Course Delivery Method

This course will be delivered using a lecture and discussion format.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Explain the goals, benefits, and uses of assessment, including its use in the development of appropriate goals, curriculum, and teaching strategies for diverse young children.
2. Create, select, and use technically sound (i.e., valid and reliable) classroom-based formal and informal assessments for diverse young children that minimize bias, including observation, documentation, and other appropriate assessment tools, technologies, and approaches.
3. Use knowledge of measurement principles and practices to interpret assessment results, guide educational decisions, and inform ongoing planning and instruction for children with special learning needs.
4. Describe ways to partner with families and professional colleagues to build effective

- learning environments.
5. Explain the relationships among assessment, instruction, and monitoring student progress to include student performance measures in grading practices and the attainment of essential skills in a standards-based environment.
 6. Describe state assessment programs and accountability systems, including assessments used for student achievement goal setting and determining student academic progress.
 7. Students will explain legal and ethical aspects of assessment.

Professional Standards (Council of Exceptional Children and National Association for the Education of Young Children)

Upon completion of this course, students will have met the following professional standards:

CEC Standard Elements

CEC 4.1 Beginning special education professionals select and use technically sound formal and informal assessments that minimize bias.

- **Assignments and/or Examinations**

Field Experience

This course requires a minimum of 15 hours field experience. To initiate this assignment, students will visit <https://cehd.gmu.edu/endorse/ferf> and complete the online “Field Experience Request Form.” On the form students will be asked to indicate how their placement will be arranged. For the Fall 2017 term, students have two options for fulfilling their field placement requirement.

Option 1:

- Students may arrange their own field experience if they are a full-time contracted school system employee and are able to complete their field experience at their workplace.
- Students will need to have access to observing and selecting a focus child. Their focus child needs to be either currently receiving early childhood special education services in a setting that supports children birth through age five *or* the child is currently enrolled in a prekindergarten, kindergarten, first, second, or third grade general education setting.
- Students will need to be able to complete the Individual Child Assessment Project with their focus child.

Option 2:

- Students may request placement in a prekindergarten general education or a special education setting, kindergarten, first, second, or third grade general education setting through the field placement office <https://cehd.gmu.edu/endorse/ferf>.
- The field placement office will arrange a placement for students in a specific school with a specific teacher.
- Students will need to be able to complete the Individual Child Assessment Project with their focus child.

Documenting the Field Experience (10 points)

- Students will upload the **Field Experience Placement Approval Form**. In this form, they will provide a statement confirming that they have completed the online “Field Experience Request Form” and they will provide information to the instructor about where and how they will complete the field experience (1 point).
- Upon completion of their field experience hours, students will provide documentation of their experience (9 points).
- If students complete the field experience within their own setting, they will upload the **On-the-Job Placement Documentation Form** to Blackboard. This form requires verification from the principal or supervisor on site.
- If students attended a field placement other than where they work, they will upload the **Field Experience Documentation Form** to Blackboard. This form requires verification from the mentoring teacher on site.

Individual Child Assessment Project (75 points, submitted in parts)

This is Key Assessment 6 Individual Child Assessment Project that shows evidence of meeting InTASC, VDOE, CEC and NAEYC Standards. This assignment must be submitted on Blackboard. See the assessment description and scoring rubric attached. A final copy that includes all sections will be submitted to Tk20 through Blackboard.

- **Other Requirements**

Attendance and Participation (15 points)

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in **in-class** and **online** learning experiences as is evidenced by (a) participating in all activities, (b) engaging in small- and large-group discussions, (c) completing written work related to the activities, and (d) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.

Written Assignments

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library website at <http://infoguides.gmu.edu/content.php?pid=39979>. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.

Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

- **Grading**

A = 95-100 A- = 90-94 B+ = 87-89 B = 83-86 B- = 80-82 C = 70-79 F = <70

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students enrolled in a CEHD Licensure Graduate Certificate program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.
