**COURSE DESCRIPTION:**

**A. Prerequisites/Corequisites**

EDUC 511 and EDRD 515

**B. University Catalog Course Description**

Addresses the interrelationship of instruction, curriculum and assessment in international schools. Includes review of research and effective practice. Requires 20 hours of PK-6 classroom fieldwork.

**C. Expanded Course Description**

This course addresses the specifics of curriculum, instruction and assessment in international schools and includes a review of research and effective teaching practices. Through discussion and interaction, self-study and reflection, you will have opportunities to develop deeper understandings complemented by practical ideas and strategies, in the areas of curriculum development and implementation, effective instruction, and appropriate assessment, with emphasis on specific issues affecting international schools. Course content and experiences are designed to improve pedagogical effectiveness and promote continuous reflection to impact your future students' learning in a positive manner.

### **DELIVERY METHOD:**

This course will be delivered online using an asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before “@masonlive.gmu.edu) and email password. The course site will be available on May 10, 2016.

### **TECHNICAL REQUIREMENTS:**

To participate in this course, students will need the following resources:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox. Opera and Safari are not compatible with Blackboard;
- Consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of the course requirements.
- The following software plug-ins for PCs and Macs respectively, available for free downloading by clicking on the link next to each plug-in:
  - Adobe Acrobat Reader: <http://get.adobe.com/reader/>
  - Windows Media Player: <http://windows.microsoft.com/en-US/windows/downloads/windows-media-player>

### **EXPECTATIONS:**

- **Course Week:** Asynchronous: Because asynchronous courses do not have a “fixed” meeting day, our week will **start** on Tuesday, and **finish** on Monday. Students are expected to complete their finals responses by Sunday, midnight Eastern time.
- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students are expected to seek assistance if they are struggling with technical components of the course.
- **Technical Issues:** Students should expect that they could experience some technical difficulties at some point in the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:** Expect to log in to this course **at least 3 times a week** to read announcements, participate in the discussions, and work on course materials. Remember, this course is **not** self-paced. There are **specific deadlines** and **due dates** listed in the **CLASS SCHEDULE** section of this syllabus to which you are expected to adhere. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- **Advising:** If you would like to schedule a one-on-one meeting to discuss course requirements, content or other course-related issues, we can meet via web conference. Send me an email to schedule your one-on-one session and include your preferred meeting method and suggested dates/times.
- **Netiquette:** Our goal is to be **collaborative**, not combative. Experience shows that even an innocent remark in the online environment can be misconstrued. I suggest that you always re-read your responses carefully before you post them to encourage others from taking them as personal attacks. **Be positive in your approach to others and diplomatic with your words.** I will do the same. Remember, you are not competing with each other but sharing information and learning from one another as well as from the instructor.

### **LEARNER OUTCOMES or OBJECTIVES:**

This course is designed to enable students to:

1. become knowledgeable about the interrelationship of curriculum, instruction, and assessment in the elementary curriculum
2. understand specific issues affecting international schools in the areas of curriculum development and implementation, effective instruction, and appropriate assessment
3. appreciate cultural components in their relationship to students, families, and colleagues in international schools
4. adapt curriculum, instruction, and assessment for an international context
5. become familiar with international curriculum models, specifically the Primary Years Program of the International Baccalaureate Organization
6. develop a unit of inquiry using the PYP planning framework
7. extend their repertoire of pedagogical skills including strategies for planning, managing, and assessing learning experiences
8. recognize and plan for sociocultural, linguistic, and learning differences among students
9. utilize strategies to promote inquiry and reflection among students
10. develop skills as a reflective practitioner - observing, recording, and analyzing teaching and learning behaviors from a deliberative reflective stance
11. begin developing an awareness and appreciation of a research base that supports current best practices in teaching and learning
12. appreciate being part of a wider learning community enabling sharing of information, ideas, and resources with colleagues

### **Learning Outcomes Aligned with Professional Standards of:**

1. INTASC [http://cte.jhu.edu/pds/resources/intasc\\_principles.htm](http://cte.jhu.edu/pds/resources/intasc_principles.htm)
2. International Baccalaureate Organization: Section 2a Draft PYP Practitioner Award Programme Requirements, June 2005. Also see <http://www.ibo.org/pyp/>

### 3. ACEI/NCATE Standards:

- 1.0 Development, Learning, and Motivation--Candidates know, understand, and use the major concepts, principles, theories, and research related to development of children and young adolescents to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation.
- 2.6 Health education—Candidates know, understand, and use the major concepts in the subject matter of health education to create opportunities for student development and practice of skills that contribute to good health;
- 4.0 Assessment for instruction—Candidates know, understand, and use formal and informal assessment strategies to plan, evaluate and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student.
- 5.1 Professional growth, reflection, and evaluation—Candidates are aware of and reflect on their practice in light of research on teaching, professional ethics, and resources available for professional learning; they continually evaluate the effects of their professional decisions and actions on students, families and other professionals in the learning community and actively seek out opportunities to grow professionally; and,
- 5.2 Collaboration with families, colleagues, and community agencies— Candidates know the importance of establishing and maintaining a positive collaborative relationship with families, school colleagues, and agencies in the larger community to promote the intellectual, social, emotional, physical growth and well-being of children.

## TK20 PERFORMANCE-BASED ASSESSMENT SUBMISSION REQUIREMENT

Every student registered for any TCLDEL course with a required performance-based assessment is required to submit this assessment to Tk20 through Blackboard (regardless of whether the student is taking the course as an elective, a onetime course or as part of an undergraduate minor). There are three PBAs for this course, listed above and designated by “PBA” next to the assessment name. Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.”

## GRADING POLICY

At George Mason University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The university-wide system for grading graduate courses is as follows:

Grade	GRADING	Grade Points	Interpretation
A+	=100	4.00	Represents mastery of the subject through effort beyond basic requirements
A	94-99	4.00	
A-	90-93	3.67	
B+	85-89	3.33	Reflects an understanding of and the ability to apply theories and principles at a basic level
B	80-84	3.00	
C*	70-79	2.00	Denotes an unacceptable level of understanding and application of the basic elements of the course
F*	<69	0.00	

**Note: “C” is not satisfactory for a licensure course; “F” does not meet requirements of the Graduate School of Education**

## FIELD EXPERIENCE REQUIREMENTS

The **field experience is a required component** of the teacher preparation program at George Mason University. All students will complete a minimum of 20 hours in field experience for this course. Documentation of your field experience using the Fieldwork Evaluation & Log is required which includes a signature from your field experience teacher(s) or supervisor(s). The Fieldwork Evaluation & Log is located on Blackboard.

**In-service teachers:** Field experience can often be conducted in your own classroom if you have access to the population of students required for the PBAs. Please consult your instructor if you have questions about the viability of your classroom for fieldwork in this class. You must register for your school as your field experience site in the online Field Experience Request form available here: <https://cehd.gmu.edu/endorse/ferf> You will check the box indicating that: *“I will arrange my own field experiences (observations and/or case studies) because I am a full-time contracted school system employee and will complete field experience at my workplace.”* The deadline to submit your field experience placement is September 15 (Fall) or February 15 (Spring) or May 15 (Summer). Failure to do so will result in an unsatisfactory grade for your fieldwork assignment. **If you are taking this course as part of a cohort program, please indicate “International Cohort Program” on your request form FIRST, then select your program and placement location. HINT: Cohort courses have section numbers beginning with “6F” (e.g. EDUC 511.6F1).**

**Pre-service teachers:** If you are not currently working in a K-12 school, you will need to be placed in an appropriate fieldwork setting to complete your required PBAs and fieldwork hours. You must request a fieldwork site using the online Field Experience Request form available here: <https://cehd.gmu.edu/endorse/ferf> You will check the box indicating that: I will need George Mason (Clinical Practice Specialist) to arrange a placement for my field experiences (including observations and/or case studies). The deadline to submit your field experience placement is September 15 (Fall) or February 15 (Spring) or May 15 (Summer). Failure to do so will result in an unsatisfactory grade for your fieldwork assignment. **If you are taking this course as part of a cohort program, please indicate “International Cohort Program” on your request form, then select your program and placement location. HINT: Cohort courses have section numbers beginning with “6F” (e.g. EDUC 511.6F1).**

## HONOR CODE & INTEGRITY OF WORK

**Integrity of Work:** TCLDEL students must adhere to the guidelines of the George Mason University Honor Code (<http://oai.gmu.edu/honor-code/>). The principle of academic integrity is taken very seriously and violations are treated as such.

**Violations of the Honor Code** include:

1. Copying a paper or part of a paper from another student (current or past);
2. Reusing work that you have already submitted for another class (unless express permission has been granted by your current professor **before** you submit the work);

3. Copying the words of an author from a textbook or any printed source (including the Internet) or closely paraphrasing without providing a citation to credit the author. For examples of what should be cited, please refer to:  
<https://owl.english.purdue.edu/owl/resource/589/02/>
4. You may also not “reuse” fieldwork hours. Each placement must have 20 documented hours that are solely for each course that you are in; you may be at the same site, but the same hours may not be counted towards the same course.

## LATE WORK POLICY

At the graduate level all work is expected to be of high quality and submitted on the dates due. *Work submitted late will be reduced one letter grade for every day of delay.* Because we live in uncertain times, if you have any extraordinary circumstances (*think* flood, earthquake, evacuation) that prevent you from submitting your work in a timely manner, it is your responsibility to contact the instructor as soon as possible after the circumstances occur and make arrangements to complete your work. *It is up to the discretion of the instructor to approve the late/makeup work.*

## GMU POLICIES AND RESOURCES FOR STUDENTS

- a. Students must adhere to the guidelines of the George Mason University Honor Code (See <http://oai.gmu.edu/the-mason-honor-code/>).
- b. Students must follow the university policy for Responsible Use of Computing (See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- c. Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- d. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance (See <http://caps.gmu.edu/>).
- e. Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services and inform their instructor, in writing, as soon as possible. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (See <http://ods.gmu.edu/>).
- f. Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

- g. The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (See <http://writingcenter.gmu.edu/>).

## **PROFESSIONAL DISPOSITIONS**

Students are expected to exhibit professional behaviors and dispositions at all times.

## **CORE VALUES COMMITMENT**

The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

**For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website <http://gse.gmu.edu/>.**

## DETAILED ASSIGNMENT DESCRIPTIONS AND EVALUATION CRITERIA

**Teacher Candidate and Instruction Plan focus on PYP (PBA) (20 points)**

To consolidate your knowledge of PYP curriculum and planning, you will create a unit of inquiry planner. One sample lesson plan must accompany your unit of inquiry planner, and must focus on developing and scaffolding your planner for a student with development, learning, physical or linguistic differences, including a plan for assessing the student’s progress. You will submit this lesson plan to TK20 separately for evaluation from your inquiry unit, although the lesson plan should be coherently linked with your unit.

You will receive a template to guide you in creating each element of the planner including central idea, inquiry points, resources, teacher questions, context for facilitative inquiry, and pre-unit, formative and summative assessments.

Your planner will be graded holistically using the following criteria.

<b>Exemplary</b> 98-100%	<b>Nearing exemplary</b> 90-97%	<b>Proficient</b> 80-89% points	<b>Partially proficient</b> 70-79%	<b>Not proficient</b> 60% or below
<p>All elements of the planner are addressed thoroughly and are linked together coherently.</p> <p>The sample lesson plan is detailed, very well-structured and links very clearly to the overall unit plan.</p>	<p>All elements of the planner are addressed and are linked together coherently.</p> <p>The sample lesson plan is detailed, well-structured and links to the overall unit plan.</p>	<p>All elements of the planner are addressed but lack depth or coherence.</p> <p>The sample lesson plan links to overall lesson plan but lacks detail and/or structure.</p>	<p>Most elements of the planner are addressed but lack depth or coherence.</p> <p>The sample lesson plan lacks detail and structure.</p>	<p>Only some elements of the planner are addressed and lack depth and coherence.</p> <p>The sample lesson plan is either missing or inadequate.</p>

Your lesson plan must include a 1-2 page rationale for the lesson plan with the following information included:

- Statement of educational need including a description of the target student’s cognitive, linguistic, social, emotional and/or physical development skill levels and abilities
- Description of rationale for at least three evidence-based instructional strategies
- Description of and rationale for instructional adaptations
- Statement of plan for the assessment and documentation of student’s progress

Submit your lesson plan and rationale in one document to TK20. It will be evaluated based on the following InTASC standards:

<b>Description of the Student</b>				<i>InTASC 1(a)</i>
<b>Exceeds Standard</b>	<b>Meets Standard</b>	<b>Approaches Standard</b>	<b>Do Not Meet Standard</b>	
The candidate provides description of student that includes both appropriate and multiple forms of assessment data on all of the following: cognitive, linguistic, social, emotional, and/or physical developmental skill levels and abilities, interests, and educational learning need. The candidate describes and provides examples of impact of student characteristics on learning.	The candidate provides description of student that includes appropriate assessment data on all of the following: cognitive, linguistic, social, emotional, and/or physical developmental skill levels and abilities, interests, and educational progress. The candidate describes impact of student characteristics on learning.	The candidate provides description of student that includes appropriate assessment data related to some but not all of the following: cognitive, linguistic, social, emotional, and/or physical developmental skill levels and abilities, interests, or educational progress.	The candidate does not provide a description or the description of student does not include assessment data related to cognitive, linguistic, social, emotional, and/or physical developmental skill levels and abilities, interests, or educational progress.	The candidate regularly assesses individual and group performance in order to design and modify instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.
<b>Statement of the Educational Need</b>				<i>InTASC 6(g)</i>
The candidate effectively uses assessment data from multiple sources to create a thorough and appropriate statement of educational need that is aligned.	The candidate uses assessment data to create an appropriate statement of educational need that is aligned with assessment results.	The candidate uses assessment data to create a statement of educational need that is marginally aligned with assessment results.	The candidate does not address student educational needs or inappropriately uses assessment data to create a statement of educational need.	The candidate effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.
<b>Identification of Learning Objectives</b>				<i>InTASC 7(a)</i>
The candidate identifies distinct learning objectives with related outcomes that are relevant to individual student needs.	The candidate identifies learning objectives with related outcomes that are relevant to individual student needs.	The candidate identifies learning objectives without relevance to student educational need.	The candidate identifies learning objectives that are either (a) incomplete because related outcomes are not identified or (b) the objectives are not directly related to student educational need.	The candidate individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.
<b>Rational for Learning Objectives</b>				<i>InTASC 7(d)</i>
The rationales provided are aligned with the learning objective and the relationship of the learning objectives to student educational needs is clearly and effectively identified. The candidate does not provide rationales which are aligned to the specific instructional strategies and/or the relationship of instructional strategies to the learning objectives and student educational needs is missing or unclear.	The candidate understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.
<b>Description of Instructional Adaptation</b>				<b><i>InTASC 2(f)</i></b>
The candidate identifies and thoroughly describes appropriate adaptations or accommodations that clearly support student achievement of learning objectives.	The candidate identifies and describes appropriate adaptations or accommodations that clearly support student achievement of learning objectives.	The candidate identifies either adaptations or accommodations that minimally support student achievement of learning objectives.	The candidate does not identify either adaptations or accommodations to support student achievement of learning objectives.	The candidate accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.
<b>Rationale for Instructional Adaptation</b>				<b><i>InTASC 7(k)</i></b>
The rationales provide evidence-based support for the specific adaptations and accommodations and the relationship of the adaptations and accommodations to student educational needs is clearly and thoroughly identified.	The rationales provide adequate evidence to support the adaptations and accommodations and the relationship of the adaptations and accommodations to student educational needs is clearly identified.	The rationales marginally provide evidence to support the adaptations and accommodations and the relationship of the adaptations and accommodations to student educational needs is unclear.	The rationales marginally provide evidence to support the adaptations and accommodations and the relationship of the adaptations and accommodations to student educational needs is unclear.	The candidate knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.
<b>Assessment and Documentation of Student Progress</b>				<b><i>InTASC 6(b)</i></b>
The candidate describes an assessment plan that evaluates all student learning objectives, includes formative and summative assessments that minimize sources of bias and includes multiple data sources for each objective. The candidate describes multiple assessment results that would prompt modification of instructional plans and those specific modifications.	The candidate describes an assessment plan that evaluates all student learning objectives and includes both formative and summative assessments that minimize sources of bias. The candidate describes the assessment results that would prompt modification of instructional plans and those specific modifications.	The candidate describes an assessment plan that evaluates all student learning objectives but does not include documentation of both formative and summative measures that does not address possible assessment bias.	The candidate does not describe an assessment plan that evaluates all student learning objectives or describes a plan that does not directly measure all of the student learning objectives (e.g., is not observable, measurable).	The candidate designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.

**Develop and Critique an Authentic Assessment Tool (15 points)**

You will create an assessment tool that includes clear criteria for what will be assessed, and present it with a description of the context in which it will be used and a critique of its strengths and limitations.

<b>Exemplary</b> 98-100%	<b>Nearing exemplary</b> 90-97%	<b>Proficient</b> 80-89% points	<b>Partially proficient</b> 70-79%	<b>Not proficient</b> 60% or below

Critique includes extensive insightful analysis of strengths and limitations.	Critique includes thoughtful analysis of strengths and limitations.	Critique includes some analysis of strengths and limitations.	Critique identifies some strengths and limitations.	Critique is missing or inadequate.

### Collaborative Learning Team Assessment (PBA) (20 points)

Today’s teachers play a teacher leadership role, with each professional (novice and veteran) facilitating not only their own but also their colleagues’ professional development—all focused on the achievement of the students they work together to educate. This is particularly important in PYP schools which focus on creating transdisciplinary units and collaborative teams to facilitate students’ knowledge and skill development.

In this assignment you will work with a team of teacher colleagues to discuss individual student or group learning progress. With the learning team, you will either design an assessment or use existing assessment data to make responsive instructional decisions that promote an individual student or group of students’ learning. You will provide input to the team to identify lesson plans or revisions to lesson plans, instructional delivery methods, or classroom management strategies affecting student learning progress. Finally, you will detail a teaching action plan that the team believes will promote student academic achievement and include a description of the instructional activities and assessment to be used and how assessment results will be used to determine changes in student learning. This instruction plan can be part of your unit planner from **Teacher Candidate and Instruction Unit Plan** but cannot duplicate the work of the individual lesson plan. You will use this same instruction plan as the beginning step in the **Student Learning and Analysis Project** (described below).

You must submit as part of this assignment:

- Documentation of collaborations with teachers (agenda, minutes, reflection, fieldwork log, etc)
- Documentation of initial assessment results and responsive instructional decisions (provide a summary of assessment results and narrative of instruction decisions made in response to these results)
- Documentation of lesson plans or revisions
- Summary of teaching action plan (describing the objectives, assessment outcomes and instructional strategies planned)

A template of the format of the CLTA to submit this documentation is below the rubric. You must submit this to TK20 via Blackboard. You will be graded holistically on the CLTA with the following criteria:

<b>Exemplary</b> 98-100%	<b>Nearing exemplary</b> 90-97%	<b>Proficient</b> 80-89% points	<b>Partially proficient</b> 70-79%	<b>Not proficient</b> 60% or below
All elements of the CLTA are addressed thoroughly with clear documentation supporting instructional choices based on assessment evidence	All elements of the CLTA with clear documentation supporting instructional choices based on assessment evidence.	All elements of the CLTA are included but lack depth or explanation to assessment results.	All elements of the CLTA are included but lack depth and are not clearly linked to assessment results	Only some elements of CLTA are included but do not address assessment results.
The sample lesson plan is detailed, very well-structured and links very clearly to the overall assessment results.	The sample lesson plan is detailed, well-structured and links to the overall assessment results.	The sample lesson plan links to overall assessment results. but lacks detail and/or structure.	The sample lesson plan lacks detail and structure.	The sample lesson plan is either missing or inadequate.

### Collaborative Learning Team Assessment (PBA) (20 points)

Additionally, you will be evaluated using the following InTASC standards.

<b>Collaboration</b>

### Performance Based Assessment (PBA)\*

#### Student Learning Analysis (20 points)

This assignment is designed to focus on the relationship between your teaching and student learning. It should answer the questions, “When I teach, do students learn? and How do I know they are learning?” You may complete this assignment in any content area with a small group of students (with your supervising teacher’s approval). This project serves to synthesize the work you have completed in the course so far, completing the instructional chain: assessment to planning to teaching to assessment.

Specifically, you will design a unit of instruction for elementary age students (using the PYP planner or any other planning format appropriate to your setting). You will establish baseline evidence of student knowledge through the Collaborative Learning Team Assessment (CLTA, above). Based on that evidence and the action plan created in the CLTA, you will teach/lead the inquiry in your planned area. You will collect sample student work for analysis and complete a post-assessment of student learning. You will provide an in-depth analysis of teaching and student learning along with your critical reflection on the process in a cumulative paper of approximately 15 pages plus appendices and references.

Your final assignment will be assessed against the following 8 criteria related to the ACEI standards:

#### Description of Target Group
