Instructor: Dr. Melissa Ainsworth
Phone: 703-993-5469
E-Mail: mainswor@gmu.edu
Office Hours: by Appointment
Meeting Dates: 01/24/17 – 05/02/17
Meeting Day(s): Tuesday
Meeting Time(s): 4:30 pm - 7:10 pm
Instructing University: GMU

Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through university e-mail and/or through Blackboard.

Course Description
Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities.

Prerequisite(s): None Co-requisite(s): None

Advising Contact Information
Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.
Course Delivery Method

Learning activities include the following:
1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Learner Outcomes
Upon completion of this course, teacher candidates/students will be able to:

1. Write IEPs so they define individualized sequences of measurable objectives for teaching needed functional skills that link to standards of learning general curriculum and begin with present level of performance and end with goal performance.
2. Construct, use, and interpret nonstandard, informal skill assessment (such as task analysis and observation) to identify appropriate objectives, evaluate student performance during baseline and intervention, and make improvements in instruction for teacher candidates/students with disabilities in an adapted curriculum across the K-12 levels.
3. Assess target skills before (baseline probes) and during (instructional probes) instruction using direct observation or assessment of permanent products.
4. Create dated graphs of student performance data using Excel; draw aim and trend lines using Excel.
5. Use “raw” and graphed student performance data (along with aim and trend lines and problem analysis) to evaluate the effects of instruction and make data-based decisions for improving student performance.
6. Embed instruction on targeted IEP objectives into functional daily routines and activities.
7. Plan, implement, and evaluate instructional programs that use effective antecedent teaching strategies (e.g., observational learning, milieu approach, system of least intrusive prompts, simultaneous prompting, time delay, graduated guidance, picture assists, audio/video-modeling, backward and whole task chaining) and consequent strategies (e.g., shaping, error correction, consequential strategies, and interspersed review).
8. Write and implement an instructional plan that specifies a sequence of instructional objectives leading to a goal, uses a task analysis (for multiple step skills) or a skill sequence (for discrete skills), incorporates antecedent and consequence teaching strategies aimed at a specific stage of learning, and specifies a plan for collecting and analyzing student performance data on an ongoing basis.
9. Understand general education teaching practices that promote inclusion of teacher candidates/students with severe disabilities in the general education curriculum and support them in the least restrictive environment (e.g., curriculum and instructional adaptation, group instruction, self-management, schedule following, cooperative learning, peer tutoring). Understand when and how to use small group instruction, peer tutoring, community-based instruction, simulated instruction, video-modeling instruction, and instruction involving both typical teacher candidates/students and teacher candidates/students with disabilities.
10. Apply a model to plan with general educators any adaptations and modifications that are needed in the general education curriculum and class activities in order to meet the instructional needs of
teacher candidates/students with severe disabilities.

11. Train paraprofessional support staff to use appropriate teaching methods and supportive interaction styles with teacher candidates/students to support teacher candidates/students without encouraging dependency. Provide these staff members with supervision and feedback.

Course Relationship to Program Goals and Professional Organizations
This course is part of The Virginia Consortium for Teacher Preparation in Special Education Adapted Curriculum, a grant from the Virginia Department of Education that includes George Mason University, Virginia Commonwealth University, Radford University, Norfolk State University, Old Dominion University, and James Madison University. Through the completion of the Adapted Curriculum Consortium program, students are eligible for teacher licensure in the Commonwealth of Virginia in the area of Special Education – Adapted Curriculum K-12. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization, as well as those established by the Interstate Teacher Assessment and Support consortium (InTASC). The standards addressed in this class include CEC Standard 1: Learner Development and Individual Learning Differences (InTASC 1,2); CEC Standard 2: Learning Environments (InTASC 3); CEC Standard 4: Assessment (InTASC 6); CEC Standard 5: Instructional Planning and Strategies (InTASC 7,8); CEC Standard 6: Professional Learning and Ethical Practices (InTASC 9) & CEC Standard 7: Collaboration (InTASC 10).

Additional Readings
As assigned and posted on blackboard

Course Performance Evaluation
Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Tk20 Performance-Based Assessment Submission Requirement
It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for a special education course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other
standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

For EDSE 661, the required PBA Instructional Plan and Implementation. Failure to submit the assignment to Tk20 will result in reporting the course grade as Incomplete (IN). Teacher candidates/students have until five days prior to the University-stated grade change deadline to upload the required PBA in order to change the course grade. When the PBA is uploaded, the teacher candidate/student is required to notify the instructor so that the “IN” can be changed to a grade. If the required PBA is not uploaded five days prior to the University-stated grade change deadline and, therefore, the grade not changed, it will become an F. Please check to verify your ability to upload items to Tk20 before the PBA due date.

Assignments

Performance-based Assessment (Tk20 submission required)
The performance-based assessment for this course is Instructional Plan with Data. See the Course Assignments section for assignment description.

Course Assignments

Performance-based Assessment (Tk20 submission required).

Course participants must identify and work with an appropriate target student with severe Disabilities** ages 5-21 who is participating in the adapted curriculum. You will need permission to read this student’s confidential file, and engage in observation, interview, instruction and assessment activities with that student and her/his family and team members in order to complete the major assignments for the class. It is your responsibility to identify an appropriate target student. It is expected that you will need at least 20-25 hours across the course of the semester to engage in instructional and assessment activities with your target student, their family and team members. Please see Blackboard for a detailed description and rubric.

In this assignment you will develop and implement an instructional program for teaching an academic skill to a student with severe disabilities

** An appropriate target student must have an intellectual disability with a reported IQ below 70. Appropriate target students may have concurrent physical or sensory disabilities or autism.

This assignment has 3 Parts. Each part will be graded individually.

Part 1: Detailed Instructional Program Proposal (5 points)
An instructional plan proposal must be submitted and approved by the instructor before you can begin the assignment. You will receive the full 5 points upon submitting your proposal. No partial credit will be given. No credit will be given for late proposals unless explicit permission is given by the instructor for a late turn in.

You will need to submit a one page proposal prior to implementing the program in which you:
• Provide the student/individual information: age, school placement, identified eligibility and/or disability, level of academic ability, other pertinent information such as verbal abilities and physical or behavioral limitations. (this information may be bulleted)
• Briefly Identify the objective and provide a rationale for teaching it to this person, Identify the teaching strategy selected

Part 2: Completed Draft of the first section: (50 points).
Based upon instructor feedback, students may select to rewrite this section before it is resubmitted with part 3 on final due date as listed in the syllabus. Regardless of rewriting, part 2 must be handed in with part 3 for a complete paper on the final due date.

○ Write the instructional program plan or method:
  • Describe student/individual thoroughly
  • Describe the setting where instruction will occur
  • Describe the collaborative teaming you used to plan
  • Include a complete instructional objective (conditions, behavior, and criterion and develop a data collection method and data collection sheets,)
  • Describe teaching procedures, including antecedents, teaching strategies and consequences

Part 3: 100 points possible

○ Implement and record data on the program which you will present in a results section of your paper. You must turn in your Data collection sheets with the final product. You will also need to present your data in an electronic graph.
○ Provide a discussion of the program including evaluation of the program based on student performance, and limitations/suggestions for changes in future implementation. We will discuss the details in subsequent class sessions.

**(Please note that if you do not currently teach students with severe disabilities you will need to find a student outside of your class to develop a plan for.)

**Other Assignments.**

**Classroom plan:** 50 points possible
This assignment will require that you submit a detailed description of your teaching environment and students, an hour by hour classroom plan for your students with disabilities for 5 consecutive days and a 1-2 page discussion of the evidence –based best practices you use. You will be required to reference your text and articles read for class in your discussion of best practices.

**Lesson Plans: 100 pts total (25 pts each)**

As we cover different academic areas you will be asked to turn in 1 lesson plan per area for a total of 4 lessons plans (1 each for the following areas: math, science/history, communication, life skills). Each lesson plan is worth 25 points. Each lesson plan has a different due date. Detailed descriptions of the directions for each lesson plan is found on blackboard under the assignments tab.

**In-Class Assignments: 50 points possible total**

There will be 5 unannounced quizzes/reading checks or in class activities throughout the semester. Each is worth 10 points for a total of 50 possible points. **If you miss class, these may NOT be made up.**

**Schedule**

A draft class schedule of class topics, due dates and reading assignments is available on the last page of this syllabus as well as on Blackboard. Please note that this schedule may change due to the needs of the class, inclement weather or at the instructor’s discretion. If there is a change in the class schedule, students will be notified and an updated schedule will be available on blackboard.

**Course Policies and Expectations**

**Attendance/Participation**

Students are expected to attend all class sessions during the course. As adult learners, you make personal decisions about enacting professional responsibilities, including those as a student. Students are expected to arrive on time and stay for the duration of class time. Attendance, timeliness, and professionally relevant, respectful and active participation are expected. Attendance and professional participation at all sessions is very important because all of the activities in class are planned in such a way that they cannot be recreated outside the class session.

In the unlikely event that you are not able to attend, it is your responsibility to make arrangements to obtain notes, handouts, and lecture details from another student. Students who are absent are held responsible for the material covered including assignment discussions/clarifications/explanations and assignments given and due. It is your responsibility to arrange with another student for collection of materials and to promptly obtain class notes, handouts, lecture details, explanations of content, and procedures/assignments, etc. It is also recommended that you notify the instructor about absences in advance or within 24 hours after an absence.
**Late Work**

All assignments must be submitted on or before the assigned due date. In fairness to students who make the effort to submit work on time, 5% of the total assignment points will be deducted each day from your grade for late assignments. After one week, NO POINTS will be awarded towards any assignments and the assignment will no longer be accepted. A score of 0 will be entered into the grade book for that assignment.

**Grading Scale**

A 95 – 100 points  
A- 90 – 94 points  
B 80 – 89 points  
C 70-79 points  
F 69% and below

**Note:** Spelling, grammar and writing style are important components of professional writing. Accurate, clear, concise writing is required of all professionals and will be considered in the grading of all assignments. Written assignments will be evaluated for content, clarity, format, cohesiveness, and use of person-first language. Additionally, points will be deducted for spelling, grammatical, and word processing errors.
## Class Schedule

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

**Discussion**

CEC/IIC Standards 5

Candidate fails to use learner data to reflect on the student’s response to the behavior change process, including the advantages, limitations, variety of techniques used, integration of appropriate adaptations and technology in order to improve instruction and guide professional growth. Candidate fails to integrate findings with current evidence-based practices.

Candidate uses learner data to reflect on the student’s response to the behavior change process, including the advantages, limitations, variety of techniques used, integration of appropriate adaptations and technology in order to improve instruction and guide professional growth. Candidate integrates findings with current evidence-based practices.

Candidate uses learner data to reflect on the student’s response to the behavior change process, including the advantages, limitations, variety of techniques used, integration of appropriate adaptations and technology and details areas of focus for future behavior change in order to improve instruction and guide professional growth. Candidate integrates findings with current evidence-based practices.
**ADAPTED CONSORTIUM SYLLABUS STATEMENTS AND POLICIES**

**Honor Code**

Each university has its own honor code and it is important for you to review the honor code at your university. However, all students taking this course, regardless of the university they are enrolled in, are expected to follow this honor code and may be asked to pledge all assignments and their exam to indicate that they have followed the honor code. A pledge means that you have not cheated or plagiarized, nor have you given or received assistance that violated the description of how assignments are to be completed for this course. The shortened version may be used: “Pledged” followed by the date and your full name (typed “signatures” will be OK for assignments/tests submitted electronically).

Students at all universities pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own or with proper citations.

A complete copy of each university’s Honor System document is available through:
- VCU: [www.students.vcu.edu/rg/policies/rg7honor.html](http://www.students.vcu.edu/rg/policies/rg7honor.html)
- NSU: [http://www.nsu.edu/student_judicial/policy.html](http://www.nsu.edu/student_judicial/policy.html)
- JMU: [http://www.jmu.edu/honor/code.shtml](http://www.jmu.edu/honor/code.shtml)
- ODU: [https://www.odu.edu/about/monarchcitizenship/student-conduct](https://www.odu.edu/about/monarchcitizenship/student-conduct)

**Accommodations for Disability**

At all the participating universities, accommodations can be made with the instructor if a student has a documented disability. University specific information regarding eligibility, services and accommodations can be found at:
- VCU: [http://www.students.vcu.edu/dss/index.html](http://www.students.vcu.edu/dss/index.html)
- Radford: [http://www.radford.edu/~dro/](http://www.radford.edu/~dro/)
- NSU: [http://www.nsu.edu/disabilityservices/index.html](http://www.nsu.edu/disabilityservices/index.html)
- JMU: [https://www.jmu.edu/ods/](https://www.jmu.edu/ods/)
- ODU: [https://www.odu.edu/life/diversity/accessibility](https://www.odu.edu/life/diversity/accessibility)

**Inclement Weather**

If classes are cancelled at the teaching university, a message will be posted on the class Blackboard site and all class members will receive an email. Because such cancellations are often at the last minute, it may be difficult to get this message prior to leaving for class. If in doubt, visit the teaching university’s website. Do not email us; I will email you regarding weather as soon as it is announced. Please note the cancellation of classes due to inclement weather is determined by the decision of the instructing university only. If the instructing university is open and operational then you are expected to attend class.

**Cell Phones and Weapons**

All cell phones and beepers should be deactivated while in the classroom. Also, University rules at all participating universities prohibit the possession any firearm, other weapon, or explosive. Please consult
the student handbook and your university for specific information concerning this policy at your university.

**Course Materials**
This course gives you access to PowerPoint files, class lecture notes, handouts, and copyrighted articles. All of these materials should be regarded as authored materials, which if used or referred to must be fully credited through reference to the author, the class, and date. If used beyond citation, permission of the instructor/author is required.

**Technology Proficiencies**
All students participating in this course are expected to be proficient in several technology skills. Students are expected to be proficient in using the Internet and have reliable and consistent Internet access. Students are expected to have an active university email account and to check email regularly. This course requires students to use Blackboard, which is our online course management system located at [http://mymason.gmu.edu](http://mymason.gmu.edu) under the COURSES tab.

Students are expected to login to this system frequently and be proficient in using its features. Students are expected to be proficient in using the computer, which includes downloading and saving files, typing, and word processing skills. Students participating in this course are expected to use Microsoft Word for all written assignments. Furthermore, students are expected to use Microsoft PowerPoint and Adobe Acrobat Reader for class documents located on the Blackboard website.

**Blackboard Access and Non-Mason Students**
NON GMU students will be required to activate and utilize their GMU login credentials to access Blackboard. NEW students this semester should have received an email with activation directions from Marci Kinas Jerome. Any questions please contact Marci Kinas Jerome, mkinas@gmu.edu.

**GMU Email and Non-Mason Students**
NON GMU students will be required to activate their GMU email account and either check the account regularly or forward their mail to their home university account. By default all accounts in the Blackboard system are GMU accounts. Directions for activating your GMU email account can be found at: [http://masonlive2.gmu.edu/instructions.cfm](http://masonlive2.gmu.edu/instructions.cfm) and directions for forwarding your mail are located at: [http://masonlive2.gmu.edu/tutorials/forwardemail.cfm](http://masonlive2.gmu.edu/tutorials/forwardemail.cfm)

**Remote Site Student**
It is the policy of the consortium that students attending classes at university sites are expected to be present at those university sites during class time. However, there are situations in which students are unable to attend classes at the university sites and may be permitted to take a course as a “remote site” student. To be considered, students must meet the **requirement of more than 90 minutes of one-way travel time to the closest participating university (under normal circumstance). OR have a documented medical need.** In addition, there are several technology and procedural requirements that are detailed on the Consortium website: [http://kihd.gmu.edu/sdc/](http://kihd.gmu.edu/sdc/) and posted on Blackboard. Students must obtain permission from both the course instructor and the consortium coordinator to be considered
a remote site student. Students’ continued participation as a remote site will be re-assessed each semester.

In **special** circumstances where students would otherwise miss class (in accordance to the attendance policy) students may request to participate as a remote site if they (a) have met all of technical and procedural requirements, (b) have received permission from the instructor at least one week prior to class, and (c) have had a successful test session with GMU tech support personnel.

**Course Facilitators**
Each site will have a facilitator or assistant who will assist with the class. Learn who that person is as they will be taking role and keeping track of class participation and reporting it to me weekly. However, if you think you must miss a class, please email me ahead if at all possible (or later if need be).

**Blackboard Assistance**
This course requires that you be a regular email user and be able to use various features of Blackboard (sign on, download materials, hand in completed assignments electronically through the assignment submission link). You may direct your questions about Blackboard to Marci Kinas Jerome (mkinas@gmu.edu). She will be the best resource.

**Remote Site Viewing**
All Consortium courses are recorded and archived on a video-streaming server. Students and faculty are welcome to view previous classes at [http://torrent.gmu.edu](http://torrent.gmu.edu) and click on the link for specific class.

Student may also view the PowerPoints, communicate with the instructor, and interact with other at home students using Adobe Connect. Each consortium class has their own Adobe Connect website. To get to your Adobe Connect course site go to:

- Transition: [http://webcon.gmu.edu/transition/](http://webcon.gmu.edu/transition/)
- Reading: [http://webcon.gmu.edu/reading/](http://webcon.gmu.edu/reading/)
- Characteristics: [http://webcon.gmu.edu/characteristics/](http://webcon.gmu.edu/characteristics/)
- Teaching Strategies: [http://webcon.gmu.edu/teaching/](http://webcon.gmu.edu/teaching/)
- Positioning and Handling: [http://webcon.gmu.edu/positioning](http://webcon.gmu.edu/positioning)
- Communication: [https://webcon.gmu.edu/communication](https://webcon.gmu.edu/communication)
- Collaborative Teamwork: [https://webcon.gmu.edu/teamwork](https://webcon.gmu.edu/teamwork)
- Positive Behavior Supports: [http://webcon.gmu.edu/pbs](http://webcon.gmu.edu/pbs)
- Curriculum and Assessment: [http://webcon.gmu.edu/assessment](http://webcon.gmu.edu/assessment)

You will login with the guest username (sdcguest@gmu.edu) and password (sdcsite). The first time you use Adobe Connect you may be prompted to download a plug in, it only takes a few seconds to install.
GMU Policies and Resources for Students

Professional Dispositions
Students are expected to exhibit professional behaviors and dispositions at all times.

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/

Policies
- Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).
- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources
- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/api/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).
- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance (see http://caps.gmu.edu/).
- The George Mason University Office of Student Support staff helps students negotiate life situations by connecting them with appropriate campus and off-campus resources. Students in need of these services may contact the office by phone (703-993-5376). Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to http://studentsupport.gmu.edu/, and the OSS staff will follow up with the student.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.
