GEORGE MASON UNIVERSITY
GRADUATE SCHOOL OF EDUCATION
Education Leadership Program

EDLE 618, Section 603, Fall 2016
Supervision and Evaluation of Instruction – 3 credits

Instructor: Dr. Francisco Durán
Phone: 415-342-2099
E-Mail: fduran2@gmu.edu
Office Hours: By appointment

Schedule Information

Meeting Times: Tuesday 4:30 - 7:30, Beginning September, 6 2016
All students are expected to attend every class session. Personal
problems that prevent students from attending class should be
reported ahead of time to the instructor via e-mail.

Location: TC Williams High School, Room A225

Course Description

EDLE 618 Supervision and Evaluation of Instruction

Provides a theoretical and practical overview of the supervision and evaluation of
instruction. Introduces the domains of supervision and inquiry into current issues and
best practices in supervision. Uses a variety of interactive exercises to assist in the
development of practical skills for using the clinical process and developmental
approach to supervision.

Prerequisite(s): EDLE 620 or EDSE 743; EDLE 690, and EDLE 791

Nature of Course Delivery

Class sessions will consist of brief lectures, discussions, and role playing. We will utilize
several videos for training/development as we observe classroom teachers at work.
Students will benefit from and contribute to the learning experience to the extent that
they are prepared and ready to participate in each class meeting.

Course Objectives

Students enrolled in this course will understand the research on adult learning theory
and how it connects with effective professional development. They will understand the
five phases of clinical supervision, and how they relate to the supervisory styles and
approaches. Students will observe classrooms and understand the variety of observation
methodologies that can be used to collect data. And students will practice data informed decision making as a means to improve teaching and overall student learning.

**Student Outcomes**

Upon completion of this course, students will be able to:
1. Demonstrate the ability to identify and define effective instructional practice.
2. Engage with classroom teachers in applying the principles of clinical supervision and the developmental approach to supervision.
3. Demonstrate the ability to apply supervision consistent with adult learning theory, the characteristics of effective professional development, and the research on effective schools.
4. Articulate a working knowledge of current issues and best practices in supervision.

**Relationship of Course to Internship**

Although the internship is a separate course, the Education Leadership Program has integrated “embedded experiences” into course work. This means that some of the work in this class is related to your internship. You may write about embedded experiences (such as the Clinical Supervision project) in your internship journal and collective record, but they can only count over and above the minimum 320 hours required for the internship. The professional development project is another example of such an embedded experience.

**National Standards and Virginia Competencies**

**ELCC Standards:**

- **ELCC 1.2** Candidates understand and can collect and use data to identify school goals, assess organizational effectiveness, and create and implement plans to achieve school goals.
- **ELCC 1.3** Candidates understand and can promote continual and sustainable school improvement.
- **ELCC 2.2** Candidates understand and can create and evaluate a comprehensive, rigorous, and coherent curricular and instructional school program.
- **ELCC 2.3** Candidates understand and can develop and supervise the instructional and leadership capacity of school staff.
- **ELCC 3.5** Candidates understand and can ensure that teacher and organizational time focuses on supporting high-quality school instruction and student learning.
- **ELCC 6.3** Candidates understand and can anticipate and assess emerging trends and initiatives in order to adapt school-based leadership strategies.

**VA DOE Competencies:**

a.1- Knowledge and understanding of student growth and development, including applied learning and motivational theories
a.3- Knowledge and understanding...(above), including principles of effective instruction, measurement, evaluation and assessment strategies
a.5- Knowledge and understanding...(above), including the role of technology in promoting student learning
b.2 -Knowledge and understanding of systems and organizations, including information sources and processing, including data collection and data analysis strategies
b.5- Knowledge and understanding...(above), including effective communication, including consensus building and negotiation skills

Course Materials

Required Text:
Stronge, James H., Qualities of Effective Teachers, 2nd Edition. ASCD

Recommended Text:

Videos Utilized in Class
Qualities of Effective Teachers, ASCD

Online access is vital to success in this course and is important if we experience school shutdowns because of the weather or other problems. All students are now required to activate and monitor their GMU e-mail accounts. If you are uncertain about how to do this, please see me. It is my expectation that you will be fully competent to send and receive e-mail messages with attachments. If your computer at school or home has spam blocking that will prevent you from seeing messages with attachments, you are responsible for addressing this problem immediately.

It is my expectation that all students have access to standard word processing software that can be read by Microsoft Office 2010.

Course Requirements, Performance-based Assessment and Evaluation Criteria

Attendance

Students are expected to attend every class for its entirety. Maximum class participation points can only be earned by students who attend all classes, are on time, and do not leave early.
General Expectations

Consistent with expectations of a master’s level course in the Education Leadership Program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:

1. Application of concepts reflected in class discussion and readings
2. Original thinking and persuasiveness
3. The ability to write in a clear, concise, and organized fashion.

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of various performances are as follows:

**Class Participation (10 pts)**

Students are expected to participate actively in class discussions, and in serving as critical friends to other students. Attendance is expected for all classes. If you must be absent, please notify me by e-mail or telephone. Absences will result in a reduction in participation points. Arriving at class late or leaving from class early may result in the loss of points.

There will be numerous opportunities for students to demonstrate initiative during EDLE 618. Some examples include: volunteering to lead small group class time activities; reporting out small group findings to the entire class; verbally challenging others’ assumptions during class discussions; specifically citing and using previously learned materials; and initiating discussion and student-to-student interaction.

**TK20 PERFORMANCE BASED ASSESSMENT SUBMISSION REQUIREMENT**

Every student registered for any EDLE course with a requirement performance-based assessment is required to submit these assessments: The Professional Development Project and the Clinical Supervision Project to TK20 through Blackboard (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in TK20 through Blackboard. Failure to submit the assessment to TK20 (through Blackboard) will result in the course instructor reporting the grade as Incomplete (IN). Unless the IN grade is changed upon completion of the TK20 submission, the IN will convert to an F nine weeks into the following semester.

**Written Assignment #1**

**The Clinical Supervision Project (30 points)**

Explain the clinical supervision process to your principal, and solicit advice as to who might be observed for the purpose of this assignment. Using the overview described in the text, discussion, and video observations conducted during class, students will apply the five phase model in an authentic classroom setting.
A written report will complete this project, consisting of the following components:

1) **Context**—Describe how the teacher was selected, their developmental level, expertise, and commitment.

2) **Five Phases of Clinical Supervision**—Describe and defend the supervisory style that you selected and utilized.
   a. Phase 1—Include all required elements of a pre-observation conference, including background information on the teacher observed.
   b. Phase 2—Describe the class that you observed, generally discussing student and teacher behaviors, the length of your observation, and any challenges that you had with applying the observation methodology or methodologies that you selected.
   c. Phase 3—Describe the data that you collected and specifically discuss the trends and patterns that were revealed ("analysis"). Then begin to interpret the patterns and trends in terms of how they might help the teacher to improve his/her instructional practice ("interpretation"). And, finally, determine and defend the supervisory style that you will use in your phase 4 conference.
   d. Phase 4—Describe in detail your interactions with your classroom teacher, referring to the supervisory style that you utilized during phase 4. You do not need to include a plan for improvement in your phase 4 write-up.
   e. Phase 5—Describe your critique of the process, including teacher input as to how the previous four phases of the clinical process might be improved.

3) **Comparison with Actual Practice**—compare and contrast the five phases of the clinical model with the observation model utilized in your school. Be specific as you review the five clinical phases—for example, in phase 1, is there a pre-observation conference in your school? Provide sufficient detail and reach a conclusion as to whether or not a formative (as opposed to summative) evaluation model is being employed in your school.

   - Clinical supervision project is **due 10/25** and may not exceed ten (10) double-spaced pages.

   - **Include in an appendix a copy of the actual observation tools** (for example, the categorical frequency chart, or the performance indicator checklist) including your notes.

   - **If you use a wide-lens tool, you must also include one additional observation tool** for your project.
Written Assignment #2

The Professional Development Project (40 points)

This project involves developing an authentic professional development plan, providing your school (or department) with a research-based approach to providing growth opportunities for professional staff. You should solicit input from school and/or department leaders as you consider topics and options for this proposal.

Four required components for this project:

1) **Context**—Briefly describe your school and, if relevant for your project, the department/grade level in which you work.

2) **Needs Assessment, Analysis and Interpretation**—Based on class discussions and text readings, use at least two of the "Ways of Assessing Need." Describe and defend the needs assessment techniques selected as well as your method of collecting data. Identify patterns and trends ("analysis") from your data, and describe your interpretation and conclusions. Specifically connect your data-informed trends and interpretations to the professional development proposal you will develop in component 3 below. This section must be a description of your analysis and findings, and not a description of what others in your school have done.

3) Prepare a professional development proposal that includes the six essential elements of such plans (per class discussion). Be specific when addressing these essential elements, with emphasis on the proposed learning activities. This proposal should be authentic in nature—something that could be used in your school. **NOTE: It is not expected that you will implement the proposal that you develop during the semester that you are enrolled in EDLE 618.**

4) Use the readings and class discussion to connect your proposal with research based characteristics of effective professional development identified in the Glickman text. You should also discuss and connect the three phases of professional development (orientation, integration, and refinement) with your proposed professional development plan.

- **This professional development project is due on 11/29**, and may not exceed nine (9) double-spaced pages.

- You **must include in an appendix a copy of the data assessment methodologies/tools that you selected and used.** (For example, if you used a "review of official documents," you should include one or two pages of such docs in your appendix. If you used a survey, include a copy of the blank survey in your appendix, etc.)
Small Group Project

Group Discussion Activity (20 points)

Students will work in small groups to plan and lead a discussion on topics that relate to the themes being addressed in class. A list of available topics is posted below, and will be reviewed at the first class meeting. The discussions should be interactive, with the intent that the audience are instructional leaders who supervise teachers. Each discussion should be no fewer than 60 minutes and no longer than 75 minutes in duration.

Professional journals (NASSP, NAESP, ASCD, PDK, etc), official school records and documents, interviews with school leaders, local school forms and procedures, and course texts should be used to inform each discussion.

Successful completion of this activity will result in the engagement of classmates on the selected topic. A list of references must be presented to students and the instructor at the time of the presentation.

NOTE: Unlike some “presentations” to classes, the emphasis for this activity should be on the active involvement of classmates. It will be acceptable to devote some time to context—but even this part of the assignment should be done as interactively as possible. The vast majority of the available time should be devoted to guided small group activities in which everyone actively participates. Technology must be used in some fashion.

List of Topics

1st- Classroom Walkthroughs and Mini-Observations- Discussion leaders will present an overview of the types of walkthroughs that are used in local schools. Emphasis will be placed on the espoused purposes of walkthroughs, as well as the actual/authentic procedures that are used by school administrators. It is highly recommended that the latest developments be reviewed and discussed, including the use of electronic devices to collect and analyze classroom data.

2nd- Professional development- Students will lead a discussion on pre-K-12 professional development. Emphasis will be placed on the research-based traits of effective PD, and how they connect with examples of professional development that the group selects and shares. The phases of professional development should be explored.

3rd- Supervisory behaviors- Students will research and lead a discussion on supervisory behaviors. The Glickman text should be used as a basis for this presentation and informing this discussion. The emphasis will be on supervisory behaviors, verbal and nonverbal, as they are demonstrated by school leaders during interactions with teachers, students, and community.
4th- **Group dynamics and development**- Students will provide opportunities for classmates to engage in identifying and explaining the behaviors of individuals in group settings, with a focus on task, person and dysfunctional roles. Stages of group development will also be discussed as a point of emphasis during this session.

5th- **Getting teacher evaluation right**- Students should use the Linda Darling-Hammond book as the foundation for this presentation and lead a discussion on what really matters for teacher effectiveness and helping to improve teacher practice. Don't solely rely on this text, but use it as the main source.

6th- **Handbook for qualities of effective teachers**- Students should provide a detailed overview of the Handbook for Qualities of Effective Teachers and how it can be effectively used to apply the research to improve teacher performance as a principal or supervisor.

NOTE: To best exceed the minimum expectations regarding the required submission of a reference list at the completion of each discussion activity session, it is recommended that the group develop an annotated reference list as a user-friendly way to expose students to the resources that were selected and utilized.

**ALL ASSIGNMENTS must be submitted electronically through Blackboard.**

**LATE WORK:** It is expected that all students submit (through Blackboard) work on time, no later than midnight of the due date. Late projects may be accepted in extenuating circumstances, and will result in a minimum of a one letter grade reduction.

**FEEDBACK:** Rewrites of graded work will not be possible in EDLE 618. However, papers may be submitted in advance of the due date for feedback from the instructor. You may submit a complete paper, or any portion of it for feedback, but must allow at least one week in advance of the due date for the instructor to review your work and contact you electronically with feedback.

**COMMUNICATING WITH INSTRUCTOR:** Feel free to discuss any/all concerns about the class with me. You may do so using e-mail, but a personal contact (before class, during break, after class or a scheduled office visit) is preferred.

**GRADING SCALE:**

George Mason University Policies and Resources for Students

Policies

1. Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).

2. Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

3. Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

4. Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

5. Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

1. Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/api/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.

2. The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).

3. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance (see http://caps.gmu.edu/).
4. The George Mason University Office of Student Support staff helps students negotiate life situations by connecting them with appropriate campus and off-campus resources. Students in need of these services may contact the office by phone (703-993-5376). Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to [http://studentsupport.gmu.edu/](http://studentsupport.gmu.edu/), and the OSS staff will follow up with the student.

**PROFESSIONAL DISPOSITIONS**

Students are expected to exhibit professional behaviors and dispositions at all times.

**Core Values Commitment**

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. [http://cehd.gmu.edu/values](http://cehd.gmu.edu/values)

For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [http://gse.gmu.edu/](http://gse.gmu.edu/)
Weekly Schedule

Sep 6  Topic: *What it means to be an Effective Teacher*
Activities: Introductions, Review of Syllabus and Course Overview
Building a Foundation workshop, the prerequisites for effective Teachers.
Discuss Clinical Supervision Project

Read: Introduction and Chapter 1 (pp. ix-21), Qualities of Effective Teachers, 2nd Edition

Sep 13 Topic: *The Teacher as a Person*
Activities: Building a Foundation workshop, Favorite Teacher and Challenges for New Teachers

Read: Chapter 2 (pp. 22-38), Qualities of Effective Teachers, 2nd Edition

Sep 20 Topic: *Classroom Management and Organization*
Activities: Managing the classroom
Discussion about the required PD Plan Assignment

Read: Chapter 3 (pp. 39-51), Qualities of Effective Teachers, 2nd Edition

Sep 27 Topic: *Classroom Management and Organization*
Activity: How to support teachers with effective management and organizational skills

Read: Chapter 4 (pp. 52-65), Qualities of Effective Teachers, 2nd Edition

Oct 4  *E-Class Session (we will not meet as a class)*
Activity: Work on Clinical Supervision Project

Oct 11 Topic: *Planning and Delivering Instruction*
Activities: Overview on the implementation of effective instruction

Read: Chapter 4 (pp. 52-65), Qualities of Effective Teachers, 2nd Edition
Oct 18
Topic: Planning and Delivering Instruction
Activities: Implementing instruction

Read: Chapter 5 (pp. 66-84), Qualities of Effective Teachers, 2\textsuperscript{nd} Edition

Oct 25
\textit{E-Class Session (we will not meet as a class)}
Activity: Work with partners on Discussion Group Activity
