University Catalog Course Description

Examines the course of human development from early childhood to adulthood within the context of educational psychology. Emphasizes principles of research in human development and the major areas of cognitive, linguistic, and social contexts of development as they pertain to learners in schools and beyond. Offered by Graduate School of Education. May not be repeated for credit.

Course Overview

This course will specifically cover the areas of physical, cognitive, and psychosocial development from infancy, to early childhood, middle childhood, adolescence, young adulthood, middle adulthood, and late adulthood. Understanding of the material will be assessed through experiential assignments and reflections. The class will culminate with an in depth literature review supported by an outline and annotated bibliography.

Course Delivery Method

This course is structured around readings, reflections on readings, class projects, technology activities, and writing assignments. This course will be taught using lectures, discussions, and small and large group activities. The course is technology-enhanced using Blackboard (<http://mymason.gmu.edu>). Students are responsible for any

Learner Outcomes of Objectives

This course promotes an understanding of how to be an effective consumer of research in education and human development across the lifespan and in varied learning contexts. The course will place emphasis on child and adolescent development through the use of foundational and contemporary research works in educational psychology and human development.

- Students will be able to explain specific constructs in educational psychology and human development across cognitive, linguistic, social and emotional dimensions.
- Students will develop an understanding of the educational implications of theories of educational psychology and human development.
- Students will understand the historical context and contemporary approaches to research in educational psychology and human development.
- Students will develop an informed perspective on developmental issues in educational psychology such as individual differences, changes over time, and the complex interactions of internal and external factors.

Professional Standards: George Mason University

Upon completion of this course, students will have met the following standards:

Standard 1: Knowledge of Cognition, Motivation, and Development. Candidates will demonstrate an understanding of principles and theories of learning, cognition, motivation, and development as they apply to a wide variety of contemporary learning contexts.

Standard 3: Knowledge of Educational Research and Assessment. Candidates will demonstrate an understanding of the basic concepts, principles, techniques, approaches, and ethical issues involved in educational research.

Standard 6: Communication and Dissemination of Educational Research. Candidates will demonstrate critical thinking, oral presentation, technological, and writing skills as they are used in the profession. These include: a. Knowledge and use of APA style, b. Oral presentations, c. Poster presentations, d. Article abstracts, e. Research proposals, f. Literature reviews, and g. Technological skills.

APA Learner Centered Principles:

- Principle 1: The Nature of Learning Process
- Principle 2: Goals of the Learning Process
- Principle 3: Construction of Knowledge
- Principle 4: Strategic Thinking
- Principle 5: Thinking about Thinking
- Principle 6: Context of Learning
- Principle 10: Developmental Influences on Learning
- Principle 11: Social Influences on Learning
- Principle 12: Individual Differences on Learning
- Principle 13: Learning and Diversity

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g. Blackboard)

Assignments

Module Assignments (20%--5% each): As a means to reflect on and make connections between the development concepts and research discussed in class and course readings, students will complete a module assignments after each of the four developmental periods addressed in class: (1) infancy, toddlerhood, and early childhood, (2) middle childhood, (3) adolescence, and (4) adulthood. Relevant module assignments for each developmental period will be posted on the course Blackboard site. All modules are **due** one to two weeks after the completion of that developmental period in class (see tentative course schedule).

For each module, students are expected to provide a 2-4 page paper in which they describe the experience and analyze and discuss it in light of the research and content presented in class and course readings. Papers must adhere to the APA Publication Manual Guidelines using APA style. Alternative modules to those posted may be submitted with approval of the instructor in advance of the due date.

Personal Reflection (20%--5% each): For each developmental period, provide a reflection on your own personal development. Focus on critical incident or provide an overall reflection of your development for that period. Post on Blackboard (journal function).

Annotated Bibliography (20%): Students will locate articles relevant to their area of interest within the realm of human development and construct an annotated bibliography including information on the purpose of the study, research question(s), methods used, and a brief summary of the findings. This annotated bibliography will be the foundation of the major assignment for this course, the Review of the Literature.

EDEP 632/Spring 2018

Review of the Literature (30%): Students will write a comprehensive literature review and analysis examining one of the themes in human development. Any of the major themes in Papalia and Martorell (2015) are appropriate, but students are not limited to this list. The choice of topic should be discussed with the instructor. Students' research paper topics will be discussed during the semester in class. The literature review will consist of approximately 20 pages, double-spaced, not including references. Research papers must adhere to the APA Publication Manual Guidelines. [See rubric]

Attendance & Class Participation (10%): Because of the importance of lecture and discussion in the total learning experience, students are encouraged to both attend and participate in class regularly.

Attendance, punctuality, preparation, and active contribution to small and large group efforts are essential. These elements of behavior will reflect the professional attitude implied in the course goals. If students miss a class you must notify the instructor (preferably in advance) and are responsible for completing all assignments and readings for the next class.

As an additional form of class participation, students are expected to post weekly brief reflections on the assigned course readings. Students are encouraged to use these weekly reflections to raise questions and make connections between the course content and their own experiences. *Reflections are to be posted on Blackboard by midnight on the Sunday prior to each class.* Students may miss two reflections without penalty.

Students' final grade for this class will be based on the following:

A+ = 98 – 100%	A = 93 – 97.99%	A- = 90 – 92.99%
B+ = 88 – 89.99%	B = 83 – 87.99%	B- = 80 – 82.99%
C = 70 – 79.99%	F < 70%	

Grading on written work will take into account the following factors: quality of written work, knowledge of content area, and adherence to requirements of assignment. As a graduate student, it is expected that all of your work will be turned in on the assigned dates. A late assignment is subject to a penalty of 10% of the award for every day that it is overdue.

Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

Student Expectations:

Honor Code: Students must adhere to the guidelines of the George Mason University Honor Code (<https://catalog.gmu.edu/policies/honor-code-system/>) Students must not give or receive unauthorized assistance.

EDEP 632/Spring 2018

Plagiarism is also a violation of the honor code. Please note that: “Plagiarism encompasses the following:

1. Presenting as one's own words, the work, or the opinions of someone else without proper acknowledgment.
2. Borrowing the sequence of ideas, the arrangement of material, or the pattern of thought of someone else without proper acknowledgment.”
(Mason Honor Code online at <http://mason.gmu.edu/~montecin/plagiarism.htm>)

- Paraphrasing involves taking someone else’s ideas and putting them in your own words. When you paraphrase, you need to cite the source.
- When material is copied word for word from a source, it is a direct quotation. You must use quotation marks (or block indent the text) and cite the source.
- Electronic tools (e.g., SafeAssign) may be used to detect plagiarism if necessary.
- Plagiarism and other forms of academic misconduct are treated seriously and may result in disciplinary actions.

Responsible Use of Computing: Students must follow the university policy for Responsible Use of Computing (<http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>)

Disability Services and Accommodations: Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].

Email Communication: Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

Sound Emitting Devices: Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/polices-procedures/>

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. [see <http://cehd.gmu.edu/values/>]

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>)
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.

ADDITIONAL CLASS POLICIES**Assignments**

All assignments are to be posted on Blackboard before the start of class on the assigned date. Late assignments are subject to a penalty of 10% of the award for every day the assignment is overdue. If you believe you have EXCEPTIONAL circumstances and wish to negotiate to have extra time to complete course work, you must discuss this with me before the day the assignment is due.

(Negotiating may mean that you will be sacrificing a portion of your grade for extra time)

All assignments are to be posted on Blackboard. *DO NOT* slide assignments under the office door.

Electronic Device Use in Class

During class time, please refrain from checking email or conducting activities on the computer, cell phone, or other electronic device that are not directly related to the class session.

Class Environment

Help to foster a positive learning environment by respecting the opinions and contributions of others. Also, cell phones should be turned off or put on silent mode so as to not affect the learning of those around you.

ASSESSMENT RUBRIC:

ASSESSMENT RUBRIC FOR Review of the Literature	Excellent (30 points possible on Rubric)	Adequate	Needs Significant Changes
Peer-Reviewed Research	Contains references to 10 or more empirical studies (5)	Contains references to 8-9 studies (4)	Does not include at least 7 peer reviewed studies (1-3)
APA Style	No significant errors (3)	Contains few significant errors in style, reader can still interpret and appreciate the content of the paper (2)	Paper does not adhere to APA-Style format (1)
Abstract	Conveys clearly and sequentially the content of paper (5)	Gives a general overview of paper topic, but no sequential elaboration of contents (4)	Key information is not included in the summary, or abstract does not provide a clear representation of paper contents (3)
Discussion of the Literature	Insightful, and critical; clearly written, technical terms are well-defined, does not overly rely on quotes from papers or includes them strategically (5)	Clearly written, most technical terms, author includes lengthy quotes from papers, but less analytical or insightful (4)	Over reliance on quotations, little evidence of student's own analysis or synthesis of the topic (3)
Writing	Paper flows coherently, language is concise, thesis and discussion are well-structured, purpose of the paper is evident (4)	Paper adequately conveys the main points of the topic (3)	Errors in style format make it difficult to appreciate the content of this paper (1-2)
Technical Merit	Contains NO major misspellings nor repetitive grammatical mistakes (3)	Contains few major misspellings or repetitive grammatical mistakes (2)	Contains major misspellings and repetitive grammatical mistakes (1)
Interpretations	Insightful, original synthesis, goes beyond the scope of the literature (5)	Analytical, draws logical conclusions based upon evidence from literature (4)	Discussion mostly summarizes the main points of the literature to support conclusions (3)
