**College of Education and Human Development**  
**Division of Special Education and disAbility Research**  

**Fall 2017**  
**EDSE 624 636:** Applied Behavior Analysis: Applications  
**CRN:82197, 3 – Credits**

| **Instructor:** Marlene Cohen, EdD, BCBA-D | **Meeting Dates:** 09/11/17 to 11/27/17 |
| **Phone:** 609.532.2382 | **Meeting Day(s):** Monday (1st class) |
| **E-Mail:** mcohen24@gmu.edu | **Meeting Time(s):** 1st class session will be mandatory synchronous. Two time options will be available: 10 am to 11 am or 6 pm to 7 pm. |
| **Office Hours:** Mondays 6 pm to 7 or by appointment | **Meeting Location:** Online |
| **Office Location:** Remote Faculty | **Other Phone:** N/A |

*Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.*

**Prerequisite(s)** EDSE 619  
**Co-requisite(s)** None  

**Course Description**  
Develops capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments. Offered by Graduate School of Education. May not be repeated for credit.  
Registration Restrictions:  
Required Prerequisite: EDSE 619B-.  
B- Requires minimum grade of B-.  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus. Enrollment is limited to Graduate or Undergraduate level students.  
Schedule Type: Lecture
Advising Contact Information
Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

Advising Tip
Did you know you can evaluate your progress in the program at any time by running a Degree Evaluation in Patriotweb? Step by step instructions are available at http://registrar.gmu.edu/students/degree-evaluation/.

Course Delivery Method
Learning activities include the following:
1. Class lecture and discussion (mandatory first class and optional weekly online classes)
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on 9/4/17.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements
To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
Expectations

Course Week:
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday and finish on Sunday. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least #3 times per week. In addition, students must log-in for the initial, mandatory online synchronous meeting and are encouraged to attend the optional weekly meetings.

Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

Workload:
Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

Netiquette:
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. Be positive in your approach with others and diplomatic in selecting your words. Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services

Learner Outcomes
Upon completion of this course, teacher candidates/students will be able to:
1. Read and interpret articles and books from the behavior analytic literature.
2. Conduct behavior analytic training through public speaking.
3. Describe application of behavior analytic assessment, instruction, and intervention methodologies with diverse populations.
4. Describe application of behavior analytic assessment, instruction, and intervention methodologies in diverse settings.
5. Describe application of behavior analytic assessment, instruction, and intervention methodologies across diverse behavioral, medical, instructional, and social problems.
6. Describe ethical aspects of applying behavior analysis with diverse populations, across diverse settings, and across diverse problem types.
7. Research the literature in a specific area of applied behavior analysis.
8. Write a publication-worthy paper reviewing the literature in a specific area of applied behavior analysis.

Course Relationship to Program Goals and Professional Organizations
This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for Applied Behavior Analysis Graduate Certificate. The content of the courses in this program is derived from the Task List published by the national Behavior Analyst Certification Board (BACB) as well as the Professional and Ethical Compliance Code for Behavior Analysts. The Professional and Ethical Compliance Code for Behavior Analysts is listed on the following website: http://bacb.com/wp-content/uploads/2016/03/160321-compliance-code-english.pdf. For more information on the Board and the examination, please visit the Board’s website at www.bacb.com.

Required Textbooks

**Recommended Textbooks**

**Required Resources**
N/A

**Additional Readings**

adjunctive assessments: Proactive approaches to intervention selection for adolescents with attention deficit hyperactivity disorder. *Journal of Applied Behavior Analysis*, 31, 65-78.

**Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

**Tk20 Performance-Based Assessment Submission Requirement**

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

**For EDSE 624, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE).** Failure to submit the assignment to Tk20 will result in reporting the course grade as Incomplete (IN). Teacher candidates/students have until five days prior to the University-stated grade change deadline to upload the required PBA in order to change the course grade. When the PBA is uploaded, the teacher candidate/student is required to notify the instructor so that the “IN” can be changed to a grade. If the required PBA is not uploaded five days prior to the University-stated grade change deadline and, therefore, the grade not changed, it will become an F. Please check to verify your ability to upload items to Tk20 before the PBA due date.

**Assignments and/or Examinations**

**Instructional Time**

As mandated by the Behavior Analyst Certification Board (BACB), 45 hours of instruction is required for this course. These hours may be fulfilled with the following activities:
• Lecture (video or live)
• Completion of Quizzes and Tests
• Small group, whole group and partnered synchronous activities (i.e., logged in together at the same time)
• Student presentations (video or live)

You are expected to log in and complete the activities for the total number of hours listed each week.

As with any graduate level coursework, there is an expectation of work that is completed outside of the direct instructional time (e.g., 3 hours preparation/reflection for every hour of class). Therefore, you should expect that additional assignments will be added at the discretion of the instructor to further enhance understanding of course content. These may include:

• Readings
• Asynchronous activities completed either alone or with other classmates
• Discussion Boards

Additional hours to complete such activities are viewed as “homework” by the Board. While they do not count towards direct instructional hours, they are not optional.

**Performance-based Assessment (Tk20 submission required)**
N/A

**Performance-based Common Assignments (No Tk20 submission required.)**
N/A

**Other Assignments**

<td>Students perform at 97% or above on assignment, or otherwise demonstrate more than expected level of objective.</td>
</tr>
</tbody>
</table>

**Synchronous Meeting and Summary Notes**
Please submit a summary of the key points discussed and include what you have gained from the meeting.

**Introductory and Discussion Videos**
Initial post due no later than Wednesday, 11:59pm, EST. Final responses due no later than Sunday, 11:59pm, EST. Please respond to at least 2 classmates. The key to a good discussion is interaction, and therefore it is expected that you will log in and participate in the discussions on 3 separate days per week. Please note that posting all, or the majority, of your replies on the last day of the discussion after 6:00 pm will be considered for point deduction since this greatly decreases the interaction and impact of your posts. Interaction is the key to a productive and meaningful discussion between you, your peers, and your instructor, so your goal and approach should be meaningful interaction rather than meeting minimum point requirements.

**Class Leadership**
This course will involve group presentations by the students during leadership of a weekly discussion forum. Students will be assigned to groups by the instructor during the first week of class.

- Student group members assigned to lead a particular unit are expected review the readings for their assigned week.
- For each discussion forum, the students will meet synchronously to discuss the readings.
- The group’s job is to provide a strong and well-supported discussion by having each student prepare a question for two of the readings.
- End the week with a summary that captures your group’s discussion’s main points.
- Include the discussion question and a summary of the discussion.
- Post a recorded summary of your discussion in the course by Sunday 11:59 pm EST.

**Practice Exercise**
Refer to the graphs in Blackboard to answer the following questions.
Note about the Graphs: In the preference assessment, each item is ranked from 1-8 across 8 sessions. This is why there are eight columns per stimulus. The reinforcer assessment was conducted using preferences identified by the initial SPA (1st column for each stimulus). The subsequent 7 columns are meant to evaluate preference changes over time. These subsequent SPAs were conducted over a period of four weeks.

**Meta-analysis Assignment**
Create an abbreviated meta-analysis of a topic of your choice. The topic should be related to one covered in this course, but more specific than a general category (e.g. a specific assessment or intervention). Include at least 10 articles. Use the sample meta-analysis articles as a guide. The assignment will be divided into segments throughout the course. See weekly schedule for specifics. Please be sure to include ethical concerns related to your topic.

**Ethics Review**
Select three articles from any of the readings in Weeks 1-10 and identify ethical considerations (implied or explicitly stated) using the BACB code of ethics. Record a narrated PowerPoint presentation discussing your findings. Please report findings for each reading separately and
include a discussion of your impressions of what you discovered. Each student is required to view the post of one other student and write a brief summary of the main discussion points.

**Historical Perspective**
Review at least five articles on a topic covered in this course and create an outline of historical development in this area. Post you outline and summary in Blackboard. Each student is required to view the post of one other student and to comment on the presentation.

**Synchronous Staff Training Exercise**
Select a training topic you are comfortable with. Prepare a PowerPoint training presentation. Be sure to cite the literature to support your training information. Students will be paired to present to each other. Each student will complete a formative evaluation of their partner’s presentation. Submit both the PowerPoint presentation and the evaluation.

**PowerPoint Review**
Review the assigned narrated PowerPoint assignment carefully and then complete the quiz.

**Course Policies and Expectations**

**Attendance/Participation**
- **Course Week:** Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday and finish on Sunday. Some assignments may be due on days other than our scheduled synchronous meeting date. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week. In addition, students must log-in for all scheduled online synchronous meetings.
- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments and participating in course discussions and group interactions.
- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:** Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:** Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics,
readings, activities and assignments due.

- **Instructor Support:**
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Students can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:**
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:**
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

**Late Work**
Any products required during synchronous sessions are to be submitted by the end of the class session. Other work is considered on-time if it is submitted by 11:59pm on the date that it is due. Work submitted after the assigned due date will be assessed a 10% possible point penalty. No work will be accepted after the final examination has been submitted.

Students are responsible for following these guidelines for grading:
- All assignments must be submitted through Blackboard, including final drafts of assignments.
- Emailed and hard copies of assignments will not be graded unless approved in advance by the instructor, as these methods of submission lead to a high probability of lost student work.
- Detailed information about each assignment, including grading rubrics and a task analysis is posted on Blackboard. Failure to review all documents available often results in low performance.

**Other Requirements**
N/A

**Grading Scale**

**Grading Scale**
Point values are assigned to exams and assignments. Letter grades will subsequently be assigned on the basis of overall class performance. That is, percentages will be determined by dividing the TOTAL number of points earned by the total possible points.

**Grading Criterion:**

**Grade Percentage Grade Percentage Grade Percentage Grade Percentage**
A+ 97-100%  A 96-93%  A- 92-90%  B+ 87-89%  B 83-86%  B- 80-82%
C 77-72%
F 71% and below

*Note: The George Mason University Honor Code will be strictly enforced. Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own or with proper citations (see http://oai.gmu.edu/the-mason-honor-code/).

**Professional Dispositions**
Students are expected to exhibit professional behaviors and dispositions at all times.

**Class Schedule**
*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Total Instructional Hours for this Course 45
Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).

- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk2ohelp@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.

- The Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).

- The Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance (see http://caps.gmu.edu/) to enhance students’ personal experience and academic performance (see http://caps.gmu.edu/).

- The Student Support & Advocacy Center staff helps students develop and maintain healthy lifestyles through confidential one-on-one support as well as through interactive programs.
and resources. Some of the topics they address are healthy relationships, stress management, nutrition, sexual assault, drug and alcohol use, and sexual health (see http://ssac.gmu.edu/). Students in need of these services may contact the office by phone at 703-993-3686. Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to http://ssac.gmu.edu/make-a-referral/.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.

Appendix

Assessment Rubric(s)

Assessment rubrics are posted on Blackboard. Please review each rubric carefully and use it as a checklist to ensure you have fully completed the assignment. Please feel free to ask for clarification and be sure to plan your week’s assignments in advance of their due date.
