Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

- **Assignments and/or Examinations**
See course schedule
- **Other Requirements**

First day of class and the Saturday class are mandatory

If there is a scheduling conflict that interferes with attendance during any portion of the class, students should see the instructor in the first class to discuss continuing in the class this semester or taking the course during another semester.

The final research paper must be submitted to Safeassign on Blackboard to check for plagiarism.

All assignments are due at the beginning of the class, i.e., 4:30 p.m. Assignments not submitted at the beginning of class will not be accepted.

C&D Attendance Policy

Students are allowed one unexcused absence throughout the semester. If there are two unexcused absences this may result in a non-passing grade.

BLACKBOARD EXPECTATIONS AND ON-LINE PROTOCOL

1. Protocol for posting threads and contributing to an online discussion are as follows:
 - a. **It is expected that every student will make a posting following each class in accordance with the schedule outlined in the assignment section above. The first postings will start directly after the first class.** Postings that do not meet the timelines and specifications will not be counted for that day.
 - b. Postings should be a minimum of 1 short paragraph and a maximum of 2 short paragraphs.
 - c. Avoid postings that are limited to “I agree” or “great idea”, etc. (These comments will be viewed as non-postings). Support your statements with concepts from research, readings or by sharing related examples or experiences.
 - d. Stay on target with the discussion – don’t go on extreme tangents.
 - e. Build on others’ responses to create threads.
 - f. Bring in related prior knowledge (experiences, prior coursework, research, readings, etc.)
 - g. Use proper etiquette (e.g., APA language style.)
2. Tips for posting to discussion forums:
 - a. How do I post successfully? How do I get my classmates to read my postings?
 - i. Think of assignment in terms of a dialogue and not a writing exercise. You should engage yourself in a discussion about the issues raised in class, textbook and readings and/or other related issues to the course.
 - ii. Before you post – think about the assignment first and take notes before you read other responses.
 - iii. Think of a thesis and how you can support it.
 - iv. Read other postings after you’ve written yours.
 - v. Respond to one that contradicts or supports your own thoughts; one that is lacking evidence or seems to fall short on an aspect important to you.
 - vi. In your response, you can also turn your own thoughts into questions; offer your argument; play the devil’s advocate; ask challenging questions.
 - vii. If you are the first to post: post with a careful analysis and strong (bold) argument (thesis) and open-ended questions to invite dialogue.
 - viii. It helps readers of your posting if you include a specific quotation from the message to which you’re responding.
 - ix. Choose your entry title carefully. Make it compelling.

Once you have posted, check back regularly to see if anybody has replied to you. Get the dialogue going.
