Division of Special Education and disAbility Research**

Summer 2016

EDSE 629 B01: Secondary Curriculum and Strategies for Students with
Disabilities who Access the General Curriculum

CRN: 42307, 3 - Credits

Instructor: Dr. Carlyn Floyd	Meeting Dates: 06/06/16 - 07/30/16
Phone: 5712054929	Meeting Day(s): Monday & Wednesday
E-Mail: cfloyd3@gmu.edu	Meeting Time(s): 4:30 pm - 7:10 pm
Office Hours: by appointment	Meeting Location: Fairfax, Finley 119

***Note:** This syllabus may change according to class needs. Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.*

Course Description

Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

Prerequisite(s): None

Co-requisite(s): None

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other students should refer to their faculty advisor.

Nature of Course Delivery

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Evidence-Based Practices

This course will incorporate the evidence-based practices (EBPs) relevant to secondary curriculum learning strategies, content Area planning, designing a secondary IEP . These EBPs are indicated with an asterisk (*) in this syllabus' schedule. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.

Learner Outcomes

Upon completion of this course, students will be able to:

1. Demonstrate knowledge of the federal and state laws that require and provide for instructional services for students with disabilities.
2. Demonstrate the ability to develop a comprehensive unit that includes instructional strategies and adaptations for students with disabilities at the secondary level.
3. Identify and infuse into the curriculum differentiation strategies for successfully including students with disabilities at the secondary level in both regular (math, science, social studies, English, etc.) and special education classroom environments.
4. Demonstrate the ability to assess, plan for, and address the content area literacy needs of students with disabilities who are accessing the general curriculum
5. Describe components of Individual Education Plans that successfully address the needs of secondary students with disabilities.
6. Identify research efforts, organizations, services, networks, and the variety of state and local resources aimed at dropout prevention and improving the outcomes of secondary students with disabilities.

Required Textbooks

Miller, S. P. (2009). *Validated practices for teaching students with diverse needs and abilities* (2nd ed.). Upper Saddle River, NJ: Pearson. ISBN 9780205567478

Additional Readings will be found on Blackboard

Course Relationships to Program Goals and Professional Organizations

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Students with Disabilities who Access the General Curriculum K-12. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. The CEC standards that will be addressed in this class include Standard 2: Learning environments; Standard 4: Assessment; Standard 5: Instructional planning and strategies.

GMU Policies and Resources for Students:

- a. Students must adhere to the guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/the-mason-honor-code/>].
- b. Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>].
- c. Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- d. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
- e. Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services and inform their instructor, in writing, as soon as possible. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. [See <http://ods.gmu.edu/>].
- f. Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

g. The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

Core Values Commitment

The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. [See <http://cehd.gmu.edu/values/>]

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See <http://gse.gmu.edu/>]

Course Policies & Expectations

Attendance.

- For a satisfactory grade in the course, students are expected to attend all classes, arrive on time, demonstrate professional behavior in the classroom (see Professional Disposition Criteria), and complete all assignments with professional quality and in a timely manner.
- When absence from class is unavoidable, students are responsible for getting all class information (e.g., handouts, announcements, notes, syllabus revisions, etc.) from another class member prior to the class meeting that follows the absence. Be aware that any points earned for participation in class activities during a time of absence will not be earned and cannot be reclaimed.
- The use of electronic devices that produce sound or otherwise interfere with the learning of others (i.e., cell phones, pagers, etc.) is prohibited during class. Please turn these devices off or to vibrate before the start of class.
- The use of electronic devices that record class or photograph individuals or materials may not be used without instructor permission.
- Computers may be used to take notes during class, but they may not be used for internet exploration or other non-class activities during class time.
- Routine access (daily) to electronic mail and Blackboard for communication and assignments is crucial to participation in this class.
- For each in-class hour devoted to this course content, students are expected to spend at least 3 hours outside of class on course related assignments, which is a typical in-class to out-of- class ratio for graduate level coursework.
- Retain electronic copies of all course products for use during the portfolio phases of the M.Ed. or licensure programs.
- Exemplary work should be considered for presentation or publication opportunities.

Late Work.

Assignments are due on the date indicated in the syllabus. If I change the due date for reasons related to student need in the course, the change will be communicated to students in class. If you are not in class on the day an assignment is due, you are still responsible for submitting the assignment. You may submit an assignment by emailing the assignment to me (cfloyd3@gmu.edu) with a time sent no later than the end of the class on the date due or by having someone bring the assignment to me in hard copy by the same time. The goal is mastery learning, therefore some assignments may be returned if they do not satisfy the requirements.

Tk20 Performance-Based Assessment Submission Requirement

Every student registered for any Special Education course with a required performance-based assessment is required to submit the *Secondary Curriculum Unit Plan* to Tk20 through Blackboard (regardless of whether the student is taking the course as an elective, a onetime course or as part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.

Grading Scale

A	=	94 – 100 percent	A-	=	90 – 93 percent
B+	=	86 – 89 percent	B	=	80 – 85 percent
C	=	70 – 79 percent	F	=	Below 70 percent

Assignments

Performance-based Assessment (Tk20 submission required). Secondary Curriculum Unit Plan

The Secondary Curriculum Unit Plan provides you with the opportunity to demonstrate your ability to prioritize essential concepts and skills, write lesson plans and assessments, and adapt existing lesson plans within a curriculum unit. You are required to write two comprehensive lesson plans that address state standards and include students with disabilities. You are also required to adapt a lesson plan to be delivered in a co-taught classroom that addresses similar state standards. You will write two assessments that provide opportunities for the learners to demonstrate their understanding of the core concepts of the unit for either classroom. Your focus should be on the integration of evidence-based practices that meet the unique needs of learners with mild to moderate exceptional learning needs at the secondary level in a given content area using the appropriate state standards.

Performance-based Common Assignments (No Tk20 submission required).

Other Assignments.

Research Review (40 points)

Each student will locate and analyze 5 articles from peer-reviewed special education journals that summarize research on a given facet of secondary instruction for students with disabilities who access the general curriculum.

Select 5 research articles from professional journals:

- The focus of the articles must pertain to a secondary level research-based strategy(ies) for teaching reading, language arts, math, science, social studies, and social skills for individuals with mild disabilities (ED, LD, and/or, ID)

Or

- The focus must be on cognitive strategies in self-regulation, metacognition, study skills attention, memory or motivation for individual with mild disabilities of secondary age.

Prepare an **introduction** to the topic and a needs statement (why is this important to students with disabilities?), a written **summary of each research article**, including the complete citation, with a special emphasis on the participants, strategies, materials and findings. Do not simply copy the abstracts, but write in your own words what was undertaken in the study and the results. Finally, write a **conclusion** of the summaries **as a whole**, and what the **implications for practice** are for the secondary special education teacher – in other words, based on your research review, what should the secondary special education teacher implement in the classroom for students with mild disabilities? Be sure to use APA style and include a reference page, total of 8 pages max. You will present your findings in a 5 minute oral presentation in class.

Schedule

Class	Topic	Assignment
1 – 6/6	Syllabus Review, Course Objectives School Context, Planning and Organizing at the Secondary Level	Ch 1-3
2 – 6/8	Instructional Delivery Models & Teaching Behaviors Target Classroom	Ch 4, 5
3 – 6/13	Online class: Learning disabilities	No in class meeting
4 – 6/15	Writing Instruction Reading Instruction	Ch 7, 8
5 – 6/20	Mathematics Instruction	Ch 6
6 – 6/22	More on reading instruction	Research Review Due
