College of Education and Human Development
Division of Special Education and disAbility Research

Spring 2018
EDUC 203 001: Disability in American Culture
CRN: 15411, 3 – Credits

**Instructor:** Dr. Kristen O’Brien
**Phone:** 703-993-3917 (Office phone)
**E-Mail:** kmerril2@gmu.edu
**Office Hours:** By appointment
**Office Location:** Finley 208-B

**Meeting Dates:** 1/22/2018 – 5/16/2018
**Meeting Day(s):** Tuesday/Thursday
**Meeting Time(s):** 1:30 pm – 2:45 pm
**Meeting Location:** Fairfax, T L013
**Other Phone:** N/A

*Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.*

**Prerequisite(s):** None
**Co-requisite(s):** None

**Course Description**
Examines disability, past and present, in American culture through changes in historical, political, legal and societal responses to people with disabilities. Analyzes the disability experience through social and behavioral science perspectives, including diversity, bioethical and human rights conceptualizations/constructs of disability. Offered by Graduate School of Education. May not be repeated for credit.

Mason Core: Social/Behavioral Sciences
Schedule Type: Lecture

**Advising Contact Information**
Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

**Course Delivery Method**
Learning activities include the following:
1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

**Learner Outcomes**

Upon completion of this course, students will be able to:

1. Explain how individuals, groups, and institutions are affected by disability.
2. Demonstrate awareness of changes in social and cultural constructs relative to disability.
3. Use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles, and theories in the analysis of disability, both past and present.
4. Apply a disabilities empowerment framework to future environments and consider/identify future engagement in disability-related fields.
5. Identify and promote inclusive behavior in social, workplace, and higher education settings.

**Course Relationship to Program Goals and Professional Organizations**

This course is offered by George Mason University’s Division of Special Education and disAbility Research. The goal of our special education programs is to improve the lives, productivity, and education of persons with disabilities. Courses within our programs align with the standards established by the Council for Exceptional Children (CEC), the major international special education professional organization. This course provides content to enhance awareness of disability in the context of American culture so as to introduce participants to the opportunities that exist to positively impact persons with disabilities. This course also meets university requirements for the undergraduate core in the area of Social and Behavioral Sciences.

**Required Textbooks**

**Recommended Textbooks**

**Required Resources**

Computer with access to GMU Blackboard

**Additional Readings**

As assigned in class and/or on Blackboard

**Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).
Tk20 Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

For EDUC 203, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE). Failure to submit the assignment to Tk20 will result in reporting the course grade as Incomplete (IN). Teacher candidates/students have until five days prior to the University-stated grade change deadline to upload the required PBA in order to change the course grade. When the PBA is uploaded, the teacher candidate/student is required to notify the instructor so that the “IN” can be changed to a grade. If the required PBA is not uploaded five days prior to the University-stated grade change deadline and, therefore, the grade not changed, it will become an F. Please check to verify your ability to upload items to Tk20 before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment (Tk20 submission required)  
N/A

College Wide Common Assessment (TK20 submission required)  
N/A
Performance-based Common Assignments (No Tk20 submission required.)

1. **Raising Awareness Project** (*Designated Performance-Based Assessment; 30 points):** As a culminating activity (and the designated performance-based assessment), this project offers an opportunity for students to draw upon the resources encountered in this course to advocate for disability awareness and inclusive actions for people with disabilities. This project will address key issues discussed throughout this course, such as: What are the important conversations and controversies that need to be addressed? How do we approach and discuss disability? What do people need to know to reduce barriers and increase opportunities for people with disabilities to experience inclusion?

Examples of ideas might include:
- A public service announcement that explores or explains an aspect of disability awareness and etiquette to a specific audience (e.g., college students, faculty/administration, community leaders, employers)
- An information guide that addresses a specific disability or innovation that promotes the inclusion of people with disabilities
- A multi-media presentation on a famous person, invention/innovation, or event that impacted attitudes and/or lives of people with disabilities
- An exploration of campus resources/supports for students/faculty with disabilities

Students will submit a proposal for the project to obtain prior approval. Students will submit their project to the instructor on the due date listed and deliver a presentation during an assigned class session to their peers and the instructor about their Raising Awareness Project. An assignment description and grading rubric will be posted on Blackboard and discussed in class.

2. **Personal Experience Paper (25 points):** For this assignment, students will be expected to either (a) visit a program that serves children or adults with disabilities OR (b) interview a person with a disability or a family member of a person with a disability. Students will then write a paper that explains the setting/interview, synthesizes and describes the experience and connects it to course content, and describes a personal reaction. An assignment description and grading rubric will be posted on Blackboard and discussed in class.
3. **Media Analysis Paper (25 points):** Students will write an analysis of the portrayal/representation of disability in film, TV, print media, literature, or web-content. After watching or reading the selected content, students will write a paper to describe the content, analyze its portrayal of disability, synthesize the information with course content, and react to the media content. The analysis must link explicitly to class resources (especially the Haller text), readings, and/or speakers. Students must obtain prior approval from the instructor for the plan of analysis (Note: I am happy to help guide your decisions and make recommendations). An assignment description and grading rubric will be posted on Blackboard and discussed in class.

**Other Assignments**

4. **Blackboard Discussion Boards (20 points):** Throughout the semester, there will be four Blackboard discussion boards. Students will provide a comprehensive response to the prompts and to at least 2 classmates’ postings. Each discussion board will be worth 5 points, for a total of 20 possible points. To earn full credit, you must submit your postings by the due date and time (9 am of the due date), and no late submissions will be accepted. Your response should address the discussion board topic AND include a thoughtful reaction to at least 2 of your classmates’ postings. An assignment description and grading rubric will be posted on Blackboard and discussed in class.

5. **Professionalism (20 points):** Attendance, punctuality, and active participation during each class session and assigned activity are expected. For each session, students will earn up to 2 Professionalism checks for the following expectations:
   1. Attendance: Students are expected to attend all classes, arrive on time, and remain in class for the duration of each session. Refer to the Attendance Policy below for detailed expectations.
   2. Participation & Professional Behavior: Throughout all classes, students are expected to demonstrate professional and ethical behavior in the classroom, and complete all assignments (including those completed in class, out of class, or on Blackboard) with professional quality, integrity, and in a timely manner. Students are expected to read all assigned readings prior to class and to actively participate in discussions and activities during class sessions.

At the end of the course, the total Professionalism checks earned will be summed and divided by all possible checks (i.e., 2 checks for each class session held). This proportion will be multiplied by 20 (the total possible Professionalism points) and used to calculate the student’s course grade.
Course Policies and Expectations

Attendance/Participation

Class attendance and professional participation at all sessions is very important because many of the activities in class are planned in such a way that they cannot necessarily be recreated outside of the class session. Students are expected to (a) attend all classes during the course, (b) arrive on time, (c) remain in class for the duration of each session, (d) actively participate and demonstrate professional behavior in the classroom, and (e) complete all assignments with professional quality and on time. All assigned readings should be completed prior to class (Note: assigned readings may be added or removed as the semester progresses).

Students earn attendance and participation points each class (i.e., Professionalism described in the Assignments section above); these points can only be earned if the student is in attendance and actively participates in class activities. Please notify me in advance by email or phone if you will not be able to attend class. In the rare event of an emergency or severe sickness, each student is given 1 “grace” absence without a point penalty, as long as the instructor is notified before the class session. When absence from class is unavoidable, it is the student’s responsibility to make arrangements to obtain notes, handouts, and/or lecture details from another student prior to the class meeting that follows the absence. Professionalism points missed for more than one absence or any absence without instructor contact before class cannot be made up.

Students must follow the university policy that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor. The use of electronic devices that produce sound or interfere with the learning of others (e.g., cell phones) is prohibited during class. Please turn these devices off or to silent mode before the start of class. Do not read or send texts during class time. Computers may be used to take notes during class, but they may not be used for internet exploration, to send or receive emails, or other non-class activities during class time. Please be fully present in class 😊

Late Work

To successfully complete this course, students need to adhere to all due dates for readings and assignments. All assignments should be submitted on or before the assigned due date. To be considered on time, assignments must be submitted by the start of class on the due date, unless otherwise noted by the instructor. (Note that all Discussion Board assignments are due by 9 am on the due date.) On all assignments, full credit is available for those submitted on time. For every 24-hour period that an assignment is late, a 5% point deduction will occur. After one week from the due date (or until the last class session on 5/3/18, whichever comes first), assignments will not be accepted. Please contact the instructor in advance if there is a problem with submitting your work on time.
Grading Scale

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>% of Points</th>
</tr>

\]

*Note: The George Mason University Honor Code will be strictly enforced. Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student
members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own or with proper citations (see https://catalog.gmu.edu/policies/honor-code-system/).

**Professional Dispositions**
Students are expected to exhibit professional behaviors and dispositions at all times. See https://cehd.gmu.edu/students/polices-procedures/

**Class Schedule**
*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.*

**Core Values Commitment**
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: [http://cehd.gmu.edu/values/](http://cehd.gmu.edu/values/)

**GMU Policies and Resources for Students**

**Policies**
- Students must adhere to the guidelines of the Mason Honor Code (see
https://catalog.gmu.edu/policies/honor-code-system/).

- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.

- For information on student support resources on campus, see https://ctfe.gmu.edu/teaching/student-support-resources-on-campus

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/students/.
