PRLS 327-001—Foundation of Therapeutic Recreation -11306 (3)
Fall 2017

DAY/TIME:                Wed: 4:30p.m. - 7:10p.m. LOCATION: Thompson Hall 2022
PROFESSOR:               Patricia Harrison, M.S. CTRS, CPM EMAIL ADDRESS: pfrancke@gmu.edu
OFFICE LOCATION:         Off campus - 12000 Government PHONE NUMBER: 301-535-0592 (cell)
LOCATION:                Center Parkway Suite 552, Fairfax, VA 22035
OFFICE HOURS:            By appointment FAX NUMBER: 703-222-2792

PREREQUISITES: None

UNIVERSITY CATALOG COURSE DESCRIPTION
An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation.

COURSE OVERVIEW
Students will gain a basic understanding of the disabilities, impairments and illnesses most often encountered in the provision of therapeutic recreation services. Course materials, lectures and field observations explore the nature and perceptions of disability and their consequences; problems of stigma, stereotype, and labeling; and the principles of normalization and inclusion. Course readings and assignments introduce therapeutic recreation models; the role of TR for vulnerable populations and persons with disabilities and illnesses in health care and community settings. Students will examine the application of TR in prevention services and the link between social, psychological, and physical health. Course topics and assignments will provide students with a basic understanding of the principles and techniques in therapeutic recreation programming from a systems perspective to include client assessment, individual programming planning, behavioral techniques, activity analysis, documentation, adaptation, specific program design, and program evaluation.

The course lecture and assignments are designed to provide practical application of knowledge and skills gained throughout the course to enable successful completion of the final assignment, a Therapeutic Recreation Specific Program Plan. To acquire the necessary knowledge, there are five assignments and one off-site field observation assignment. These will be critiqued, graded, and will progressively form the basis for your final assignment, the Therapeutic Recreation Intervention Plan.

For written assignments, you can choose to follow the guidelines of either the Publication Manual of the American Psychological Association (APA) (6th Edition) or the American Medical Association (10th Edition).

Communication is an important facet of this course. As such, I ask that you check our Blackboard DAILY for messages and updates. Keep a special eye out for weather related announcements!

Expectations of Students
• Students are expected to:
  o attend all class sessions
  o submit and bring hard copies of assignments and worksheets to class (or view on laptop)
  o actively participate in class discussions
  o complete in-class exercises, and
  o submit all assignments by the due dates assigned.
COURSE DELIVERY METHOD
A variety of materials and teaching/learning methods are used to enable students to gain knowledge, skills, and practical experience in applying skills.

- **Lesson Plan:** There are nine (9) in class learning sessions which consist of reading assignments posted on Blackboard, research articles, online reading, and class discussion questions.
- **Self-Study:** Three class sessions are scheduled as individual research/self-study days or work sessions in order to provide time for completion of assignments.
- **Off-campus Visitations:** Two off-site program visitations are required and students will be expected to participate and interact with TR program participants.
- **Final project:** Specific Program Plans will be presented
- **Assignments** must be posted on Blackboard by 4:30 p.m. by the date identified on the schedule

Students are encouraged to bring their personal laptop for some classes have exercises that will require group discussion and report out of ideas and class exercises.

COURSE OBJECTIVES

- Discuss the theories, concepts, and philosophy of therapeutic recreation.
- Demonstrate an understanding of therapeutic recreation programming models and principles and discuss the continuum theory in the delivery of leisure services for people with disabilities from treatment to independent recreation participation.
- Justify the health benefits of therapeutic recreation and discuss psychological and social implications of illness and disability.
- Distinguish between the roles of staff in the provision of therapeutic recreation in community and health care settings.
- Discuss key legislation concerning the rights of the people with disabilities.
- Discuss the purpose and processes associated with group and individualized program planning.
- Analyze and design activities for therapeutic outcome: functional intervention, leisure education and recreation participation.
- Discuss the importance of and techniques for developing appropriate therapeutic relationships and utilizing social networks and family in the planning and provision of services.
- Identify key components of ethical behavior in therapeutic recreation, responsibilities for professional development, cultural competence, credentialing, and professionalism in therapeutic recreation services.

PROFESSIONAL ASSOCIATION STANDARDS:
Further, upon completion of this course, students will meet the following professional accreditation standards through the Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT):

7.01: Students graduating from the program shall demonstrate the following entry-level knowledge: a) the nature and scope of the relevant park, recreation, tourism or related professions and their associated industries; b) techniques and processes used by professionals and workers in these industries; and c) the foundation of the profession in history, science and philosophy.

REQUIRED READINGS
The course will use:

- **Course Text:** Carter, Marcia Jean; Van Andel, Glen E. (2011-02-01). Therapeutic Recreation: A Practical Approach (Page v). Waveland Pr Inc. (in lieu of using text, students may use library resources on the selected topics in order to prepare for discussion and assignments)
- Articles, Websites, documents and handouts
- Outside research and reading assignments
COURSE PERFORMANCE EVALUATION

- Unless otherwise noted, assignments must be submitted to the designated assignment folder on our course Blackboard. This allows for an “originality check” and you can also view your own originality report.
- Assignments are due at the beginning of class on the specific due date.
  - Papers received after the beginning of class will be considered late and receive a 10% deduction in points per 24-hour period. If you encounter extreme emergencies or are participating in a pre-approved university-sponsored function, exceptions may be made; however, these must be discussed with me to determine if they fall in this category. I strongly encourage you to make a back-up copy of any work submitted since computers have been known to crash at the most inopportune times.
- All written papers are to be submitted in WORD (docx) format.

Assignment 1: Practical Applications of Theories & Concepts of TR (100 points)
Given an assigned foundational theory or concept and using your text, research or journal article, write a 2 to 3 page paper that provides an overview of the selected theory/concept to include: 1) who authored the theory; 2) what it is; 3) the hypothesis of the theory or concept; 4) what is the value of the theory to people with disabilities and TR; 5) how is the theory facilitated or applied within the field of TR; 6) give specific examples of how you would take an activity and apply the theory. (References and Citation of research articles required)

Assignment 2: Disability Profile (100 points)
Therapeutic recreation (TR) uses recreation and leisure as a modality to facilitate independent functioning and enhance quality of life. The Disability Profile assignment is designed to be completed with a partner or small group of 3 students. However, if requested, the assignment can be completed individually. In this assignment, students will acquire a detailed understanding of a specific disability, their treatment needs, functional abilities, and the types of therapeutic recreation activity that meets the leisure related needs of the disability or diagnostic group. Students will use the associated course text chapter to prepare a presentation for the class.

Assignment 3: Reflections on TR’s Role in Health Promotion and Prevention (100 points)
After the presented lecture materials, students will write a 3 to 4 page reflection paper to address structured questions that are designed to assess the student’s ability to understand and discuss the role TR has in prevention and whole population health while supporting specific issues in targeted populations.

Assignment 4: Mid-Term Exam -Assessment of Learning Objectives (200 points)
Students will complete an on-line exam designed to assess their understanding of the critical concepts, theories, populations served, and methods used in the application of TR settings.

Assignment 5: Program Observation & TR Post-Session Evaluation (100 points)
The purpose of this assignment is to observe, evaluate and apply knowledge gained through class lecture and research in functioning TR program. The students will include:
1. Participate in a 2 hour TR program
2. Complete a post session report/evaluation on the program
3. Identify ways in which staff integrated the primary philosophies and foundational theories of TR

Assignment 6: TR Modalities and Facilitated Activities (100 points) pages 83 -101
To review and explore a variety of facilitated therapeutic activities outlined in the course text. The facilitated techniques frame, guide, or inform the practice of therapeutic recreation. Students will prepare a two page overview of the use of specific TR Modality or Facilitated Activity; description, settings, populations, outcomes and specific techniques for applying the activity. Students will share their selected modality with class during class discussion.

Assignment 7: Therapeutic Recreation – Therapeutic Recreation Intervention/Program Model (300 points)
The purpose of this assignment is to develop a specific program program plan for a specific disability group that includes rationale for program, purpose appropriate goals, objectives, performance measures, selected activities and evaluation methodology.

Class Participation
Students are expected to:
- Attend all classes (attendance will be taken at the beginning of class)
- Read materials BEFORE class, listen attentively, and offer examples that demonstrate understanding of lecture content, ideas, or materials related to the topic
- Complete and submit assignments before the selected class session via Blackboard AND bring copies of articles and presentations as designated in the assignment descriptions.

Graded Point System
Course grade is based on a point system, with a possible 1000 total points for assignments, exam, and participation.

Professional Disposition
Students are expected to exhibit professional behaviors and dispositions at all times. See https://cehd.gmu.edu/students/polices-procedures/

Class Schedule
Class will be held each Wednesday at 4:30 pm unless otherwise noted in the detailed class schedule attached.

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies
- Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).
• Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

• Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

• Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

• Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

*Campus Resources*

• Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.

• For information on student support resources on campus, see https://ctfe.gmu.edu/teaching/student-support-resources-on-campus

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.
