesson plans or revisions to lesson plans, instructional delivery methods, or classroom management strategies affecting student learning progress
- Detail a teaching action plan that the team believes will promote the individual student's or group of students' academic achievement and that includes a description of the instructional activities and assessments to be used and how assessment results will be used to determine changes in student learning

Submission Directions

You will submit a completed template (see below) to demonstrate meeting the above objectives and completion of the above tasks:

Part 1: Collaboration

Documentation of collaborations with teacher colleagues regarding individual student or group learning progress. Documentation will include meeting notes, minutes and meeting agenda as applicable, and a brief reflection of the meeting,

Part 2. Assessment and Instruction

Documentation of initial assessment results and responsive instructional decisions made from data analysis. Documentation will include the initial results from the assessment(s) discussed in the meeting and the specific instructional decisions made in response to analysis of the assessment results.

Part 3. Lesson Plan(s)/Revisions

Documentation of lesson plans or revisions, instructional delivery methods or classroom management strategies. Documentation will be new or modified lesson plan(s) with revised instructional delivery methods or classroom management strategies.

Part 4. Teaching Action Plan

Include the teaching action plan that is a description of the alignment of specific instructional activities and assessments. Documentation will be a description of an alignment of objectives, assessment outcomes and instructional strategies used.

Video Reflection Task (see template and rubric below)

Submission/Assessment Directions

- 1) Intern completes the Video Reflection Task
- 2) Intern uploads all elements of Video Reflection Task—videos, lesson plan, reflections, etc—into Edthena
- 3) Supervisor evaluates Video Reflection Task in TK20

Assessment Objectives

- The candidate will use knowledge of learning differences and assessment to develop an instructional plan including a plan for assessing the student progress.
- The candidate will implement this plan and video record his/her teaching,
- The candidate will use all three levels of critical reflection to analyze an instructional episode to make connections between situations they encounter and the broader social, political, and economic forces that influence those events.
- The candidate will review his/her teaching, and select and edit vignettes to use in critical reflection.
- The candidate will reflect upon a “critical incident” from a lesson and propose alternative ways of addressing the incident to impact future teaching.

Research Base

According to John Dewey (1933) reflection is an active, persistent, and careful consideration of any belief or supposed form of knowledge in light of the grounds supporting it and future conclusions to which it tends. Critical reflection delves even more deeply. Critical reflection allows candidates to make teaching decisions on the basis of a conscious awareness and careful consideration of the assumptions on which the decisions are based, and the technical, educational, and ethical consequences of those decisions. The end result of critical reflection for the individual is cognitive change (Yost et al., 2011).

Van Manen (1977) describes three hierarchical levels of reflection:

- **Technical reflection** – focuses on effective application of skills and knowledge in the classroom so reflection focuses on analyzing the effects of strategies used.
- **Practical reflection** – focuses on the assumptions underlying a specific practice and the consequences of that practice on student learning. It implies the assessment of the educational implications of actions and beliefs.
- **Critical reflection** – includes emphases from technical and practical reflection and goes deeper. It focuses on questioning moral and ethical dimensions of decisions related,

directly or indirectly, to the classroom. Candidates make connections between situations they encounter and the broader social, political, and economic forces that influence those events.

Brookfield (1990) noted that a “critical incident” is a ‘vividly remembered event which is unplanned and unanticipated’ (pg 84). Reflecting upon a critical incident can affect change in:

- your thinking,
- your practice,
- your attitudes, and
- your understanding.

A critical incident might be an interaction with a student; it might be part of a teaching episode; it could be a parent interaction or just a solitary “ah-ha” moment. Your analysis will focus on what you learn from reflecting on this event.

This assignment requires you to reflect at all three levels of reflection. During your internship you will record yourself teaching a lesson for which you have developed a detailed lesson plan. **Prior to recording, be sure to obtain appropriate permissions from school system, school, and families as needed in your specific context.**

This assignment consists of three parts: (a) a **lesson plan**, (b) **the holistic reflection**, and (c) **critical incident video clip and analysis**.

You will submit:

- **A Lesson Plan for the Recorded Lesson**
Develop a lesson plan using the standard lesson plan format for your program and/or school placement. Make arrangements to videotape the lesson for use in analyzing a “critical incident.” Teach the lesson. (After reflecting on the lesson you will be asked to identify a “critical incident” in the lesson and highlight that section of the lesson before submitting it for this assignment.)
- **Holistic Reflection of the Lesson**
After teaching the lesson, write a reflective statement about the teaching episode that includes each of the following levels of reflection: technical, practical, and critical.
- **Critical Incident Video Clip and Analysis**
After reflecting on the lesson, select a segment of the lesson video (~5-10 minutes in length) that contains a critical incident. Highlight the section of the lesson plan that you select as your critical incident.

The following should be used to guide your description and analysis of the critical teaching incident captured within your videotaped lesson:

- a. Provide a brief description of what is happening in the selected clip.
- b. Explain why this particular segment was selected.
- c. Briefly describe what went well and what aspects of the lesson you would like to revise.
- d. Propose alternative ways of handling the critical incident. You should draw upon your readings, knowledge of best practice, observations, and course work for support.
- e. Summarize what was learned and how it will impact your future teaching.

How to Complete/Submit this Assessment

- 1) Record thirty (30”) minute of a lesson you are teaching
- 2) Upload this video to Edthena, attaching the lesson plan
- 3) Briefly reflect on your plan using the technical, practical, and critical levels of reflection
- 4) Identify a critical incident—note this in your video reflection using the “Note” function
- 5) Using the “Note” feature, describe the critical incident and propose an alternative way to

handle the incident

- 6) At the end of the video, use the “Note” feature to summarize what you learned from your overall reflection and how it will impact your future teaching.

Performance-Based Assessments Submission Requirements

Every student registered for any CEHD course with a required performance-based assessment (PBA) is required to submit this assessment to Blackboard (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). For this course, the PBAs are the InTASC internship evaluation, the NCTE internship evaluation, and the Teacher Work Sample. Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.
