KINE 200 – 002: Principles of Health-Related Fitness (2)
Spring 2016

DAY/TIME: MW
1:30-2:45pm
LOCATION: Mon – RAC 2203 (Lecture)
Wed – RAC 2227A (Lab - Cage Gym)

PROFESSOR: Ashley M. Rickman, MS
EMAIL ADDRESS: arickman@gmu.edu

OFFICE LOCATION: TBD
PHONE NUMBER: N/A
OFFICE HOURS: By appointment
FAX NUMBER: 703-992-2025

PREREQUISITES
BIOL 124, BIOL 125, ATEP 300

COREQUISITES
KINE 310

COURSE DESCRIPTION
Provides students with basic knowledge and skills associated with exercise training methods, lifting techniques, and health-related fitness testing procedures. Selection of developmentally appropriate exercises emphasized. Participation in fitness tests required.

COURSE OBJECTIVES
Upon completion of this course, students should be able to:
1. Demonstrate appropriate technique when performing resistance training exercises;
2. Select developmentally appropriate exercises;
3. Discuss principles associated with resistance training;
4. Administer tests associated with health-related fitness,
5. Perform health-related fitness tests.

COURSE OVERVIEW
• Students are held to the standards of the George Mason University Honor Code. Students must come to class ready to actively participate and be dressed accordingly (athletic clothing & appropriate shoes). Students will be expected to administer and perform fitness tests, develop and implement appropriate program design based on test results, and teach and demonstrate proper exercise training technique.
• ATTENDANCE/PARTICIPATION: Students are expected to attend ALL CLASS SECTIONS, actively participate in class discussions, complete in-class exercises, and fulfill all assignments and exams. Students are responsible for all information presented and assigned in class regardless of whether or not the student is present. Written assignments must be turned in at the beginning of class (or submitted on Blackboard by 1:30pm) on the due date. Make-up exams & assignments will be granted for excused absences only. PRIOR approval must be obtained.
• LATE ASSIGNMENTS: assignments turned in late will incur a 10% point decrease per day. After midnight on the 9th day, the assignment will no longer be accepted for any credit.
• Any student who does not attend the lecture during the initial drop/add phase and has not communicated with me is subject to being administratively dropped from the roster. Roll will be taken up until the last day to add a class only and will not be used in grade calculation.
• You must be able to access Blackboard to download articles and to check Blackboard e-mail. Please check Blackboard prior to coming to class. If I am ill or there is a change in the class location, materials required, or meeting time, I will send an e-mail out via blackboard to all of your Mason student accounts.
• Please email me to ask additional questions on the material. If necessary, we can communicate by phone or meet before/after class. However, please attempt to obtain clarification from a fellow student before emailing me. Do tell me in advance if you are not able to make it to class. If you do email me, I should respond within 2 working days. If you don’t hear from me, then I did not get your email - please follow up!
• Student employment does not take priority over academic obligations. I recognize that many students need to work in order to meet living expenses, however, there are distinct guidelines for students in terms of the number of credit hours which should be attempted based on how many hours per week a student has outside employment. For additional information on this subject, please see the GMU student handbook.
• No technology (e.g., cell phones, smart phones, iPads, Tablets, pagers, etc.) is allowed at any time during the lecture or lab sections UNLESS it is used for note-taking. Students using technology for something other than note-taking (e.g., text message, phone calls, instant messaging services, social media or others) will be given one warning and upon a second violation will be asked to leave the classroom.

ACCREDITATION STANDARDS
This course meets the Commission on Accreditation of Allied Health Education Programs (CAAHEP) requirements and covers the following American College of Sports Medicine’s Knowledge-Skills-Abilities (KSA's):

<table>
<thead>
<tr>
<th>KSA</th>
<th>Description</th>
<th>Lecture, Lab, or both</th>
</tr>
</thead>
<tbody>
<tr>
<td>GENERAL POPULATION/CORE: EXERCISE PHYSIOLOGY AND RELATED EXERCISE SCIENCE</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.1.37</td>
<td>Knowledge of and skill to demonstrate exercises designed to enhance muscular strength and/or endurance of specific major muscle groups.</td>
<td>Both</td>
</tr>
<tr>
<td>1.1.38</td>
<td>Knowledge of and skill to demonstrate exercises for enhancing musculoskeletal flexibility.</td>
<td>Both</td>
</tr>
<tr>
<td>GENERAL POPULATION/CORE: HEALTH APPRAISAL, FITNESS AND CLINICAL EXERCISE TESTING</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.3.1</td>
<td>Knowledge of and ability to discuss the physiological basis of the major components of physical fitness: flexibility, cardiovascular fitness, muscular strength, muscular endurance, and body composition.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.3.16</td>
<td>Ability to instruct participants in the use of equipment and test procedures.</td>
<td>Lab</td>
</tr>
<tr>
<td>1.3.21</td>
<td>Ability to identify appropriate criteria for terminating a fitness evaluation and demonstrate proper procedures to be followed after discontinuing such a test.</td>
<td>Both</td>
</tr>
<tr>
<td>GENERAL POPULATION/CORE EXERCISE PRESCRIPTION AND PROGRAMMING</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7.4</td>
<td>Knowledge of specific group exercise leadership techniques appropriate for working with participants of all ages.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.7.5</td>
<td>Knowledge of how to select and/or modify appropriate exercise programs according the age, functional capacity and limitations of the individual.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.7.6</td>
<td>Knowledge of the differences in the development of an exercise prescription for children, adolescents, and older participants.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.7.7</td>
<td>Knowledge of and ability to describe the unique adaptations to exercise training in children, adolescents, and older participants with regard to strength, functional capacity, and motor skills.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.7.8</td>
<td>Knowledge of common orthopedic and cardiovascular considerations for older participants and the ability to describe modifications in exercise prescription that are indicated.</td>
<td>Lecture</td>
</tr>
<tr>
<td>1.7.15</td>
<td>Knowledge of the components incorporated into an exercise session and the proper sequence (i.e., preexercise evaluation, warm-up, aerobic stimulus phase, cool-down, muscular strength and/or endurance, and flexibility).</td>
<td>Lecture</td>
</tr>
</tbody>
</table>
1.7.19 Knowledge of the exercise programs that are available in the community and how these programs are appropriate for various populations. Lecture

1.7.20 Knowledge of and ability to describe "Activities of Daily Living" (ADLs) and its importance in the overall health of the individual. Lecture

1.7.21 Skill to teach and demonstrate the components of an exercise session (i.e., warm-up, aerobic stimulus phase, cool-down, muscular strength/endurance, flexibility). Both

1.7.23 Skill to teach and demonstrate appropriate exercises for improving range of motion of all major joints. Both

1.7.33 Ability to design, implement, and evaluate individualized and group exercise programs based on health history and physical fitness assessments. Lecture

1.7.43 Ability to evaluate flexibility and prescribe appropriate flexibility exercises for all major muscle groups. Lab

**GENERAL POPULATION/CORE: SAFETY, INJURY PREVENTION, AND EMERGENCY PROCEDURES**

1.10.8 Knowledge of hypothetical concerns and potential risks that may be associated with the use of exercises such as straight leg sit-ups, double leg raises, full squats, hurdlers stretch, yoga plough, forceful back hyperextension, and standing bent-over toe touch. Lecture

---

**NATURE OF COURSE DELIVERY**

Face-to-face. This course will include both lecture and laboratory instruction.

**REQUIRED READINGS:**

**SUGGESTED READINGS:**

**EVALUATION**

**Fitness Assessment** 5%
Working in partners, students will properly assess each other’s vital signs, body composition, cardiorespiratory endurance, muscular endurance, muscular strength and flexibility.

**Training Practicals** 10%
Students will be expected to perform and teach several exercises demonstrating correct exercise technique and proper instruction.

**Program Design or Lesson Plan** 10%
Students will design an initial one-week fitness program for an assigned fictional client (KINE students only) OR develop a lesson plan for one unit of a physical education class (PHED students only).

**Presentation** 15%
In groups, students will give a 15-20 minute Powerpoint presentation on a topic relevant to improving physical fitness.

**Exam 1** 20%
The mid-term exam will cover material through week 7.

**Exam 2** 20%
The final exam will cover material from weeks 9-15.

**Participation** 20%
Points will be awarded based on involvement in class discussions, activities, & in-class assignments.

**Total** 100%

**Grading Scale**

A = 94 – 100  B+ = 88 – 89  C+ = 78 – 79  D = 60 – 69

Note: Faculty reserves the right to alter the schedule as necessary to enhance student learning.

PROFESSIONALISM
Kinesiology students are expected to behave in a professional manner. Depending upon the setting professionalism may appear different, but typically consists of similar components. For undergraduate Kinesiology students in a classroom setting professionalism generally comprises the following components: **Attendance** – Show up on time to class and pay attention. If you cannot attend a class for a legitimate
reason, please notify the instructor ahead of time. If you have to unexpectedly miss a class due to something out of your control, contact the instructor within 24 hours to notify them what happened and to see if there is anything you need to do to make up your absence.

**Communication** – When communicating with the instructor and classmates, either face-to-face or via the assigned George Mason University email address, students should address the other person appropriately, use appropriate language and maintain a pleasant demeanor.

**Participation** – Participate in class discussions and activities. Demonstrate that you have an interest in the subject matter.

**Responsibility/Accountability** – Professionals take responsibility for their actions and are accountable. This can occur at multiple levels but generally consists of completing assignments on time, submitting work that is of the appropriate quality, honoring commitments and owning up to mistakes.

**Honesty/Integrity** – Students are expected to be honest with the instructor, classmates and themselves. Professionals keep their word when committing to something and act in an ethical manner.

**Self-Improvement/Self-awareness** – One should be aware of their strengths/weaknesses and constantly seek to improve. Professionals regularly seek out opportunities to increase their knowledge and improve their current skill set.

**Student Expectations**

- Students must adhere to the guidelines of the George Mason University Honor Code [See http://oai.gmu.edu/the-mason-honor-code/].

- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].

- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/].

- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

**Campus Resources**

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].

- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].
• For additional information on the College of Education and Human Development, School of Recreation, Health, and Tourism, please visit our website [See http://rht.gmu.edu].

PROFESSIONAL BEHAVIOR: Students are expected to exhibit professional behaviors and dispositions at all times.

CORE VALUES COMMITMENT: The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.
