Prerequisites/Corequisites:
PRLS 310 or permission of instructor and 60 credits

University Catalog Course Description:
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities.

Course Overview:
This course examines the challenges and demands facing Managers of Leisure Facilities. Through readings, site visits, and participation in a group project to “Design Your Dream Facility”, students will begin to acquire the skills to design, plan, and maintain a leisure facility including an understanding of what goes into a market analysis and feasibility study for such a facility.

Course Delivery Method:
This course will be delivered online using an asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available at all times from Monday, August 29th, 2016 through Friday, December 23rd, 2016.

Technical Requirements
To participate in this course, students will need to satisfy the following technical requirements:

• High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
• Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
• Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of the course requirements.
• The following software plug-ins for PCs and Macs, respectively, are available for free download:
Expectations

- **Course Week**: Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday, and finish on Sunday.
- **Log-in Frequency**: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least three (3) times per week.
- **Participation**: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence**: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues**: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload**: Please be aware that this course is **not** self-paced. Students are expected to meet **specific deadlines and due dates** listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support**: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette**: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. **Be positive in your approach with others and diplomatic in selecting your words.** Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations**: Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Describe the process for developing parks and recreation facilities for a community.
2. Discuss the role of market analysis in facility planning and its importance in helping a facility realize its use and revenue potential.
3. Identify the factors of site and facility design that have the greatest impact on the operation, revenue potential and use of a variety of recreation and athletic facilities.
4. Function as a productive member of a facility management team.

Professional Standards **(Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT))**:

7.03 Upon completion of this course, students will have met the following professional accreditation standards: Students graduating from the program shall be able to demonstrate entry-level knowledge about operations and strategic management/administration in parks, recreation, tourism and/or related professions.
Required Readings:
There is no required textbook for this course. However, there are a number of journal articles and articles from the Harvard Business Review that you will be required to read. You will need to purchase articles from the Harvard Business Review. Please see the instructions that follow:

Harvard Business Review Course Pack – to include the following – NOTE: click on “Home Page” in Blackboard and scroll down to “Harvard Business Review Course Pack” for instructions on how to get these materials:

5. Case Study #1: Gino, Francesco & Staats, Bradely. Mary Caroline Tilman at Egon Zehnder: Spotting Talent in the 21st Century

Additional Readings:

Articles:

**Course Performance Evaluation:** Students are responsible for all information presented in the course, including that delivered via Blackboard, power-points, audio-visuals, journal articles, and Harvard Business Review articles. Students are expected to actively participate in class discussions via Blackboard, and complete all assignments. Assignments must be turned in at the beginning of class on the specified date due or no credit will be given. Only students with extreme emergencies, a documented medical excuse or university-sponsored functions discussed with the instructor prior to the due date will be given consideration for exception. It is recommended that students retain copies of all written work submitted.

* Assignments and Examinations

"Facility Analysis #1 - Facility Comparison 25 points (15% of final grade)

A one and one-half (1 ½) to two (2) page written summary of findings Assignment is due Monday, November 21st by the start of class. Assignment is to be submitted electronically on Blackboard

The Assignment

Independently visit and conduct a comparison of two facilities of the same type (i.e., campus recreation center, community recreation/aquatics center, private gym, athletic field complex, park, etc.).

The facilities do not need to be on the same campus or in the same jurisdiction, but they need to be of the same type and they must be facilities – not parks. You will need to submit your choices at least one month prior to your review for approval.

**Rubric:**

1. Description of Facilities (10 points each)
   * Name and location of each facility (include name of university or park system, if applicable)
   * Amenities/Services/Experiences offered at each (Be as specific as you can)
   * Describe three positive attributes of each (Be as detailed as you can)
   * Describe three perceived challenges for each (Be as detailed as you can)

2. Which facility did you like better and why? - two to three paragraph narrative (5 points)
3. Deduction if facilities are too disparate (-2)
4. Deduction for missing the submission deadline (-3 to -25)

**Individual Project (35% of final grade) – due on or before Monday, December 5th, 2016**

This project will consist of each student being given a Project Description Overview to include a mock feasibility study and market analysis for the purpose of planning and designing a leisure facility along with scaled cut-outs of leisure/fitness-related items (pool, weight room, cardio-room, childcare center, etc.). Based on the Project Description Overview, feasibility study, and market analysis, each student will then decide what their “dream” facility should look like, each student will submit their Dream Facility paper and their supporting rationale as to why they chose a particular design and why they selected specific components. A detailed Rubric and Template for the paper is provided separately.
Rubric (1-30 points for each category below for a total of 100 points) – this will be a digital/other - presentation submitted on or before Monday, December 5th, 2016. You must also submit a ten (10) page written paper (template provided) with the following information:

a) Introduction

b) Type of facility chosen and why

c) Rationale and Strength of Argument for the Design - you must include references to the demographic analysis provided to you at the beginning of the semester.

d) Itemized budget:
   a. Ability to account for any mitigating factors cited in the market analysis and/or feasibility study
   b. Staying within budget – you must submit an itemized budget of your expenses to include the dollar amount for each area you put in your facility and justify why you are choosing each.
   c. Rationale for specific amenities

e) Creativity – a photo and/or power point of each project must be submitted with the paper.

f) General References and Refereed Journal Articles – must include fifteen (15) references with at least five (5) of these coming from refereed journal articles.

This course will be graded on a point system, with a total of 100 possible points.

• Other Requirements

Class Participation (Blackboard) - Students must participate in the online discussions generated by the readings. Contribution will be evaluated based on number and quality of questions asked or answered and opinion provided when asked.

• Course Performance Evaluation Weighting

#1 Class Participation (Blackboard) - Students must participate in the online discussions generated by the readings. Contribution will be evaluated based on number and quality of questions asked or answered and opinion provided when asked. 15 pts.

#2 Facility Comparison Assignment – please see Rubric above 15 pts.

#3 Design Your Dream Facility Project – Due by Monday, December 5th at 6:00 PM - please see Rubric above and attached 35 pts.

#4 Final Exam – Wednesday, December 7th (exam will go live at 8:00 AM) – will include all material covered during the semester from the textbook, assigned journal articles, video presentations/webinars, and all power point presentations 35 pts.

TOTAL 100 pts

Professional Dispositions
Students are expected to exhibit professional behaviors and dispositions at all times.

Core Values Commitment:
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles.
GMU Policies and Resources for Students

Policies

• Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).

• Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

• Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

• Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

• Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/api/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursesupport.gmu.edu/.

• The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).

• The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance (see http://caps.gmu.edu/).

• The George Mason University Office of Student Support staff helps students negotiate life situations by connecting them with appropriate campus and off-campus resources. Students in need of these services may contact the office by phone (703-993-5376). Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to http://studentsupport.gmu.edu/, and the OSS staff will follow up with the student.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.
