College of Education and Human Development
Blended and Online Learning in Schools

EDIT 769.DL1 – K-12 Online Design II
1 Credit, Fall 2018
Online

Faculty

Name: Jered Borup
Office Hours: By Appointment
Office Location: Thompson Hall L042
Google Hangout: jeredborup@gmail.com
Skype: jeredborup
Office Phone: (703) 993-3137
Email Address: jborup@gmu.edu

Prerequisites/Corequisites

Prereq: EDIT 767
Coreq: EDIT 792

University Catalog Course Description

Examines the attributes of teachers and K-12 learners with emphasis on attitudes, behaviors, and adaptations required by blended and online teachers and learners.

Course Overview

Not Applicable

Course Delivery Method

This course will be delivered 100% online using asynchronous format. The course site will be emailed using your Mason email address on the first day of the semester.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a

face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a webcam with a good microphone and headphones for use during web conferencing and to create video and audio recordings.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week:
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday and finish on Sunday at midnight.
- Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least daily.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to:

1. Identify instructional and/or learning challenges in online and blended learning environments.
2. Demonstrate proficiency in the skills/competencies of instructional design via a design document.
3. Demonstrate academic writing skills by creating a briefing paper for their design project that follows APA guidelines.

Professional Standards

This course is aligned with the International Association for K-12 Online Learning's (iNACOL) (2010) *National Standards for Quality Online Teaching*. Standards A.4, A.5, A.6, J.1, and J.2 are covered by the program prerequisite for licensure. The full list and

description of standards can be accessed at
http://www.inacol.org/research/nationalstandards/iNACOL_TeachingStandardsv2.pdf.

Standards aligned with this course are:

Standard A - The online teacher knows the primary concepts and structures of effective online instruction and is able to create learning experiences to enable student success. (A.1)

Standard B - The online teacher understands and is able to use a range of technologies, both existing and emerging, that effectively support student learning and engagement in the online environment. (B.4, B.5)

Standard C - The online teacher plans, designs, and incorporates strategies to encourage active learning, application, interaction, participation, and collaboration in the online environment. (C.6, C.8)

Standard H - The online teacher develops and delivers assessments, projects, and assignments that meet standards-based learning goals and assesses learning progress by measuring student achievement of the learning goals. (H.1, H.2, H.3)

Standard I - The online teacher demonstrates competency in using data from assessments and other data sources to modify content and to guide student learning. . (I.1, I.2, I.3, I.4, I.5, I.6, I.7, I.8, I.9, I.10, I.11, I.12, I.13)

Standard K - The online teacher arranges media and content to help students and teachers transfer knowledge most effectively in the online environment. (K.1, K.2)

Required Texts

There are no required texts for this course and all learning materials will be created or curated by the instructor and made available online for students to access.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Assignments and/or Examinations

Assignment	Point/Percentage Value
-------------------	-------------------------------

Briefing Paper	45
Design Document	40
Two Peer Reviews	10
Pacing Guide	5

Assignment Descriptions

Briefing Paper

Students will work to identify an instructional challenge and design a potential solution to improve outcomes. Students will then write a briefing paper that follows APA formatting and is 1,500-2,500 words long excluding references. The paper will include the following sections: (1) title page, (2) abstract, (3) Introduction, (4) instructional and learning challenges, (5) design solution, (6) evaluation plan, (7) instructional designer background and qualifications, (8) references. Students will also need to write academically (free from grammatical errors and colloquialisms) and logically (claims are clearly stated and accompanied with supporting evidence/citations).

Peer-Reviews

Students will review peers' briefing papers using a provided rubric and tracked changes and comments in the document.

Design Document

Students will create a design document that clearly shows how their learning objectives, assessments, and activities are aligned. Students will also indicate which learning materials they will create and which they will curate.

Pacing Guide

Students will provide a pacing guide that they will follow as they work to develop, implement, and evaluate their design in EDIT 792.

Mastery Learning Approach

In this course we take a mastery learning approach to the assignments. This is how it will work:

- The criteria for completing the assignments will be clearly explained. At times the instructor and students will work together to create the criteria prior to the assignment.
- The instructor will evaluate your work and provide qualitative feedback on your assignments.
- If you have adequately completed all of the criteria you will receive full credit on the assignment.
- If you have not adequately completed all of the criteria, the assignment will be returned and you will be subject to late points until all of the criteria are complete.
- You must complete ALL assignments to get a passing grade.

Late Work

Students are expected to complete and electronically submit all assignments prior to 11:59 p.m. on the last day of the module as indicated on the course calendar. All assignments—EXCEPT for peer reviews—can be submitted late but a minimum 20% late penalty will be assessed for work submitted after the assignment deadline. Work that is submitted over a week late will receive an additional 20% penalty for each additional week late. No late work is accepted after the final assignment's due date.

Grade Percentage Range

A	94-100
A-	90-93
B+	87-89
B	84-86
B-	80-83
C	70-79
F	0-69

Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

PROPOSED CLASS SCHEDULE:

The course is project-based with deadlines that require self-regulation and self-motivation in order to complete the projects on time. The instructor will also work with students individually following a mentor-mentee module but those meetings will not follow a set calendar.

Module	Guiding Questions and Topics	Activities and Projects
Module 1 Aug 27-Sept 23	How do we identify and define instructional and learning challenges?	Collect and summarize data (qualitative and/or quantitative) from primary stakeholders to identify instructional and learning challenges. Attend an online webinar that will be scheduled the second week of the semester.
Module 2 Sept 24-Oct 21	How have others addressed the instructional and learning challenges that I have identified?	Complete the following sections of your briefing paper: <ul style="list-style-type: none">• Introduction• Instructional and Learning Challenges Complete peer reviews
Module 3 Oct 22-Nov 17	What are the specific design principles/patterns/models that would help to address the instructional and learning challenges in my context?	Complete the design solution section of your briefing paper. Complete peer reviews
Module 4 Nov 26-Dec 9	How can I successfully design, implement, and evaluate my unit?	Complete the Evaluation Plan and References sections of the briefing paper and prepare the document for submission. Complete the Design Document. Complete the pacing guide.

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/> .

ASSESSMENT CHECKLISTS:

As explained earlier, the course will use a mastery-based approach to grading. As a result, students will need to complete all of the assignment criteria in order to earn points on the assignment and all assignments must be completed in order to pass the course.

Briefing Paper

Formatting, Length, and Style

- The paper follows APA formatting
- The paper is 1,500-2,500 words in length (excluding references)
- The writing is academic and free from grammatical errors and colloquialisms.
- The writing is logical/persuasive and claims are clearly stated and accompanied with supporting evidence/citations.

Title Page

- Contains a descriptive title, student name, graduate program, and university
- Running header that is no more than 50 characters

Abstract

- The second page of the paper should contain an abstract that is 150-200 words long.

Introduction

- Situates the learning context within the larger online and/or blended learning community
- Describes the learning environment/context including the history of the program/school, primary stakeholders, goals and modes of instruction.

Instructional and Learning Challenges

- Describes the methods used to identify instructional and learning challenges
- Describes the instructional and learning challenges
- Situates the challenges within the larger body of research/practice

Design Solution

- Describes generally how the instructional challenges will be addressed
- Provides a rationale for the proposed design solution

Evaluation Plan

- Describes the specific qualitative and/or quantitative methods that the designer will use to determine if the design solution was successful
- Any specific data collection instruments should be included as an appendix

Instructional Designer Background and Qualifications

- Describes your previous, current, and anticipated involvement in the program/school.
- Describes how the BOLS program and other experiences have prepared you to address this issue
- Highlights any knowledge and skill gaps that you may have and how you will work to address them

References

- Contains APA formatted references to all in-text citations

Peer-Reviews

- Each peer review followed the provided rubric.
- The feedback included tracked changes and comments that highlight strengths and areas for improvement.

Design Document

- Learning standards and objectives are clearly stated
- Assessments are fully described and aligned with the learning standards
- Learning activities and content are robust, authentic and meaningful, and aligned with the assessments.
- It is clear which materials will be created and which will be curated

Pacing Guide

- Includes a pacing guide with weekly deadlines
- Each week clearly describes the activities that the student will complete
