KINE 320 DL2 - Principles of Human Nutrition
3 Credits, Fall 2017 Asynchronous
Online

Faculty
Name: Jeanmarie Gallagher, MS, RCEP, EIM 3
Office hours: via Blackboard Collaborate by Appointment
Office Location: Remote
Office Phone: Please email to initiate phone conference
Email address: jgallag8@gmu.edu

Prerequisites/Corequisites
None

University Catalog Course Description
Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies.

Course Overview
The course focuses on the basic principles of nutrition and its application in practice and overall health. It will be video-lecture based to elicit thought provoking discussion to help emphasize key components of the lecture. Current topics and cases will be presented and discussed throughout the course to help students translate theory into practice.

The first part of the course will focus on the components of a nutritious diet, nutrition standards, macro and micronutrients. The second part of the course will delve further into nutrition and its relationship to health, disease, fitness, ergogenic aids, obesity, and nutrition through the life cycle.

Course Delivery Method
This course will be delivered online using asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on August 28, 2017.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.
Technical Requirements
To participate in this course, students will need to satisfy the following technical requirements:

• High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
• Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
• Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
• The following software plug-ins for PCs and Macs, respectively, are available for free download:
  • Adobe Acrobat Reader: https://get.adobe.com/reader/
  • Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations
• Course Week:
  Because asynchronous courses do not have a "fixed" meeting day, our week will start on MONDAY and finish on SUNDAY.

• Log-in Frequency:
  Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least FOUR times per week.

• Participation:
  Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:
  Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

• Technical Issues:
  Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

• Workload:
  Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
• **Instructor Support:**
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

• **Netiquette:**
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

• **Accommodations:**
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

**Learner Outcomes or Objectives**
This course is designed to enable students to do the following:
1. Differentiate the roles of carbohydrates, protein, fats, vitamins, and minerals in diet across the lifespan.
2. Describe the digestive process as it relates to the utilization of nutrients for energy and metabolism.
3. Explain the various methods utilized to measure body composition.
4. Explain the importance of nutrition as it relates to exercise and physical activity for a healthy lifestyle.
5. Evaluate a variety of diets reported in the popular literature.
6. Plan a nutrition program for both weight loss and weight gain for clients.

**Professional Standards**
Upon completion of this course, students will have met the following professional standards:
This course meets the Commission on Accreditation of Allied Health Education Programs (CAAHEP) requirements and covers the following American College of Sports Medicine’s Knowledge-Skills-Abilities (KSA's):
<table>
<thead>
<tr>
<th>KSA</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>GENERAL POPULATION/CORE: NUTRITION AND WEIGHT MANAGEMENT</strong></td>
<td></td>
</tr>
<tr>
<td>1.8.1</td>
<td>Knowledge of the role of carbohydrates, fats, and proteins as fuels for aerobic and anaerobic metabolism.</td>
</tr>
<tr>
<td>1.8.2</td>
<td>Knowledge of the following terms: obesity, overweight, percent fat, BMI, lean body mass, anorexia nervosa, bulimia, metabolic syndrome and body fat distribution.</td>
</tr>
<tr>
<td>1.8.6</td>
<td>Knowledge of the difference between fat-soluble and water-soluble vitamins.</td>
</tr>
<tr>
<td>1.8.8</td>
<td>Knowledge of the USDA Food Pyramid and Dietary Guidelines for Americans.</td>
</tr>
<tr>
<td>1.8.9</td>
<td>Knowledge of the importance of calcium and iron in women's health.</td>
</tr>
<tr>
<td>1.8.11</td>
<td>Knowledge of the number of kilocalories in one gram of carbohydrate, fat, protein, and alcohol.</td>
</tr>
<tr>
<td>1.8.12</td>
<td>Knowledge of the number of kilocalories equivalent to losing 1 pound of body fat and the ability to prescribe appropriate amount of exercise to achieve weight loss goals.</td>
</tr>
<tr>
<td>1.8.13</td>
<td>Knowledge of the guidelines for caloric intake for individuals desiring to lose/gain weight.</td>
</tr>
</tbody>
</table>

**Required Texts**
- This will give you access to the mandatory MindTap weekly activity program as well as an electronic copy of the textbook.
- Purchasing the loose-leaf bundle paper copy of the textbook is optional.

**Course Performance Evaluation**
Students are expected to submit all assignments on time in the manner outlined by the instructor.

**Weekly MindTap Assignments (2 assignments per week – 10 points per chapter 150 points total)**
- Each week will start with a posted announcement, lecture(s), and assigned interactives to complete within the MindTap program. Activity due dates will vary throughout the week – consult the MindTap calendar for your weekly requirements.

**Discussion Forum (200 points total)**
- **Discussion Responses (20 points)** – There will be 10 discussion boards and you are to respond to all 10 as well as respond to another student’s posts. So two posts for each discussion board. You are graded on depth, original insight, spelling and proper grammar.
Diet Analysis Project (200 points total):

• 50 points - Submit proof of diet diary 3 days (one weekend and two weekdays does not have to be consecutive) thru MyFitness Pal, Supertracker or Diet and Wellness in MindTap.
• 150 points - 4-6 page (not including above) written analysis of your eating using five characteristics of nutritious diet: (single space 1-inch margins)
  • Adequacy – Enough of essential nutrients (carbohydrate, lipid/fat, protein %’s, fiber and energy
  • Balance – Are you getting the vitamin, minerals & fluids you need especially at your age and activity level (fluids)? If deficient is something what can do to fix it?
  • Calorie Control – Are you getting the energy you need for your activity level, age and health status? If not how would you adjust it?
  • Moderation – Look at saturated fat, added sugars, salt, and portion sizes. What could cut back on or what have gone too far restricting?
  • Variety – Looking at dietary patterns are eating same things are you seeing a colorful plate?

3 Exams (3 @ 150 points each; 450 points total)

• Exams are non-cumulative and will be administered covering information based on the lectures, assigned readings, videos, and discussion boards. Exams may include multiple-choice, true-false, matching, and short answer. Exams will be timed and open/available for a 72-hour window.

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies
- Students must adhere to the guidelines of the University Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).
- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources
- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursesupport.gmu.edu/.
- The Writing Center provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).
- The Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance (see http://caps.gmu.edu/).
- The Student Support & Advocacy Center staff helps students develop and maintain healthy lifestyles through confidential one-on-one support as well as through interactive programs and resources. Some of the topics they address are healthy relationships, stress management, nutrition, sexual assault, drug and alcohol use, and sexual health (see http://ssac.gmu.edu/). Students in need of these services may contact the office by phone at 703-993-3686. Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to http://ssac.gmu.edu/make-a-referral/.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.
